The Voting Register of Certificate-Holders is now making up at the office of the Trustees, No. 23 Court street, Boston, Mass. To assist parties to whom Certificates were originally delivered have been placed in the Register. Any subsequent purchaser or holder desiring to register may do so on presenting at said office to Mr. Joshua Crane a written statement of his name, address and the denomination and number of each certificate held by him, or, if so required by the Trustees, on producing the certificates held by him or a written order from the last registered holder.

In accordance with regulations fixed by the Trustees the Voting Register will be closed on the fifth day of December 1882, between which time and the Annual meeting on the second Wednesday of December, 1882, no registration will be made.

Per Order of the Directors,
n14,1d6 FRANCIS I. AMORY, Clerk.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

THE MINSTRELS TO-NIGHT.

This evening, at Music hall, Duprez & Benedict's minstrels will offer their new programme, which is strongly commended. The company played in Biddeford a few evenings ago, and the *Times* of that city says:

The singing was good, the orchestral accompaniment beyond criticism, and the winding-up tableau delightfully funny and absurd. In part second Ari Holston's specialty act may be classed as one of the features of the evening, his burlesque of a German actress being excellent. The plantation festival dance was another good hit; it introduced fourteen persons on the stage, wearing preposterous costumes, and their very eccentric clog dance was a laughable, surprising, and really artistic performance. * *
The burlesque French Opera, "A la Sarah Burnt Heart," took well. * *
The silver shower cloggists gave a performance, in which it was plainly evident that every step was the result of painstaking practice and constant training. It was artistic and pleasing. The entertainment concluded with a farce entitled "The Polar Bear," never before brought out here, and evidently much enjoyed by the audience. Those who like a good minstrel entertainment will never regret attending this performance.

A WANDERER'S WAIL.

PORTSMOUTH, Dec. 1st.

Mr. Editor: Sitting in a relative's parlor on Wednesday evening, after an absence of many years in the western country, as the sound of the nine o'clock bell reached my ear I observed "How pleasant that is; it seems as if I was really at home once more,"—and was surprised at learning that it had not been rung for weeks, my friend expressing marked satisfaction that the aldermen had ordered it to be again rung. Next morning (Thanksgiving) we were still more surprised to learn from your paper that the ringing was due to an official of the North church, who has the hearty thanks of at least one "returned son" for the pleasure received.

Mr. Editor, what in the world can your board of aldermen be thinking of? Are they willing, in order to gratify somebody's personal pique or to further somebody's personal ends, (for there can be no *public* reason given for their action,) to defy the wishes of the entire community? If the traditions and ancient customs of our dear old city are to be contemptuously kicked aside at the whim of one or two individuals, how much of its glorious history and historic associations will be left when they get through?

I hope the people will *insist* on the ringing of the bell, and that should I ever again revisit the playground of my boyhood I may not have to thank a private citizen for the pleasure of hearing the nine o'clock bell. WANDERER.

Another correspondent suggests that "if the board of mayor and aldermen can legally thwart the wishes of the people in such a manner as ordering the cessation of the ringing of the nine o'clock bell, why not repeal the city charter and have our municipal affairs kept under the control of the citizens, and at the same time reduce our expenses in a very considerable sum?" By the way, the aldermen in the resolution ordering the ringing of the bell to stop, implied that the stoppage was but temporary; did they at that time give notice to the bell-ringer that his services were no longer required for this purpose, or has he been drawing his full salary right along ever since. Possibly the public would like to be informed on this point.

Mr. Editor: Accustomed as I all my life have been, to pay respect to the constituted authorities, and to sympathize with the sick and suffering, I was grieved on Thanksgiving eve to hear the nine o'clock bell,—rung in direct defiance of the orders of the board of aldermen, and without consideration for the sickness whose pains they wish to alleviate. Of course they considered the subject, and understood it in all its bearings, before they issued the order. They are our rulers, not our servants; and however convenient the bell may be, however pleasant the sound, it is for them to judge and decide; we are to submit. If they say the bell shall not be rung, let no one presume to contradict. They have other important matters on their hands — the cleansing of the ponds, the removal of obstructions from the highway, and the abatement of all other nuisances; to make our city attractive, a place of repose and quiet and purity. They have begun with the bell, and no doubt need undisturbed rest for the consideration of these other weighty matters; let not the clanging of the bell break in upon their deliberations, and we may expect that all delicate and disgreeable subjects will soon be as satisfactorily disposed of.

DOCILE.

BARON RUDOLPH AND STORER POST.

One of the most meritorious organizations in the city is the Grand Army post. This order is composed of men who served honorably in the army or navy of the United States during the rebellion; and though it makes but little noise, it does much good in a quiet way. A large proportion of its members are laboring men and mechanics, yet liberal aid is extended to worthy comrades in distress, or to their families, and if anything is said about it outside the order, it is by the beneficiaries themselves. Such an institution is worthy of liberal support; and any one desiring to contribute a trifle in that direction, and at the same time secure a good evening's entertainment, can do so by purchasing of Commander M. M. Collis, Asst. Marshal Gray or other members of Storer Post, tickets for the performance of "Baron Rudolph" at Music hall on Tuesday evening by Mr. and Mrs. George S. Knight and their dramatic company. The play is spoken of in the highest terms by the press, as being both pathetic and amusing far beyond the ordinary comedy drama of the day. We again remind our readers that in order to benefit the post, tickets must be purchased of the members.

The young people of the Middle street Baptist society will on Wednesday afternoon and evening have a social gathering and sale of fancy and staple articles; ice cream, cake, etc., will also be provided.

Osgood Lodge, I. O. O. F., will on Thursday evening, Dec. 7th, have one of the enjoyable social entertainments for which the organization has long been noted.

The following is a list of the engineers in charge of the stationary engines on the Concord railroad wharf: Andrew Welch, Willis Hodgdon, Charles A. Watkins, and William Carey; none of them have ever had any serious accident occur while discharging vessels. John E. Locke is wharfinger and foreman, and about forty men find employment, either permanent or occasional, on the wharf.

The Strakosch English Opera Co., comprising over fifty persons, will present Balfe's charming opera "The Bohemian Girl" at Music hall on Friday evening, Dec. 8th. Mrs. Zelda Seguin - Wallace, the popular mezzo-soprano, will make her first appearance in this city; other principals are Miss Letitia Fritch, Mr. Traverner, Mr. Willet Seaman and Vincent Hogan. Grand chorus and their own orchestra. Popular prices; reserved seats can be secured at Myers' on and after Wednesday morning.

Forest and Stream, in its report of the Eastern Field trial at High Point, North Carolina, says that the dog "Echo III," a red Irish setter owned by Mr. Adolph Nelson, was beaten by the dog "Doc. B.," a lemon and white English setter owned by Mr. Robert Betty of New York.

At the navy yard, on Saturday forenoon last, while the riggers were engaged in heaving a heavy stick of oak timber on board the U. S. S. Constitution, Mr. Thomas Rees of this city, one of the riggers' gang, was severely injured owing to the slipping of the timber in the slings, he being thrown down by the shore end of the stick, which fell upon his left side. He was taken to the yard hospital, where Dr. Cleborne, surgeon of the yard, made an examination of his injuries, which proved to be some severe bruises and the fracture of one or more ribs, it being also feared that he was hurt internally. By order of the surgeon he was sent to his home in a carriage provided for him, accompanied by men from the yard, and on Saturday evening was reported as being quite as comfortable as could be expected, though compelled to remain in a sitting position.

On Saturday evening curfew was rung on the North bell, and also on the big bell of the Christ church chime; and on Sunday evening the bell of the Methodist church was rung.

As an indication of the general desire of the people that the ringing of the nine o'clock bell be continued, this voluntary ringing of nearly all the bells of the city, one after another on different nights, is very significant. The churches seem to be as unanimous as the local papers are, in demanding the resumption of the ancient custom.

Portsmouth is not the only place where an extra first class musical entertainment receives a beggarly patronage. In Manchester the Litta concert company sang to an audience of 300, and in Portland, Me., to less than 150, though at the same time, in Portland, a second-class minstrel entertainment a few hundred feet away was patronized by a throng limited only by the size of the hall. Yet M'lle Litta is one of the most pleasing and most wonderful vocalists this country has ever produced, and her company is composed of such artistes as rarely appear in small cities.

6 per Cent. Gold Bonds.

TOPEKA, SALINA & WESTERN
RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabaunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road-beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $890, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from Indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled, THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or virility impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Fifty edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and ever expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample 6½ cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—To OLD and MIDDLE AGED MEN can save much free, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

LYDIA E. PINKHAM'S

VEGETABLE COMPOUND,

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Woman. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

It revives the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

Physicians Use It and Prescribe It Freely

It removes faintness, flatulency, destroys all craving for stimulant, and relieves weakness of the stomach.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of humors from the blood, and give tone and strength to the system, of man or woman or child. Insist on having it.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose 3c. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

SEEK

health and avoid sickness. Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong?

You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of BROWN' IRON BITTERS, and taking it regularly according to directions.

Mansfield, Ohio, Nov. 26, 1881.

Gentlemen:—I have suffered with pain in my side and back, and great soreness on my breast, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but I got no relief. I thought I would try Brown's Iron Bitters; I have now taken one bottle and a half and am about well—pain in side and back all gone—soreness all out of my breast, and I have a good appetite, and am gaining in strength and flesh. It can justly be called the *king of medicines*.

JOHN K. ALLENDER.

BROWN'S IRON BITTERS is composed of Iron in soluble form; Cinchona the great tonic, together with other standard remedies, making a remarkable non-alcoholic tonic, which will cure Dyspepsia, Indigestion, Malaria, Weakness, and relieve all Lung and Kidney diseases.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS.

Why suffer with Boils? Why have Headaches? Why are you pale? Why suffer with that terrible Headache? Why have you that foul taste in your mouth? Why are you troubled with Rheumatism? Why and you so that feel of pain, with Rheumatism? Why are you so nervous and all unstrung, and need a gentle, soothing tonic to assist nature to repair the damage which your excesses have caused. *Sulphur Bitters is not a cheap rum or poor whiskey drink*, to be taken by the glass, like other preparations which stimulate only to DESTROY. It is composed of the choicest Roots, Barks and Berries combined with the Extracts of SULPHUR, in proportions as to make the NATURAL GREAT REMEDY.

SULPHUR Bitters.

The Dose is small—only a Teaspoonful. It is the *best and cheapest* medicine. Try it and you will be satisfied.

Fred Cole of Lisbon went to Groveton a few days ago, intending to marry a young lady of that place on Thanksgiving day. He was, however, suddenly taken sick, and died before the time arrived; the marriage took place while he was on his death-bed.

The hosiery mills at Laconia have generally shut down or are running on short time, by reason of an overstocked market.

Foster's *Democrat* claims to have first named Dr. Lothrop as the republican nominee for mayor of Dover, and predicts that he will fill the bill ably. As a bank president and business man Mr. Lothrop has shown a kind of capacity which is of great service in the chief officer of a city like Dover, and Foster is to be congratulated on his foresight.

At Harrisville, Dec. 4th, about one o'clock in the morning, fire was discovered in mill No. 2, operated by Craven & Willard, and spread throughout the building so rapidly that all efforts to stay the flames were unavailing, and the structure and contents became a total loss. The mill, which was four stories high, with an attic, was built in 1866 by the M. Harris Woolen Co., and new and improved machinery was put in throughout in 1880. The property was owned by Messes. Gowing & Grew, Boston. Loss fully $100,000, which is partially covered by insurance.

Colds yield to onions like magic, but Dr. Bull's Cough Syrup is a still better and by far more agreeable means of curing a cold or cough. You can buy a bottle for 25 cents at any drug store, and we are sure it will do the work every time.

Dr. Evitsky and Dr. Clay, long-time partners in Denver, Col., had a dispute in their office Dec. 3d, when Evitsky shot Clay fatally, and then blew his own brains out.

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as biliousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, etc. The success which has attended the use of Swedish Botanic Compound warrants us to say that for purifying and enriching the blood, creating an appetite, strengthening and renovating the whole system, nothing surpasses that great semedy.

A special train with the Langtry troupe, bound from New York for Boston, struck a wagon at a crossing in Tompsonville, Conn., Sunday afternoon, in which two boys were riding. One of them, named Arthur Lord, sixteen years old, was instantly killed, and the other, Patrick Kane, was so seriously injured that he lived only three hours.

For coughs, make a timely use of Hale's Honey of Horehound and Tar. Pike's Toothache Drops cure in one minute. Colden's Liquid Beef Tonic is endorsed by physicians. Ask for Colden's; no other. Of druggists.

Mrs. Langtry arrived in Boston on Sunday, and put up at the hotel Brunswick.

"And wilt thou not reach out a friendly arm
To raise me from amidst this plunge of sorrow?"

A friendly and saving arm is extended to all who are plunged into sorrow because they have heart disease. For a dollar you can buy a bottle of Dr. Graves' Heart Regulator, an infallible cure for this terrifying disease.

Henry Hellman, a farmer near Brooklyn, Ia., on Friday went to his kitchen, stood on a barrel, swung a rope over a rafter, tied it about his neck, shouted "good-by" to his wife (who was in bed,) kicked away the barrel, and strangled. Temporary insanity.

"Ladies' Tonic,"

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription for ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free. Send stamp for names of those who have been cured.

Four boys, while playing on the ice in Delaware river near Port Jervis, N. Y., Saturday, broke through. Two of them managed to get out, but the two younger ones, named Deckley and Clausen, were drowned. Their bodies were soon recovered.

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. Sold by dealers.

A letter is furnished for the press from Gen. Grant to Senator Cameron relative to the Fitz John Porter case, in which Gen. Grant says: "I commenced reading up this case with the conviction that Gen. Porter had been guilty as found by the court, but came out of the investigation with a thorough conviction that I and the public generally had done him a fearful injustice, and entirely satisfied that any intelligent man or lawyer who will throw aside prejudice and examine the case as I have done, will come to the same conclusion."

Every lady, rich or poor, should be acquainted with the value of James Pyle's Pearline for all cleansing purposes. Its usefulness in domestic economy cannot well be over estimated.

Annie Abbott, a girl employed by Matthew Connors at Waddington, N. Y., broke open her employer's trunk, stole $3,000 and fled to Montreal, where she was arrested on Saturday last. A paramour named Plank, whom she fell in with soon after arriving in Montreal, had $1,600 of the stolen money in his possession, and the balance had been expended for two gold watches, jewelry, and a sealskin sack.

Invalid mothers, weak children, nervous and fretful infants are benefitted by using Brown's Iron Bitters. Harmless but efficacious.

During the Late War

The Government made its Best Arms at Springfield, Mass.—What Mr. David Clark, Inspector U. S. Armory There Recommends.

Your reporter found Inspector Clark at his office on the Armory grounds busily examining "receivers" for the regulation army rifles. However, he was as willing to say a word for the merits of health and strength restoratives as to prove the merits of implements of death. He said: "My business keeps me closely confined to the Armory and its doors. As a result, I've suffered considerably from indigestion and biliousness, but I find that Dr. Kennedy's FAVORITE REMEDY is a most excellent medicine for these complaints. I most cordially recommend it, for I am acquainted with its worth. Dr. Kennedy's FAVORITE REMEDY is used a great deal by the machinists in the U. S. Armory here."

While FAVORITE REMEDY is a specific in Kidney and Bladder diseases, it is equally valuable in cases of Bilious Disorders and Constipation of the Bowels. Try it. Your druggist has it, and its cost is only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The Doctor would have it understood that, while he is engaged in the introduction of his medicine, FAVORITE REMEDY, he still continues the practice of his profession, but confines himself exclusively to *office* practice. He treats all diseases and performs all the minor and capital operations of surgery.

PATENTS!

R. H. EDDY,

No. 76 State St., Opposite Kilby, Boston,

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, solicitor of patents

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them a early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Perhaps no medicine is so universally required as a good catharic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

Bill Allen, the negro desperado who shot Officer Clarence White in Chicago on the 29th ult., was killed by the police of that city on Sunday afternoon, Dec. 3d, after a long chase, during which the ruffian shot another officer, but without killing him.

Unity of action, concord, sympathy and goodfellowship are admirable traits in human character; but they will not heal our physical infirmities. Catarrh, for example, stubbornly resists their effects or influence. In fact this malady withstands all of its would-be destroyers, except Ely's Cream Balm. "Solitary and alone" this Balm stands as the only recognized and infallible specific for catarrh. "For fifteen years," says J. B. Chase, St. Denis Hotel, Bwy, and 11th st., N. Y., "I have been greatly annoyed with a disgusting catarrh. My sense of smell, not to mention other troubles, became much impaired. A thorough use of Ely's Cream Balm has cured me of these troubles." It is not a liquid or snuff, and is easily applied. Only 50 cents a package.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

The Nation's Illiteracy.

A bill is pending before the house, introduced by Mr. Sherwin of Illinois, and reported favorably from the committee on education and labor, of which Mr. Sherwin is a member, providing for the distribution of $10,000,000 between the states, according to illiteracy. An effort will be made to pass it this winter. The following statement, taken from the census bulletin, shows the order of states and territories according to the illiteracy, with the percentage of persons of ten years and upward who cannot read, in each, beginning with the highest:

New Mexico	60.2
South Carolina	48.2
Louisiana	45.8
Alabama	43.5
Georgia	42.8
Mississippi	41.9
North Carolina	38.3
Florida	38.0
Virginia	34.0
Arkansas	29.8
Tennessee	27.7
Texas	24.1
Kentucky	23.2
Arizona	16.7
Maryland	16.0
District of Columbia	15.7
Delaware	15.2
West Virginia	12.1
Missouri	8.9
Washington	8.7
Rhode Island	7.9
Nevada	7.3
California	7.1
Colorado	5.9
Idaho	5.5
Massachusetts	5.3
Utah	5.0
Vermont	4.9
Indiana	4.8
Montana	4.8
Pennsylvania	4.8
New Jersey	4.5
Illinois	4.3
New York	4.3
Connecticut	4.2
New Hampshire	4.2
Oregon	4.1
Wisconsin	4.0
Michigan	3.1
Minnesota	3.1
Ohio	3.0
Kansas	3.6
Maine	3.5
Dakota	3.1
Wyoming	2.6
Nebraska	2.5
Iowa	2.4

It will be seen from this statement that New Mexico is the most illiterate and Iowa the least, and that as a section the southern states—South Carolina, Louisiana, Alabama, Georgia, Mississippi, North Carolina, Florida, Virginia, Arkansas, Tennessee, Texas, Kentucky and Maryland, in the order named—are more illiterate than the states of any other portion of the country, as would of course be expected, the colored people and the "poor white trash" of that section accounting for it. New Hampshire stands No. 36 on the list.

News and Notes.

John E. True, aged ten years, son of John True of Salisbury, Mass., was instantly killed Saturday while out hunting, his gun being accidentally discharged. A heavy charge of shot entered his neck, completely severing the jugular vein, and coming out through the top of his head.

Albert Seabury, a well-to-do farmer, residing near Seaconnet beach, in Little Compton, R. I., was found murdered at the beach Saturday morning. He had gone to the beach before breakfast with his cart and oxen to gather seaweed. His son went to look for him, and found him dead on the sand with the tide already within a few feet of him. His face was bruised, his jaw broken, and probably his neck broken. He was found on the west side of Seaconnet creek, while his team was on the east side. His pitchfork was sticking in the sand with blood upon it. The general feeling is that the murder grew out of a long-standing quarrel about the seaweed rights of the land abutting on the shore, where the murdred man was gathering.

A man in Fall River, Mass., obtained an absolute divorce from a second wife on Thursday of one week; on Tuesday of the next week attended the funeral of his first wife, from whom he had also been divorced; and on the Wednesday following married a third wife. All these events occurred within seven days, and within the past three weeks.

At Key West, Fla., Friday, while in court, Lieut.-Gov. Bethel insulted C. B. Pendleton, an editor and a recent candidate for the state senate. After the adjournment of the court Pendleton spat in Bethel's face, and horsewhipped him.

Wilbur L. Wingate of Lawrence, Mass., who deserted his wife and two children a few weeks since and went to Norwich, Conn., with a paramour, was arrested in the latter city Friday forenoon, and taken to Lawrence, where he pleaded not guilty to the charge of adultery. He was held in $500 bonds, which was furnished.

Richard and Oscar Ludwig, aged ten and fourteen years respectively, were drowned at Taunton, Mass., Saturday, while skating on a pond near Whittenton mill. The bodies were recovered.

M. G. Denman, who claims to be a brother of a British lord, is on trial at Dubuque, Iowa, for illegal voting and forgery.

Robert Mayo, a colored man, has filed a suit for a divorce at Louisville, Ky., on the ground that his wife is a white woman. He says that he was married to her in that city, under the belief that she was a mulatto, in 1875. He went to live at Danville, where he was told that his wife was white, and that he was violating the laws of the state in continuing to live with her. Hence the suit. The parties have two children, which Mayo will support.

Samuel L. Brushel, who was the only living lineal descendant of the great chieftain Uncas of the Mohegan Indians, once the most powerful tribe in Connecticut, died at his home in Norwichtown, Conn., on Tuesday, Nov. 28th, at the age of thirty-seven years. It is positively shown in Indian annals that "Sam," as he was generally called, was not only of royal blood, but that it was untainted by mixture with that of other races.

John Livingston was thrown from a sleigh at Coventry, Vt., Nov. 30th, and had his neck broken.

John Tobin, ex-president of the Hudson River railroad, and at one time a power in Wall street, was arrested in New York on a recent Saturday evening for drunkenness. In the days of his prosperity his speculative schemes were on the scales of those of Cornelius Vanderbilt and Daniel Drew, and he dealt in shares by the 100,000. Now he is little better than a beggar, and the police say that he is rarely seen sober.

The Dirigo mill at Bangor, Me., run by Gould & Hastings, has shut down, and all the sawmills on the Penobscot are now closed for the season.

John W. Hussey of Kenduskeag, Me., a farmer and pattern maker, aged about sixty-five years, hanged himself a few days since in his workshop. He leaves a widow and several children. Temporary insanity is supposed to have been the cause of the suicide.

Steamer Toronto of the Dominion line cleared from Portland on Saturday for Liverpool, having five passengers on board, and 192 cattle, 1,030 sheep and 22,000 boxes of cheese in her cargo. The total value of the cargo is $360,000.

What's the Use of Talking?

There is no denying that SOZODONT is the best preparation for the mouth and teeth. Preparations, like snow-flakes in number, have appeared, but the public faith is still strong in the virtues of SOZODONT. Its use grows yearly.

We have received the November number (which closes Vol. III) of "Golden Days;" this number is filled with instructive and interesting reading matter, and is a welcome guest to the young of a multitude of households. The prospectus of Vol. IV. gives young readers a foretaste of the good things to come, including serial stories by Oliver Optic and other well-known writers for young folks, instructions in sports and games, the care of pets, articles on entomology, natural history and scientific subjects, by competent writers, and the regular weekly exposition of the International Sunday-school Lesson, by Rev. Dr. D. P. Kidder. Published by James Elverson, Philadelphia, Pa.

THE SUN.

NEW YORK, 1883.

More people have read THE SUN during the year just now passing than ever before since it was first printed. No other newspaper published on this side of the earth has been bought and read in any year by so many men and women.

We are credibly informed that people buy, read, and like THE SUN for the following reasons, among others:

Because its news columns present in attractive form and with the greatest possible accuracy whatever has interest for humankind; the events, the deeds and mistakes, the wisdom, the philosophy, the notable folly, the solid sense, the improving nonsense—all the news of the busiest world at present revolving in space.

Because people have learned that in its remarks concerning persons and affairs THE SUN makes a guidance of telling them the exact truth is the best of its ability three hundred and sixty-five days in the year, before election as well as after, about the values as well as the shams of public life, in the face of dissent as plainly and fearlessly as when supported by general approval. THE SUN has absolutely no purpose to serve, save the information of its readers and the furtherance of the common good.

Because it is everybody's newspaper. No man is so humble that THE SUN is indifferent to his welfare and his rights. No man is so rich that it can allow injustice to be done him. No man, no association of men, is powerful enough to be exempt from the strict application of its principles of right and wrong.

Because in politics it has fought for a dozen years, without intermission and sometimes almost alone among newspapers, the fight that has resulted in the recent overwhelming popular verdict against Robeson and for honest government. No matter what party is in power, THE SUN stands and will continue to stand like a rock for the interests of the people against the ambition of bosses, the encroachments of monopolists, and the dishonest schemes of public robbers.

All this is what we are told almost daily by our friends. One man holds that THE SUN is the best religious newspaper ever published, because its Christianity is undiluted with cant. Another holds that it is the best Republican newspaper print d, because it has already whipped half of the rascals out of that party, and is proceeding against the other half with undiminished vigor. A third believes it to be the best magazine of general literature in existence, because its readers miss nothing worthy of notice that is current in the world of thought. So every friend of THE SUN discovers one of its many sides that appeals with particular force to his individual liking.

If you already know THE SUN, you will observe that in 1883 it is a little better than ever before. If you do not already know THE SUN, you will find it to be a mirror of all human activity, a storehouse of the choicest products of common sense and intelligence, a mainstay for the cause of honest government, a sentinel for genuine Jeffersonian Democracy, a scourge for wickedness of every species, and an uncommonly good investment for the coming year.

Terms to Mail Subscribers.

The several editions of THE SUN are sent by mail, postpaid, as follows:

DAILY—$5 cents a month, $6.50 a year; with Sunday edition, $7.70.

SUNDAY—Eight pages, $1.20 a year.

WEEKLY—$1 a year. Eight pages of the best matter of the daily issues; an Agricultural Department of unequalled merit, market reports, and literary, scientific and domestic intelligence make THE WEEKLY SUN the newspaper for the farmer's household. To clubs of ten with $10, an extra copy free.

Address, I. W. ENGLAND, Publisher, THE SUN, N. Y. City.

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. No other article takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "It's the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1879.

MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.

Yours truly,
F. C. CHURCHILL,
(Firm of Carter & Churchill.)

☞ A gentleman who has been suffering from the *Debility* and *Languor* peculiar to this season, says: "HOOD'S SARSAPARILLA is putting new life right into me. I have gained ten pounds since I began to take it." Has taken two bottles.

Gained 10 Pounds

HOOD'S SARSAPARILLA is sold by all druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

AT MUSIC HALL TO-NIGHT.

The new comedy drama "Baron Rudolph," by Bronson Howard, author of the "Banker's Daughter," will be presented at Music hall this evening by a carefully selected company, with Mr. and Mrs. George S. Knight in the leading parts. Mr. Knight is the best German dialect comedian on the stage, but that is not by any means his sole claim to public favor, he being an actor of unusual merit. Mrs. Knight is a favorite wherever she appears, the play is said to be worthy of its author, and we hazard nothing in predicting an excellent entertainment tonight.

Buy your tickets to-day of the Grand Army men, and thereby aid the relief fund of Storer Post.

THE MINSTREL SHOW.

Duprez & Benedict's minstrels were on Monday evening greeted by the largest audience which has assembled in Music hall for some time, including many of the best people of the city. The entertainment offered was good, the worst fault being that there was too much of it. The olio was very pleasing, the songs being well sung and mostly new, many of the jokes modern, and the ancient ones so skillfully dressed in new clothes as hardly to be recognized as old acquaintances.

There was a lot of fun in the programme, Tom Warfield alone being quite a good show; the clog dancing was really artistic; Howard and Russell in their musical act were pleasing, an imitation of the Spanish students being particularly good; the closing farce of the "Polar Bears" was ridiculously laughable; and the whole was enjoyable. It is as is claimed, a "first-class minstrel show." Archie White, the press agent and one of the leading performers, was for fourteen years connected with the newspaper business in various responsible capacities; it is needless to say that he is a gentleman, and popular wherever he goes.

The regular monthly meeting of the Portsmouth Cavalry, which in the ordinary course would have occurred on Tuesday evening, Dec. 5th, is postponed to Tuesday evening, the 12th, on account of the entertainment in Music hall on the former date, the Grand Army post being interested in the pecuniary success of the show.

Rockingham Lodge, No. 37, I. O. G. T., will have a social gathering and oyster supper in their hall (over Morse & Ilsley's insurance office) on Friday evening, Dec. 8th; admission, including supper, fifteen cents.

The Strakosch Opera Co., announced to porform "The Bohemian Girl" in Music hall on Friday evening of this week, on Monday cancelled the engagement, and will not appear in this city until later in the season.

The schooner Hattie N. Reed, of Gloucester, forty-eight tons register, has been bought by Mr. Wm. B. Keen of Malden, Mass., and will go into winter fishing out of this port under command of Capt. George Becker of Newcastle, who has commanded the schooner W. B. Keen ever since she was built up to the present time; the latter-named schooner will lie up for the winter, and the next season will be in charge of Capt. Haven A. Fernald. Mr. Keen, whose regular business is carriage building, as an incidental is doing more than any other one man we know of to keep up the fishing business here; he owns the schooners Norma, Julia A., E. A. Williams, W. B. Keen and Hattie N. Reed; all of them fish out of this port, and all are commanded by skippers from Kittery or Newcastle. Wish there were a dozen or two more just like him.

Our brothers of the Portsmouth press seem to be slightly mixed in their geography this week. The GAZETTE says "Simmond's dredging fleet has gone to Exeter to dredge the Lamprey river," and the *Journal* says "The new Catholic church at Newmarket will be dedicated Thanksgiving day."—*Newmarket Advertiser.*

Our brother of Newmarket is as badly mixed concerning papers as the Portsmouth editors are in their geography. The GAZETTE of Nov. 30th did not mention the dredging fleet; and in the issue of Nov. 23d it said "the dredging flotilla went up river Tuesday afternoon on the way to Newmarket, where there is a job of government excavating to do in Lamprey river."

Representatives from the several insurance companies which had risks on the stock and premises damaged by the recent fire in Market street, at Mr. Dennis J. Lynch's store, were in the city on Monday to inspect the place and adjust the losses.

The net fishery for cod, which was so popular and successful when first introduced three or four years ago, is now almost wholly abandoned, only three Gloucester fishing vessels having fitted out for that branch of the business this fall, and they as an experiment only, intending to try the nets for a brief season, and if the result is not satisfactory to discard them for trawls. One of the netters, the Rising Star, arrived at this port on Monday with 4000 lbs. of steak fish; Daniel Clark bought the fare.

The thermometer in several places at York, Monday morning, indicated a temperature of eight degrees below zero. In this city it was six below at the Eldredge brewery, four below near the south millbridge, and at zero at the CHRONICLE office.

The schooner boat Rambler, of this port, has recently been sold to John Cummings, Isaac H. Pridham and another, for $450.

Capt. Haven A. Fernald went to Newburyport on Monday of this week, for the schooner Comet, which will go into winter fishing out of this port. The schooner W. B. Keen is hauled up for the winter; Capt. Fernald will take command of her next spring.

On Monday evening at nine o'clock the bell of the Middle street Baptist church was rung, and it will be again this evening.

An unsuccessful attempt was made on the night of Nov. 25th to break into the tailoring establishment of B. F. Haley at Newmarket. The would-be thieves broke out panes of glass in two windows, and turned the fastenings, but were then no nearer an entrance than before, the windows being secured with iron clamps screwed on. There is no clue to the perpetrators.

The *Christian Register* reproduces the ancient story of James Sheafe, a once widely known merchant of Portsmouth, and of the man who sought to hook a cheese from him and had pay for it at the price of wool, and locates the former Portsmouth dealer at Biddeford, Me. The story has appeared often enough for every paper having any regard for accuracy to locate it where the event took place.

Six tramps were sent to Exeter jail from Newmarket last week, to await trial before the supreme court.

A house in Kittery built fifty-seven years ago, is now for the first time having the shingling of the roof repaired. The original shingles were of cedar, shaved by hand, and before being laid were soaked in fish oil and red ochre.

A new rule in regard to the purchase of tickets on trains of the Boston & Maine railroad went into effect on Monday, and will prove of much inconvenience to conductors, inasmuch as it will greatly increase the amount of work to be done. All passengers boarding their trains without being provided with a ticket must pay fifteen cents extra; the conductor must give a receipt, and on presenting said receipt at any station ticket office they will receive ten cents for it. Conductors must keep books, and every cent they receive for fares must be accounted for on those books.

It is alleged that David E. Fisher, doorkeeper of the New York academy of music, received a few days since a check for $150,000 from a gentleman for whom he did a favor about twenty years ago.

A boy named Roscoe Conkling Smith, or some such name, was drowned in Maine recently. He fell overboard, and his name proved such a dead weight that he sank to rise no more.

Eastern Railroad Co.

THE Annual Meeting of the Stockholders of this Company, and the holders of Certificates of Indebtedness, for the choice of Directors, six by the Certificate holders, and three by the Stockholders, will be held at the Melonaon, Tremont street, Boston, Mass., on the thirteenth day of December, 1882, at eleven o'clock in the forenoon. The report of the Directors will then be presented. Transfer Books will be closed from 3 P. M. on Dec. 8th, 1882, until after said Annual Meeting. By order of the Directors.

Important to the Sick.

OUR readers should bear in mind that Dr. Gage of Concord, "the man so celebrated for his wonderful cures," can be consulted at the Rockingham house, Portsmouth, Thursday, Dec. 7th. He has had many from this section to Concord, and his success is truly wonderful. We understand that he prescribed for Mrs. Samuel R. Moloon, of this city, without seeing her, yet with most astonishing results, as she is now beginning to walk after having been unable to do so for several year.

A GOOD THING FOR CLERKS, FARMERS, EVERYBODY.

If you are a GOOD PENMAN you are independent and always sure of a comfortable living. *This beautiful art can be learned by an hour's study and practice for a few evenings in your own home*, by the use of SHAYLOR'S COMPENDIUM OF PENMANSHIP, which is an Illustrated Analysis of Plain Business and Ornamental Writing, with Book of Instructions how to become not only a Beautiful Penman but which will also Qualify You for a TEACHER *of the art.* Besides the above the Compendium consists of Engraved Fac-Similes of beautifully written Notes, Receipts, Checks, Specimens of Ornamental Writing, Birds, Animals, &c., and Autograph Business Letter for reproduction in your practice.

The specimens of Artistic and Ornamental Pen work are incomparably superior to those of any other system, and are from the pens of those using Shaylor's Compendium. The instructions are so complete and the rules so simple and plain that you cannot fail, with a little pleasurable practice to become a competent professor of penmanship, and there is no occasion for you to go to a writing school or business college.

The Compendium complete sent by mail to any address on receipt of One Dollar, and it will be worth a hundred times that amount to you.

SOLID GOLD RINGS FREE. With a view of stimulating each purchaser of the Compendium to the highest excellence in penmanship, we will on the first of each month send an *Elegant Solid Gold Ring Free* to each one of the twelve purchasers, who by sending copies of their old and new signatures to us, show the most improvement. These rings will be a pleasant memento of your accomplishment in this beautiful art.

Agents wanted everywhere. At this season of the year you can make from $40 to $50 weekly at your own home, as Shaylor's Compendium, costing only a trifle, enables anyone to quickly and easily become an elegant penman. Sells at sight, requires no talking. Send for confidential terms to agents. ROBERTS & CO., 7 Murray St., New York. n22,6tfeb3

6 per Cent. Gold Bonds.

TOPEKA, SALINA & WESTERN

RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

HEART DISEASE

A Rival to Tenner.

Old Mother Shipton is not living, but E. Stone Wiggin, LL. D., is. He is astronomer of the Canadian government, and has written to President Arthur, repeating his predictions of a terrific storm in March next, as published some time ago, suggesting that the president call into harbor all United States vessels on the seas at that time. He says the storm will be the greatest ever known in the country, and will be felt first in the Pacific ocean, next in the gulf of Mexico, then being deflected by the Rocky mountains will cross the meridian of Washington at noon of Sunday, March 11th, 1883. No vessel, he says, will be safe in the storm outside the harbors, while the effects of the storm combined with planetary motion will cause an overflow of large tracts of country along the Atlantic coast, while the section of country along the eastern slope of the Rocky mountains will be devasted by wind. Quite likely this prediction will scare some weak-kneed people.

Rev. Dr. Spalding's Thanksgiving eve discourse at Dover was upon the question "Are we degenerating politically or otherwise?" If we are to judge from the material which the First Church has sent and sought to send to succeed Mr. Hale in Congress, the Burley doctor would have but little trouble in his solution of the enquiry.

Joseph Weber, one of the oldest printers, publishers and editors in the state, died suddenly while attending a prayer meeting at Claremont on Sunday night. He had been in failing health for some time past.

A Stalwart Old Enemy.

One of the toughest old adversaries of human comfort, and most difficult to exterminate, is rheumatism. Many middle-aged people suffer torture with it, and the old folks who have it find it the pest of their lives. The case of a venerable lady of Lewistown, Mass., is of great interest to the victims of this tough old enemy. Mrs. Swett says: "I have been using Perry Davis's Pain Killer for about eight years. As soon as I apply Pain Killer I have almost immediate relief from pain."

Charles Hough of Hartford, Conn., was thrown from his carriage Saturday night, and so seriously injured that he died Sunday.

Hood's Sarsaparilla gives an appetite and imparts new life and energy to all the functions of the body. Try a bottle and realize it.

Sunset Cox says that Carlisle and Randall are rather premature in apportioning the offices of the next House, under the assumption that they will be Speaker. Cox says New York will have a candidate, and that candidate will be elected.

Ladies should wear a *Hop Plaster* over the small of the back, as it cures all pains and aches; 25 cts., at any drug store. All ready to apply.

At Cairo, Egypt, Dec. 3d, Arabi Pasha pleaded guilty to the charge of rebellion, and was sentenced to death, which the khedive commuted to exile for life.

Good health, rosy cheeks and beautiful skin, ladies can get by using Brown's Iron Bitters.

A Paris, Tenn., despatch says: A young man named Forrest was arrested Saturday for killing his mother and grandfather. The murder was committed on the night of Nov. 30th, by knocking out the brains of both parties with an axe. It is supposed that the young man had a quarrel with his mother, killed her, and then murdered the grandfather, who was a cripple, as he was the only witness of the deed.

"Female Complaints."

Dr. R. V. Pierce, Buffalo, N. Y.: Dear Sis—I was sick for six years, and could scarcely walk about the house. My breath was short and I suffered from pain in my breast and stomach all the time; also from palpitation and an internal fever, or burning sensation, and experienced frequent smothering or choking sensations. I also suffered from pain bearing down across my bowels and in my back, and was much reduced in flesh. I have used your "Golden Medical Discovery" and "Favorite Prescription," and feel that I am well. Very respectfully, Delilah B. McMillan, Arlington, Ga. *b*

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weaknesses caused by those irregularities which are so common to womanhood. This is no *Patent Medicine*, but is prepared, after years of experience, and recommended through the mail, by responsible ladies who have done, worn out or over-worked member of the sex.

If you have tried other remedies without success, do not be discouraged, but give "LADIES' TONIC" a *single trial. It never fails to give quick and permanent relief.*

If you are troubled with any weakness or complaint common to our sex, lay aside the doctor's prescription for once, and try "Ladies' Tonic" which we guarantee will positively *cure you.* One Bottle is sufficient.

Women's Medical Institute is an Association of *Wives and Mothers of years' experience,* who give advice and answer letters from ladies, free.

Advice will be given for any Case of Female Weakness or Inability which "Ladies' Tonic" will not cure. This is a *bona fide* offer, made by responsible ladies who have *from experience* what "LADIES' TONIC" can do. Send stamp for circulars.

BEYOND THE RIVER.

Away Across the Mississippi is Held a Convincing Conversation.

"I tell you sir, that they are one of the nearest combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgment to some respect."

"Oh, I don't know, responded the first speaker's friend, with a little yawn, as though he didn't take much interest in the subject, "I have never been able to see much difference in those things. They are all pretty nearly the same size, and made of about the same stuff."

The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the snug office of Dr. M. P. Flowers, one of the leading physicians of the State, who followed up the vein in which he had introduced it substantially in these words:

"Nonsense, that is the rigmarole of a boy, or rather of a man who either doesn't know or doesn't care what he says. Those things, as you call them, are just as different as the moon is from green cheese. Now, liniments, lotions and ointments are very good in most cases for the relief of pain or inflammation. But, in the first place they are unclean. They soil the hands and the linen, besides being always out of reach when they are most wanted."

"Well, my dear Doctor," sighed the traveler from the North, "what would you have? This is a wretched world anyhow, and nothing is ever at hand when it is wanted. "You can't suggest anything——?"

"Yes, I can," broke in the Doctor, thumping the table with his fist, "I can suggest BENSON'S CAPCINE POROUS PLASTER. I have tried it on my patients, and I have tried it on myself for an attack of Pneumonia, and in all cases relief has followed in from three to forty-eight hours. The old plasters are stage coaches—the Capcine is a telegraphic dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded action of the Kidney's, and——

"I give it up, Doctor, and in case of need I'll buy Benson's," said the traveler, pleasantly.

In the center of the genuine is CUT the word CAPCINE.

SEEK

health and avoid sickness. Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong?

You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of BROWN' IRON BITTERS, and taking it regularly according to directions.

Mansfield, Ohio, Nov. 26, 1881.

Gentlemen:—I have suffered with pain in my side and back, and great soreness on my breast, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but I got no relief. I thought I would try Brown's Iron Bitters; I have now taken one bottle and a half and am about well—pain in side and back all gone—soreness all out of my breast, and I have a good appetite, and am gaining in strength and flesh. It can justly be called the *king of medicines*.

JOHN K. ALLENDER.

BROWN'S IRON BITTERS is composed of Iron in soluble form; Cinchona the great tonic, together with other standard remedies, making a remarkable non-alcoholic tonic, which will cure Dyspepsia, Indigestion, Malaria, Weakness, and relieve all Lung and Kidney diseases.

SULPHUR BITTERS

PORTSMOUTH CURFEW.

There is no more quiet, respectable and conservative city on the American continent than Portsmouth. Tom Whipple insists that in these respects it is entitled to rank with Ninevah, Babylon and others of the same class that foreign scholars and savants are always exploring and bragging about; but be that as it may, there is no municipal territory this side the ocean better fitted to be the abiding place of a man who hates a racket, is proud of his ancestors and has a steady income from permanent investments.

Time was, when they built ships and bought and sold rum, soap and other groceries at Portsmouth; when there were greasy mechanics on her streets and women in calico gowns in her houses, and dirty-faced children in her, yards; but this has gone by. She retired from business long ago, and for years she has tolerated nothing that looked like a vulgar scramble for money within her borders. Her last factory, which had been looked upon as a nuisance by her best people, was burned down soon after the war, and the one man who was reckless enough to propose that it be rebuilt was driven away by the indignant citizens. She has farmed out her politics to several discreet dealers, who manage them without making a noise, and she has her blacksmithing done at Kittery, where the sound of the anvil will not disturb her reveries. Her sidewalks are of good old-fashioned bricks, and her houses are all supplied with brass knockers and andirons. Her citizens live on their incomes, and venerate knee-breeches.

To such a people old customs are, of course, inexpressibly dear, and any attempt to set them aside, or modify them after the fashion of the jostling world outside, is looked upon as little better than robbing a family tomb of your grandfather's bones. One of these customs sets all the bells in town to tolling when a resident dies, and another one rings the one on the town house for fifteen minutes every evening, beginning at nine o'clock, at which time all respectable candles go out, and all of the first families go to bed. It is needless to say that these were instituted before the oldest newspaper in America was published, or the first clock or watch was invented, but they have been sacredly kept up ever since.

At least they were religiously observed until about a month ago, when Alderman William Martyn, a carpet-bag sort of a scoffer at graveyard mold and your great-grandfather's snuff-box, got into his head the notion that if a man died his neighbors would find it out from the newspapers and bury him, and that when folks began to grow sleepy, they would consult their time-pieces and ascertain whether it was bed time without wearing out the bells and the bellmen in furnishing the information. Little that alderman knows about Portsmouth newspapers or Portsmouth people; but he had a presentiment that there would be trouble if he acted directly upon this idea, and he accordingly attempted to fool the ancients by getting up in a meeting of the board and saying that he knew of a man who was sick and who was annoyed by this bell business, and because of this he moved that the mayor be instructed to have the tolling and the ringing dispensed with. The motion passed, and the next night there was no nine o'clock bell. The result was trouble.

Two hundred and twenty-seven matrons, who for eighty-nine years have warmed their night-gowns from fifteen minutes before nine until the bell struck, stood through the live-long night holding them up to the grates, and were found there, benumbed and stiff the next morning, by the milkmen from Rye. Six first settlers in wigs and gold-headed canes, who have always taken an evening walk, leaving their houses at 8:40 and travelling south by the cemetery until the bell warned them to return, kept on and on and on their weary way, until they were taken up a week later by the police of Boston. Sixteen sets of philosophers, who have met and played whist and drank punch until the curfew, every evening since Washington was inaugurated, kept at it until they fell under the table. No stores were closed, no houses were locked, no shutters were put up that night. In short, from the time when the bell should have rung until morning, Portsmouth yawned and stretched and waited and said, "What a long evening this is;" and so it sat and yawned and waited night after night and day after day until last week, when a stray copy of a Boston *Herald* was picked up in the street, and found to contain the horrible intelligence that the aldermen had stopped the curfew.

Then there was such an outburst of indignation as has not been seen since Congress proposed to abolish the navy yard; not a noisy outbreak, of course, but a deep, eminently respectable, solemn sort of a protest. Meantime the aldermen, having come to a realizing sense of the enormity of the crime, had fled the city. Bill Martyn, the arch contriver of the innovation, was hid in the storehouse of Ward's distillery; Hackett had taken refuge behind the guns of Fort Constitution, and all the others were likewise missing, so the order could not be rescinded. One expedient remained. The church wardens, of whom Ex-Mayor Sise is chief, made the necessary arrangements to have the bells on all the churches rung every night at nine o'clock, and whenever a man dies. And now Portsmouth goes decently to bed at that hour and sleeps the sleep of the just until morning. Order is restored, and all is quiet upon the Piscataqua, but Bill Martyn is a doomed man.—*Manchester Mirror.*

During the Late War

The Government made its Best Arms at Springfield, Mass.—What Mr. David Clark, Inspector U. S. Armory There Recommends.

Your reporter found Inspector Clark at his office on the Armory grounds busily examining "receivers" for the regulation army rifles. However, he was as willing to say a word for the merits of health and strength restoratives as to prove the merits of implements of death. He said: "My business keeps me closely confined to the Armory and its doors. As a result, I've suffered considerably from indigestion and biliousness, but I find that Dr. Kennedy's FAVORITE REMEDY is a most excellent medicine for these complaints. I most cordially recommend it, for I am acquainted with its worth. Dr. Kennedy's FAVORITE REMEDY is used a great deal by the machinists in the U. S. Armory here."

While FAVORITE REMEDY is a specific in Kidney and Bladder diseases, it is equally valuable in cases of Bilious Disorders and Constipation of the Bowels. Try it. Your druggist has it, and its cost is only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The Doctor would have it understood that, while he is engaged in the introduction of his medicine, FAVORITE REMEDY, he still continues the practice of his profession, but confines himself exclusively to *office* practice. He treats all diseases and performs all the minor and capital operations of surgery.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Portsmouth Chronicle.

WEDNESDAY, DEC. 6. 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Pres. Arthur's Message.

The message of President Arthur to Congress is a strong, manly document, referring to important national topics in a very plain manner. The president's principal recommendations are economy of appropriations, a large reduction in internal taxation, a revision of the war tariff, and a practical reform of the civil service—recommendations which he just as clearly made in his first message, but which Congress did not see fit to adopt.

The Army.

The report of Secretary of War Lincoln gives the total expenditures of the war department, for the fiscal year ending June 30th, 1882, as $45,549,816.-64. The estimates for the fiscal year 1884 are $38,897,620.34. The report of the general of the army urges that the limit of the enlisted strength of the army be fixed at 30,000 men, instead of 25,000 men, as now established. There were last year 7,341 enlistments and re-enlistments in the army, and more than half that number of desertions; 3,721 soldiers deserted. Some remedy must be found for this trouble, for it is not only very expensive, but it is very hurtful to the morale of the army. The general believes that a partial remedy may be found by increasing the pay to what it was in 1865, that is, to $16 per month for a private soldier, and a proportionate amount for the non-commissioned officers.

The Navy.

Secretary of the Navy Chandler in his report says there are thirty-seven available cruising vessels belonging to the navy, of from 900 to 4840 tons displacement; these are sufficient for practice, and for displaying the flag abroad, but they have neither speed nor modern guns, and should be replaced by swift cruisers of iron or steel. The thirteen single turret monitors have no speed and little power. The guns of the navy are mostly smooth bores, with some Parrott rifles; there are eighty-seven "converted" rifles of fair power, these last being the only guns considered worth repairing.

The report does not advise the sale or discontinuance of any of the navy yards, but does advise the construction of two steel unarmored cruisers, and one iron despatch boat. The four double-turret monitors are referred to, with no positive recommendation as to their completion.

The secretary recommends that the lighthouse, coast survey, revenue, marine hospital and life-saving services be placed under control of the navy department.

The War Taxes.

The reduction of the public debt for the month of November amounted to about $5,500,000. For the year ending June 30th the people paid in war taxes on

Bank deposites, circulation, etc.,	$5,-[253,457.17
Bank checks,	$2,390,455.19
Friction matches	$3,272,258.00.

A reduction of the debt of five and a half millions in one month, after all sorts of expenditures have been made, simply shows the injustice of some of the taxes now assessed. Perhaps the session of Congress which began on Monday may be able to accomplish something in the way of reform in this matter of tax. The trouble is that every special interest wants the internal revenue laws modified to suit certain productions; the spirits, fermented liquors and tobacco interests, by the efforts of their representative men keeping the other taxes in force, until a law which suits their ideas can be enacted. If not accomplished this winter, the next Congress will make a great strike in this respect, and commend itself to the gratitude of the country by its efforts.

A Run of Bad Luck.

The British steamship Cedar Grove was totally wrecked on a reef off Cape Canso, Nova Scotia, Nov. 30th, with the loss of her captain, several officers and a lady passenger.

One of the boats from the wrecked steamer, containing eleven men, was picked up on the morning after the disaster by the schooner Parole; and an hour or two later the schooner was sunk by collision with the steamship Liddesdale, which saved all hands and landed them at North Sydney, Cape Breton.

A despatch of the 4th inst., from St. Johns, Newfoundland, says: "Steamer Liddesdale, Capt. Oakley, from New Orleans, bound to Ravel, ran ashore at St. Spotts, near Trepary, at four o'clock this morning, and will probably become a total wreck. A dense fog and a severe gale from the southwest prevailed at the time. The steamer was 1100 tons, cotton laden. The crew were saved."

William Sheldon, claiming to be a United States officer belonging in Boston, appeared in Pittsfield, Mass., Dec. 2d, and patronized saloons and hotel barrooms. On the 4th he had Richard Parker, proprietor of the Cottage hotel, C. M. Miller of the Miller house, and Henry Musiz, keeper of a beer saloon, before a district court. The cases were postponed until next Monday. Sheldon claims to have evidence against half a dozen others.

The Hudson river is frozen solid from Schodack to Albany, and a steamer which started from Poughkeepsie for Albany on the 4th inst. was compelled to return.

What's the Use of Talking?

There is no denying that SOZODONT is the best preparation for the mouth and teeth. Preparations, like snow-flakes in number, have appeared, but the public faith is still strong in the virtues of SOZODONT. Its use grows yearly.

MARRIED.

STILLSON—MARDEN. In Newmarket, Nov. 29th, by Rev. Isaac C. White, Mr. George W. Stillson of South Newmarket, and Miss Nettie J. Marden of Kittery, Me.

BARTLETT—BENJAMIN. In Epping, Nov. 25th, Daniel C. Bartlett and Miss Isabella E. Benjamin, both of Epping.

DIED.

LITTLEFIELD. In Portland, Me., Dec. 2d, Mrs. Susan E. Littlefield, aged 73 years, wife of Elijah Littlefield, formerly of this city.

FABYAN. In West Buxton, Me., Dec. 1st, Rev. Samuel Fabyan, aged 76 years.

BURKE. In Durham, Nov. 24th, Annie Burke, wife of James Burke of Portsmouth.

The death of this notice was a former resident of Durham, having passed her life there previous to her marriage, after which she resided at Portsmouth. The deceased was possessed of much mental capacity, as well as high moral developments. Although her life was comparatively obscure, it was such as to win universal respect. As daughter, wife and mother, her best record is the commendation of all who knew her. Her last illness was protracted; her final end peaceful. The funeral services were largely attended at the Congregational church, by numerous relatives and many sympathizing friends. She leaves a husband and four little ones, who, with parents and a brother and sister, are deeply afflicted by their great loss.

What hand shall heal the blow so rudely given,
Who teach us how to say—"Thy will be done?"
Or help us look with longing eyes to heaven,
Where we may meet the loved and missing one!
Grant us, O Lord, from out this dark affliction,
To see the bow of promise mid the gloom,
And in its brightness read thy benediction,
As they who stood and wept at Lazarus tomb.
Thus can we give her to her early sleeping,—
Lay the dear one we love to her last rest;
Yield her to God's own faithful watch and keeping,
Where pain nor sickness ne'er again molest.
And so the wintry winds, her dirge repeating,
Shall mingle in their strains the thought that she
But waits on yonder shore to give glad greeting
Where death comes not—where partings cease be.

THE SUN.

NEW YORK, 1883.

More people have read THE SUN during the year just now passing than ever before since it was first printed. No other newspaper published on this side of the earth has been bought and read in any year by so many men and women.

We are cribbly informed that people buy, read, and like THE SUN for the following reasons, among others:

Because its news columns present in attractive form and with the greatest possible accuracy whatever has interest for humankind; the events, the deeds and misdeeds, the wisdom, the philosophy, the sensible folly, the solid sense, the improving nonsense—all the news of the busiest world at present revolving in space.

Because people have learned that in its remarks concerning persons and affairs THE SUN makes a practice of telling them the exact truth to the best of its ability three hundred and sixty-five days in the year, before election as well as after, about the whales as well as about the small fish, in the face of dissent as plainly and fearlessly as when supported by general approval. THE SUN has absolutely no purpose to serve, save the information of its readers and the furtherance of the common good.

Because it is everybody's newspaper. No man is so humble that THE SUN is indifferent to his welfare and his rights. No man is so rich that it can allow injustice to be done him. No man, no association of men, is powerful enough to be exempt from the strict application of its principles of right and wrong.

Because in politics it has fought for a dozen years, without intermission and sometimes almost alone among newspapers, the fight that has resulted in the recent overwhelming popular verdict against Robeson and for honest government. No matter what party is in power, THE SUN stands and will continue to stand like a rock for the interests of the people against the ambition of bosses, the encroachments of monopolists, and the dishonest schemes of public robbers.

All this we are told almost daily by our friends. One man holds that THE SUN is the best religious newspaper ever published, because its Christianity is tempered with charity. Another holds that it is the best Republican newspaper print d, because it has been the whipped half of the rascals of that party, and is proceeding against the other half with undiminished vigor. A third believes it to be the best magazine of general li erature in existence, because its readers miss nothing worthy of notice that is current in the world of thought. So every friend of THE SUN discovers one of its many sides that appeals with particular force to his individual liking.

If you already know THE SUN, you will observe that in 1883 it is a little better than ever before. If you do not already know THE SUN, you will find it to be a mirror of all human activity, a storehouse of the choicest products of common sense and imagination, a mainstay for the cause of honest government, a sentinel for genuine Jeffersonian Democracy, a scourge for wickedness of every species, and an uncommonly good investment for the coming year.

Terms to Mail Subscribers.

The several editions of THE SUN are sent by mail, postpaid, as follows:

DAILY—55 cents a month, $6.50 a year; with Sunday edition, $7.70.

SUNDAY—Eight pages, $1.20 a year.

WEEKLY—$1 a year. Eight pages of the best matter of the daily issues; an Agricultural Department of unequalled merit, market reports, and literary, scientific and domestic intelligence make THE WEEKLY SUN the newspaper for the farmer's household. To clubs of ten with $10, an extra copy free.

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. No other article takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "it's the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1879.

MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.

Yours truly,
F. C. CHURCHILL,
(Firm of Carter & Churchill.)

☞ A gentleman who has been suffering from the *Debility* and *Languor* peculiar to this season, says: "HOOD'S SARSAPARILLA is putting new life right into me. I have gained ten pounds since I began to take it." Has taken two bottles.

Gained 10 Pounds

HOOD'S SARSAPARILLA is sold by all druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

SUPREME COURT--LAW TERM.

The court came in at the senate chamber in Concord on Tuesday, the 5th inst. On the Rockingham docket were nineteen cases, none of which were disposed of. The attendance of the bar was small. The result of the votes for county officers of Rockingham county was announced as follows:

For Sheriff—Kent 6123, Wendell 4549, Wiggin 38.

Solicitor — Foster 5941, Page 4770, Hatch 40.

Register of Deeds—Weston 6060, Sanborn 4650, Rowe 37.

Register of Probate — Durgin 6065, Brown 4670, Sleeper 35.

Treasurer — Dow 6059, George 4675, Janvrin 38.

Commissioners—Johnston 6089, Burleigh 5957, Underhill 5824, Brown 4773, Haley 4689, Noyes 4640, scattering 38.

The bell of the Middle street church will be rung at nine o'clock this evening.

A full attendance is requested at the meeting of Strawberry Bank Lodge of Good Templars this (Wednesday) evening. Business of importance.

There was a good audience at Music hall on Tuesday evening, to see the Knights in "Baron Rudolph." The play is an amusing one, and the entertainment gave good satisfaction.

Edward P. Dumas, aged twenty-eight years, son of Col. S. H. Dumas of the Boar's Head hotel, Hampton, died in Concord on the 5th inst.

All those who intend to sign the petition asking the aldermen to order the nine o'clock bell rung are requested to call at the stores of Moses Bros., W. G. Myers, C. E. Buzzell & Son or Mercer Goodrich, and affix their names, as the petitions are to be presented to the board on Thursday evening.

Mr. David Stevens, for the past five years foreman of Abbott's granite quarry in Durham, and for twenty years before that a calker of this city, was in town on Tuesday.

The third annual fair of the Newcastle Knights of Pythias, held in the town hall of that place on Wednesday, Thursday and Friday evenings of last week, was a success in every way, the hall being crowded each evening, a good time being had by all, and about $175 being netted. Large delegations from this city and Kittery attended. There were dialogues, recitations, singing, etc., each evening, by some of the young ladies and gentlemen; and guess cakes, guess poles, and prizes awarded by lot, were among the features of the fair. A number of the articles drawn have not been called for, and the holders of the winning tickets are requested to communicate with R. A. Preble of Newcastle.

The covered scow formerly used as a ferry-boat between the ship Sabine and the shore, at the time the vessel was employed as a school ship at this station, was hauled out at the navy yard on the 5th inst. to be calked and otherwise repaired, preparatory to being used as a ferry boat between the Constitution and the shore, when needed.

About a hundred of the workmen employed in the department of construction and repair at the navy yard, who were suspended after the housing of the U. S. S. Plymouth, were again taken on last Monday morning. Work on the Omaha is being actively pushed.

Not only throughout Rockingham county, but all through the state, come complaints of the scarcity of water; not only are the lakes and ponds, and the mill-streams and brooks, unusually low, but many wells are failing. In some of the outlying districts it is difficult to get sufficient water for animals to drink, and unless there are copious rains, accompanied by weather warm enough to thaw the surface of the land and let the water penetrate, before the ground "shuts up" for the winter, there will be much suffering from lack of the indispensable fluid before next spring.

The brick schooners expect to make one more trip this season, before hauling up for the winter.

The schooner Zimri S. Wallingford, which arrived at this port port on the 1st inst. with coal to E F. Sise & Co., was on the 5th discharging her cargo into gondolas to go to Newmarket, the Edgar Weston and H. P. Spinney being alongside. Capt. Cheney, of the latter, reported Great bay as having been about half frozen over on his last previous trip. The schooner, which is owned by the Dover Navigation Co., was decorated with flags on the 5th in honor of the visit of a number of stockholders of the company, who came down from Dover to see the vessel, this being her first visit to this port.

A new carriage house and laundry are being erected at the hotel Wentworth, Newcastle.

Shea, Jameson & Co. are preparing to go into the fish buying business on a liberal scale, with the intention of especially catering to the inland trade of this state. They are getting a store ready in Manchester, and one of the firm is preparing ice-houses there. An addition of twelve feet by forty is being made to the building on Shea's wharf, in this city, which when completed will make the structure thirty-two feet by forty, and give good facilities for prosecuting the business.

Surveyors were at work on Wednesday and Thursday of last week, locating another route for the proposed railroad from Kittery to York beach. The last-surveyed line crosses the York river above Rice's bridge, passes near the Baptist church at York Corner, thence in the direction of York village, crossing the highway there near the former residence of the late Luther Junkins.

The sloop yacht Wayward came off the marine railway at Kittery last week, and was towed to one of the north end wharves by the Clara Batemen. The schooner E. A. Williams went on the railway on Tuesday, to be recalked all over, and have some repairs made to her shoe, false keel and main keel.

A horse belonging to Lewis & Brooks, storekeepers of Kittery, ran away in that town on the 4th inst., and made a wreck of the store wagon.

Annie Chase, aged thirty years, wife of Stephen Chase of Biddeford, was so badly burned on the afternoon of the 4th inst., through her clothes taking fire from a pipe, that she died in about three hours.

Much apprehension is expressed by the farmers in the western towns of York county, concerning the serious disadvantages and annoyance which must result from lack of water in case there is not a liberal fall of warm rain before the ground freezes for the winter; brooks are very low, and many wells have given out entirely, causing considerable trouble already in some districts to procure water sufficient for domestic uses and for cattle. A Biddeford paper says that "In Limington there are only two wells that are not dry," but this is undoubtedly an error, as such a state of affairs would constitute an actual water famine, rather than a severe scarcity merely.

James Gardner, about fifty years old, shot himself in the head Monday morning at Gloucester, Mass., and died in about an hour. He has been partially insane for some years, and believed that some one was attempting to poison him, and for this reason he has lived a roving life, staying or boarding at one place only a few days at a time. He was unmarried.

The coroner's jury in the case of Albert Seabury, found dead on the shore of Seaconnet river, Little Compton, R. I., Saturday morning, under circumstances which indicated that he had been murdered, met Monday morning at Little Compton commons for the purpose of hearing testimony. Testimony was given relative to the circumstances attending the finding of the body, and the unfriendly relations existing between the deceased and Edmund Davis, on whose land Seabury met his death.

Important to the Sick.

OUR readers should bear in mind that Dr. Gage of Concord, "the man so celebrated for his wonderful cures," can be consulted at the Rockingham house, Portsmouth, Thursday, Dec. 7th. He has had many from this section to Concord, and his success is truly wonderful. We understand that he prescribed for Mrs. Samuel R. Moulton, of this city, without seeing her, yet with most astonishing results, as she is now beginning to walk after having been unable to do so for several year.

A GOOD THING FOR CLERKS, FARMERS, EVERYBODY.

If you are a GOOD PENMAN you are independent and always sure of a comfortable living. *This beautiful art can be learned by any one in our study and practice for a few evenings in your own home*, by the use of SHAYLOR'S COMPENDIUM OF PENMANSHIP, which is an Illustrated Analysis of Plain Business and Ornamental Writing, with Book of Instructions how to become not only a Beautiful Penman but which will also Qualify You for a TEACHER *of the art*. Besides the above the Compendium consists of Engraved Fac-Similes of beautifully written Notes, Receipts, Checks, Specimens of Ornamental Writing, Birds, Animals, &c., and Autograph Business Letter for reproduction in your practice.

The specimens of Artistic and Ornamental Pen work are incomparably Superior to those of any other system, and are from the pens of those using Shaylor's Compendium. The instructions are so complete and the rules so simple and plain that you cannot fail, with a little pleasurable practice to become a competent professor of penmanship, and there is no occasion for you to go to a writing school or business college.

The Compendium complete sent by mail to any address on receipt of One Dollar, and it will be worth a hundred times that amount to you.

SOLID GOLD RINGS FREE. With a view of stimulating each purchaser of the Compendium to the highest excellence in penmanship, we will on the first of each month send an *Elegant Solid Gold Ring Free* to each one of the twelve purchasers, who by sending copies of their old and new signatures to us, show the most improvement. These rings will be a pleasant memento of your accomplishment in this beautiful art.

Agents wanted everywhere. At this season of the year you can make from $40 to $50 weekly at your own home, as Shaylor's Compendium, costing only a trifle, enables anyone to quickly and easily become an elegant penman. Sells at sight, requires no talking. Send for confidential terms to agents. ROBERTS & CO., 7 Murray St., New York. n23,ottebs3

6 per Cent. Gold Bonds.

TOPEKA, SALINA & WESTERN

RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be relieved and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

238th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

Another Victory for Our Navy.

The steamer Excelsior, of the Potomac line between Washington and Norfolk, Va., was ran into by the United States tug Fortune, attached to the Norfolk navy yard, on the afternoon of the 4th inst., off Fortress Monroe, and cut down to the water's edge. The Excelsior was ran ashore on Hampton bar, about half a mile from the scene of the accident, and soon settled to the bottom. The following is the associated press account of the affair:

As the steamer Excelsior was about a mile and a half from Old Point wharf, this afternoon, Captain Baldwin discovered a large steam tug approaching. The usual signals to indicate the course were given, but no attention was apparently paid to them. Seeing that a collision was imminent, Capt. Baldwin gave another signal, stopped the Excelsior, and began backing her. The tug, which proved to be the Fortune, from the navy yard, came on at full speed, striking the Excelsior near the bow, cutting her down to the water's edge. The officer in charge of the Fortune asked if the Excelsior wanted assistance, and was told "Yes, stand by," as the vessel was in a sinking condition. Capt. Baldwin at once put on all steam and headed for Hampton bar, about half a mile distant, and fortunately reached it before she settled. She was ran aground and sank in a few minutes. As soon as the crash of the collision was heard, the officers of the Tennessee, Vandalia and Minnesota, which were anchored in the immediate vicinity, at once had boats lowered and put off to the sinking steamer, and very kindly assisted in bringing the passengers ashore, most of whom took the steamer for Baltimore at seven o'clock. The Excelsior is a new steamer, and has only recently been fitted up for passengers. The Fortune is a powerful tug of 306 tons, attached to the Norfork yard.

John C. Webb of Manchester, Mass., was arraigned in the police court of Lawrence on Monday, on two accounts of forgery, and held in $2,000 until Thursday on the charge of having swindled various furniture firms in that vicinity by representing himself an agent of Sanborn & Co. of Concord.

A Stalwart Old Enemy.

One of the toughest old adversaries of human comfort, and most difficult to exterminate, is rheumatism. Many middle-aged people suffer torture with it, and the old folks who have it find it the pest of their lives. The case of a venerable lady of Lewistown, Mass., is of great interest to the victims of this tough old enemy. Mrs. Swett says: "I have been using Perry Davis's Pain Killer for about eight years. As soon as I apply Pain Killer I have almost immediate relief from pain."

The wife and two sons of Mumford, who was hanged in New Orleans by order of Gen. Butler for hauling down the flag over the United States mint, before New Orleans was occupied by federal troops, are now living in Kansas City.

EPILEPTIC FITS.

A Leading London Physician establishes an Office in New York for the Cure of EPILEPTIC FITS.

From Am. Journal of Medicine.

Dr. Abs, Moorside Gate of London), who makes a specialty of Fits, has without doubt treated and cured more cases than any other living physician. His success is truly most astonishing; we have heard of cases of over 20 years' standing successfully cured by him. He has published a work on this disease, which he sends free to large bottle of his wonderful cure free to any sufferer who may send their express and P. O. Address. We say no one wishing a cure to address

BEYOND THE RIVER.

Away Across the Mississippi is Held a Convincing Conversation.

"I tell you sir, that they are one of the nearest combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgment to some respect."

"Oh, I don't know, responded the first speaker's friend, with a little yawn, as though he didn't take much interest in the subject, "I have never been able to see much difference in those things. They are all pretty nearly the same size, and made of about the same stuff."

The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the snug office of Dr. M. P. Flowers, one of the leading physicians of the State, who followed up the vein in which he had introduced it substantially in these words:

"Nonsense, that is the rigmarole of a boy, or rather of a man who either doesn't know or doesn't care what he says. Those things, as you call them, are just as different as the moon is from green cheese. Now, liniments, lotions and ointments are very good in most cases for the relief of pain or inflammation. But, in the first place they are unclean. They soil the hands and the linen, besides being always out of reach when they are most wanted."

"Well, my dear Doctor," sighed the traveler from the North, "what would you have? This is a wretched world anyhow, and nothing is ever at hand when it is wanted. "You can't suggest anything—"

"Yes, I can," broke in the Doctor, thumping the table with his fist, "I can suggest BENSON'S CAPCINE POROUS PLASTER. I have tried it on my patients, and I have tried it on myself for an attack of Pneumonia, and in all cases relief has followed in from three to forty-eight hours. The old plasters are huge cumbrous—the Capcine is a telegraphic dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded action of the Kidney's, and——"

"I give it up, Doctor, and in case of need I'll buy Benson's," said the traveler, pleasantly.

In the center of the genuine is CUT the word CAPCINE.

THE

New Hampshire Gazette !

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

SEEK

health and avoid sickness. Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong?

You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of BROWN' IRON BITTERS, and taking it regularly according to directions.

Mansfield, Ohio, Nov. 26, 1881.

Gentlemen:—I have suffered with pain in my side and back, and great soreness on my breast, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but I got no relief. I thought I would try Brown's Iron Bitters; I have now taken one bottle and a half and am about well—pain in side and back all gone—soreness all out of my breast, and I have a good appetite, and am gaining in strength and flesh. It can justly be called the *King of medicines*.

JOHN K. ALLENDER.

BROWN'S IRON BITTERS is composed of Iron in soluble form; Cinchona the great tonic, together with other standard remedies, making a remarkable non-alcoholic tonic, which will cure Dyspepsia, Indigestion, Malaria, Weakness, and relieve all Lung and Kidney diseases.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

Daily Chronicle.

The "Living Age," well known as one of the most welcome periodicals which weekly comes to our homes, makes its annual announcement in our columns. A publication of forty years' standing, it has so established itself in the estimation of the better class of readers in the country that its place is sought to be supplied by no other periodical. For variety and extent of excellent reading matter the Living Age is confessedly at the head of its cotemporaries.

A western paper says: Nothing will cure some sick men more quickly than an office, properly applied.—This 'cure' may be very successful, in many cases, but we would say: If a man suffers from a cough or cold, give him Dr. Bull's Cough Syrup.

For the "Dear Wee Folk" Williams & Co. of Boston publish "Five Little Flower Songs," by M. S. F.,—dainty and winsome, very tastefully brought out, and quite as charmingly attractive as anything we have seen for the little ones yet.

"And wilt thou not reach out a friendly arm
To raise me from amidst this plunge of sorrow?"

A friendly and saving arm is extended to all who are plunged into sorrow because they have heart disease. For a dollar you can buy a bottle of Dr. Graves' Heart Regulator, an infallible cure for this terrifying disease.

The December number of "The Season Lady's Illustrated Magazine" contains the latest fashions in female attire, and also descriptions of many new varieties of fancy work and decorations. The numerous illustrations and patterns which it contains, accompanied by clear and precise explanations, make it easy for the ladies to cut and make their own garments without the trouble and expense of a dress maker? "The Season," is published monthly by the International News Company, No. 31 Beekman street, New York, and is for sale by all booksellers and news agent at thirty cents per number; subscription $3.50 per year.

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as biliousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, etc. The success which has attended the use of Swedish Botanic Compound warrants us to say that for purifying and enriching the blood, creating an appetite, strengthening and renovating the whole system, nothing surpasses that great remedy.

Fifteen cities in Massachusetts elected municipal officers on the 5th inst., the fight being mainly on "license" and "no license." In Malden, Taunton, New Bedford, Newton and Somerville, the prohibitionists were successful; in Cambridge, Chelsea, Haverhill, Lawrence, Gloucester, Springfield, Holyoke, Fall River, Fitchburg and Brockton the license men prevailed. The mayors-elect of Lawrence, Fall River and Brockton are democrats.

Unity of action, concord, sympathy and goodfellowship are admirable traits in human character; but they will not heal our physical infirmities. Catarrh, for example, stubbornly resists their effects or influence. In fact this malady withstands all of its would-be destroyers, except Ely's Cream Balm. "Solitary and alone" this Balm stands as the only recognized and infallible specific for catarrh. "For fifteen years," says J. B. Chase, St. Denis Hotel, B'wy, and 11th st., N. Y., "I have been greatly annoyed with a disgusting catarrh. My sense of smell, not to mention other troubles, became much impaired. A thorough use of Ely's Cream Balm has cured me of these troubles." It is not a liquid or snuff, and is easily applied. Only 50 cents a package.

At Cleveland, Ohio, on the evening of Dec. 5th, burglars entered the residence of Col. W. H. Harris while the family were at dinner, and stole diamonds and jewelry to the value of near $15,000. Entrance was gained by prying open one of the upper windows. The same house was entered in exactly the same manner a year ago, and $10,000 in bonds stolen.

During the Late War

The Government made its Best Arms at Springfield, Mass.—What Mr. David Clark, Inspector U. S. Armory There Recommends.

Your reporter found Inspector Clark at his office on the Armory grounds busily examining "receivers" for the regulation army rifles. However, he was as willing to say a word for the merits of health and strength restoratives as to prove the merits of implements of death. He said: "My business keeps me closely confined to the Armory and its doors. As a result, I've suffered considerably from indigestion and biliousness, but I find that Dr. Kennedy's FAVORITE REMEDY is a most excellent medicine for these complaints. I most cordially recommend it, for I am acquainted with its worth. Dr. Kennedy's FAVORITE REMEDY is used a great deal by the machinists in the U. S. Armory here."

While FAVORITE REMEDY is a specific in Kidney and Bladder diseases, it is equally valuable in cases of Bilious Disorders and Constipation of the Bowels. Try it. Your druggist has it, and its cost is only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The Doctor would have it understood that, while he is engaged in the introduction of his medicine, FAVORITE REMEDY, he still continues the practice of his profession, but confines himself exclusively to office practice. He treats all diseases and performs all the minor and capital operations of surgery.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

Governor McEmery of Louisiana has concluded to give a certificate of election to Kellogg, elected to Congress by the voters of the third district of that state, instead of himself electing a democrat, as he at one time proposed. The warnings of the democratic press, north and south, as to the bad effect such a piece of scoundrelism would have on the "reform" reputation the party seeks to gain, caused him to give up the scheme.

Every lady, rich or poor, should be acquainted with the value of James Pyle's Pearline for all cleansing purposes. Its usefulness in domestic economy cannot well be over estimated.

Massacre C. Butler, the hero of Edgefield, has been re-elected United States senator from South Carolina.

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

Democratic Endorsement.

The Washington correspondent of the Boston *Post* says: "The more President Arthur's message is studied, the better it is liked. It is thought to have a stronger and healthier tone than has characterized the state papers of his two immediate predecessors. A very prominent democrat, in reading it, said what appears to express the general thought, that it is a good thing for the country that we have a president who knows what he wants to say, and how to say it. The financial part of the message is, of course, the first that will be turned to. Its recommendations are bold, even to being startling. The president recommends the abolition of all internal revenue taxes except those on distilled spirits. In this he differs from Secretary Folger, who believes in the retention of the tax on tobacco and fermented liquors also. This is an enormous difference. If the president's recommendation were taken, the reduction of revenue would be $86,000,000, while if the secretary's were taken, it would be $22,000,000."

New Hampshire Items.

The governor and council were in session on Wednesday, Dec. 6th. Gov. Bell went to Hanover in the evening, to attend the wedding of Col. Edward Gilman of Exeter. Mr. Cloutman of Farmington, convicted in Strafford county for an alleged embezzlement, but not sentenced, was pardoned. It was stated that he was improperly convicted, and no objection was made by the counsel for the state to granting the pardon.

Angus A. True, who died recently in Raymond, aged thirty-nine years, after an illness of nearly two years from spinal disease and nervous prostration, was a bugler in Berdan's regiment of sharpshooters during the rebellion. He was in poor health ever after his discharge from the service, and his last sickness was terminated after months of intense suffering.

Hoyt & Page, shoe manufacturers recently located at Hampstead, have moved their entire business to Haverhill, Mass., taking with them quite a number of Hampstead workmen.

Hosea B. Perkins went to New York city from Dover, a poor boy. During a long residence there he has amassed a large fortune. His estate on Washington heights he bought twenty-eight years ago for a song. He was recently offered almost $200,000 for it.

Mrs. M. B. Stevens of Hoboken, N. J., widow of the inventor of the Stevens battery, heads the subscription list for a new chapel at St. Paul's school, Concord, with $10,000.

James Gregg, aged twenty-two years, was recently killed at West Henniker. He jumped from a locomotive, and was crushed between it and the depot platform.

A stock company has been formed at Warner with a paid up capital of $12,000, to engage in the manufacture of buck gloves and mittens. The company has leased a large building, and is now erecting a tannery adjoining it. Parties from Littleton will operate the business, which is to commence at once.

S. T. Thomas has been in Boston for several weeks past, exhibiting specimens of his silk manufacture. Presenting a piece of his goods at the store of Hovey & Co., the attention of one of their experts was called to the goods, who said in his judgment they were made in France, and when told that they were made in Laconia, N. H., expressed astonishment, and rather doubted the statement until reassured by Mr. Thomas. No wonder that such facts are viewed by residents of the "Hub" with some distrust any among the impossibilities.—*Belknap Tocsin.*

Naval Affairs.

The double-turretted monitor Puritan was launched from the yard of John Roach at Chester, Pa., on the 6th inst.

The U. S. S. Swatara, Comdr. Cooper commanding, arrived in Hampton roads Dec. 5th from China via the Cape of Good Hope, with all on board well.

Relative to a report that the United States government contemplates making a claim against France in regard to the murder of two American citizens in Madagascar, the *Moniteur Universal* at Paris publishes an insulting article declaring that the American navy is so reduced by peculation that the United States was recently obliged to back down to Chili. France, it says, could ruin every American port. It is safe to say that France won't try it.

News and Notes.

The unfortunate stockholders of the Pacific bank of Boston are called upon by the comptroller to pay a second assessment of 100 per cent. They lose the market value of the stock before suspension, $100 per share voluntarily voted last winter, and $100 per share assessment now levied—or about $300 per share net loss.

The jury of inquest in the case of Albert Seabury, found dead in Little Compton, R. I., on Saturday, Dec. 2d, concluded its session on the 5th, and returned a verdict of "death by violence at the hands of some person to the jurors unknown." Edward Davis, on whose land Seabury's body was found, testified that he was not at the shore on the morning in question, as had been stated by other witnesses.

It is stated that the lighthouse board do not regard the appropriation of $20,000 for lighting Hell Gate, New York harbor, with electricity, as sufficient. The board will probably ask congress to increase the appropriation so as to admit of a more substantial tower than was originally contemplated.

Before the district court at Abington, Mass., Dec. 4th, Horatio Tripp, charged with stealing a team from W. H. Whiting; also charged, with Susan, his wife, with stealing goods and money from Postmaster J. W. Sproul and Miss Francilla R. Sproul, were both bound over, and in default of bail committed.

Frank McNamee, "Dutch" Pillet and Levi Chew, the latter a colored man, were arrested in Philadelphia, Monday night, the 4th inst., while driving a wagon containing five dead bodies to the medical college. The bodies had been stolen from the Lebanon cemetery. Next morning a detective visited the cemetery ground, and arrested Robert Chew, its superintendent, and Andrew Mullen. Lebanon cemetery, which is used by the colored people, has been nearly emptied of corpses.

The net earnings of the Boston & Maine railroad to Sept. 30th, 1882, were $37,921.17 less than for the previous year. The directors' report ingenuously informs the stockholders that the decrease of the net earnings,—the gross earnings being $163,214.24 more than for the year ending Sept. 30th, 1881,—is owing to increased expenditures, including the cost of the bridge accident at Cole's Corner in Wells, Me., in January, and in this mode $114,875 is accounted for. The price of shares has fallen since the report was made public.

The Manchester *Union* says that one of the school teachers of that city, "found of the gun, while enjoying the sport some four years ago near Portsmouth came upon a bee tree. He did not molest the busy workers, but put a mark on the spot. On last Thanksgiving day he felled it, and found for his reward forty-three pounds of honey. It was almost all old comb, the bees having evidently swarmed since he first discovered them."

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup." It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle. eod&wtjan82

A spur track is soon to be laid from J. Hobson & Son's steam mill in Saco, to connect with the Eastern railroad track near Frost's box factory. The grade is quite sharp, there being from twenty-five to thirty feet rise in the distance the spur is to run. Considerable filling will be necessary over a portion of the way.

Eight schooners and one sloop, with a total tonnage of about 731, have been built in Kennebunk this year; no ships, barques or large vessels of any kind were built, the largest schooner measuring only about 163 tons. The names of the several vessels, the dates of their launching, and their registered tonnage, were as follows: Lizzie Frost, sloop, launched March 25th, tonnage 10.17; Clara & Mabel, schooner, 34.15 tons; F. T. Drisco, schooner, 162.91 tons; Annie Louise, schooner, 49.69 tons; Freddie A. Higgins, schooner, 87.53 tons; Anna & Lillie, schooner, 70.26 tons; Nettie R. Willing, schooner, 55.61 tons; Joseph G. Dean, schooner, 153.65 tons; Elsie M. Smith, schooner, 106.95 tons; total tonnage, 730.92. It will be seen that every one of the vessels was named after some person, no fancy names being used.

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. No other medicine takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "it's the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1879.

MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.

Yours truly,
F. C. CHURCHILL,
(Firm of Carter & Churchill.)

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

Mallock, Matthew Arnold, W. W. Story, Tourgueieff, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age,

THE LIVING AGE has been published for nearly forty years, and has met with continuous commendation and success. In 1882 it will furnish to its readers the productions of the most eminent authors **above-named and many others;** and also the best Serials and Short Stories by the leading Foreign Novelists, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter, from the pens of its **foremost Essayists, Scientists, Critics, Discoverers,** and **Editors,** representing every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine* giving more than

THREE AND A QUARTER THOUSAND

double-column octavo pages of reading-matter yearly. It presents in an inexpensive form, considering its great amount of matter, with freshness, owing to its weekly issue, and with a *satisfactory completeness attempted by no other publication,* the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific, Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

It is therefore invaluable to every American reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature,—*indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

in all branches of Literature, Science, Politics and Art.

"LITTELL'S LIVING AGE has now for many years held the first place of all our serial publications. . . There is nothing noteworthy in science, art, literature, biography, philosophy, or religion, that cannot be found in it."—*The Churchman, New York.*

"It stands easily at the head of its class and deserves its prosperity."—*The Congregationalist, Boston.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Boston Advertiser.*

"It is indispensable in every household where any attempt is made to keep up with the current thought of the day."—*Hartford Courant.*

"It affords the best, the cheapest, and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

Published WEEKLY at $8.00 a year, *free of postage.*

☞ **TO NEW SUBSCRIBERS for the year 1883,** remitting before Jan. 1st, the numbers of 1882 issued after the receipt of their subscriptions, will be sent *gratis.*

Club-Prices for the best Home & Foreign Literature,

("Possessed of THE LIVING AGE and one or other of our vivacious American monthlies, a subscriber will find himself *in command of the whole situation.*"—*Phila. Ev. Bulletin.*)

For $10.50 THE LIVING AGE and any of the American $4 Monthlies (or *Harper's Weekly* or *Bazar*) will be sent for a year, *postpaid*; or, for $9.50 THE LIVING AGE and the *St. Nicholas*, or *Lippincott's Monthly.*

Alex. Bruce vs. Manchester & Keene railroad, Nashua & Lowell railroad, and others.

In this case there was a motion filed by the complainant to have exceptions in the answer of Samuel W. Hale and others referred to a master, for scandal. The defendants have filed a motion to dismiss the bill. The complainant filed in January last a motion that the bill be taken *pro confesso* as to the Manchester & Keene railroad. The motion to dismiss was denied, and the Manchester & Keene railroad was granted until January 15th to file an answer. The bill was discontinued as to the Nashua & Lowell railroad. The Boston & Lowell railroad appears as complainant no further. Answer of Hale and Colony was referred to a master upon exceptions for scandal.

Brooks & Hall, of Boston, for complainants; S. N. Bell for Ramsdell and other trustees.

THE MARION ARRIVED.

The U. S. S. Marion arrived at this port on the 6th inst., and made fast to a buoy off the navy yard at 4:30 P. M. She left Montevideo on Sept. 30th, touched at Bermuda Nov. 27th for coal and provisions, and sailed from Bermuda Dec. 1st, arriving as above; she made a good passage from Montevideo to three north, from thence to port having baffling and head winds. Her crew consists of about two hundred men, all told, her officers being as follows:

Commander, Silas W. Terry;
Lieut. Comd., John McGowan;
Lieutenants, George A. Bicknell and E. S. Jacob;
Masters, T. G. C. Salter and S. W. B. Diehl;
Ensigns, W. Winder, Henry C. Gearing and W. I. Chambers;
Surgeon, H. J. Babin;
Asst. Surgeon, C. W. Rush;
Passed Asst. Paymaster, S. R. Colhoun;
Chief Engineer, Edwin Wells;
Passed Asst. Engr., J. G. Brosnahan;
Asst. Eng., H. C. Baughman;
Cadet Engr., T. F. Carter;
First Lieut. Marines, R. D. Wainwright;
Acting Boatswain, X. Perrimond;
Gunner, W. A. Ferrier;
Carpenter, William H. Barrett;
Sailmaker, F. Watson.

The trim look of the ship's rigging, and the scrupulous cleanliness of the vessel inside, reflect much credit upon the officers.

THE TRANSIT OF VENUS.

This rare event occurred as per advertised programme on Wednesday, the 6th inst. The morning was not promising to the many amateur astronomers who had smoked broken window lights, darkened rooms, and arranged other appliances for the observation, for a pall of leaden-colored clouds obscured the eastern heavens from horizon to zenith; however, at about twenty minutes past nine o'clock the hundreds of observers with smoked glass in hand were able through the rifts in the clouds to get a very good view of the sun and Venus in the first external contact. Half an hour later the planet was well within the disk of the sun, apparently moving diagonally across the latter's surface, looking about the size of a fly on the flat surface of a sixty-pound cheese. The sun's diameter is said to be about 900,000 miles, and that of Venus a little less than that of our globe; and at the time of the transit Venus was about 70,000,000 miles from the sun, and 24,000,000 from the earth. From noon to three o'clock the heavens were clear, and a splendid view of the transit was had by all who took the trouble to look aloft. During the afternoon several of our prominent star-gazers appeared on the streets with smut on their noses, thus attesting their interest in things heavenly. The planet remained within the disk of the fiery luminary about six hours, the second internal contact of the two disks occurring at 3:02 o'clock P. M., (schedule time,) and twenty minutes later the planet had passed entirely off the face of the sun, not to return again until 121 1-2 years have rolled away.

Mr. Fred Hanson, late night yardmaster at the Eastern railroad station in this city, has resigned, and was succeeded on the 6th inst. by Mr. Jas. H. Twombly.

The wife of Mr. John H. Wells died quite suddenly at about three o'clock in the afternoon on the 6th inst., it is supposed from disease of the heart.

The new boiler for the steamer Mystic will be made at the Swamscot Machine Works, South Newmarket.

Two gentlemen from Taunton, Mass., were in this city on Wednesday of this week, to see about getting a 900-ton schooner built here.

Wednesday, Nov. 6th, was the fortieth anniversary of the marriage of Mr. and Mrs. Charles E. Myers, and on the evening of that day they were surprised by a call from about a hundred of their old friends, who congratulated them on their happy and useful life, and wished them many happy returns of the day. The visiting friends took occasion to present to Mr. and Mrs. Myers an elegant French clock.

Mr. Lemuel B. Caswell arrived in from the Shoals on Wednesday of this week in the schooner Lucy, bringing in his household goods, and also the balance of the proceeds of his fishery at Smuttynose island, consisting of dunfish, hake sounds, mackerel, herring, fish oil, etc. He will take up his residence in this city during the winter.

In the supreme court on Wednesday, the 6th inst., the case state vs. the Concord railroad, which had been argued in briefs, was submitted without oral argument.

The schooner D. K. Ham arrived from Boston on the 6th inst., and went into winter quarters at C. E. Walker & Co.'s wharf. The rest of the brick fleet will haul up for the season within a few days.

Mr. Daniel Dalton, a prominent citizen of Rye, having become insane was taken to the asylum for the insane at Somerville, Mass., on the 1st inst.

Mr. M. C. Foye advertises great bargains in hosiery for young girls.

The wife of Rev. J. Herbert Yeoman, and Miss Nellie Stillings, both of this city, leave town to-day (Thursday) for Jacksonville, Florida. They will pass the winter at Pomona, about sixty miles north of Jacksonville, where Rev. Lot L. Harmon, formerly pastor of the Pearl street church in this city, is engaged in orange raising, not forgetting to preach every Sunday. The many friends of the ladies named wish them a safe and pleasant passage, and trust that they may return in the spring with renewed health and strength.

The schooner Daniel C. Baker, which arrived at this port on the 6th inst., having until recently been engaged in the pollock fishery, it is said has been sold to parties in Gloucester, Mass.

Mr. Elvin Newton, who has been to New York to perfect arrangements for the buying of fresh fish at this port during the coming winter, and shipping the same to New York, returned on the 6th inst., having arranged matters to his entire satisfaction.

We learn that a strike was imminent at the Portsmouth Shoe Factory on Wednesday morning of this week, among the lasters, but that satisfactory arrangements were made during the day, and the men resumed work as before.

It is stated that some of the Portsmouth subscribers to the new "History of Rockingham and Strafford Counties" are offering to dispose of their copies at much less than the subscription price.

The schooner Young Selim arrived on the 6th inst. with 3000 lbs. of fish, and several other vessels brought in small fares; most of the catch was bought by John Caswell and Daniel Clark, at from $3.50 to $4.50 per hundred lbs.

The Dover *Democrat* of the 5th inst. says: "Mr. Ralph Reinewald, leading director of the Dover cornet band, has resigned his position to accept the directorship of the Salem band of Salem, Mass. Mr. Reinewald's engagement with the Dover cornet band terminates the 31st inst., but at a meeting of the organization to-morrow evening he expects that his resignation will be accepted, as he says it is most desirable he should begin his duties in Salem at once. Mr. Reinewald's reasons for transferring himself from Dover to Salem are two-fold. In the latter city he will get a much larger salary, and also he will be nearer to Boston to make a further study of music. The Dover cornet band will sustain a loss in Mr. Reinewald's departure. The people generally regret his removal, for Ralph has ever been a good, genial fellow." He is also a gentleman, and a musician.

"Slim Jim," a notorious three-card-monte thief recently shot to death in New York, was born near Bangor, Me., his right name being James Bruce. He was an expert gambler and swindler, and occasionally made a "business trip" over the Eastern railroad. On his last trip he fleeced a man hailing from Limerick or Limington, Me., out of $60, jumped from the train at Lynn, and escaped to New York, his worthless life being ended by a bullet a day or two later. He might have been shot years before without any harm being done.

Mr. John Knights of Eliot a few days since killed a hog eighteen months old, which dressed 657 pounds.

The Tremont Gun Club, of Boston, have the last pigeon shoot of the season at Eliot to-day.

Important to the Sick.
OUR readers should bear in mind that Dr. Gage of Concord, "the man so celebrated for his wonderful cures," can be consulted at the Rockingham house, Portsmouth, Thursday, Dec. 7th. He has had many from this section to Concord, and his success is truly wonderful. We understand that he prescribed for Mrs. Samuel E. Meloon, of this city, without seeing her, yet with most astonishing results, as she is now beginning to walk after having been unable to do so for several year.

6 per Cent. Gold Bonds.
TOPEKA, SALINA & WESTERN
RAILROAD CO., OF KANSAS.
This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.
This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.
The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.
Subscriptions to these bonds may be made at the office of the contractor on the following terms:
For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*
This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.
Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this or question should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood invigorated.

258th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample 4c. cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or confiding with the author, who may be consulted on all diseases requiring skill and experience. Address

LYDIA E. PINKHAM'S VEGETABLE COMPOUND,

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Woman. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

It restores the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

Physicians Use It and Prescribe It Freely.

It removes faintness, flatulency, destroys all craving for stimulant, and relieves weakness of the stomach.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. **For the cure of Kidney Complaints of either sex this Compound is unsurpassed.**

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of Humors from the Blood, and give tone and strength to the system, of man woman or child. Insist on having it.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose 3ct. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

One of the most noteworthy of the illustrated books for children of the present season is "Around the House," with bright, jingling rhymes, by Mr. Edward Willet, and pictures in colors from designs by Mr. Charles Kendrick. In making books of this class, it too frequently happens that all the attention is given to the pictures, to the great neglect of the text. In this book, equal pains have been taken with both. Mr. Willet is one of the best known of the young journalists of New York, and in using his leisure from more serious work to write these taking rhymes for little ones, he has shown an appreciation for their pains and tastes, which is rare indeed among writers. Mr. Kendrick's versatile pencil is tested weekly on our illustrated papers, but he has never done better work than in these dainty bits of child life. The book is published by R. Worthington, New York.

A Stalwart Old Enemy.

One of the toughest old adversaries of human comfort, and most difficult to exterminate, is rheumatism. Many middle-aged people suffer torture with it, and the old folks who have it find it the pest of their lives. The case of a venerable lady of Lewistown, Mass., is of great interest to the victims of this tough old enemy. Mrs. Swett says: "I have been using Perry Davis's Pain Killer for about eight years. As soon as I apply Pain Killer I have almost immediate relief from pain."

Calendars and Compilations multiply yearly. Every taste can be gratified. We have this year another "George Eliot Calendar," filled with new selections from that abundant source of wit and wisdom, by the same graceful hand which gave the first one to the public. The editor of those choice poetic compilations "Quiet Hours" and "Sunshine in the Soul," has compiled a second series of poems under the latter title, (published by Roberts Brothers,) which is quite equal to its predecessors in carefulness of selection. It is a small volume,—small enough to slip in the pocket,—and yet it contains over one hundred poems, nearly every one of which is a gem in its way.

"Ladies' Tonic."

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription for ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free. Send stamp for names of those who have been cured.

"An Hour with Charlotte Bronte; or, Flowers from a Yorkshire Moor," is the title of a new work by Laura C. Holloway, of the Brooklyn *Eagle*. It is issued in beautiful style, and is adorned with a fine steel portrait of the novelist. It contains a biographical essay, many choice selections from the writings of Charlotte Bronte, and a number of her most interesting letters and poems. The author has lectured repeatedly on this subject, and has taken great pains to gather from original sources all the information that could be obtained concerning her heroine. The book is published by J. W. Bradley, No. 66 North Fourth street, Philadelphia.

Remember, if you want health and strength of mind and muscles, use Brown's Iron Bitters.

The St. Nicholas is one of the most attractive hotels in New York. Years cannot dim its freshness and popularity, and it must continue to be a prime favorite in spite of rivals. The secret of this lies in the high standard maintained throughout every department, the constant replenishings by the liberal management, and the excellence of its cuisine and service. The liberal amount of Boston patronage received by the St. Nicholas this season indicates in what esteem the hotel is held by the best people throughout New England.

For weak lungs, and spitting of blood, shortness of breath, consumption, night sweats and all lingering coughs, Dr. Pierce's "Golden Medical Discovery" is a sovereign remedy. Superior to cod liver oil. By druggists.

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years, but it is a *rare cure* for all Female Complaints, Sickness, Nervous Headache, Dyspepsia, and all weaknesses caused by those troublesome ailments which are so common to womankind. This is no *Patent Medicine*, but is prepared, after years of experience, and recommended, knowing that it will give new life to any broken-down, worn out or over-worked sufferer of the sex.

If you have tried other remedies without success, do not be discouraged, but give "LADIES' TONIC" a *single trial. It never fails* to give *quick* and *permanent relief.*

If you are troubled with any weakness or complaint common to our sex, lay aside the doctor's prescriptions for once, and try "Ladies' Tonic," which we guarantee to positively cure you. One Bottle is Sufficient.

Women's Medical Institute is an Association of *Writers and Makers of years' experience*, who give advice and answer letters from ladies, *free.*

Advice will be given free *any case of Female Weakness* or inability which "Ladies' Tonic" will not cure. This is a *bona fide offer*, and *responsible* ladies who know *from experience* what "LADIES' TONIC" can do send stamp for circular.

BEYOND THE RIVER.

Away Across the Mississippi is Held a Convincing Conversation.

"I tell you sir, that they are one of the nearest combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgment to some respect."

"Oh, I don't know, responded the first speaker's friend, with a little yawn, as though he didn't take much interest in the subject, "I have never been able to see much difference in those things. They are all pretty nearly the same size, and made of about the same stuff."

The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the sang office of Dr. M. P. Flowers, one of the leading physicians of the State, who followed up the vein in which he had introduced it substantially in these words:

"Nonsense, that is the rignarole of a boy, or rather of a man who either doesn't know or doesn't care what he says. Those things, as you call them, are just as different as the moon is from green cheese. Now, liniments, lotions and ointments are very good in most cases for the relief of pain or inflammation. But, in the first place they are unclean. They soil the hands and the linen, besides being always out of reach when they are most wanted."

"Well, my dear Doctor," sighed the traveler from the North, "what would you have? This is a wretched world anyhow, and nothing is ever at hand when it is wanted. "You can't suggest anything—"

"Yes, I can," broke in the Doctor, thumping the table with his fist, "I can suggest BENSON'S CAPCINE POROUS PLASTER. I have tried it on my patients, and I have tried it on myself for an attack of Pneumonia, and in all cases relief was followed in from three to forty-eight hours. The old plasters are stage coaches—the Capcine is a telegraphic dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded action of the Kidney's, and—"

"I give it up, Doctor, and in case of need I'll buy Benson's," said the traveler, pleasantly.

In the center of the genuine is CUT the word CAPCINE.

THE PORTSMOUTH DAILY CHRONICLE

(Established August 2d, 1869,)

is Published Every Morning, Sundays excepted, at No. 7 Exchange Building, Pleasant street, opposite the Post Office, by the

Chronicle and Gazette Publishing Company.

TERMS $6.00 PER YEAR.

The New Hampshire Gazette

(The Oldest Newspaper in the United States, established Oct. 7th, 1756,)

is published every Thursday at the same office. Terms, $1.50 per year; $2.00 per year, if not paid in advance.

ADVERTISEMENTS inserted on reasonable terms, in either or both papers. The GAZETTE, having a large country (in addition to its local) circulation, is an excellent medium of advertising. A liberal reduction made when advertisements appear in both papers.

☞ Correspondence from neighboring towns containing items of public interest, will be gladly received. All communications should be addressed and all checks made payable to the

CHRONICLE & GAZETTE PUBLISHING CO.,

PORTSMOUTH, N. H.

The Job Printing Business is conducted in the same office by Mr. Richard I. Walden, who keeps on hand a large and and well-selected stock of all materials required in his line.

Mr. J. H. Bates, Newspaper Advertising Agent, 41 Park Row (*Times* building,) New York, is authorized to contract for advertisements in the CHRONICLE and GAZETTE, at our best rates.

THE

New Hampshire Gazette !

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

SEEK

health and avoid sickness. Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong?

You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of BROWN' IRON BITTERS, and taking it regularly according to directions.

Mansfield, Ohio, Nov. 26, 1881.

Gentlemen:—I have suffered with pain in my side and back, and great soreness on my breast, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but I got no relief. I thought I would try Brown's Iron Bitters; I have now taken one bottle and a half and am about well—pain in side and back all gone—soreness all out of my breast, and I have a good appetite, and am gaining in strength and flesh. It can justly be called the *king of medicines*.

JOHN K. ALLENDER.

BROWN'S IRON BITTERS is composed of Iron in soluble form; Cinchona the great tonic, together with other standard remedies, making a remarkable non-alcoholic tonic, which will cure Dyspepsia, Indigestion, Malaria, Weakness, and relieve all Lung and Kidney diseases.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS.

Why suffer with Headache? Why Boils? Why rave with that terrible Rheumatism? Why toss on that bed of pain with Neuralgia? What makes you tremble as your nerves are all unstrung and used up? Your system needs nature to repair the damage which your excesses have caused. *Sulphur Bitters is not a cheap run or poor whiskey drink, to be taken by the glass, like other preparations which stimulate only.* Sulphur Bitters is composed of the choicest Roots, Barks and Herbs, combined with the Extract of SULPHUR in such proportions as to make it NATURE'S GREAT NERVINE.

SULPHUR Bitters

The Dose is small—only a Teaspoonful. It is the *best and cheapest* medicine. Try it and you will be satisfied. Get it of your druggist. DON'T WAIT. GET IT AT ONCE.

Daily Chronicle.

"All Adrift: or, the Goldwing Club;" by Oliver Optic, author of "Young America Abroad," etc., with eight illustrations. Boston; Lee & Shepard; price $1.25.

This is the first volume of a new set of books by this well-known author, to be known as "The Boat-Builder Series." The story gives the account of a boy who endeavors to help support the family. It opens upon Lake Champlain, and its scenes are upon the water. Like the stories by this writer which have preceded it, it is full of lively interest for the boys, who never tire of reading Oliver Optic any more than Oliver exhausts his fund of literary love for boys' benefit. For sale by Goodrich.

"Female Complaints."

Dr. R. V. Pierce, Buffalo, N. Y.: Dear Sis—I was sick for six years, and could scarcely walk about the house. My breath was short and I suffered from pain in my breast and stomach all the time; also from palpitation and an internal fever, or burning sensation, and experienced frequent smothering or choking sensations. I also suffered from pain low down across my bowels and in my back, and was much reduced in flesh. I have used your "Golden Medical Discovery" and "Favorite Prescription," and feel that I am well. Very respectfully, Delilah B. McMillan, Arlington, Ga. *b*

A passenger train on the Lehigh Valley railroad collided with a freight train on a side track at Elmira, N. Y., on the 5th inst., owing to a switchman's blunder. Both engines, several freight cars, and the mail, express and baggage cars of the passenger train, were destroyed, the wreck taking fire. No passengers were seriously hurt. The engineer and fireman of the freight train were pinned under the wreck and burned to death; the fireman of the passenger train was fatally hurt, but the engineer may recover.

"That wonderful catholicon known as Mrs. Lydia E. Pinkham's Vegetable Compound has given the lady a world-wide reputation for doing good. It is like a living spring to the vital constitution. Her blood purifier will do more to cleanse the channels of the circulation and purify the life of the body than all the sanitary devices of the board of health.

William Ramsey on the 4th inst. shot Volney Clark dead at Ranklin Depot, Cocke county, Tenn., and then killed himself. Family troubles were the cause.

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

During the Late War

The Government made its Best Arms at Springfield, Mass.—What Mr. David Clark, Inspector U. S. Armory There Recommends.

Your reporter found Inspector Clark at his office on the Armory grounds busily examining "receivers" for the regulation army rifles. However, he was as willing to say a word for the merits of health and strength restoratives as to prove the merits of implements of death. He said: "My business keeps me closely confined to the Armory and its doors. As a result, I've suffered considerably from indigestion and biliousness, but I find that Dr. Kennedy's FAVORITE REMEDY is a most excellent medicine for these complaints. I most cordially recommend it, for I am acquainted with its worth. Dr. Kennedy's FAVORITE REMEDY is used a great deal by the machinists in the U. S. Armory here."

While FAVORITE REMEDY is a specific in Kidney and Bladder diseases, it is equally valuable in cases of Bilious Disorders and Constipation of the Bowels. Try it. Your druggist has it, and its cost is only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The Doctor would have it understood that, while he is engaged in the introduction of his medicine, FAVORITE REMEDY, he still continues the practice of his profession, but confines himself exclusively to office practice. He treats all diseases and performs all the minor and capital operations of surgery.

Perhaps no medicine is so universally required as a good catharic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Caring sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

FRIDAY, DEC. 8. 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

News and Notes.

Mrs. Nesbit, a widow aged seventy years, and mother-in-law of Samuel Foster of Duxbury, Mass., in whose family she lived, committed suicide Dec. 6th. She appeared in her usual health, physically and mentally, and got up and dressed herself. She was found in an adjoining room lying on the floor with her throat cut and a razor in her hand. No cause known.

Thomas Morris, of North Quincy, Mass., had his left hand and wrist blown to pieces on the 5th inst. by the bursting of his gun while out shooting.

The British ship Fiona has been lost at sea, with all hands.

A collier foundered off Berwick, Eng., Dec. 6th, and ten persons were drowned.

Joseph Walker, a colored man, was fatally beaten by two burglars in Chicago on the 6th inst., while defending the residence of M. E. Ingalls from robbery.

Hon. Frederick Billings of Woodstock, Vt., has completed and presented to the Congregational church at Woodstock an elegant and finely finished parsonage, costing $15,000. He had previously built a chapel for the society, at an expense of $12,000.

The life-saving crew of Station 6, at Provincetown, Mass., had a rough experience in rescuing the crew of the schooner Oliver Ames, which went ashore on Provincetown bar at three o'clock in the morning on the 3d inst. A tremendous sea was running, and the surf-boat was twice capsized close to the shore, and a third time still further out, the captain of the station narrowly escaping drowning; on the fourth attempt the boat got clear of the surf, and took off the crew of the stranded vessel.

At Baltimore, Md., Dec. 6th, Dr. Mackey of England was married to Miss Fannie Monroe Davies. At almost the same hour the bride's cousin, Miss Ruth Monroe Gouverneur, was married to Dr. Frederick M. Johnson of Frederick, Md., the ceremony taking place at the Church of the Ascension in Washington, D. C. The press despatches say: "These two weddings are of special interest, the brides being descendants of President James Monroe, and their marriages the first that have taken place among his descendants since 1820, when his daughter, Miss Maria Monroe, was wedded to her cousin, Mr. Samuel Gouverneur of New York, at the White house." If there have been no marriages of President Monroe's descendants for sixty-two years, the new brides must be pretty well along in age.

Books, Magazine, Etc.

"Water-Analysis: a handbook for the water-drinkers, by G. L. Austin, M. D." Boston; Lee & Shepard.

This handbook, uniform in size with many other handbooks previously issued by this firm, affords much information as to the component parts of a fluid that some of us so generously use. It tells us of the purity and impurities of waters, and has statistical and other facts of much interest to every one. Sold by M. Goodrich; price fifty cents.

"Our Wild Indians," by Col. Richard I. Dodge, is a book of 650 pages, extensively illustrated. Col. Dodge spent thirty-three years in active service on the frontier, and his book is strongly endorsed by Gen. Sherman as the only reliable picture of Indian life in peace and war ever presented to the public.

"Our Little Ones; illustrated stories and poems for little people;" William T. Adams (Oliver Optic) editor, with 380 illustrations. Boston; Lee & Shepard; price $1.75.

The contents of this work for little ones are entirely original, coming from writers of acknowledged ability in juvenile literature. The stories will interest children, the poems will attract their attention, and the pictures gratify their taste. The illustrations are especially designed and engraved for the work, which has not a page between its beautifully-ornamented covers which will not delight the happy child who has it for a holiday gift. Sold by M. Goodrich.

"Hester Stanley at St. Marks;" by Harriet Prescott Spofford, author of the "Marquis of Carabas," etc.; with illustrations. Boston; Roberts Brothers; price $1.25.

Hester's father, an American merchant living in the South Sea islands, sends his daughter to St. Mark's school to be there properly taught. From an almost incorrigible spoiled child she becomes a wonderfully proficient scholar. The story is in Mrs. Spofford's interesting style, and the girls who have had a boarding school experience will read the book with suggestive memories. Sold by W. G. Myers.

The "North American Review" for December has papers on "the health of American women," by Dio Lewis, Elizabeth Cady Stanton and James Read Chadwick, M. D., and an interesting paper on "Constitutional Prohibition in Iowa" by Gov. B. R. Sherman. Gen. Grant writes as to Fitz John Porter's "undeserved stigma." Richard A. Proctor treats of the influence of food on civilization, Prof. Geo. P. Fisher tells of the decline in clerical authority, and a series of papers entitled "Success on the Stage" appears from the pens of John McCullough, Helena Modjeska, Joe Jefferson, Lawrence Barrett, Maggie Mitchell and Wm. Warren. The yearly subscription to the North American Review is five dollars, and its contributors rank among the best writers in the country.

"Paul and Persis, or the Revolutionary Struggle in the Mohawk Valley;" by Mary E. Brush. Boston; Lee & Shepard. Sold in Portsmouth by M. Goodrich, price $1.25.

Mrs. Brush's story is of the times which tried men's souls, when frontier life with Indian raids and other exciting episodes was the lot of the personages in the tale. The book will interest the young reader from its graphic description of scenes in the last century, concerning which, of late, we have had but few publications. It is finely printed, has illuminated covers, and will be eagerly perused by the coming men of today.

For the coming holidays Lee & Shepard of Boston have issued beautifully arranged editions of several familiar poems. "Curfew must not ring tonight," the wonderful ballad by Rose Hartwick Thorpe, has appeared with most appropriate illustrations of the many touching incidents of this rare composition. "That Glorious Song of Old," by Edmund Hamilton Sears, illustrated by Alfred Fredericks, and Tennyson's "Ring Out, Wild Bells," illustrated from designs by Miss Humphrey, each engraved under the supervision of George T. Andrew, are splendid specimens of good taste and excellence in art. We commend these books to those seeking for appropriate holiday gifts. They are sold by Goodrich at $1.50 per volume.

BRIGHTON CATTLE MARKET.

For week ending Wednesday, Dec. 6.

[Reported for the Boston Journal.]

Amount of stock at market—Cattle 1211; Sheep and Lambs 4200; Swine 14,544; Veals 45; Horses 86; number of western cattle 871; eastern and northern cattle, milch cows, etc., 340.

Prices of Beef Cattle ℔ 100 lbs., live weight—Extra quality $7 60 @ 7 70; first quality $6 60 @ 6 87½; second quality $5 00 @ 5 87½; third quality $4 00 @ 4 87½; poorest grades of coarse oxen, bulls, etc., $3 50 @ 3 87½.

Brighton hides 9½ @ 10c ℔ lb.

Brighton tallow 5½c ℔ lb.

Country hides, heavy ones 8½c ℔ lb; light ones, 8½c ℔ lb.

Country tallow 4½ @ 5c ℔ lb.

Calf skins 12 @ 12½c ℔ lb.

Sheep skins 25 @ $1 25 each.

Lamb skins 75 @ $1 25 each.

The quality of cattle in market this week from the west was of a better grade than those in one week ago. Trade has been slow, and prices remain unchanged from those quoted one week ago. They were but few very extra cattle at beeves in market, prices for the larger portion of them ranging from 5 @ 6½c ℔ lb live weight. Cattle cost higher at the west, but the market here would not warrant an advance. The supply brought in, though small for the week, was full as large as the demand required.

Working Oxen—The demand for working oxen has not been very active and a few pairs each week is all the market requires, extra cattle selling at $150 @ 175, common grades and small cattle at $65 @ 120 ℔ pair.

Store Cattle—Only a light supply in market. We note prices of yearlings at 4½ @ 14; 2-year olds $18 @ 28; 3-year olds $25 @ 40 ℔ head. Prices for small cattle depend much upon their value for beef.

Milch Cows and Springers—Extra cows are in fair demand at prices ranging from $55 @ 80; ordinary grades $35 @ 50; springers $18 @ 65 ℔ head.

Veal Calves—Good ones sell well at 5 @ 7½c, poor grades 2½ @ 4½c ℔ lb. live weight.

Sheep and Lambs—Those from the west were owned by G W Hollis & Co. Sheep costing from 5 @ 5½c, lambs from 5 @ 5½c ℔ lb. live weight, landed at the yards. There were but few from Maine. During the winter months the supply will come principally from the west.

Swine—Store Pigs—Not much call for them; selling at 6 @ 10c ℔ lb. live weight, or from $1 50 @ 5 ℔ head. Western fat hogs cost 7 @ 7½c ℔ lb. live weight, landed at the slaughter houses.

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an Incurable Lung Disease or Consumption. "Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which frequent and Public Speaking are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cts a box everywhere. eod4wtjan4

What's the Use of Talking?

There is no denying that SOZODONT is the best preparation for the mouth and teeth. Preparations, like snow-flakes in number, have appeared, but the public faith is still strong in the virtues of SOZODONT. Its use grows yearly.

On Sunday evening, in the North church, Rev. Mr. McGinley will give a lecture upon the public school, addressed particularly to teachers, parents, and all interested in the schools. It is a subject of general interest, and will doubtless call out a large audience. All are invited.

In Biddeford, Dec. 6th, a French boy nine years old, named Joseph Lafayette, was caught by one leg in an elevator of the Pepperell mill, and had the flesh stripped almost entirely off from the knee to the ankle.

Charles Wallingford, station baggage master at Great Falls, while jumping on a freight train on the night of the 6th inst. fell under the wheels, and had one foot cut off.

At Rochester on Wednesday night, the 6th inst., a boy named George Rogers, thirteen years old, was stealing a ride on a Boston & Maine freight train, when a smash-up occurred, and one of his legs was broken in four places and the other in three; his body was also bruised, and his hurts were supposed to be fatal.

The Boston & Maine railroad company are to build a new station at Salmon Falls at once, a much need improvement.

PROSPECTUS FOR 1883.

A FIRST-CLASS Family Magazine.

LIPPINCOTT'S MAGAZINE,

A POPULAR MONTHLY OF GENERAL LITERATURE.

The distinctive reputation of LIPPINCOTT'S MAGAZINE as "eminently readable" will, it is trusted, be confirmed and extended during the coming year. The special aim of its conductors is to secure such treatment of the great variety of topics embraced within its scope as shall render it attractive to the general mass of intelligent readers, a favorite in the family circle, and a means of culture as well as of entertainment.

While fiction, in the form of serials and of short stories, holds a prominent place in its pages, it has gained particular notice by its skete es of travel and adventure, studies of life and character, and articles on natural history and other scientific subjects, written with the freshness that comes from personal observation and experience, in a lively style, and with abundant anecdotical illustrations.

One of the chief attractions will be a fascinating SERIAL STORY, to commence in the January number, entitled

"The Jewel in the Lotos,"

by Mary Agnes Tincker, author of "Signor Monaldini's Niece," "By the Tiber," etc., in which the interest will be found to centre on three finely contrasted female characters, Italian, English, and American, and which, besides many exquisite pictures of Italian life and scenery, embodies the writer's matured views on some of the leading questions of the day.

In the other parts of the Magazine the union of literary excellence with popular attractiveness will be steadily maintained.

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. No other articles take hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "It's the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1878.

Messrs. C. I. Hood & Co.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.

Yours truly, C. CHURCHILL,
(Firm of Carter & Churchill.)

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, Dec. 7th, Mayor Treat in the chair:

Present the full board.

Records of last meeting were read and approved.

Among the citizens present were Capt. John G. Moses and Col. Wm. H. Sise.

Alderman Martin spoke concerning the ringing of the nine o'clock bell; said that as an old resident of the city he was conversant with the sentiments of the people, and he believed it to be the unanimous desire that the bell be rung; he moved that an order to that effect be passed, which was unanimously agreed to.

Ex-Mayor Sise presented to the board several numerously-signed petitions, asking that the ringing of the nine o'clock bell be continued.

Ald. Martin objected to the reception of the petitions, for the reason that the subject had already been disposed of.

Col. Sise maintained the propriety of the board receiving the petitions, which were largely signed by the best people of the city; and Ald. Caswell moved that the petitions be accepted and placed on file.

Ald. Hackett said a great deal of feeling had been exhibited on the part of the citizens concerning this matter; he thought that in courtesy to the signers, the petitions should be accepted and filed; it was not treating the citizens with respect to refuse to receive a courteously-worded petition.

Ald. Sampson said a great turmoil had been raised about the matter, which was only a temporary suspension anyway.

Ald. Anderson said that on account of sickness the board had innocently voted to suspend the ringing of the bell, and there was no need of any petitions being sent in, for the ringing would have been ordered to be resumed just the same. Some unjust slanders and harsh language had been used in the newspapers by those who got up these petitions.

Ex-Mayor Sise said he had nothing whatever to do with the harsh statements made in the papers.

Mayor Treat said that any citizen had a right to present a petition to the board.

Ald. Caswell said he was an alderman from ward three, and he claimed the right to speak for the people of his ward and of the city.

Ald. Sampson wanted to know what all this hooroosch was about. It was nothing but a temporary suspension of the bell anyway.

Ald. Hackett suggested the propriety of showing some respect for the feelings of the community.

Ald. Martin said he didn't want any notice sent up from the people, teaching the aldermen their duty; they knew it without any such instruction.

Col. Sise said he was not there to teach the aldermen their duty, but to present petitions on behalf of a large number of citizens. If there was any person sick, no objection could be made to the stopping of the bell.

Ald. Martin said the stoppage was not on account of any particular person being sick; but since it was stopped he had been thanked by some person for stopping it. He didn't want it to go on the record that in 1882 there was great excitement in regard to the ringing of the North church bell.

Ald. Stavers said there was no need of any more mention of the matter, but at the same time he did not object to the reception of the petitions.

Ald. Caswell's motion was seconded by Ald. Green of ward four, and passed by hand vote, Aldermen Martin, Sampson and Atwell voting in the negative.

Bills from the several departments, amounting to $2575.14, were ordered to be paid, also bill of Floron Barri for $205.70, for drain pipe, and bill of Street Commissioner Ham for $8.35.

Petition of Charles E. Boynton for relay of sidewalk on Bow street, was referred.

Petition of James F. Adams for use of hall in south ward building for a ball by the colored people, was referred to the committee on city lands and buildings.

It was voted to accept a street light erected at private expense at the junction of Summer and Chatham streets.

The chief engineer of the fire department asked the location of the hook and ladder truck in some more convenient place. Referred.

The committee on fire department were empowered to sell some old stoves and other articles.

The matter of connecting the marshal's office with the breweries by telephone was referred.

Adjourned.

POLICE COURT--BELCHER, J.

THURSDAY, Dec. 7th.

George Laskey, for drunkenness, was ordered to pay $5 fine and $6.90 costs, failing to do which he will pay a visit to the county farm.

Laskey then "disclosed" on a Water street grocer of whom he alleged he bought the liquor on which he got drunk; but Laskey swore he bought the liquor in the morning on the 6th, while the police saw him in a state of sobriety at nine o'clock in the evening of that day, and as it was manifestly absurd to suppose that Mr. Laskey would keep sober a whole day while he had rum enough in his possession to get drunk on, the storekeeper was discharged.

Mr. John Laighton's reduction in the prices of teas is *fifteen* per cent, instead of five as was stated in his advertisement yesterday through the dropping out of a figure.

Mrs. Richard G. Haley, an elderly lady living on Manning street, while taking down a clothes-line on the 7th inst. had a fall, and broke one of her thighs near the hip.

"Don't shoot, Davy; if it's you I'll come down," was what the coon said to Davy Crockett when the famous hunter was looking up in the tree. A good deal like the action of the bell-muzzling members of the board of aldermen on Thursday evening—they made haste to scramble down from their lofty perch before the people could get a shot at 'em.

Schooner Josephine, of Rockport, Mass., brought in 2500 lbs. of fish on the 7th inst. John Caswell & Co. bought the fare.

The dories and fishing gear were put on board the schooner Albert Woodbury on Thursday last, making her all ready to commence winter fishing on the arrival of bait and decent weather.

Kearsarge Engine Co., No. 3, will give their ninth annual ball in Franklin hall on Friday evening, Dec. 29th. A premenade concert of an hour's duration will be given by Harlow's orchestra of this city and Reinewald & Taylor's orchestra of Dover combined, beginning at eight o'clock; the grand march will be called on promptly at nine. Tickets at $1 each can be procured of members of the company. All the previous balls given by this organization have been well conducted and enjoyable, and this one it is intended shall be better than any that have preceded. The boys deserve well of the public, and should have no difficulty in disposing of all the tickets.

The ladies of the Methodist society of South Eliot gave an entertainment and fair at Brooks' hall in that town on the evening of the 6th inst., for the benefit of the church, the result being a good time for the attendants, and a pecuniary success for the society. The choir of the church, which is said to be one of the best in York county, supplied some excellent music.

The gross earnings of the Eastern railroad during the month of October, as officially reported, were $322,700.47, against $307,574.14 for the corresponding month in 1881, an increase of $15,126.33.

A row of piles has been driven in the dock alongside the Vaughan street extension, about thirty feet from the fence erected by the city, marking the space which is to be filled in by the municipality in settlement of the Mason suits. It will take several thousand loads of rubbish or sand to do the filling, and then the wharf will not belong to the city.

We were favored with a large amount of assorted weather on Thursday last,—first a raw, chilling wind, then some rain, then a hailstorm, and finally a fall of snow. Good weather was the only kind not to be found in the consignment.

The comet is still plainly to be seen in the southern heavens from about two o'clock till daylight. It is but a poor apology of its former magnificent self, and yet it is still brilliant enough to be called a "great comet" in ordinary times.

"Railroad day" occurs this year on Wednesday, Dec. 13th, when the stockholders and bondholders of the Eastern railroad will meet in Boston to elect a board of directors, and Portsmouth people will spend thousands of dollars in Boston for goods which could be as cheaply procured at home.

6 per Cent. Gold Bonds.

TOPEKA, SALINA & WESTERN
RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road bed will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

Principal Contractor.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from Indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new and medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can have much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

LYDIA E. PINKHAM'S

VEGETABLE COMPOUND,

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Woman. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

It revives the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

Physicians Use It and Prescribe It Freely.

It removes faintness, flatulency, destroys all craving for stimulant, and relieves weakness of the stomach.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of Humors from the Blood, and give tone and strength to the system, of man woman or child. Insist on having it.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price, either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose 3c. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

Big Doctors.

There is a quiet laugh at the expense of big doctors in Indianapolis. Ex-Senator Hendricks was recently reported critically ill of erysipelas, with gangrenous symptoms,—certain, the great doctors of Indianapolis and Louisville said, to carry him to a speedy death. The senator prepared for his fate calmly, and resignedly waited for the grim messenger. But he did not proceed to die. The day to which the scientific doctors limited his life, a blunt old democratic friend, who was a country practitioner, came to pay his distinguished friend a farewell visit. He looked at the erysipelas of the dying statesman, and suddenly said, with an expressive grunt, "Nothing but a bile, by ——!" The next day the statesman was at the polls, voting the democratic ticket. The distinguished scientific physicians are very quiet on the subject. We have the documents for this story.—*Dayton Jour.*

A Stalwart Old Enemy.

One of the toughest old adversaries of human comfort, and most difficult to exterminate, is rheumatism. Many middle-aged people suffer torture with it, and the old folks who have it find it the pest of their lives. The case of a venerable lady of Lewistown, Mass., is of great interest to the victims of this tough old enemy. Mrs. Swett says: "I have been using Perry Davis's Pain Killer for about eight years. As soon as I apply Pain Killer I have almost immediate relief from pain."

Eben B. Whitman was fatally injured in Currier's shipyard at Newburyport on the 5th inst., by a fall into the hold of a ship on the stocks.

"Ladies' Tonic."

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription. Ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free. Send stamp for names of those who have been cured.

The Ohio canvassing board, in the Wallace-McKinley contest in the 18th congressional district, decided that McKinley (republican) was elected by eight majority, and issued a certificate of election accordingly. In the seventh district, Morey, republican, was declared elected. In the 12th, Hart, republican. No other elections in that state were contested.

***"Wise men say nothing in dangerous times." Wise men use nothing in dangerous diseases but the best and most approved remedies. Thus Kidney-Wort is employed universally in cases of diseased liver, kidney and bowels. It will cost you but a trifle to try it, and the result will be most delightful.

A blacksmith in Vershire, Vt., has a pair of logging chains which were some time ago welded together by lightning.

A good name at home is a tower of strength abroad. Ten times as much Hood's Sarsaparilla used in Lowell as of any other.

Judson H. Rust of Brandon, Vt., recently shot and killed himself at Fort Douglass, Wyoming territory.

What A Pity

that so many otherwise attractive, polite and particular people afflict their friends by the foul and disagreeable odor of their breath, it is mainly caused by disordered digestion and can be corrected by removing the cause, by using that pure medicine Sulphur Bitters.—*Health Magazine.*

The steamer Morning Star exploded her boiler on the Mississippi river, above New Orleans, on the morning of the 6th inst., instantly killing three persons, blowing overboard eight, who were drowned, and fatally scalding six.

Remember, if you want health and strength of mind and muscles, use Brown's Iron Bitters.

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weaknesses caused by these irregularities which are so common to womankind. This is no *Patent Medicine*, but is a large bottle of years of experience, and remember, knowing that it will give new life to any broken-down, worn out or overtasked sister of the sex.

If you have tried other remedies without success, do not be discouraged, but give "LADIES' TONIC" a *single trial. It never fails to give quick and permanent relief.*

If you are troubled with any weakness or complaint common to your sex, write the doctors, you need advice at once, and try "Ladies' Tonic," which we guarantee will positively cure you. One Bottle is Sufficient.

Women's Medical Institute is an Association of Women and Mothers of years' experience, who give advice and answer letters from ladies. *Free.*

You will be given, for any case of Female Weakness or Inability which "Ladies' Tonic" will not cure. This is a bonafide offer, and we will give the name of those who know from *experience* what "LADIES' TONIC" can do. Send stamp for circular.

Sold by Druggists. Price, $1.00

BEYOND THE RIVER.

Away Across the Mississippi is Held a Convincing Conversation.

"I tell you sir, that they are one of the nearest combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgment to some respect."

"Oh, I don't know, responded the first speaker's friend, with a little yawn, as though he didn't take much interest in the subject, "I have never been able to see much difference in those things. They are all pretty nearly the same size, and made of about the same stuff."

The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the snug office of Dr. M. P. Flowers, one of the leading physicians of the State, who followed up the vein in which he had introduced it substantially in these words:

"Nonsense, that is the rigmarole of a boy, or rather of a man who either doesn't know or doesn't care what he says. Those things, as you call them, are just as different as the moon is from green cheese. Now, liniments, lotions and ointments are very good in most cases for the relief of pain or inflammation. But, in the first place they are unclean. They soil the hands and the linen, besides being always out of reach when they are most wanted."

"Well, my dear Doctor," sighed the traveler from the North, "what would you have? This is a wrecked world anyhow, and nothing is ever at hand when it is wanted. "You can't suggest anything——"

"Yes, I can," broke in the Doctor, thumping the table with his fist, "I can suggest BENSON'S CAPCINE POROUS PLASTER. I have tried it on my patients, and I have tried it on myself for an attack of Pneumonia, and in all cases relief has followed in from three to forty-eight hours. The old plasters are stage coaches—the Capcine is a telegraphic dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded action of the Kidney's, and——"

"I give it up, Doctor, and in case of need I'll buy Benson's," said the traveler, pleasantly.

In the center of the genuine is CUT the word CAPCINE.

SEEK

health and avoid sickness. Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong?

You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of BROWN' IRON BITTERS, and taking it regularly according to directions.

Mansfield, Ohio, Nov. 26, 1881.
Gentlemen:—I have suffered with pain in my side and back, and great soreness on my breast, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but I got no relief. I thought I would try Brown's Iron Bitters; I have now taken one bottle and a half and am about well—pain in side and back all gone—soreness all out of my breast, and I have a good appetite, and am gaining in strength and flesh. It can justly be called the *king of medicines*.
JOHN K. ALLENDER.

BROWN'S IRON BITTERS is composed of Iron in soluble form; Cinchona the great tonic, together with other standard remedies, making a remarkable non-alcoholic tonic, which will cure Dyspepsia, Indigestion, Malaria, Weakness, and relieve all Lung and Kidney diseases.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS.

Why suffer with Boils? Why rave with that terrible Headache? Why lay and toss on that bed of pain, with Rheumatism? What makes you tremble so? Your nerves are all out of order. It is a terrible disease. Nature cries out against such cruelty. Give her a gentle soothing tonic to assist her in her work of repairing the damage which your excesses have caused. Try Sulphur Bitters; it is not a cheap rum or poor whiskey drink, but is the choicest tonic ever made, and is composed of the purest Sulphur Bitters, Jamaica Ginger, Calisaya Bark, Iron, and a gentle purgative, all combined with the Extracts of Roots, Herbs and Berries, in such proportions as to make it NATURE'S GREAT MEDICINE, TO DESTROY THE CAUSE OF SICKNESS.

SULPHUR Bitters

The Dose is small—only a Teaspoonful. It is the *best and cheapest* medicine. Try it and you will be satisfied. Get it of your druggist. DON'T WAIT. GET IT AT ONCE

The auction store of H. P. Copp & Co. at Laconia was burglarized Tuesday night, Dec. 5th, and $250 worth of goods stolen, consisting of silver ware, watch, revolvers, breech-loading shot guns, etc. Entrance was effected by removing a screw in the lock of an outside door, which was accomplished during an auction sale the evening previous. There is no clue to the thieves.

The millinery establishment of Miss F. J. Anthony at Laconia was entered by burglars Wednesday night, Dec. 6th, and some goods stolen, after which a fire was set, but went out of its own accord. There is no clue to the perpetrators.

"Six Girls: a home story, by Fannie Belle Irving;" 1 vol., cloth, 16mo, 455 pages. Estes & Lauriat, publishers, Boston.

This is a home story wherein is portrayed domestic life in its purity and beauty. The sentiment which permeates the book is healthful, while the style is pleasing and attractive. The girls talk like a book, not with extravagant or unrefined expressions, but as young ladies should converse. The book has eight well designed illustrations by F. T. Merrill, whose pictures in Miss Alcott's "Little Women" were so greatly appreciated and admired. Mercer Goodrich has it on his counters, price $1.50.

—A man writes to an editor for $4 "because he is so terribly short," and gets in reply the heartless response: "Do as I do; stand up on a chair."

Life is too short to try half a dozen different kinds of "sure cures," when one suffers with a cough or cold stick to the best and use Dr. Bull's Cough Syrup; it will cure your cough and never disappoint you. All druggists sell it at twenty-five cents a bottle.

Judge Samuel T. Worcester, brother of Joseph E. Worcester, the lexicographer, died in Nashua Dec. 6th, at the age of seventy-eight years. He was born in Hollis, and graduated at Harvard in 1830. He was at one time a congressman from Ohio, and previously judge of the court of common pleas in that state.

A GOOD INVESTMENT. — One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a rousing appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. L. Hood & Co., Lowell, Mass.

The Penobscot river was open to the passage of steamers as far as Bangor on the 6th.

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as biliousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, etc. The success which has attended the use of Swedish Botanic Compound warrants us to say that for purifying and enriching the blood, creating an appetite, strengthening and renovating the whole rystem, nothing surpasses that great semedy.

An unknown steamer struck a rock off Penzance, Eng., Dec. 8th, and went down with all hands.

Unity of action, concord, sympathy and goodfellowship are admirable traits in human character; but they will not heal our physical infirmitiés. Catarrh, for example, stubbornly resists their effects or influence. In fact this malady withstands all of its would-be destroyers, except Ely's Cream Balm. "Solitary and alone" this Balm stands as the only recognized and infallible specific for catarrh. "For fifteen years," says J. B. Chase, St. Denis Hotel, B'wy, and 11th st., N. Y., "I have been greatly annoyed with a disgusting catarrh. My sense of smell, not to mention other troubles, became much impaired. A thorough use of Ely's Cream Balm has cured me of these troubles." It is not a liquid or snuff, and is easily applied. Only 50 cents a package.

"And wilt thou not reach out a friendly arm
To raise me from amidst this plunge of sorrow?"

A friendly and saving arm is extended to all who are plunged into sorrow because they have heart disease. For a dollar you can buy a bottle of Dr. Graves' Heart Regulator, an infallible cure for this terrifying disease.

During the Late War

The Government made its Best Arms at Springfield, Mass.—What Mr. David Clark, Inspector U. S. Armory There Recommends.

Your reporter found Inspector Clark at his office on the Armory grounds busily examining "receivers" for the regulation army rifles. However, he was as willing to say a word for the merits of health and strength restoratives as to prove the merits of implements of death. He said: "My business keeps me closely confined to the Armory and its doors. As a result, I've suffered considerably from indigestion and biliousness, but I find that Dr. Kennedy's FAVORITE REMEDY is a most excellent medicine for these complaints. I most cordially recommend it, for I am acquainted with its worth. Dr. Kennedy's FAVORITE REMEDY is used a great deal by the machinists in the U. S. Armory here."

While FAVORITE REMEDY is a specific in Kidney and Bladder diseases, it is equally valuable in cases of Bilious Disorders and Constipation of the Bowels. Try it. Your druggist has it, and its cost is only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The Doctor would have it understood that, while he is engaged in the introduction of his medicine, FAVORITE REMEDY, he still continues the practice of his profession, but confines himself exclusively to *office* practice. He treats all diseases and performs all the minor and capital operations of surgery.

Perhaps no medicine is so universally required as a good catharic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

At Nashville, Tenn., on the 6th inst., T. H. Jones, treasurer of the Royal Benefit association (a matrimonial organization,) was arrested, and sent to jail for fraud. The concern suspended on Tuesday, the 5th, and several parties connected with similar organizations have fled.

AROUND HOME.

Aldermen Caswell and Hackett put themselves right with the people on the bell question, in the discussion last Thursday evening.

Mr. Walter J. Thacher, brother of Joseph H. Thacher of this city, died very suddenly of heart disease in Boston on the 8th inst. He was about forty years old, and unmarried.

Wm. Wallace Downs, grocer, doing business as Wm. Downs & Son, on Friday made an assignment for the benefit of all his creditors, one or more small attachments having been put on his stock.

Mrs. Cleaves, widow of the late Deacon Samuel Cleaves, died very suddenly on Friday. She retired the previous night in her usual health, but was taken ill at about four o'clock Friday morning, and died soon after noon. Her age was eighty-seven years.

On Thursday evening the board of aldermen unanimously voted [to rescind their order for the discontinuance of the nine o'clock bell. In doing this they will receive the thanks of a very large proportion af the citizens.—*Journal.*

Not a bit of it; they will receive no thanks at all—that is, those aldermen who were responsible for the disgraceful piece of trickery by which the bell was stopped will not, for they were simply forced to back down by the indignation of the citizens.

The relief fund of Storer Post, G. A. R., was benefitted nearly $50 by the entertainment given in Music hall on the evening of the 5th inst., by the George S. Knight combination.

Steam heating apparatus has been put into the engine house on Court street occupied by Kearsarge No. 3 and Moses H. Goodrich No. 4, Messrs. Critchley & Whalley doing the work by contract. It is not necessary to say the work is well done.

Passed Asst. Paymaster Zachary T. Brown, U. S. N., and family, of this city, have returned to the Pensacola navy yard from Mobile, Ala., where they have been spending some weeks.

Mr. Charles H. Hayes on Thursday last chartered the schooner "Baylies Wood" to take about 3000 barrels of apples from this port to Baltimore.

Alderman Martin doesn't want the people of the city to meddle with the management of their affairs by the aldermen; the latter know much better than the people what is proper to do or to leave undone, and even the submission of a petition is a piece of cheeky insolence by the people toward their constituted rulers.

The "home pennant" of the U. S. S. Marion is 208 feet long.

The schooner E. A. Williams, Capt. Oren Caswell, was all ready to come off the marine railway on Friday morning, having effected all needed repairs.

A valuable young Newfoundland dog owned by Mr. Lemuel B. Caswell mangled himself to death on the 7th inst. in trying to break loose from his fastening in a shed.

The recalking of the schooner Rambler was finished on Thursday last by Bailey & Adams, who commenced calking the schooner Nettie Adams the same day.

The social entertainment given by Osgood Lodge, I. O. O. F., on Thursday evening last, was a decided success; notwithstanding the inclemency of the weather there was a good number present, who heartily enjoyed the occasion. The farce of "Teddy Roe" was rendered by the Osgood Dramatic company with fine effect; Teddy Roe and his grinding box made quite a hit. The recitation "On the banks of the Tennessee," by Miss Fannie Deverson, deserved great praise. The piano duet by Misses Hanscom and Blaisdell was nicely produced. The evening's entertainment closed with a grand symphony concert by thirteen experienced artists, under the direction of Mr. McIntire, which was produced with perfect harmony, and was highly appreciated by the audience—all hoping the entertainment will be repeated at no distant day.

Yours, C. H. C.

The schooner Ella M. Johnson, Greenleaf Norton master, arrived on Thursday last with a small fare of fish, which C. Sullivan & Co. purchased. When off Newburyport she carried away her main boom, and in consequence had much difficulty in picking up her dories, but finally got them all with the exception of one, in which was one man; this dory was at length lost sight of, the weather becoming thick, and the schooner managed to work into Portsmouth harbor. The lone fisherman was picked up not long after by the schooner Rising Star, and brought into this port. Capt. Norton went to Newburyport on Friday to procure a new main boom.

James Bell of Lewiston, Me., fell over a seat in an Eastern railroad car while riding between Rowley and Newburyport on the night of Dec. 7th, breaking two ribs. The fall was caused by the sudden starting of the car. The injured man was taken to the American house in Newburyport.

The U. S. S. Marion was piloted into this port by Samuel Tobey of Kittery Point, who boarded her three miles outside the Isles of Shoals.

Mr. Brackett Lewis, assistant light keeper at Whalesback, in attempting to reach Kittery Point on Thursday last had his dory swamped in the very heavy sea running, and would probably have been lost but for the timely aid rendered by a fishing vessel which was fortunately entering the harbor just at that time.]

It is reported that the fishing vessels which use cod-nets are doing much better than the trawlers, so far this fall; the dearth of bait is a serious hindrance to the latter.

There was considerable curfew in the air on Friday evening of this week, just after nine o'clock, when nearly all the bells in the city 'rang out at the same time, to proclaim to all the earth that the Portsmouth anti-bell-ringing aldermen had regained their senses.

Mr. Ephraim Anderson, during the past season mate of the schooner D. K. Ham, Garland master, now laid up for the winter, has engaged to go in the schooner Cocheco with Capt. Seaward.

It was reported on Friday evening that two vessels were aground in the lower harbor, having been driven from their anchorage by the blow during the day; one of them, a fishing vessel, was ashore in Spruce creek, and the other, a coaster loaded with stone paving blocks, was on the flats to the westward of Gerrish's island. Still later it was reported that two fishermen were aground in Spruce creek; the coaster ashore on Gerrish's island was the Jonathan Cone, of Haverhill, Mass.

The schooner Annie F. Conlon, Seaward master, is reported to have loaded at a coal depot for this port, at $2.10 per ton.

Mr. Ulysses D. Tenney is painting at his studio in this city a portrait of the late Hon. Dan'l M. Christie of Dover, which is to be presented to Dartmouth college by the children of the deceased.

A statement which has been going the rounds of the press concerning a lack of harmony in the Boston Ideal Opera Co., it being alleged that the trouble had culminated in the resignation of Miss Marie Stone, Mr. George Frothingham and Mr. Henry C. Barnabee, is emphatically denied; the company, at present in Nebraska, was never more harmonious and prosperous, socially and financially, than now. Barnabee's birthday occurred on the 14th ult., and he gave the company a supper, (being in return presented with many handsome gifts,) and wound up the festivities by giving his associates a grand sleigh ride.

PROSPECTUS FOR 1883.

A FIRST-CLASS

Family Magazine.

LIPPINCOTT'S MAGAZINE,

A POPULAR MONTHLY OF GENERAL LITERATURE.

The distinctive reputation of LIPPINCOTT'S MAGAZINE as "eminently readable" will, it is trusted, be confirmed and extended during the coming year. The special aim of its conductors is to secure such treatment of the great variety of topics embraced within its scope as shall render it attractive to the general mass of intelligent readers, a favorite in the family circle, and a means of culture as well as of entertainment.

While fiction, in the form of serials and of short stories, holds a prominent place in its pages, it has gained particular notice by its sketches of travel and adventure, studies of life and character, and articles on natural history and other scientific subjects, written with the freshness that comes from personal observation and experience, in a lively style, and with abundant anecdotical illustrations.

One of the chief attractions will be a fascinating SERIAL STORY, to commence in the January number, entitled

"The Jewel in the Lotos,"

by Mary Agnes Tincker, author of "Signor Monaldini's Niece," "By the Tiber," etc., in which the interest will be found to centre on three finely contrasted female characters, Italian, English, and American, and which, besides many exquisite pictures of Italian life and scenery, embodies the writer's matured views on some of the leading questions of the day.

In the other features of the Magazine the union of literary excellence with popular attractiveness will be steadily maintained.

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. Another article takes hold of the system and hits exactly the spot, like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "It's the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1879.

MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received a very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.

Yours truly, F. C. CHURCHILL,
(Firm of Carter & Churchill.)

☞ A gentleman who has been suffering from the *Debility* and *Languor* peculiar to this season, says: "HOOD'S SARSAPARILLA is putting new life right into me. I have gained ten pounds since I began to take it." Has taken two bottles.

To the Holders of Certificates of Indebtedness.

The Voting Register of Certificate-Holders is now making up at the Office of the Trustees, No. 23 Court Street, Boston, Mass. The names of parties to whom Certificates were originally delivered have been placed in the Register. Any subsequent purchaser or holder desiring to register may do so on presenting at said office to Mr. Joshua Crane a written statement of his name, address and the denomination and number of each certificate held by him, or, if so required by the Trustees, on producing the certificates held by him or a written order from the last registered holder.

In accordance with regulations fixed by the Trustees the Voting Register will be closed on the fifth day of December, 1882, between which time and the Annual meeting on the second Wednesday of December, 1882, no registration will be made.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

THE DIE-HARDS.

The anti-curfew aldermen seemed determined to make their action as objectionable and insulting as possible to the great majority of the citizens, up to the last moment. Having started out to abolish the ancient custom by means of an unworthy and dishonest piece of trickery, and finding themselves driven to the wall by the indignation of the people, they made haste at the last meeting of the board to move the rescinding of their original action, well knowing that it would be rescinded in any event, by the majority of the board. This move was a judicious one on their part; but their subsequent talk and action in opposition to the receiving of a courteously worded and perfectly proper petition signed by many hundreds of ladies and gentlemen, on the puerile ground that the prayer of the petition had already been granted, evidenced their petty spite against the opponents of their scheme. Had they treated the signers of the petition with formal courtesy, accepting the petition and filing it at once, they would have shut off all further public talk about the matter; but they were evidently too sore over their overwhelming defeat to act with common sense or common courtesy, and either intentionally or through a blunder proceeded to grossly insult every citizen who signed the petition.

N. H. S. P. C. A.

At the annual meeting of the New Hampshire Society for the Prevention of Cruelty to Animals, held at the rooms of the society on Monday evening, Dec. 4th, the following board of directors was unanimously re-elected:

Mrs. John J. Pickering, Miss Eliza Rice, Mrs. Helen C. Knight, Mrs. F. W. Miller, Miss Mary A. Foster, Thomas E. O. Marvin, Dr. James R. May, Charles W. Gardner, Miss Hope Goodwin, Mrs. Alfred W. Haven, Miss Elizabeth H. Pearson, Miss Carrie A. Morison, Miss Mary R. Lyman, Miss Susan E. Christie, Charles E. Batchelder, Augustus W. Odiorne, Mrs. Charles M. Laighton, Joseph B. Upham, Jr., Dr. Francis E. Langdon.

The report of the secretary and treasurer was read and accepted.

The state agent read his annual report, giving an account of the cases of cruelty which had been attended to and either remedied or prosecuted, by him and the several local agents of the society, during the year. The report was accepted and placed on file.

The president made his annual address, and detailed several instances of atrocious cruelty to animals in which the perpetrators had been brought to justice through the efforts of the society. Judge Batchelder, who is thoroughly acquainted with the purpose and methods of work of the society, gave an admirable address, which was listened to with a closeness of attention which evinced a hearty appreciation of his sentiments in regard to a reform which is being slowly but surely inaugurated in this state. Dr. Jones also spoke in hearty commendation of the work of the S. P. C. A. and the cause in which it is engaged.

Dr. James R. May, who has been an active and influential member of the society since its organization in 1872, made an earnest speech urging the society to continuance in the work of mercy, which is worthy their unceasing efforts.

Mrs. John J. Pickering reported the distribution of copies of the humane laws for the prevention of cruelty, "Folks in Feathers and Furs," "Stories about Animals," "Golden Rules," "Lessons on Kindness," "Our Animal Friends" and many other publications, among the schools and other public institutions throughout the state. Mrs. Pickering has also presented, at her own expense, the society's gold medal to the public schools of Bethlehem, to be awarded, as a prize, to the author of the best essay on kindness to animals.

Mrs. Josiah Quincy also gave prizes to children of the Rumney schools, for essays on the same subject.

The president made a complimentary allusion to the "Birds Around Portsmouth," an essay read by Miss Alice J. Sheldon as a part of the graduating exercises of the Portsmouth high school last June.

The treasurer presented his report, which was duly audited and accepted. A summary of the report is as follows: Balance on hand from 1881, $194.61; received during the year, $694.98, making a total of $889.59; expended during the year, $810.79; balance on hand $78.80.

Votes of thanks were passed acknowledging many and various favors received, among which was the use of the headquarters office free of rent.

The following are the reports of the secretary and treasurer, agents, and Bethlehem branch society:

"UNJUST SLANDERS."

During the discussion in the board of aldermen on Thursday evening last as to the receiving of the petition sent in by the people, one or two of the members affected to sneer at the popular movement, asserting that the nine o'clock bell would have been rung again anyway, without any such stir being made. A sufficient answer to this is found in the fact that at the time the bell was ordered to be stopped "on account of sickness" there was no person sick who was annoyed by it; not to mention the fact,—we assert it to be a fact,—that a very prominent member of the board declared within a half hour of the time the resolution was passed, that "we don't mean to ring it [the nine o'clock bell] any more at all."

In particular, Alderman Anderson seemed indignant that the people and press should dare to find fault with anything done by their high mightinesses, the aldermen, and spoke of unjust slanders and harsh language used in discussing the bell question. If Mr. Anderson referred to this paper, his statement was simply untrue; we did say that the resolution to stop the ringing of the bell, as introduced in and passed by the board of aldermen, plainly implying that the suspension was intended to be only temporary, and squarely asserting that it was "on account of sickness," was a lie of the meanest and most contemptible kind; this we repeat; but there is nothing slanderous about it, for it is true, and it cannot justly be called harsh, for no milder language would adequately describe such a petty piece of trickery.

The less the anti-bell-ringers in the board stir this matter up, the better it will be for their own standing with the public.

6 per Cent. Gold Bonds.

TOPEKA, SALINA & WESTERN

RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock as the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent, *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE, OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE, OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save money, time, suffering and expense, by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

LYDIA E. PINKHAM'S VEGETABLE COMPOUND,

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Woman. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

It will revive the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

Physicians Use It and Prescribe It Freely.

It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach.

That feeling of bearing down, [illegible] pain, weight and backache, is always permanently cured by its use. **For the cure of Kidney Complaints of either sex this Compound is unsurpassed.**

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of Humors from the Blood, and give tone and strength to the system, of man woman or child. Insist on having it.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose 3ct. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *very cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weaknesses caused by those irregularities which are so common to womanhood. This is no *Patent Medicine*, but is prepared after years of experience, and recommended, knowing that it will give new life to any broken-down, worn-out or over-worked member of the sex.

If you have tried other remedies without success, do not be discouraged, but try "LADIES' TONIC"—a *single trial*. It *never fails* to give *quick and permanent relief*.

If you are troubled with *any* weakness or complaint common to our sex, lay aside the doctor's prescription for once, and try "Ladies' Tonic," which we guarantee will positively cure you. One Bottle is Sufficient.

Women's Medical Institute is an Association of *Ladies and Mothers* of great experience, who give advice and answer letters from ladies *free*.

You will be given first, any case of Female Weakness or Inability which "Ladies' Tonic" will not cure. This *from experience*, and "LADIES' TONIC" can do send stamp for circular.

BEYOND THE RIVER.

Away Across the Mississippi is Held a Convincing Conversation.

"I tell you sir, that they are one of the nearest combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgment to some respect."

"Oh, I don't know, responded the first speaker's friend, with a little yawn, as though he didn't take much interest in the subject, "I have never been able to see much difference in those things. They are all pretty nearly the same size, and made of about the same stuff."

The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the snug office of Dr. M. P. Flowers, one of the leading physicians of the State, who followed up the vein in which he had introduced it substantially in these words:

"Nonsense, that is the rigmarole of a boy, or rather of a man who either doesn't know or doesn't care what he says. Those things, as you call them, are just as different as the moon is from green cheese. Now, liniments, lotions and ointments are very good in most cases for the relief of pain or inflammation. But, in the first place they are unclean. They soil the hands and the linen, besides being always out of reach when they are most wanted."

"Well, my dear Doctor," sighed the traveler from the North, "what would you have? This is a wretched world anyhow, and nothing is ever at hand when it is wanted. "You can't suggest anything——"

"Yes, I can," broke in the Doctor, thumping the table with his fist, "I can suggest BENSON'S CAPCINE POROUS PLASTER. I have tried it on my patients, and I have tried it on myself for an attack of Pneumonia, and in all cases relief has followed in from three to forty-eight hours. The old plasters are mere coarse—the plaster is a telegraphic dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded action of the Kidney's, and——"

"I give it up, Doctor, and in case of need I'll buy Benson's," said the traveler, pleasantly.

In the center of the genuine is CUT the word CAPCINE.

THE

New Hampshire Gazette !

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

37 Walker St., Baltimore, Dec. 188?.
For six years I have been a great sufferer from Blood Disease, Dyspepsia, and Constipation, and became so debilitated that I could not retain anything on my stomach, in fact, life had almost become a burden. Finally, when hope had almost left me, my husband seeing BROWN'S IRON BITTERS advertised in the paper, induced me to give it a trial. I am now taking the third bottle and have not felt so well in six years as I do at the present time.
MRS. L. F. GRIFFIN.

BROWN'S IRON BITTERS will have a better tonic effect upon any one who needs "bracing up," than any medicine made.

Stilson Hutchins retires from his connection with the Manchester *Union*, transferring his interest to his associate, Joseph C. Moore.

George P. Emerson, Esq., of New Hampton, was appointed clerk of the Supreme court for Belknap county by the full bench, at the law term at Concord last week, as the successor of Martin A. Haynes.

Mayor Murphy of Dover has preferred charges against City Marshal Libbey, to the effect that he has not enforced the laws against liquor selling, houses of ill-fame, etc., although ordered to do so by the mayor. The aldermen will investigate the charges.

At Chester, on the night of Dec. 8th, Samuel Marston's house was burned, and C. A. Wilcomb's store, with half the latter's stock of general merchandise. The Congregational church was damaged.

Mr. Stillson Hutchins, late of the Manchester *Union*, is announced to be a candidate for clerk of the next United States house of representatives.

—A boy in one of the public schools in response to his teacher's question, "Who was the first man?" promptly and confidently answered "George Washington." And when the teacher, correcting him, remarked that Adam was the first man, the boy indignantly rejoined, "Well, if you are going to count foreigners, perhaps he was."

—A lady recently visited Niagara Falls, accompanied by her little boy, an intelligent child of six years. When they had looked a long time at the mighty volume of water hastening to its grand abyss the mother turned to the boy and inquired: "What do you say to that, Alfred?" The little fellow lifted his awe-struck eyes and solemnly answered—"Mamma, I feel like taking off my hat to God."

A triple source of happiness:—a good business, a contented mind and a bottle of Dr. Bull's Cough Syrup.

By a collision on the Chesapeake & Ohio railroad, at the entrance to Stretcher's Neck tunnel, Dec. 8th, three men were killed and five injured.

If you fail to receive benefit from other preparations, try Hood's Sarsaparilla; it's the strongest, the purest, the best, the cheapest.

The house postal committee has agreed to report a bill reducing letter postage to two cents.

Voice Of The People.

R. V. Pierce, M. D., Buffalo, N. Y.:
I had a serious disease of the lungs, and was for a time confined to my bed and under the care of a physician. His prescriptions did not help me. I grew worse, coughing very severely. I commenced taking your "Golden Medical Discovery," and it cured me. Yours respectfully, Judith Burnett, Hillsdale, Michigan. *a*

Fire broke out in the wholesale hosiery warehouse of Foster, Porter & Co., London, Dec. 8th, and destroyed property to the amount of £3,000,000, the firm losing £600,000 on silks alone. Two acres were burned over, and eight persons badly injured. One fireman is supposed to have been buried in the ruins.

Hood's Sarsaparilla

Is designed to meet the wants of those who need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies. No other article takes hold of the system and hits exactly the spot like Hood's Sarsaparilla. It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy. $1 a bottle; six for $5.

The Philadelphia *Press* remarks: "Those who laughed at Blaine's vigorous foreign policy will hardly appreciate the account of a foreign correspondent, who writes that on the western coast of Central America an Englishman is held in much greater respect than a citizen of the United States, because the people and the authorities think that a British man-of-war would bombard a one-storied barber-shop on a plea of assault and battery, if an Englishman's hair were not cut to please him."

During the Late War

The Government made its Best Arms at Springfield, Mass.—What Mr. David Clark, Inspector U. S. Armory There Recommends.

Your reporter found Inspector Clark at his office on the Armory grounds busily examining "receivers" for the regulation army rifles. However, he was as willing to say a word for the merits of health and strength restoratives as to prove the merits of implements of death. He said: "My business keeps me closely confined to the Armory and its doors. As a result, I've suffered considerably from indigestion and biliousness, but I find that Dr. Kennedy's FAVORITE REMEDY is a most excellent medicine for these complaints. I most cordially recommend it, for I am acquainted with its worth. Dr. Kennedy's FAVORITE REMEDY is used a great deal by the machinists in the U. S. Armory here."

While FAVORITE REMEDY is a specific in Kidney and Bladder diseases, it is equally valuable in cases of Bilious Disorders and Constipation of the Bowels. Try it. Your druggist has it, and its cost is only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The Doctor would have it understood that, while he is engaged in the introduction of his medicine, FAVORITE REMEDY, he still continues the practice of his profession, but confines himself exclusively to *office* practice. He treats all diseases and performs all the minor and capital operations of surgery.

"Inventors cannot employ a person more trustworthy or more capable of securing for them early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1876.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Perhaps no medicine is so universally required as a good catharic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

The British steamship Carmona sailed from New Orleans for Liverpool last Friday with 10,361 bales of cotton, weighing 5,840,000 pounds, and valued at $645,000; this is the largest cargo of cotton ever carried by any vessel. The steamer also took 12,000 bushels of wheat, and 2650 staves.

Mr. Lewis E. Staples has secured the agency for the Dorcas, Saxony, Knitting Worsted and Germantown yarns, which have become so popular throughout the east. The shades and colors are just what are wanted. oedtjan19

Eleven convicts escaped from the penitentiary at Little Rock, Ark., Dec. 8th, by capturing and disarming the guard. They were chased with bloodhounds, but killed three of the dogs, and forced the abandonment of the pursuit.

AROUND HOME.

Mr. John Albee is announced as one of the lecturers at the next summer's term of the Concord School of Philosophy, which will open July 20th and close on the 12th of August. Mr. Frank B. Sanborn is to give four lectures on "the History of Philosophy in America," treating especially of Jonathan Edwards, Benjamin Franklin and Ralph Waldo Emerson.

The powder was taken out of the U. S. S. Marion op Friday, and on Saturday she hauled in to a berth at the navy yard.

The fishing schooners driven aground in Spruce creek by the blow of Friday were the Comet, Capt. Haven W. Fernald, and a Newburyport fisherman; the latter sailed on Saturday, both vessels having come off unharmed. The coasting schooner Jonathan Cone, blown on the Gerrish's island flats Friday, floated off Saturday without damage, and came up to C. E. Walker & Co.'s wharf.

We are informed that Miss Fanny Mathes read a very interesting paper upon "British Colonization" before the Historical club the other afternoon; why could it not be read to a wider circle of hearers? The Historical club is, we believe, a circle of ladies who for a year or two have met together at stated times for mutual improvement, and for which many valuable papers have been prepared. We are sure that many outsiders would esteem it a favor to hear some of them.

Rev. James DeNormandie of this city has received a call from the First Unitarian church in Worcester, Mass., to become its pastor. It is understood that he has the call under advisement, and will return an answer during the present month.

Owing to a slight accident to the boiler at the Portsmouth Shoe factory, Saturday, work was suspended for the day. The damage was repaired in a few hours.

The schooner Harry A. Barry was on Saturday loading apples for Baltimore, at the wharf just above the Spring market.

Mr. Charles E. Walker, while hauling his carriage into the barn one day last week, had his feet slip from under him, letting him down with considerable violence upon his face, which was somewhat bruised and swollen by the operation.

On Thursday evening, Dec. 14th, an entertainment, supper and social party will be given at Grange hall, No. 5 Congress street, under the auspices of Strawberry Bank Lodge of Good Templars. There will also be a guess-pole with a suitable prize for the one who guesses the nearest to its length. The hall will be handsomely trimmed with evergreen, bunting and flags. All are invited; admission ten cents.

The north millpond was frozen over clear down to the bridge, Saturday morning. The entire surface of the south pond was also coated with ice.

In Boston, on Saturday last, Eastern railroad stock sold at 32 1-2, Eastern in New Hampshire at 90 3-4, Maine Central at 77 1-2, Portsmouth & Dover at 110, and Eastern railroad six per cent bonds at 109 1-2.

Mr. George Morrill, who was recently run over at Basin Mills on the Maine Central railroad, will probably die.

A new draw is being put in the bridge of the Concord & Portsmouth railroad across Great bay.

The annual meeting of the stockholders of the Maine Central railroad will be holden in Portland on Wednesday, Dec. 20th, at ten o'clock in the forenoon.

Mr. M. C. Foster, the contractor for putting up the new Farragut house at Rye beach, fell from a staging on the afternoon of Friday, the 8th inst., and struck on his head. He was insensible when taken up, and had not fully recovered consciousness on Saturday morning, though he was believed to be improving.

On the check list at Hampton there are six names which furnish twelve votes each, viz: Godfrey, Batchelder, Hobbs, Lane, Marston, Perkins. Two years ago the check list numbered 390 names; and this year, after erasures and additions, it numbers the same.

Mr. David Littlefield of Kennebunk, over seventy years of age, took his first ride in the cars about three weeks ago, when he went to Boston on a visit to his sons. This was his second visit to Boston, he having been there when about eighteen years of age, on which occasion he walked the whole distance.

It is alleged that Mr. Foss, of the firm of Foss & Merrill, civil engineers at Concord, N. H., who has surveyed three routes between Kittery depot and York beach for the proposed new railroad, says that it is the easiest ten miles of railroad to build that he ever surveyed in New England. He estimates the cost of building and equipping the road at $10,000 per mile. It is stated that a company to build the road will soon be organized, and the Maine legislature at its next session be applied to for permission to bridge York river.

Three plasterers belonging in this city, who had been at work on the Goodwin house at Gerrish's island, Kittery, in attempting to reach home one evening last week got lost in the woods, and used up a large part of the night in wandering about.

The cause of the sudden death of Calvin Remick of Eliot, who was found dead in the highway on Sunday morning, the 3d inst., after having been engaged in a charivari serenade to a newly-married pair on the Saturday night previous, was heart disease.

While Abel J. Knight of Kennebunk was a few days ago engaged in bricking up a newly-dug well, it caved in and buried him so that his head alone was above the mass of stones and gravel. It was over two hours before he could be dug out, and by that time he was chilled to helplessness by the water which rose around him in the well, but he suffered no permanent harm.

The schooner Brilliant, previously reported as having been towed into Cape Porpoise harbor in a waterlogged condition about two weeks ago, and dragged on the flats, has not yet been raised, and probably never will be, as she is very old and of little value. The statement made in the first report, to the effect that no notice was taken of the signal of distress which the Brilliant was flying when she anchored on the bar, was wrong; Capt. George Wakefield and Mr. James Huff went off to the vessel at once, but the captain said he did not need any aid.

News and Notes.

Edward Davis was arrested Friday, Dec. 8th, on suspicion that he murdered Albert Seabury on Seaconnet beach on the previous Saturday. He was committed to Newport, R. I., jail to await examination.

Miss Jennie Allen of Montgomery, Ala., pronounced by Oscar Wilde to be the most beautiful woman in America, was recently married to Mr. Henry D. Clayton, Jr., of Eufaula, in the same state.

Joseph Mero, aged sixty-three years, was killed by the cars at Webster, Mass., Dec. 8th.

The tariff commission has submitted its report to Congress. It declares against high duties, saying they have a tendency to create prejudice, to encourage unsafe investments of capital, and to cause a plethora of certain commodities. The commission thinks the time has come when a reduction from high war rates can safely be made, and that the increase in production by the older industries is sufficient to admit of a reduction without impairment of ability to compete. The reductions on an average approximate twenty per cent, and will perhaps reach twenty-five per cent of the whole.

The First National bank of Augusta, Me., has received from the estate of the late Israel Boothby $8,500 towards the amount of Boothby's defalcation, and has compromised the balance of the claim against the estate.

Joseph B. Loomis was on the 8th inst. convicted in Springfield, Mass., of the murder of a young man named Levett, and was sentenced to be hanged March 8th, 1883. The evidence was that Loomis shot Levett in the head while riding with him, and then drove to woods a mile away, with the dead body sitting upright in the carriage, hitched the horse to a tree in the woods, blanketted the animal, robbed the corpse, and went off. The horse after a time broke away, leaving the halter fast to the tree, and the buggy with its ghastly burden, and went home.

—When a congregation gets tired of a minister they begin to fire donation parties at him. These either drive him to another field or the poor-house.

—Doctor to an acquaintance — "Mr. Jones, I am glad to see you have recovered." Mr. Jones—"Yes, you have saved my life; how can I thank you sufficiently?" Doctor—"I saved your life? Why, I didn't attend you." Mr. Jones—"Yes—and that is why I am so grateful."

—It is related that the president of a bank in the Gunnison country had occasion to visit Denver, and on his return met the porter of the bank at the depot and asked: "Well, James, has the cashier absconded?" "No, sir." "Burglars broke in?" "No, sir." "Bookkeeper been charged with embezzlement?" "No, sir." "Been a run on the bank?" "No, sir." "Then everything is all right, eh?" "Yes, sir, except a rumor around town that you had robbed the bank of $50,000 and sailed for Europe."

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. Another article takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA!

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "It's the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1879.
MESSRS. C. I. Hood & Co.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.
Yours truly,
F. C. CHUECHILL,
(Firm of Carter & Churchill.)

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

FIRE RAISING.

In the rear of Newman's saloon on Vaughan street is a small building used by Mr. Alfred Stavers as a carriage house. On Saturday evening, between seven and eight o'clock, a number of persons noticed a bright light shining through the carriage house window, but at the time thought nothing of it. About eight o'clock Mr. Henry R. Stoddard, who was looking around his premises to see that things were all right, saw a dull light in the building, and on opening the door discovered on the floor a small tin can in which was smouldering a linen rag, apparently part of a towel, the building being filled with the smell of kerosene.

Mr. Stoddard carried the can and contents into the office of the Gibson house, but the combined odor of kerosene and burning rags was such that by unanimous vote of all present he was granted leave to withdraw with his prize, which he tossed on the ground outside the house, whence it was picked up and taken to the police station. The can was discovered to be an oyster can of one pint capacity, the top and handle being found in the carriage house, where they had melted off. The floor of the building, in the vicinity of where the can was found, was saturated with kerosene, and there is no doubt that some scoundrel sought to make a big fire, and failed through his blundering stupidity in starting it in the wrong place.

CUI BONO?

Editor of the Gazette: I should like to know what is the use of the democrats electing a mayor to have him run all the time by a republican alderman? I hear at the last meeting of the mayor and aldermen the mayor refused to allow the yeas and nays called on the receiving of the petitions for having the nine o'clock bell rung, even when one of the democratic aldermen called for such a vote. What is the use of our working to get a democrat mayor and have him give us away? The mayor ought to be told that he and not the alderman from ward one was chosen to that office, which is more than he will be again if he does not straighten up. A JACKSON DEMOCRAT.

JOHN FISHER SHEAFE

Died at his residence in Fifth avenue, New York city, on Friday afternoon last, in the seventy-eighth year of his age, after a brief illness of but three days.

Mr. Sheafe was the last surviving son of the late Hon. James Sheafe, who was in 1801 a senator in Congress from New Hampshire, and was one of the successful early merchants of Portsmouth. James Sheafe owned several farms in the limits of the town, and built many of the brick residences on State street, the Exchange buildings on Pleasant street, and many stores on Market street; and his home was in the house on State street now the residence of Mrs. Jonathan M. Tredick. Mr. Sheafe owned the whole square south of the former brick market, except the lot on which the building was erected for the New Hampshire Union bank, now owned by the estate of Capt. William Rice. John Fisher Sheafe was named for his uncle, John Fisher, who owned the land upon which Jefferson hall was built, now the city building.

Mr. John F. Sheafe as a boy was far from being robust in health. He was a student at Phillips Exeter academy, and perhaps it was by reason of his delicate health that he did not go to college. It is related that during the fire which destroyed the buildings on Buck (now State) street in 1813, Col. Joshua W. Peirce went to the house of Mr. James Sheafe, who was an intimate friend of his father's, and took young Fisher and carried him in his arms to the Peirce mansion on Haymarket square for safety.

When about twenty-five years of age Mr. Sheafe left Portsmouth and went to New York city, where he has since resided. Here he married Mary Lennox, daughter of Robert Lennox, and having inherited a large estate had a beautiful home and lived upon his income. His first residence was at No. 7 Broadway, then a fashionable as well as attractively beautiful part of the city; and when in after years he removed to his new house in Fifth avenue he was one of the pioneer settlers in that now famous part of central New York city.

Mr. Sheafe never lost his interest in Portsmouth, or in the friends of his childhood or their descendants. H was a gentleman of singular modesty in demeanor, retiring disposition, and unostentatious in his ways. Especially were these traits seen in his many good works. Always delighted to hear from the old home by the sea, interested in St. John's church, (where he attended in boyhood, and where is a mural tablet to his father's memory, and beneath which is the family vault,) he was constant, yet to the world almost unknown, in his liberal charities extended to worthy societies and objects in our community. Indeed, it was only within a few days that his check was received by one of our benevolent institutions for charitable use. We are inclined in this connection to emphasize our admiration for Mr. Sheafe's character in this respect; he not only was a true gentleman, careful of the feelings no less than of the rights of all he might meet, but he was more; his amiable disposition and goodness of heart were prominent traits beloved by all who knew him, and while in many instances the posthumous record of men often consists of a recital of the public positions they may have filled, we can but pause to admit the truly Christian character of the man to whom "the post of honor is a private station," and to whose record no recital of public honor or official service could be an addition.

We recall but one position of this kind which Mr. Sheafe filled; not that he would not have adorned such, but his modesty and disinclination for public positions ever kept him from acceptance of public trusts or places of honor. Mr. James Lennox, the only son of Mrs. Sheafe's father, founded the Lennox library in New York, and Mr. Sheafe obliged his brother-in-law by consenting to serve as one of the trustees—a labor of love which he performed with faithful diligence.

Mr. Sheafe's last trip to Portsmouth was made in June of this year, when he shew an unabated interest in his visits to scenes of his boyhood days. He then appeared to be in excellent health, and the sudden announcement of his death, made to his friends here, was a shock painful in the extreme.

By his express direction the funeral services will be held in St. John's church, where the interment will take place in the family vault. The remains will reach this city on Tuesday morning, and funeral services will be held at eleven o'clock. Mr. Sheafe leaves a widow but no children.

NEWCASTLE GRAMMAR SCHOOL.

Report of the Newcastle grammar school for the term ending November 25th:

Whole number of pupils, thirty-eight; average number attending, thirty-five.

Rand, Bernice D. Trefethen, Lillian M. Urch, Ellie L. Urch, Mabel White, Webster Goodwin. Several other of the pupils were absent only on account of sickness.

Names of pupils attaining to a rank in scholarship of 95 or above: Lillian M. Urch, 99.8; Ellie L. Urch, 98; Nettie M. White, 98; Helen L. White, 98; Mabel White, 97; Florence A. White, 96.8; Lottie C. Meloon, 96.6; Justin F. Hanscom, 96; Theresa R. Rand, 96; Jennie H. Williams, 96; Horace B. Rand, 95.6; Etta C. White, 95; George W. White, 95; Harry S. Yeaton, 95; Lizzie C. Amazeen, 95; Frank A. Brown, 95.

A marked interest has been manifested by the pupils, and there has been a decided improvement upon the work of the preceding term. Our thanks are due to the parents, who with scarcely an exception have shown that spirit of hearty cooperation and encouragement, without which no teacher can hope to be entirely successful. M. J. LAUGHTON.

EASTERN RAILROAD REPORT.

The report of the directors of the Eastern railroad for the year ending Sept. 30th, 1882, shows that although the gross earnings of the year were larger than for the previous year, the net income was smaller. This is accounted for by the large expenditures for improvements during the past year. The gross earnings were $3,403,077, and the operating expenses $2,292,967, leaving a balance of $1,110,110, which was disposed of as follows: Interest on debt, $674,438; rents, $218,329; total payments on account of these fixed charges, $892,768, leaving a balance of net earnings of $217,340, of which $181,538 were paid for new equipment, construction and investment, leaving the balance of net earnings above all expenditures at $35,802.

The main line and double track between Boston and Portland is all laid with steel rails, 142.15 miles; Saugus branch, all steel rails, 9.55 miles; Gloucester branch, all steel except 9985 feet, 15.05 miles; Conway division, 6.09 miles of steel rail, and 4.89 miles on the other branches, making a total of 177.73 miles of steel track.

The management during the year has added largely to the rolling stock, and the number and speed of passenger trains have been much increased. The miles run by passenger trains was 1,359,704, an increase of twenty-five per cent over 1878-79, the number of passengers carried increasing forty-one per cent, and the earnings from passengers thirty-one per cent, or $451,999. The freight earnings for the year were $405,651 in excess of those of 1878-79, a gain of forty-one per cent.

During the year, 55,530 ties and 183,349 feet of other timber have been kyanized at the works on Noble's island in this city, at a cost of about $2.32 per thousand feet; it is believed the process will materially add to the life of the material, and eventually lead to a large reduction in the item of expense of ties and other exposed timber.

PROSPECTUS FOR 1883.
A FIRST-CLASS
Family Magazine.
LIPPINCOTT'S MAGAZINE,
A POPULAR MONTHLY OF GENERAL LITERATURE.

The distinctive reputation of LIPPINCOTT'S MAGAZINE as "eminently readable" will, it is trusted, be confirmed and extended during the coming year. The special aim of its conductors is to secure such treatment of the great variety of topics embraced within its scope as shall render it attractive to the general mass of intelligent readers, a favorite in the family circle, and a means of culture as well as of entertainment.

While fiction, in the form of serials and of short stories, holds a prominent place in its pages, it has gained particular notice by its sketches of travel and adventure, studies of life and character, and articles on natural history and other scientific subjects, written with the freshness that comes from personal observation and experience, in a lively style, and with abundant anecdotical illustrations.

One of the chief attractions will be a fascinating SERIAL STORY, to commence in the January number, entitled

"The Jewel in the Lotos,"

by Mary Agnes Tincker, author of "Signor Monaldini's Niece," "By the Tiber," etc., in which the interest will be found to centre on three finely contrasted female characters, Italian, English, and American, and which, besides many exquisite pictures of Italian life and scenery, embodies the writer's matured views on some of the leading questions of the day.

In the other features of the Magazine the union of literary excellence with popular attractiveness will be steadily maintained.

6 per Cent. Gold Bonds.
TOPEKA, SALINA & WESTERN
RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad convenience, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt the assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25, by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe]

Messrs. Editors —

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as none of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaints of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world for the cure of Constipation,* Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy who make our ambition is to do good to others.

Philadelphia, Pa. (1) Mrs. A. M. D.

This plaster is also lately the best ever made, combining the virtues of hops with other valuable medicinal properties and extracts. Its power is wonderful in curing diseases where other plasters simply relieve. Crick in the Back and Neck, Pain in the Side or Limbs, Stiff Joints and Muscles, Kidney Troubles, Rheumatism, Neuralgia, Sore Chest, Affections of the Heart and Liver, and all pains or aches in any part cured instantly by the *Hop Plaster.*

HEART DISEASE

Now IS YOUR HEART SOUND?

Many people think themselves sick and doctor for biliousness or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart. The renowned Dr. Clendining, startlingly says "one-third of my subjects show signs of heart disease." The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Greene a celebrated physician has prepared a specific for all heart troubles, and has endorsements. His known as Dr. Graves' Heart Regulator *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' Book on Heart Disease.* (1)

Hanging Day.

On Friday, Dec. 7th, a number of bad men were killed. Will Porter was hung at Perry, Ga., for the murder of a negro boy a few months ago; Edward Conyers, a negro, was hanged at Swainsboro', Ga., for the murder of another colored man; Gustave Paul was hanged at Donaldsonville, La., for the murder of Eve Thompson; Hong Ah Duck, a Chinaman, was hanged at San Rafael, Cal., for the murder of another Chinaman two years ago, when both were in prison; And Albert Sanders, colored, was hanged at Charleston, Mo., for the murder of Moses Wing, colored, in a fight about a girl.

Naval Affairs.

Secretary Chandler has issued sailing orders to Rear Admiral Cooper for a winter cruise of the North Atlantic squadron. The vessels will proceed together from Hampton Roads as soon as they are ready for sea, as far south as latitude twenty north, and from there they will be dispatched for different cruises by the rear admiral, and will visit all the ports of the West Indies and South American coast with which this country has interests. They will rendezvous at some place on the Atlantic coast next spring.

The Old Men's Home.

One of the most beneficent charities in existence is that which provides a resting place for weary and worn out old men. They have many infirmities and diseases, one of the most common of which is rheumatism. Just here comes in the advantage of Perry Davis' Pain Killer, which has relieved the sufferings of many an old man by driving away the most severe rheumatic pains.

A man in Thomaston, Me., put an owl in his cellar to catch rats. The next morning he found the owl dead and half eaten, but no rats in view.

"Ladies' Tonic,"

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription for ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free. Send stamp for names of those who have been cured.

The schooner Unadilla is frozen in four miles below Bear point, Lake Erie. Two tugs sent to her rescue also became fast, and it is doubtful if the schooner can be reached. Three unknown schooners are fast in the ice off Colchester reef.

The hourse of Newell Jolly, eight miles from Gallipolis, Ohio, was burned last Thursday night. Mr. Jolly, who was quite old, was burned to death. His wife escaped through a window, but was badly burned and may die.

*"Men are but sorry witnesses in their own cause." The praise of Kidney-Wort comes from the mouths of those who have been made strong and healthy by it. Listen: "It is curing everybody," writes a druggist. "Kidney-Wort is the most popular medicine we sell." It should be by right, for no other medicine has such specific action on the liver, bowels and kidneys.

Niven Buckley of Boston was arrested in Rockland, Me., last Thursday night, for stealing a large quantity of tobacco from C. Doherty's store. He pleaded guilty, and was sent to jail to await the action of the grand jury.

The ills which flesh is heir to are more often due to impurities in the blood than is generally supposed. The purification of this vital fluid enables the system to ward off its worst enemies. There is no doubt that Hood's Sarsaparilla is one of the best blood purifiers in the world, and we feel confident that those who give it a trial will not be disappointed.

Charles E. Poucher and wife have been arrested in New York, on charges of forgery and swindling in Syracuse. They are wanted on similar charges in New York, Boston and other places. They are a dashing couple, of fine address and polished manners, and in nearly every city where they operated managed to make themselves lions in "society" at once.

Remember, if you want health and strength of mind and muscles, use Brown's Iron Bitters.

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weaknesses caused by those irregularities which are so common to womanhood. This is the *Patent Medicine,* but is prepared, after years of experience, and most scientifically, knowing that it will give new life to any broken-down, worn out or overwrought female of the sex.

If you have tried other remedies without success, do not be discouraged, but try "LADIES' TONIC." It *never fails* to give *quick* and *permanent relief.*

If you are troubled with *any* weakness or complaint peculiar to our sex, try safely the doctor's prescription of years, and try "Ladies' Tonic," which we guarantee will positively cure you. One Bottle is Sufficient.

Women's Medical Institute is an Association of Ladies and *Mothers of years' experience,* who give advice and answer letters from ladies, *Free.*

No will be given for any case of Female Weakness or Inability which "Ladies' Tonic" will not cure. This is a *bona fide offer, made by responsible parties, who know from experience* what "LADIES' TONIC" can do. Send stamp for circular.

Sold by Druggists. Price, $1.00

The great superiority of DR. BULL'S COUGH SYRUP over all other cough remedies is attested by the immense popular demand for that old established remedy.

BEYOND THE RIVER.

Away Across the Mississippi is Held a Convincing Conversation.

"I tell you sir, that they are one of the nearest combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgment to some respect."

"Oh, I don't know, responded the first speaker's friend, with a little yawn, as though he didn't take much interest in the subject, "I have never been able to see much difference in those things. They are all pretty nearly the same size, and made of about the same stuff."

The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the snug office of Dr. M. P. Flowers, one of the leading physicians of the State, who followed up the vein in which he had introduced it substantially in these words:

"Nonsense, that is the rigmarole of a boy, or rather of a man who either doesn't know or doesn't care what he says. Those things, as you call them, are just as different as the moon is from green cheese. Now, liniments, lotions and ointments are very good in most cases for the relief of pain or inflammation. But, in the first place they are unclean. They soil the hands and the linen, besides being always out of reach when they are most wanted."

"Well, my dear Doctor," sighed the traveler from the North, "what would you have? This is a wretched world anyhow, and nothing is ever at hand when it is wanted. "You can't suggest anything——"

"Yes, I can," broke in the Doctor, thumping the table with his fist, "I can suggest BENSON'S CAPCINE POROUS PLASTER. I have tried it on my patients, and I have tried it on myself for an attack of Pneumonia, and in all cases relief has followed in from three to forty-eight hours. The old plasters are stage coaches—the Capcine is a telegraphic dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded action of the Kidney's, and——"

"I give it up, Doctor, and in case of need I'll buy Benson's," said the traveler, pleasantly.

In the center of the genuine is CUT the word CAPCINE.

THE

New Hampshire Gazette !

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Daily Chronicle.

A defalcation of over $80,000 is said to have occurred in the tax collector's office of Louisville, Ky., in the year 1879.

"How old are you," said an ancient dame to a grinning little tar-pot. "Well, if I goes by what mudder says, I is most ten, but if I goes by de fun I'se had, I's most a hundred." O! that all could measure their years in this way, but how many measure them by long night watches, and almost fatal coughing spells, which could have been cured by a bottle of Dr. Bull's Cough Syrup taken in season.

Mrs. Alice Slayback, widow of A. W. Slayback of St. Louis, who was killed by Col. John A. Cockerill, has entered suit against Cockerill, claiming $50,000 damages for the killing of her husband. This action excites surprise, as through the efforts of Col. Cockerill and his friends about $20,000 were realized for the family of Mrs. Slayback.

A Philadelphia editor was the prime factor in suppressing a bogus medical college, from which so-called diplomas were peddled at $19 each. It doesn't require a physician—no matter whether he is a genuine one or the converse—to recognize heart disease. The symptoms are plain and unmistakable. So, too, is the remedy. A bottle of Dr. Graves' Heart Regulator will cure any case of heart disease. $1. At druggists.

Enoch H. Tebbetts of Bangor, Me., has a remarkable collection of portraits, representing a family of five generations. They are Mrs. Sarah Small of Bowdoinham, aged 100 years; her daughter, Mrs. Elizabeth Hinkley, aged eighty years; her granddaughter, Mrs. Sarah Goodwin, aged fifty-four years; her great-granddaughter, Mrs. Lydia Bickford, aged thirty-six years, and her great-great-granddaughter, Miss Annie Bickford, aged twelve years.

Unity of action, concord, sympathy and goodfellowship are admirable traits in human character; but they will not heal our physical infirmities. Catarrh, for example, stubbornly resists their effects or influence. In fact this malady withstands all of its would-be destroyers, except Ely's Cream Balm. "Solitary and alone" this Balm stands as the only recognized and infallible specific for catarrh. "For fifteen years," says J. B. Chase, St. Denis Hotel, B'wy, and 11th st., N. Y., "I have been greatly annoyed with a disgusting catarrh. My sense of smell, not to mention other troubles, became much impaired. A thorough use of Ely's Cream Balm has cured me of these troubles." It is not a liquid or snuff, and is easily applied. Only 50 cents a package.

A practical joke with a sad sequel was recently perpetrated by a boy employed in the Ascutney mills at Windsor, Vt. A girl employed in the same room had removed her shoes and left them lying on the floor near one of the spinners. In her absence the boy nailed the shoes to the floor. Subsequently the girl, in attempting to pull them up, thrust her left hand into the gearing of the spinner, crushing all her fingers nearly to the knuckles. The whole hand had to be amputated.

Hotel Proprietors who use Electro-Silicon for cleaning and polishing silverware report a saving of the ware and servants' time, besides beautifying their table. Send for sample. Address Electro-Silicon Co., 72 John street, New York.

The steam yacht Idle Hour, reported lost about Nov. 22d, was at Beaufort, N. C., Dec. 6th. The tug George W. Childs, also reported lost in the same storm, arrived at Jacksonville, Fla., Nov. 29th.

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as biliousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, etc. The success which has attended the use of Swedish Botanic Compound warrants us to say that for purifying and enriching the blood, creating an appetite, strengthening and renovating the whole rystem, nothing surpasses that great semedy.

The friends of Lieut. DeLong, U. S. N., who commanded the ill-fated Jeannette, and Mr. Jerome Collins, the scientist of the expedition, take different views of the trouble which existed between the two. DeLong's friends say Collins was disrespectful and insubordinate, while Collins' friends say DeLong took advantage of his position to treat Collins in the most overbearing and ungentemanly manner, to show his contempt for civilians, Collins not being a member of the sacred circle of the navy.

"Made New Again."

Mrs. Wm. D. Ryckman, St. Catherines, Ont., says: "R. V. Pierce, Buffalo, N. Y., I have used your 'Favorite Prescription,' 'Golden Medical Discovery,' and 'Pleasant Purgative Pellets,' for the last three months and find myself—[what shall I say)—'made new again' are the only words that express it. I was reduced to a skeleton, could not walk across the floor without fainting, could keep nothing in the shape of food on my stomach. Myself and friends had given up all hope, my immediate death seemed certain. I now live (to the surprise of everybody) and am able to do my own work."

Dr. N. S. Davis of Abbott village, Me., left Mt. Kineo early in the evening on the 7th inst. with five men, to cross Moosehead lake to Northwest Carry, where a Mrs. Hildreth was sick. They expected to reach their destination in four hours, but up to noon on the 8th had not arrived there, and are supposed to have been drowned, as the wind blew very heavily after they started.

HAY-FEVER

During the Late War

The Government made its Best Arms at Springfield, Mass.—What Mr. David Clark, Inspector U. S. Armory There Recommends.

Your reporter found Inspector Clark at his office on the Armory grounds busily examining "receivers" for the regulation army rifles. However, he was as willing to say a word for the merits of health and strength restoratives as to prove the merits of implements of death. He said: "My business keeps me closely confined to the Armory and its doors. As a result, I've suffered considerably from indigestion and biliousness, but I find that Dr. Kennedy's FAVORITE REMEDY is a most excellent medicine for these complaints. I most cordially recommend it, for I am acquainted with its worth. Dr. Kennedy's FAVORITE REMEDY is used a great deal by the machinists in the U. S. Armory here."

While FAVORITE REMEDY is a specific in Kidney and Bladder diseases, it is equally valuable in cases of Bilious Disorders and Constipation of the Bowels. Try it. Your druggist has it, and its cost is only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The Doctor would have it understood that, while he is engaged in the introduction of his medicine, FAVORITE REMEDY, he still continues the practice of his profession, but confines himself exclusively to *office* practice. He treats all diseases and performs all the minor and capital operations of surgery.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.
"Inventors cannot employ a person more trustworthy or more capable of securing for them as early and favorable consideration as the Patent Office." EDMUND BURKE, Late Commissioner of Patents.
BOSTON, October 19, 1870.
R. H. EDDY, Esq.,—*Dear Sir;* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

Michael Garrity, sixty years old, employed in a woodyard at Cambridgeport, Mass., slipped on the snow last week and fell with his neck against a circular saw, which almost severed his head from his body in an instant.

The ills which flesh is heir to are more often due to impurities in the blood than is generally supposed. The purification of this vital fluid enables the system to ward off its worst enemies. There is no doubt that Hood's Sarsaparilla is one of the best blood purifiers in the world, and we feel confident that those who give it a trial will not be disappointed.

Our New York Fashion Letter.

FURS AND FLOWERS.

A fur cape is the badge of young-ladyhood; as much so as the fur-lined cloak is the mark of mamma or aunt-hood—yet the young lady oftens wears the cloak, but aunt or mamma wears the cape never, or at least hardly ever. "Cloak" is here used in a generic sense, and made to include the fur-lined circular, the long cloak with sleeves, coming in a variety of shapes, as well as the cloak of seal or beaver. Few are the latter, because few can afford them. Now, contrast as a beauty-producing element is wonderfully powerful. What stronger contrast than a bunch of gay blossoms (natural or artificial) resting on shaggy fur? What prettier? So we wear them; everybody, or almost everybody. Not only on fur, but on thick winter material of every kind are these flowers effective, and thus with all they are worn. Bachelor buttons are extremely fashionable, yellow or reddish brown, in bunches sometimes actually huge. But sizes are all or anything, from a modest rosebud to many full blown roses, looking joyfully forth on the snow-and-mud-wrapped streets. Yet bachelors may exult in the fact that even a button named after them stands higher in the world of fashion than the loveliest flower called by another name. Peculiar effects are produced by costumes where the fur cape gives room for a display of the long

MOUSQUETAIRE GLOVE,

reaching over the tight sleeve to the elbow, such as a society belle wore recently; the dress of olive green nonpareil velveteen, (the rage because of its velvety appearance, deep pile and rich coloring,) made plain skirt with satin ruchings around lower edge; terra cotta gloves to the elbow, black lynx cape, and broad brimmed black felt hat trimmed with green ostrich plumes, among which nestled a white pigeon. Gloves in general are tan or terra cotta, unless straw or flesh color are seen. In shape, mousquetaire. The Harris Seamless, known everywhere from its great superiority, is now "mousquetaire," but has lost nothing of the elegant fit and durability which causes it to be sought after. The Harris Pique Derby is of thicker kid and stitched in black, but stands high as a first-class glove. Then we have undressed kid, while also in demand are the

JERSEYS

of fine woven merino in shades to match dresses; the piles of red jerseys giving evidence of the red costumes worn. Little girls look cunning with their tan or terra cotta mousquetaires or colored jerseys, and gentlemen's gloves are of tan or terra cotta in conservative shapes; dog skin for driving, etc. These Christmas times what nicer present to yourself or some one else than a pair of gloves, the more so as you can get these styles either at a leading store in your town or by sending here.

BRIDESMAIDS—THEIR DRESSES.

Boys are extremely stylish as "bridesmaids." Dressed in page's costume, they seem to have stepped out of old-time books or pictures; poetical, pretty, and proud as peacocks. Young lady bridesmaids are no longer restricted to conventional white; now they wear not only colored dresses, but very bright colored, such as red, green, deep blue or yellow. This too, is a copying after old pictures, with which doubtless æsthetic Oscar has had something to do, insomuch that we may expect "stained glass attitudes" as the next step in progression or retro-progression, whichever may be the right phrase. But colored dresses are by no means the rule. Indeed, it is the escaping from rule which brings about these things, although our cold snows have reduced Mr. Wilde to the necessity of wearing—pantaloons—and an overcoat, just like other people, except a large round collar which causes the passer by to stop, stare and say to himself "That must be Oscar Wilde." It has to be acknowledged also that he looks out of the window attired in a purple-faced dressing gown made just like anybody else's gown.

A SUCCESS.

There is no greater success than the little capote or cap-shaped bonnet that, having first appeared three years ago, ought, according to all the proprieties, to be now utterly gone and forgotten, yet it is almost more than ever worn. Sometimes so very small, so very flat and so very far back on the head that it amounts to nothing at all. Perhaps it is the desire to see Mrs. Langtry, for easy 'tis to see that one cannot see if somebody's large hat in front prevents one from seeing, or if your large hat prevents somebody behind you from seeing. At all events we see scarce other than small bonnets, many so small that they scarce are seen, even by LUCY CARTER.

The "Granite Monthly," for November, which appeared later than the customary day of publication, has a sketch of Hon. Wm. E. Chandler, written by Henry Robinson of Concord, accompanied by a steel plate likeness. H. H. Metcalf furnishes a sketch of Dr. W. H. H. Mason of Moultonborough. Mary R. P. Hatch has an article upon "the first newspaper of America," and describes the first number of the N. H. GAZETTE. The Webster club of Concord is described by a visitor as a place where liquor is tabooed, slang and profanity restrained upon severe penalty, and everything bordering on vulgarity is "particularly deprecated" (!) Concord must be in a singular condition as to its social status that such mild rules should be required to restrain its gentleman at club visits; "deprecating vulgarity" is stating it mildly. The personal account of the club's members is perhaps of more interest to the gentlemen mentioned than to the world at large; it certainly is not in good taste. Mr. Tullock's prolific pen gives a sketch of Col. Tobias Lear, which is of historic interest.

"The Problem of the Poor: a record of quiet work in unquiet places," by Helen Campbell, author of "The Easiest Way in Housekeeping and Cooking," editor of household department of "Our Continent," etc. Cloth, ninety cents. New York; Fords, Howard & Hulbert.

"The poor always ye have with you," but how to solve the problem of the poor has been a source of anxiety to many minds. The sketches, written within the past three years, first appeared in magazines, and now are seen in book form at the earnest request of many readers interested in the subject. The author in the preface writes: "Our poor are fast becoming our criminal class, and more and more it is apparent that something beyond preaching is required to bring order out of the chaos which threatens us. Industrial education seems the only solution of the problem, and earnest workers everywhere are convinced that only in this way can real regeneration be accomplished. Those who have been in closest contact with the problem, have long desired such a practical demonstration, and in the final chapter of this volume some hints are given of possible methods." The book is a good medium of information by which one-half of the world may learn how the other half exists.

"Winning His Way:" by Charles Carleton Coffin, author of "Boys of '76," etc. Boston; Estes & Lauriat.

This is an excellent account of the rise and progress of Paul Parker, a Connecticut boy, during the late war. It is full of interest, and like all Mr. Coffins' writings readable in every page and every line. Price $1.25; sold by W. G. Myers.

"Peterson's Magazine" for January is out, and is a marvel of beauty. There are two steel engravings; the first, "Cherry Ripe," an exquisite copy of Millais' celebrated picture; the other, "Psyche Listening to the Flute," also charming. Then there is a double-sized colored steel fashion plate, which is a picture as well; and some thirty other fashion patterns, besides a score of designs in embroidery, crewel-work, etc., and a magnificent colored pattern in Berlin-work for a curtain-border, chair-stripe, etc. There are two novelets, "The Professional Beauty," by Frank Lee Benedict, and "Rule or Ruin," by Mrs. Ann S. Stephens, besides several completed stories by other favorite authors. The reading matter is increased also, there being one hundred and four pages in the number. "Peterson," in short, is *cheaper* and *better* than ever for 1883. The price is still only two dollars a year. To clubs it is astonishingly low, viz.: six copies for nine dollars, with an extra copy to the person getting up the club; or seven copies for ten dollars and a half, with both an extra copy and a large-size engraving, "Christ Before Pilate," or a photograph album, to the person getting up the club. Specimens are sent, gratis, to persons wishing to get up clubs. Address Chas. J. Peterson, No. 306 Chestnut street, Philadelphia, Pa.

News and Notes.

The new Bijou theater, located on Washington street, Boston, opened on Monday evening with "Iolanthe." There will be matinees Wednesday and Saturday afternoons.

A Washington despatch of the 10th inst. says: "The Potomac is frozen over solidly from the foot of Analostan island to the little falls, a spectacle unprecedented within the memory of the oldest river man."

Dr. F. J. Clements, a prominent citizen of Walnut Bridg, Ark., was killed by a passenger train Saturday morning.

The family of Louis Brandenberg, a prominent citizen of Bloomington, Ill., were poisoned a few days ago by eating trichinæ in sausages. One of the family died on the 9th inst., and Mr. Brandenberg and his wife cannot recover.

At the village of Evanston, Mo., Dec. 7th, a number of men became involved in a row, and a young man named Harris drew a pistol and fired at another man, but missed his mark and shot his own father, Dr. Harris, through the heart. Death was instantaneous.

During the last two years, eleven cases of homicide have been brought before the courts of Maine. There have been six convictions of murder in the first degree; one of murder in the second degree; two verdicts of manslaughter; and two sentences for murder on a plea of guilty. Sergeant Kelley and Joseph Henderson are now held for trial on charges of murder. Capital punishment is inflicted in this state once at least in every period of sixty days, but not by law. The law says "Oh, fie!" every time, and looks the murderer up. This gives a great shock to the other villains who have a notion that they would like to kill somebody.—*Portland Advertiser.*

Josie's Thanksgiving.

There was a very happy Thanksgiving at the home of Mr. and Mrs. Miller, of No. 319 East Fifty-second street, New York, and as the hitherto moderately furnished apartments were freshly burnished up with the addition of two cosy armchairs, a reporter inquired of Mrs. Miller how she had been able to make so many comfortable changes, to which she replied: "It is all due to our dear little daughter, Josie; she is a great pet and solace to me and her father, and although only 15 years of age, has worked very hard as a seamstress, earning but a modest pittance to help us pay the rent."

"I was afraid," interrupted Mr. Miller, and the tears came in his eyes as he spoke, "that the little darling would overwork herself, and I encouraged her to save a few dollars for a dark day. About the beginning of November I was surprised when she told me that she had sent a dollar by mail to M. A. Dauphin, New Orleans, La., with the expectation of making a large fortune. I did not approve of it at first, when she said she had done the same thing before, and had indeed fallen in The Louisiana State Lottery Company. Imagine what an agreeable disappointment we received on the 14th of November last, when we were notified that ticket numbered 32,116, which she held, was entitled to one-fifth of the capital donation of $75,000."

"Did Miss Josephine collect her share promptly?" queried the reporter.

"Oh, yes indeed; Mr. Dauphin paid over to the express company $15,000 to the order of Miss Josephine Miller, and she got the money last week."

"Was she elated with her success?" suggested the reporter.

"The little darling was so crazy with joy that I asked her to take a little vacation," and the old gentleman smiled, as he thanked the reporter for congratulating him upon his daughter's good fortune.—*Philadelphia Record, December 6.*

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. No other article takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, ask his wife, ask the doctor. He will tell you that "It's the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1879.

MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.

Yours truly,

F. C. CHURCHILL,

(Firm of Carter & Churchill.)

☞ A gentleman who has been suffering from the *Debility* and *Languor* peculiar to this season, says: "HOOD'S SARSAPARILLA is putting new life right into me. I have gained ten pounds since I began to take it." Has taken two bottles.

Gained 10 Pounds

HOOD'S SARSAPARILLA is sold by all druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever, Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing it thoroughly.

Hay-feveR

—A fair trial will convince the most skeptical—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by druggists at 50 cents. On receipt of 50 cents will mail a package. Send for circular with full information. ELY CREAM BALM Co., Owego, N. Y.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

HIGH SCHOOL ASSOCIATION.

At the annual meeting of the High School Alumni Association, held last week, the following were elected officers for the ensuing year:

President, James P. Bartlett;

Vice Presidents, Rev. E. A. Rand, Henry C. Barnabee, A. J. Goodwin, Mrs. A. B. Wilson, Miss Sarah L. Garrett;

Recording Secretary, Wm. Russell Foster;

Corresponding Secretaries, William P. Benedict, Miss Flora I. Whitcomb;

Treasurer, George E. Hodgdon;

Directors, Charles A. Hazlett, Albert H. Sides, Frank J. Philbrick, Samuel R. Gardner, Miss Celia Blaisdell.

MR. McGINLEY ON EDUCATION.

Rev. W. A. McGinley, having been invited to address the teachers of the public schools at their recent monthly meeting, and having also been asked to give an address upon education, consolidated the two invitations, and on Sunday evening last gave a discourse in the North church on popular education, to be succeeded by a second lecture on Sunday evening next, and by a third, subsequently.

Mr. McGinley's Sabbath evening remarks were upon the necessity of public education as security to the enjoyment of liberty and good government. He enlarged upon the necessity of the schools being under direction of able and properly selected committee-men. He deprecated the introduction of politics in school matters, as much as in the conduct of religious observances. "When the hand of politics touches school affairs, it leaves the mark of its dirty fingers upon the pure object it seeks to control." The office of the teacher, who has charge of youth in the imitative period of their lives, when they are so apt to copy and adopt traits displayed in their instructors, was discussed with ability.

The structure of the lecture shew that a wide field had opened before the vision of the lecturer, who indicated at the outset that this discourse was for the most part introductory. It was listened to with the closest attention by a goodly number. Mr. McGinley, though he had preached twice before on that day, (in the Pearl street church in the afternoon,) delivered the lecture in a vigorous and impressive manner, showing himself alive to a subject which is of such vital interest to every well meaning inhabitant.

REAL ESTATE TRANSFERS.

The following are among the recent transfers of real estate left for record in the office of the register of deeds:

Hodgdon of Portsmouth, land and buildings, $500; Oliver D. Rowell et als. of Salisbury to Mary S. Hodgdon of Portsmouth, land and buildings, $333.33; Oliver D. Rowell of Salisbury (guardian of Clarence B. Hodgdon,) to Mary S. Hodgdon of Portsmouth, land, $166.67.

North Hampton—Chas. E. Seavey of North Hampton to John W. Warner, land, $200; John S. Hobbs of North Hampton to Chas. E. Seavey of North Hampton, land, $400.

SHIPS HAULED ASHORE--A CORRECTION.

BOSTON, MASS., Dec. 7th.

Editors of the New Hampshire Gazette: The article in your issue of Nov. 30th, entitled "A Big Job Well Done," meets my views, and gives praise to the right man; but I beg leave to correct a mistake in the last paragraph of that article, viz.: "The 'Plymouth' was the second vessel ever attempted to be hauled out in this manner, in this country, the first being the 'Canandaigua,' of 955 tons, (2130 tons displacement,) which was hauled out at the Norfolk navy yard in 1881 on the fourth attempt, she having to be three times launched after being hauled partly on the ways."

This paragraph does an injustice to many worthy men. Naval Constructor Samuel Hartt hauled out the ship "Vincennes" at the New York yard about the year 1849. Naval Constructor Samuel M. Pook hauled out the ship "John Hancock," cut her in two, hauled one part an end and made her eight feet longer, at the Boston navy yard, about the year 1851. Naval Constructor Thos. E. Webb, assisted by Naval Constructor George R. Boush of your yard, hauled up the ship "Galena" at the Norfolk navy yard about the year 1869. Naval Constructor John W. Easby hauled out the ship "Quinnebaug" at the Norfolk navy yard about the year 1872. The monitors "Shawnee" and "Wassuc" were hauled out at the Boston navy yard about the year 1876.

Naval Constructor Thos. E. Webb hauled up the ship "Canandaigua" at the Norfolk navy yard; the first attempt proved a failure, owing to the fact that the quarter purchases were short, and she was being hauled by the main purchase for a short distance when it parted in a splice, the ship sliding off from the ways, which was the *only* time she was launched in the attempt to haul her out, and not *three* times as your article would make it.

The hauling out of the "Constitution" by Naval Constructor Edward Hartt may not come under the same head, as she was hauled upon a horizontal plane at the Philadelphia navy yard. The purchase blocks used upon that occasion were loaned to the Portsmouth navy yard, to be used, with others, in hauling out the "Plymouth."

Knowing that you want the truth and would not wantonly hurt the feelings of an enemy, much less your friend, is my excuse for this communication. "JOB."

Storer Post, G. A. R., will give a supper to the inspecting officers of the New Hampshire department, and invited guests, in Odd Fellows' banquet hall, National block, on the evening of Thursday, Dec. 14th, when the annual inspection of the post will occur.

"The Octoroon" is to be given at the Boston museum this week, Miss Norah Bartlett taking the part of Dora Sunnyside.

The schooner John Lenthall made eight trips between Elizabethport, N. J., and Exeter, with coal for the Exeter Coal Co., during the past season; the date of her first arrival at Exeter was May 26th, and her last one Nov. 8th. The schooners Mary Anderson, Wm. Dubosque, J. P. Ames and Fannie Hodgkins, each landed a cargo at Exeter this year.

Mr. J. L. O. Coleman has recently bought the contents of a blacksmith shop in Stratham, belonging to the Weeks estate.

The schooner Adeliza, Frisbee master, was spoken off Gloucester, Mass., on Sunday, having lost her mainsail in the blow of Friday. Subsequently Capt. Frisbee telegraphed to this city for a tug, offering $50 for a tow around, but the tug wanted $75.

The officers of St. Andrew's Lodge of Freemasons were duly installed on Monday evening, the initiation being followed by a banquet in the upper hall.

A sailmaker employed on the navy yard, finding work rather dull within the past two or three days, has taken to submarine diving. It is said he can make a larger hole in the water than all the professionals who have been engaged at the business here during the summer, all put together.

The U. S. S. Marion will probably be inspected by the naval board to-day.

Among the improvements made in the working material of the Eastern railroad during the year ended Sept. 30th, 1882, was the addition of rolling stock as follows: Three new locomotives, nineteen passenger cars, thirty box freight cars, nine cabooses, one cutter, forty-seven eight-wheel flat cars, and thirty four-wheel dump cars.

George Clemens, of North Chelmsford, Mass., twenty-two years old, a brakeman on the Eastern railroad, was crushed to death between an engine and freight car, near the roundhouse in East Somerville, Mass., last Saturday morning. The accident was caused by a misplaced switch.

Elisha P. Parcher died in Biddeford on the 9th inst., of cancer in the stomach. He was for many years employed on the navy yard, his last service there being as yard detective, which position was abolished ten or a dozen years since.

On Thursday, while chopping wood on the Scott lot in Newington, Mr. Thomas Berry of that town met with a severe accident. The tree was nearly chopped off, and the high wind which was blowing caught the tree and broke it off, and it fell, pinning Mr. Berry to the ground in such a manner as to necessitate the chopping of the tree in two places before he could be liberated. His hips were badly crushed. He was taken to the Wentworth farm buildings, where his wounds were attended to by a physician.—*Times.*

D. F. Littlefield of Saco has ceased work for this season at his apple evaporating establishment; during the ten weeks the factory was running, one thousand fifty-pound cases of the cured fruit were put up.

"Three Vassar Girls Abroad:" by Lizzie W. Champney; with 150 original illustrations by J. Wells, Champney and other distinguished artists. Boston; Estes & Lauriat; 1 vol., small quarto; in boards, $1.50; cloth extra, $2.00.

Three students of Vassar collage, on a summer tour, go to Paris, Madrid, Lisbon and other places around France and Spain, skip from Gibraltar to Tunis, and return home in season for the fall term. They accomplish much in sight seeing, and the manner in which this is done is told in an attractive way by Miss Champney, making a very fascinating book of travels.

If these Vassar girls were as bright as those we have known, who in times past were students at the college founded by the wealthy Poughkeepsie brewer, they doubtless saw as much on their vacation trip as could be beheld by any three pairs of eyes which fell upon gay Paris and the castles in Spain during the summer in which these members of the class of '83 crossed the Atlantic. The book can be had of W. G. Myers.

PROSPECTUS FOR 1883.
A FIRST-CLASS
Family Magazine.
LIPPINCOTT'S MAGAZINE,
A POPULAR MONTHLY OF GENERAL LITERATURE.

The distinctive reputation of LIPPINCOTT'S MAGAZINE as "eminently readable" will, it is trusted, be confirmed and extended during the coming year. The special aim of its conductors is to secure such treatment of the great variety of topics embraced within its scope as shall render it attractive to the general mass of intelligent readers, a favorite in the family circle, and a means of culture as well as of entertainment.

While fiction, in the form of serials and of short stories, holds a prominent place in its pages, it has gained particular notice by its sketches of travel and adventure, studies of life and character, and articles on natural history and other scientific subjects, written with the freshness that comes from personal observation and experience, in a lively style, and with abundant anecdotical illustrations.

One of the chief attractions will be a fascinating SERIAL STORY, to commence in the January number, entitled

"The Jewel in the Lotos,"

by Mary Agnes Tincker, author of "Signor Monaldini's Niece," "By the Tiber," etc., in which the interest will be found to centre on three finely contrasted female characters, Italian, English, and American, and which, besides many exquisite pictures of Italian life and scenery, embodies the writer's matured views on some of the leading questions of the day.

In the other features of the Magazine the union of literary excellence with popular attractiveness will be steadily maintained.

TOPEKA, SALINA & WESTERN
RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each, said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road bed will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date o sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

258th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

A NOTED BUT UNTITLED WOMAN.

[From the Boston *Globe.*]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at relief from pain. Mrs. Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits. It is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1, per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaints of *either* sex (this compound is unsurpassed as a diuretic) read testimonials above.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world.* For the cure of Constipation, Biliousness and Torpidity of the liver, Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

The farm buildings of Hanson Gray at Lake Village, consisting of a story and a half house, an ell, shed and large barn, together with a large amount of farm produce, one yoke of oxen, tools, and a part of the household goods, were burned early in the morning on the 10th inst.; loss $2,500; insured in the New Hampshire company $1,200.

"The House That Jill Built, after Jack's had Proved a Failure:" a book on home architecture, with illustrations, by E. C. Gardner, author of "Homes and How to Make Them," etc. New York; Fords, Howard & Halbert.

The book abounds in good sense and good humor. It commends itself to those who intend at some time to build a home; to those who intend to enlarge or improve present homes; and to those who have found in a financial sense what the luxury of owning a house costs where blunders have been committed or practical knowledge been wanting in those operations. But not only to such as these, but to every reader, there is much to appreciate and enjoy in this work, which is one of "Our Continental Library," published by this well known house.

The Old Men's Home.

One of the most beneficent charities in existence is that which provides a resting place for weary and worn out old men. They have many infirmities and diseases, one of the most common of which is rheumatism. Just here comes in the advantage of Perry Davis' Pain Killer, which has relieved the sufferings of many an old man by driving away the most severe rheumatic pains.

BEYOND THE RIVER.

Away Across the Mississippi is Held a Convincing Conversation.

"I tell you sir, that they are one of the nearest combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgment to some respect."

"Oh, I don't know, responded the first speaker's friend, with a little yawn, as though he didn't take much interest in the subject, "I have never been able to see much difference in those things. They are all pretty nearly the same size, and made of about the same stuff."

The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the snug office of Dr. M. P. Flowers, one of the leading physicians of the State, who followed up the vein in which he had introduced it substantially in these words:

"Nonsense, that is the rigmarole of a boy, or rather of a man who either doesn't know or doesn't care what he says. Those things, as you call them, are just as different as the moon is from green cheese. Now, liniments, lotions and ointments are very good in most cases for the relief of pain or inflammation. But, in the first place they are unclean. They soil the hands and the linen, besides being always out of reach when they are most wanted.

"Well, my dear Doctor," sighed the traveler from the North, "what would you have? This is a wretched world anyhow, and nothing is ever at hand when it is wanted. "You can't suggest anything——"

"Yes, I can," broke in the Doctor, thumping the table with his fist, "I can suggest BENSON'S CAPCINE POROUS PLASTER. I have tried it on my patients, and I have tried it on myself for an attack of Pneumonia, and in all cases relief has followed in from three to forty-eight hours. The old plasters are stage coaches—the Capcine is a telegraphic dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded action of the Kidneys, and——"

"I give it up, Doctor, and in case of need I'll buy Benson's," said the traveler, pleasantly.

In the center of the genuine is CUT the word CAPCINE.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire News; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter
Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

37 Walker St., Baltimore, Dec. 28th.
For six years I have been a great sufferer from Blood Disease, Dyspepsia, and Constipation, and became so debilitated that I could not retain anything on my stomach, in fact, life had almost become a burden. Finally, when hope had almost left me, my husband seeing Brown's IRON BITTERS advertised in the paper, induced me to give it a trial. I am now taking the third bottle and have not felt so well in six years as I do at the present time.
Mrs. L. F. GRIFFIN.

BROWN'S IRON BITTERS will have a better tonic effect upon any one who needs "bracing up," than any medicine made.

John Wilson, a blacksmith of Woodsville, was badly injured by a kick in the stomach while shoeing a fractious horse last Monday. His recovery is doubtful.

Michael Doyle of Nashua, a former resident of Lowell, Mass., was found dead in bed last Sunday night by his wife, who was sleeping with him. He had been in Nashua about three weeks. He went to bed as usual at his boarding house. An inquest was held, and decision was given that he came to his death from excessive drinking.

A bill was introduced in Congress on the 11th inst., by Mr. Briggs of New Hampshire, amending the statutes in regard to the election of United States senators. This bill has special reference to the legislature of New Hampshire, and its effect, if it becomes a law, will be to impose upon the lately elected legislature the duty of selecting a successor to Senator Rollins.

Exceptionally dense fogs prevailed on Sunday and Monday last in London. Traffic in the streets, on the river and on the railways was much impeded, and in some cases suspended. Five persons were drowned by breaking through the ice while skating.

To steal an umbrella is at last a crime. But if a man steals a bottle of Dr. Bull's Cough Syrup to cure his cough, can it be called a crime?

At Kinsley, Kansas, on the night of Dec. 9th, a bank was robbed of $12,000 by J. W. Crawford, treasurer of Edwards county, who did the job in such a bungling manner that he was detected in a very short time.

Gov. Stephens of Georgia has issued a pardon to Capt. E. D. Cox, sentenced to life imprisonment in the penitentiary for the murder of Col. Robert A. Allston, at Atlanta, in 1879. The murder and trial created a profund sensation, owing to the prominence of the parties.

*Lydia E. Pinkham's Vegetable Compound strengthens the stomach and kidneys and aids digestion.

William C. Frazier, a school teacher in Cumberland, Ohio, during an attempt to discipline his pupils, Monday, became involved in a general fight, in the course of which he stabbed and killed John Hayes, aged twenty years, and severely cut Charles Luce. Frazier gave himself up, and is in jail.

* * "Men are but sorry witnesses in their own cause." The praise of Kidney-Wort comes from the mouths of those who have been made strong and healthy by it. Listen: "It is curing everybody," writes a druggist. "Kidney-Wort is the most popular medicine we sell." It should be by right, for no other medicine has such specific action on the liver, bowels and kidneys.

There are on exhibition in the office of the Wabash, St. Louis & Pacific railroad, No. 290 Washington street, Boston, three pumpkins raised by Mrs. J. H. Kyner in Douglass county, Nebraska, on the line of the Union Pacific railroad, the weight of the largest being 176 lbs.

Pierce's "Pleasant Purgative Pellets" are perfect preventives of constipation. Inclosed in glass bottles, always fresh. By all druggists. c

Some of the papers, finding it hard to criticise anything in President Arthur's message, have commented on his beginning a sentence with the words "It goes without saying." This idiom, which is getting quite popular with English writers, is a literal translation of the French "Il va sans dire," and is a very terse and expressive way of saying "It is an obvious fact."

Why do you suffer with back ache, pain in the chest, rheumatism, or lameness anywhere when a *Hop Plaster* will surely give you relief? Druggists sell them, 25 cents.

Westboro, Mass., manufacturers have sold 2,650 sleighs, worth about $25 each, this season. This makes their receipts $66,250.

"Ladies' Tonic,"

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription for ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free, Send stamp for names of those who have been cured.

In the examination on Saturday at Chicago, of the divorce case of Frances M. Scoville against George Scoville, the sister of Guiteau told a voluminous tale of her husband's cruelty. She talked so fast, speaking at the rate of 240 words to the minute, that she tired out three stenographers, and so long that the judge showed signs of paralysis. She narrated how George had twisted her right arm twice, and thirty years ago he called her a liar.

Eyes brighten, cheeks become rosy, muscles gain strength by the use of Brown's Iron Bitters.

Trouble has broken out at the medical college at Kingston, Can., between the male and female students. The latter took offence at remarks by a professor, and absented themselves from several lectures. The male students, in retaliation, have asked for their expulsion.

During the Late War

The Government made its Best Arms at Springfield, Mass.—What Mr. David Clark, Inspector U. S. Armory There Recommends.

Your reporter found Inspector Clark at his office on the Armory grounds busily examining "receivers" for the regulation army rifles. However, he was as willing to say a word for the merits of health and strength restoratives as to prove the merits of implements of death. He said: "My business keeps me closely confined to the Armory and its doors. As a result, I've suffered considerably from indigestion and biliousness, but I find that Dr. Kennedy's FAVORITE REMEDY is a most excellent medicine for these complaints. I most cordially recommend it, for I am acquainted with its worth. Dr. Kennedy's FAVORITE REMEDY is used a great deal by the machinists in the U. S. Armory here."

While FAVORITE REMEDY is a specific in Kidney and Bladder diseases, it is equally valuable in cases of Bilious Disorders and Constipation of the Bowels. Try it. Your druggist has it, and its cost is only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The Doctor would have it understood that, while he is engaged in the introduction of his medicine, FAVORITE REMEDY, he still continues the practice of his profession, but confines himself exclusively to *office* practice. He treats all diseases and performs all the minor and capital operations of surgery.

PATENTS!

R. H. EDDY,

No. 76 State St., Opposite Kilby, Boston,

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them as early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1876.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1846, my first patent. Since then you have acted for and advised me in hundreds of cases and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching palms, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

A son of Ephraim Scott of Milltown, Me., aged fourteen years, was killed last Monday while hunting by the accidental discharge of his gun, the shot passing through his head.

The ills which flesh is heir to are more often due to impurities in the blood than is generally supposed. The purification of this vital fluid enables the system to ward off its worst enemies. There is no doubt that Hood's Sarsaparilla is one of the best blood purifiers in the world, and we feel confident that those who give it a trial will not be disappointed.

A despatch from Mount Kineo, Me., says the party that was supposed to be drowned has been heard from. They were driven ashore by the violence of the storm, Thursday, and stopped at a farm until the gale subsided, leaving there Sunday morning.

Kearney says the Chinese must go, but before they go we wish to inform them and everybody else that Adamson's Botanic Balsam continues to win the day in curing coughs, colds, and all difficult breathing. Price, 35 and 75 cts. Trial bottles, 10 cts.

The Riverside rolling mill and the Triton cotton mill at Newcastle, Del., closed on Saturday, the former on account of dull business, and the latter because the hands struck against a reduction of wages. Four hundred hands are thrown out of employment.

Mr. Lewis E. Staples has secured the agency for the Dorcas, Saxony, Knitting Worsted and Germantown yarns, which have become so popular throughout the east. The shades and colors are just what are wanted. oedtjan19

Portsmouth Chronicle.

WEDNESDAY, DEC. 13, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

"Cheek."

When Dr. Webster made his great dictionary of the English language, he lived in an era of comparative modesty. There was a limit to the impudence of people who sought favors for which they expected to render no possible equivalent. Then the word "assurance" seemed to indicate the excess of boldness, or degree of impudence, of certain people. Since then, times have changed; and it has become necessary to a proper expression of the degree of assurance seen in these latter days, to coin a word which in brief represents the present height of impudence. It is "cheek."

A firm in Massachusetts sends us a little pamphlet giving reliable figures as to the fabulous profits on telephone stocks, informing us how little they cost originally, how great dividends they pay, and the amount of watered capital on which these dividends are based. We are asked to "refer" to all of this, and to send a marked copy of our paper to the address "Kitchom & Co.," etc., who have a few shares of stock which they think to sell the New England farmers.

We find a corporation organized in another state, having no officer in New Hampshire, running its wires through and over all our streets, disfiguring our ways and adding to risks of travel, paying little or no local tax, charging exorbitant prices, and boasting of an advance of seventy-five per cent of its share value, that it pays quarterly dividends of three per cent, and is the most desirable thing in the market,—and yet the brokers cannot afford to advertise it legitimately, but want a gratuitous notice at our hands, for which, if we will send a newspaper containing the same, we shall be "entitled to thanks!"

We instance this as one of the many daily requests a newspaper man has thrust at him. Some people seem to think that a newspaper can be found somewhere, so oblivious to the rights of its patrons, so unjust to its readers, and so wanting in self respect in its management, as to waste time in reading the requests or noticing the many worthless affairs which are endeavored to be forced upon its consideration.

And yet there flows into the office of the publisher daily a stream of this bold effrontery, which while intended to fire the heart of the average confiding reader, serves only to kindle a flame by which the office boys and early moving carriers warm their fingers on these cold mornings, before beginning their round of operations.

A Severe Lesson.

A court martial was held on board the United States steamer Nipsic in the harbor of Villefranche, France, in August last, try to Ensign Richard Henderson on charges preferred against him. He was found guilty of "treating with contempt and using disrespectful and abusive language to his superior officer, drunkenness, and conduct unbecoming an officer and a gentleman." The court sentenced him to be dismissed from the service. The President confirmed the sentence, but upon the recommendation of the secretary of the navy, mitigated the sentence to suspension from rank and duty for one year, on furlough pay, and to retain his present number in his grade during that time.

Everybody will approve of this attempt to improve the morals of the navy, and hope for its continuance. Let it once become settled that a naval officer cannot get drunk and behave like a ruffian without being granted permission to remain in Europe a year at the public expense, and such conduct will soon be looked upon as disreputable.

News and Notes.

Much excitement was caused on Saturday morning by the disappearance of Miss Lucy Keene, an estimable middle-aged lady, who lived alone with her mother in Dexter, Me. She arose early to build a fire, which was the last known of her whereabouts. Bells were rung and an exciting search was kept up during the day. Her body was found on Sunday evening in a pond.

There is trouble in the colored Methodist church in Lee, Mass., a majority of the members opposing Rev. Mr. Ackworth, sent by the New England conference to the church. Last Sunday there was a disgraceful row at the church, Ackworth being several times struck, and once knocked down, in a charge upon the pulpit, which however he finally gained possession of. Pistols were drawn during the melee, but no shooting is reported. Mr. Ackworth preached a sermon on "Victory" in the evening, and was unmolested.

Brigadier Gen. John Pope was on the 11th inst. confirmed by the senate to be a major general; Col. R. S. Mackenzie to be brigadier general; Maj. William A. Rucker, paymaster, to be deputy paymaster general; Maj. George H. Elliot to be lieutenant colonel engineer corps; Lieut. Col. William P. Royall, third cavalry, to be colonel fourth cavalry; and a large number of other army nominations.

Last Friday afternoon Mr. Edward English of Danbury, Conn., and his son James, a lad seventeen years of age, were engaged in digging a well, when the well caved in, burying both at a depth of about twenty-five feet. The neighbors began digging for them, and Saturday morning rescued the boy alive. He had been buried nearly eleven hours. He was much bruised, but will recover. A large force continued digging for the father, but the sand kept caving in on them. They worked all day Saturday and Sunday, and at the end of fifty hours the workmen heard the imprisoned man call out to them and urge them on in the work. Soon after another caving in occurred, and all was silent. After several hours more of hard digging the unfortunate man was reached, but life was extinct. The deceased leaves a wife and several children.

A despatch from Dublin, Ireland, says Mr. Parnell has lodged a petition in the land court for the sale of his property in the county of Wicklow. A conditional order for the sale of the property was entered on the 29th day of November. The extent of the property was given as 5,000 acres, and the total incumbrances as £13,000.

Cyrus Barber of Westerly, R. I., a young man, while suffering from religious insanity, jumped from a window at midnight, Sunday, ran to a woodpile, and with an axe chopped his leg nearly off.

Michael O'Brien of Holyoke, Mass., while returning to his home from a wake Monday morning, was struck by an early freight train on the Connecticut River railroad, and killed. He was a paper mill employe, thirty-five years old, and leaves a widow and child.

Hannah O'Neil was found in bed at East Dedham, Mass., Monday morning, dead from a stab in the abdomen. Her husband and two other men are under arrest. The four were on a grand drunk Sunday night.

The jury in the case of John Dignan, on trial at Baltimore for the murder of Edwin Frames last June while the latter was defending a girl from outrage, rendered a verdict of acquittal, Monday. John Hopkins, implicated in the same murder, was recently sentenced to fifteen years' imprisonment on the same charge.

Robert S. Crampton of Little Rock, Ark., cashier and paymaster of the Little Rock and Fort Smith railroad, is a defaulter in $10,000. Crampton left on Tuesday ostensibly for Searcy, Ark., with his wife, but upon reaching Walnut Ridge, on the Iron Mountain railroad, told her the facts, and she returned to Little Rock. His whereabouts are unknown.

Four masked men, early Sunday morning, entered the cashier's office of the Michigan stockyard, in Detroit, confined three watchmen in a closet, and proceeded to blow open the safe. The foreman of the watchmen, on his round of inspection, came to the office, when he was captured and confined with the others. The safe was blown open, but the robbers only obtained $50. The imprisoned men released themselves after the departure of the thieves.

For a bottle of SOZODONT 's all we require,
To speedily realize all we desire.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle. eod&wtjan82

THE SUN.

NEW YORK, 1883.

More people have read THE SUN during the year just ended than ever before since it was first printed. No other newspaper published on this side of the earth has been bought and read in any year so many times as THE SUN.

We are credibly informed that people buy, read, and like THE SUN for the following reasons, among others:

Because its news columns present in attractive form and with the greatest possible accuracy whatever has interest for humankind; the events, the deeds and mishaps, the wisdom, the philosophy, the amiable folly, the solid sense, the improving nonsense—all the news of the busiest world at present revolving in space.

Because people have learned that in its remarks concerning persons and affairs THE SUN makes a practice of telling them the exact truth to the best of its ability three hundred and sixty-five days in the year, before election as well as after, about the whales as well as about the small fish, in the face of dissent as plainly and fearlessly as it has supported by general approval. THE SUN has absolutely no purposes to serve, save the information of its readers and the furtherance of the common good.

Because it is everybody's newspaper. No man is so humble that THE SUN is indifferent to his welfare and his rights. No man is so rich that it can allow injustice to be done him. No man, no association of men, is powerful enough to be exempt from the strict application of its principles of right and wrong.

Because in politics it has fought for a dozen years, without intermission and sometimes alone among newspapers, the fight against that has resulted in the recent overwhelming popular verdict against Robeson and for honest government. No matter what party is in power, THE SUN stands and will continue to stand like a rock for the interests of the people against the ambition of bosses, the encroachments of monopolists, and the dishonest schemes of public robbers.

All this is what we are told almost daily by our friends. One man holds that THE SUN is the best religious newspaper ever published, because its Christianity is undiluted with cant. Another holds that it is the best Republican newspaper print d, because it has already whipped half of the rascals out of that party, and is proceeding against the other half with undiminished vigor. A third believes it to be the best magazine of general literature in existence, because its readers miss nothing worthy of notice that is current in the world of thought. So every friend of THE SUN discovers one of its many sides that appeals with particular force to his individual liking.

If you already know THE SUN, you will observe that in 1883 it is a little better than ever before. If you do not already know THE SUN, you will find it to be a mirror of all human activity, a storehouse of the choicest products of common sense and imagination, a mainstay for the cause of honest government, a sentinel for genuine Jeffersonian Democracy, a scourge for wickedness of every species, and an uncommonly good investment for the coming year.

Terms to Mail Subscribers.

The several editions of THE SUN are sent by mail, postpaid, as follows:

DAILY—$5 cents a month, $6.50 a year; with Sunday edition, $7.70.

SUNDAY—Eight pages, $1.20 a year.

WEEKLY—$2 a year. Eight pages of the best matter of the daily issues; an Agricultural Department of unequaled merit, market reports, and literary, scientific and domestic intelligence make THE WEEKLY SUN the newspaper for the farmer's household. To clubs of ten with $10, an extra copy free.

Address, I. W. ENGLAND, Publisher, THE SUN, N. Y. City.

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of life, so it will do its duty readily and willingly. No other article takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "It's the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1879.

MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and the attendant troubles.

Yours truly,
F. C. CHURCHILL,
(Firm of Carter & Churchill.)

☞ A gentleman who has been suffering from the *Debility* and *Languor* peculiar to this season, says: "HOOD'S SARSAPARILLA is putting new life right into me. I have gained ten pounds since I began to take it." Has taken two bottles.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

POLICE COURT--BATCHELDER J.

TUESDAY, Dec. 12th.

Andrew Garland, for drunkenness, was ordered to pay $3 fine, costs being taxed at $9.90. Paid.

"Railroad day" to-day; special train for "stockholders" leaves this city at 6:45 o'clock A. M.

The train over the Concord & Portsmouth railroad due in this city at about half-past ten o'clock Monday forenoon did not arrive until noon, owing it is said to a slight accident to the tender.

We regret to learn that Mr. Joseph Peach, foreman of the finishing room at the Portsmouth Shoe factory, and Mr. Anson B. Trickey, foreman of the sole-leather room, have tendered to President Whitcomb their resignations, to take effect immediately. Messrs. Peach and Trickey have both accepted responsible positions in a large boot and shoe concern in Alleghany City, Pa., and will enter upon their new duties next week; they are both master workmen at their trades, and have been much liked by the employes under their direction as well as by the officers of the shoe factory. Mr. Frank W. Danielson of this city takes the place made vacant by Mr. Peach's resignation; Mr. Trickey's place is yet to be filled.

Mrs. Eliza Palmer died in Concord last week, her funeral taking place on Sunday. She was born on Noble's island in this city on the 25th of March, 1795, her father being the late John Noble. She was married on the 25th of November, 1824, to Brackett Palmer of South Berwick, Me., by whom she had four sons and two daughters, of whom three sons survive. She leaves a brother, Thomas C. Noble of Augusta, Me., and two sisters, Mrs. John P. Lord of South Berwick, Me., and Mrs. Nancy N. Goodwin of Springfield, Mass. She was in her usual health until a few days before her death, when she commenced to sink, simply from old age, and passed away as quietly as a child goes to sleep.

The British schooner Jessen, which arrived at this port on Monday of this week from La Have, N. S., brought 2600 ties for the Eastern railroad, two boxes of eggs to order, and some spars, etc., consigned to Boston parties. She also brought four passengers.

The marines at the navy yard were paid on Tuesday, the 12th inst.

Mr. Michael Gregg will leave this morning for Littleton, Mass., to run an engine at night for an electric light company in which Mr. Thomas S. Nowell, formerly of this city, is largely interested. Mr. Gregg's family will remain in this city during the winter.

E. B. Phillips, Esq., has resigned the office of president of the Portsmouth, Great Falls & Conway railroad.

The Rockingham Bicycle club will reopen their club rooms and winter riding hall in Franklin block on Friday evening, Dec. 15th. The club are to give special attention to club drill and fancy riding during the winter months.

The schooners Hattie Lewis, Capt. Brewster, Emily A. Staples, Capt. Coleman, and Loella, Capt. Amee, all brick laden and bound for Boston, sailed from this port on Tuesday. The schooner Harry A. Barry, for Baltimore with apples, sailed the same day.

A Greenland youth, reading from the Eastern railroad posters concerning the transportation of stockholders to Boston on "railroad day" that "no provisions will be made for stockholders on any regular passenger train," remarked: "The stockholders are going to have a *free dinner* if they take that early train!"

The Concord & Portsmouth railroad dividend will be paid at the office of Col. Hackett in the United States court house on Thursday, the 28th inst., from 10:30 o'clock A. M. to three P. M.

The many visitors at Gerrish's island, Kittery, during the past summer, will be pained to learn of the death of Choate Burnham, a remarkably bright boy of ten years, grandson of Hon. Choate Burnham of Boston, owner of the Burnham farm, the lad dying in South Boston last week of malignant diphtheria. The little fellow was the constant companion of his grandfather in his rambles on the island, and by his pleasant manner and apt quickness made numerous and warm friends among the summer sojourners on the island.

It was reported on the streets, Tuesday morning, that the recently renewed Congregational church at York village had been burned down about midnight the previous night, by an incendiary fire. Careful enquiry failed to corroborate the rumor.

Mr. James Burnham of South Parsonsfield has a farm of about 200 acres, one of the best in York county, the land being of excellent quality and highly cultivated; besides the heavier staples of farm produce, Mr. Burnham in ordinary years raises over thirty tons of grapes and about two hundred bushels of pears. His two sons are both members of the Limerick cornet band, the youngest, though only fourteen years of age, giving remarkable promise as a cornet player. The Limerick people are proud of their band, claiming it to be the best of its age in the state; it consists of twenty-four young men, is handsomely uniformed, and is at present under charge of Prof. J. Cole of Portland, one of the oldest band leaders in the state, he having emigrated from New Hampshire to Maine when the latter had but three bands within its limits.

The fall term of the school in district one of York, taught by Mr. Howard, closed last month; on the evening of the 18th ult. the best school exhibition that ever took place in York was given in the town hall by this school.

Mrs. Jemina Bradeen of Limington on Monday held a reception to celebrate her 100th birthday. Rebecca Crush of Biddeford, another centenarian, died on Sunday.

Mr. Thaxter, of Cutts' island, Kittery, is greatly annoyed by intruders and trespassers on his premises. Notwithstanding the fact that he has several notices erected, forbidding trespassers, and keeps a number of watch dogs to supplement his own vigilance, they continue their annoying incursions. Mr. Thaxter is a man of quiet and reclusive habits, and thinks his place has plenty of disadvantages that cannot be remedied, without finding his beach and woods infested by careless sportsmen, or devotees who would pay homage to the grave of Champernoon. There is generally a class of people in a seaport town like Kittery, who seem to think land is to a certain extent common property, that the public still retain a right to gun, fish, etc., and wonder that the owner objects. Mr. Thaxter is determined to rid people of this idea, and if the imposition continues he proposes to take more important measures to keep them away another spring. * *

PROSPECTUS FOR 1883.

A FIRST-CLASS
Family Magazine.
LIPPINCOTT'S MAGAZINE,
A POPULAR MONTHLY OF GENERAL LITERATURE.

The distinctive reputation of LIPPINCOTT'S MAGAZINE as "eminently readable" will, it is trusted, be confirmed and extended during the coming year. The special aim of its conductors is to secure such treatment of the great variety of topics embraced within its scope as shall render it attractive to the general mass of intelligent readers, a favorite in the family circle, and a means of culture as well as of entertainment.

While fiction, in the form of serials and of short stories, holds a prominent place in its pages, it has gained particular notice by its sketches of travel and adventure, studies of life and character, and articles on natural history and other scientific subjects, written with the freshness that comes from personal observation and experience, in a lively style, and with abundant anecdotical illustrations.

One of the chief attractions will be a fascinating SERIAL STORY, to commence in the January number, entitled

"The Jewel in the Lotos,"

by Mary Agnes Tincker, author of "Signor Monaldini's Niece," "By the Tiber," etc., in which the interest will be found to centre on three finely contrasted female characters, Italian, English, and American, and which, besides many exquisite pictures of Italian life and scenery, embodies the writer's matured views on some of the leading questions of the day.

In the other features of the Magazine the union of literary excellence with popular attractiveness will be steadily maintained.

6 per Cent. Gold Bonds.
TOPEKA, SALINA & WESTERN
RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabaunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the custom line of Osborne county, a distance of 161 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or virility impaired by the sins of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, double than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, whether one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

Is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—London Lancet.

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Honors, Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who shows all other human beings may be truthfully called the "Poor Friend of Woman," as some of her correspondents love to call her. She is seriously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. It has personally investigated it and am satisfied of the truth of this.

On account of its proven merits it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists, or by advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. E. Pinkham, with stamp for reply at her home in Lynn, Mass.

For Kidney Complaints of either sex this compound is unsurpassed as abundant testimonials show.

Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All want respect her as an Angel of Mercy whose sole ambition is to do good to others.

HEART DISEASE

Now IS YOUR HEART SOUND?

Many people think themselves sick and doctor for Kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart. The renowned Dr. Cheadington, startlingly says "one third of my subjects show signs of heart disease." The heart weighs about six ounces, and yet each of twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for heart disease, and hundred cured. This is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' pamphlet and testimonials.* (3)

—A Pennsylvania paper tells of a family which has been poisoned by eating pie containing arsenic. It seems like a work of supererogation to put arsenic into pie. A pie that cannot kill a family without the help of arsenic is a very weak pie indeed.

The Old Men's Home.

One of the most beneficent charities in existence is that which provides a resting place for weary and worn out old men. They have many infirmities and diseases, one of the most common of which is rheumatism. Just here comes in the advantage of Perry Davis' Pain Killer, which has relieved the sufferings of many an old man by driving away the most severe rheumatic pains.

Harvey Clifford, a gambler of Milwaukee, Wis., who killed Capt. Pugh, a wealthy resident of Racine, in a quarrel resulting from a wager, last spring, was found guilty of murder in the first degree Monday.

Hon. Daniel W. Voorhees, U. S. Senator from Indiana, says: I consider St. Jacobs Oil a splendid remedy. I suffered from rheumatism of the back. I used St. Jacobs Oil, which gave me instantaneous relief, and finally cured me completely.

The decision in the case of Editor Malony of the Waterbury, Conn. *Democrat,* for contempt of court in reflecting on a decision of Judge Bradstreet acquiting two Italians charged with assault, was rendered Saturday by Judge Cowell, Malony being fined $50. What A Pity

that so many otherwise attractive, polite and particular people afflict their friends by the foul and disagreeable odor of their breath, it is mainly caused by disordered digestion and can be corrected by removing the cause, using that pure medicine Sulphur Bitters.—*Health Magazine.*

Senator Rollins on the 11th inst. introduced a bill in the senate proposing important modifications in the Alabama claims act.

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weaknesses caused by those Complaints which are so common to womankind. This is no *Patent Medicine,* but is prepared, after years of experience, and recommended, knowing that it will give new life to any broken-down, worn out or over-worked member of the sex.

If you have tried other remedies without success, do not be discouraged, but try "LADIES' TONIC" a *single trial.* It *never fails* to give quick and *permanent relief.*

If you are troubled with *any* weakness or complaint common to our sex, the use of a few doses of Ladies' Tonic will convince you of its wonderful curative powers. One Bottle is Sufficient.

Women's Medical Institute is an Association of *Wives and Mothers of years' experience,* who give advice and answer letters from ladies. *Free.*

Not to be given for any case of Female Weakness or Debility which "Ladies' Tonic" will not cure. This is a *bona fide* offer, made by *responsible* ladies who know *from experience* what "LADIES' TONIC" can do. Send stamp for circular.

BEYOND THE RIVER.

Away Across the Mississippi is Held a Convincing Conversation.

"I tell you sir, that they are one of the nearest combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgment to some respect."

"Oh, I don't know, responded the first speaker's friend, with a little yawn, as though he didn't take much interest in the subject, "I have never been able to see much difference in those things. They are all pretty nearly the same size, and made of about the same stuff."

The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the snug office of Dr. M. P. Flowers, one of the leading physicians of the State, who followed up the vein in which he had introduced it substantially in these words:

"Nonsense, that is the rigmarole of a boy, or rather of a man who either doesn't know or doesn't care what he says. Those things, as you call them, are just as different as the moon is from green cheese. Now, liniments, lotions and ointments are very good in most cases for the relief of pain or inflammation. But, in the first place they are unclean. They soil the hands and the linen, besides being always out of reach when they are most wanted."

"Well, my dear Doctor," sighed the traveler from the North, "what would you have? This is a wretched world anyhow, and nothing is ever at hand when it is wanted. "You can't suggest anything—"

"Yes, I can," broke in the Doctor, thumping the table with his fist. "I can suggest BENSON'S CAPCINE POROUS PLASTER. I have tried it on my patients, and I have tried it on myself for an attack of Pneumonia, and in all cases relief has followed in from three to forty-eight hours. The old plasters are stage coaches—the Capcine is a telegraphic dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded action of the Kidney's, and——"

"I give it up, Doctor, and in case of need I'll buy Benson's," said the traveler, pleasantly.

In the center of the genuine is cut the word CAPCINE.

About Love.

What is love? Love is keeping a ten dollar family on a six dollar salary.

When a young man kisses a girl and calls it heaven, it shows plainly that he doesn't know any more about heaven than a gosling knows about Beethoven's sonatas.

Love is like beer; it gets flat when it is uncorked all the time.

Some girls can't tell the difference between love and taffy.

A baby is love materialized.

Whenever love has to play second fiddle, it is time to break up the band.

Love will make a man spit on his hands and take another hold when every other power on earth has backed out and given it up as a bad job.

Mr. R. B. Askew, late assistant postmaster at Baltimore, said some time ago: "Having had occasion to try Dr. Bull's Cough Syrup, I unhesitatingly pronounce it the best remedy I have ever used. A small bottle relieved me of a severe cold."

Mrs. Langtry got $6,000 from Sarony for the exclusive privilege to photograph her, and $700 from a face-powder maker for a certificate over her own signature.

Diphtheria poisons the blood. Convalescents should take Hood's Sarsaparilla to neutralize and eradicate the poison matter.

Rev. Edward F. Hayward of Fall River, Mass., has accepted the call to the Broadway Unitarian church, South Boston, and will assume the pastorate the first Sunday in January.

Is your wife's health poor? Are your children sickly? Give them Brown's Iron Bitters. It will revive them.

I had a serious disease of the lungs, and was for a time confined to my bed and under the care of a physician. His prescriptions did not help me. I grew worse, coughing very severely. I commenced taking your "Golden Medical Discovery," and it cured me. Yours respectfully, Judith Burnett, Hillsdale, Michigan. *a*

The bill reducing letter postage to two cents is likely to get through without serious opposition. If it does, there will be a deficiency of about $3,000,000 annually, in the department which nows pays a profit to the government; but Uncle Sam is rich and won't mind a little sum like that.

Fortify feeble lungs against winter blasts with Hale's Honey of Horehound and Tar. Pike's Toothache Drops cure in one minute. A remedy for indigestion, consumption, dyspepsia, weakness, fever, ague, etc., Colden's Liquid Beef Tonic.

As long as the stockholders in the Pacific national bank of Boston, who have just been assessed 100 per cent to meet its liabilities, allow the man Benyon who is the guilty cause of all their trouble to go at large, they will not get or deserve much sympathy. The Massachusetts prisons are full of better and much less dangerous men than he.

Unity of action, concord, sympathy and goodfellowship are admirable traits in human character; but they will not heal our physical infirmities. Catarrh, for example, stubbornly resists their effects or influence. In fact this malady withstands all of its would-be destroyers, except Ely's Cream Balm. "Solitary and alone" this Balm stands as the only recognized and infallible specific for catarrh. "For fifteen years," says J. B. Chase, St. Denis Hotel, B'wy, and 11th st., N. Y., "I have been greatly annoyed with a disgusting catarrh. My sense of smell, not to mention other troubles, became much impaired. A thorough use of Ely's Cream Balm has cured me of these troubles." It is not a liquid or snuff, and is easily applied. Only 50 cents a package.

"Ladies' Tonic,"

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. During the Late War

The Government made its Best Arms at Springfield, Mass.—What Mr. David Clark, Inspector U. S. Armory There Recommends.

Your reporter found Inspector Clark at his office on the Armory grounds busily examining "receivers" for the regulation army rifles. However, he was as willing to say a word for the merits of health and strength restoratives as to prove the merits of implements of death. He said: "My business keeps me closely confined to the Armory and its doors. As a result, I've suffered considerably from indigestion and biliousness, but I find that Dr. Kennedy's FAVORITE REMEDY is a most excellent medicine for these complaints. I most cordially recommend it, for I am acquainted with its worth. Dr. Kennedy's FAVORITE REMEDY is used a great deal by the machinists in the U. S. Armory here."

While FAVORITE REMEDY is a specific in Kidney and Bladder diseases, it is equally valuable in cases of Bilious Disorders and Constipation of the Bowels. Try it. Your druggist has it, and its cost is only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The Doctor would have it understood that, while he is engaged in the introduction of his medicine, FAVORITE REMEDY, he still continues the practice of his profession, but confines himself exclusively to *office* practice. He treats all diseases and performs all the minor and capital operations of surgery.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them as early and favorable consideration as the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

—A New England senator, who recently arrived at his Washington residence, was surprised to find that the servants who had been left in charge had kept the handsome mansion open during his absence as a boarding-house, and had accommodated boarders both white and black; the owner's visit was unexpected, hence the discovery. There is good reason for supposing that undiscovered performances of that general description are numerous at the capitol; certainly the crooked devices of New York servants during the quiet summer would fill a volume. A gentleman who returned to New York for a few days two summers ago, had the pleasure of seeing from the hotel at which he stayed a wedding party enter and a funeral procession leave his own house.

The ills which flesh is heir to are more often due to impurities in the blood than is generally supposed. The purification of this vital fluid enables the system to ward off its worst enemies. There is no doubt that Hood's Sarsaparilla is one of the best blood purifiers in the world, and we feel confident that those who give it a trial will not be disappointed.

—The fact that the poet Whittier in Boston walks "on the sunny side of the street" is being solemnly copied by nearly every paper in the Union. Just as if any one but a born idiot would prefer the shady side this time of year.

Why do you suffer with back ache, pain in the chest, rheumatism, or lameness anywhere when a *Hop Plaster* will surely give you relief? Druggists sell them, 25 cents.

—A gentleman in India pulling on his boots, felt a horrid prickly object, like a centipede, in one of them. With great presence of mind, instead of withdrawing his foot he forced it violently down and stamped furiously, though enduring exquisite agony in the process. But it was not a centipede, only a small blacking brush left there by a careless servant.

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as biliousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, etc. The success which has attended the use of Swedish Botanic Compound warrants us to say that for purifying and enriching the blood, creating an appetite, strengthening and renovating the whole system, nothing surpasses that great remedy.

Portsmouth Chronicle.

THURSDAY, DEC. 14. 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

News and Notes.

The senate on the 12th inst. confirmed Daniel F. Davis to be collector of customs for the district of Bangor, Me., and Edward M. Cheney to be United States attorney for the northern district of Florida.

The democrats carried Boston high and dry on the 12th inst., electing the aldermen, forty of the seventy-two councilmen, the mayor and street commissioner. Palmer, the mayor-elect, had a plurality of 2187 over Mayor Green, the citizens' candidate for re-election.

In Lynn, Mass., Dec. 12th, William L. Baird, candidate of the "citizens" and prohibitionists, was elected by a plurality of ten votes over Breed, the workingmen's candidate. A recount of votes will be demanded. The city gave a majority of 1668 for license, against a majority of 1000 for no license last year.

In New Haven, Conn., Dec. 12th, a disgraceful row occurred at the firemen's ball at Music hall. A party of drunken college students created a disturbance in the hall, and were expelled by the firemen and arrested by the police. One of the students received a severe scalp wound, and was taken to the station house covered with blood. One or two others of the "high-toned" roughs were severely handled.

Allen B. Seaman, a student, attempted to shoot Dr. Galusha Anderson, the president of the Chicago university, at Chicago, on Monday night, Dec. 11th. Mr. Anderson was uninjured. Seaman was expelled from the university, but has not yet been arrested.

Mrs. Bailey of East Fairfield, Vt., left her two little children where they could play with a fire, while she went to call on a neighbor. One was burned to death, and the other is probably fatally injured.

The list of murderers executed in Vermont since 1867 is a long one. It is as follows: John Ward, March 20, 1868; Hiram Miller, June 25, 1869; Henry Welcome, Jan. 20, 1871; John P. Phair, April 10, 1879; Henry Gravelin, March 4, 1879; Asa Magoon, Nov. 28, 1879; Edward Tatro, April 2, 1880; Edwin C. Hayden, Feb. 25, 1881; Royal S. Carr, April 29, 1881.

John J. Donovan, democrat, was elected mayor of Lowell, Mass., on the 12th inst., the democrats also electing the eight aldermen, seventeen councilmen out of twenty-four, and four out of six school committeemen. The vote on the question of licensing liquor shops was 4400 in favor to 2490 against, the democrats having made a clean sweep of everything.

Dr. W. Duncan Corken of Lynn, Mass. was on the 12th inst. discharged from the complaint charging him with unlawfully having obscene pictures and literature in his possession. He gave bail in the sum of $1,500 upon the charge of criminal malpractice.

A national convention of merchants and commercial travellers began in Baltimore Dec. 12th. The object of the convention was to urge Congress to abrogate state laws which impose a tax on commercial travellers, and to inaugurate free trade between all the states. Hon. J. H. Brewer, congressman from New Jersey, and others, addressed the convention.

Silas R. Kenyon, a well known citizen of Newark, N. J., seventy-four years of age, threw himself in front of a train on the 12th inst., and was torn to pieces. He left letters stating that he was poor and tired of life. He was formerly a general in the Rhode Island militia, and was well known in New Jersey as a democratic stump speaker.

"Our Boys in India:" the wanderings of two young Americans in Hindustan, etc., by Harry W. French, author of "Mina the Bramin Girl," etc.; with one hundred and forty-five illustrations. Boston; Lee & Shepard.

This is an interesting work by that well known lecturer and writer, who never fails to engage either listener or reader when he speaks or writes of travels. With nearly five hundred pages and profuse in illustrations, it carries us over the mountains, pilots us through the rivers, and guides us around the cities of the wonderful land of the east, and after its perusal we are nearly as well informed as to the natives and the wonders and customs of the country as the average tourist who visits the land. Price $1.75; sold by M. Goodrich,

"The Wonderful City of Tokio: or, Adventures of the Jewett family and their friend Oto Nambo;" by Edward Greey, author of "Young Americans in Japan," etc.

This book, within whose three hundred pages are to be found one hundred and sixty-nine illustrations, is written from the author's long residence in Japan, where he seems to have seen much that was not before seen by other writers. Mr. Greey was a member of the famous expedition which in 1854 caused the "Land of the Rising Sun" to be opened to eastern civilization. Revisiting the interesting country, living among its people, becoming familiar with their language, customs and mode of life, he is able from observation to give us correct ideas of what goes on in Japan. The author has a unique collection of ancient and modern oriental porcelain and Japanese curiosities, which is open to public inspection at his residence No. 20 East 17th street, New York city, from ten o'clock A. M. to five P. M., and is well worth seeing.

"Wayside Flowers: by E. A. Kimball." Portland; Hoyt, Fogg & Donham; price $1.00. For sale at Goodrich's and at Buzzell & Son's book stores.

Among these poems is "Rye Beach," singing of childhood's early recollections, and "Star Island," in which is given a reminiscence of the sad loss of Miss Varrell of Rye, who was washed from "Miss Underhill's chair" by a huge tidal wave many years ago. The poems are for the most part cheerful in tone, as if written in the free air of summer beneath sunny skies, and amid the seaside and mountain scenes of New England.

"Oddities in Southern Life and Character:" edited by Henry Watterson, with illustrations by Sheppard and Church. Boston; Houghton, Mifflin & Co.

This is a reprint under the editorship of Mr. Watterson, of the Louisville *Courier-Journal*, of many excellent stories and sketches of southern incident, some of which are old, some do not deserve resurrection, a few are of especial brightness, and others have become standard stories of their kind. Mr. Watterson's duty has been limited to the selection and revision of the contents of his book. As characteristic pen-pictures of southern life in times past the work will be appreciated. For sale by W. G. Myers.

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption "Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. At a recent special meeting of the probate court in Manchester, a hearing was had concerning the last will and testament of the late Governor Ezekiel A. Straw. The evidence submitted showed that the testator was not of sound mind at the time of making the will, and it was accordingly set aside. The late governor left an estate valued at $140,000, this property being comprised in his residence on Elm street, Manchester, his real estate at Rye and one or two other places, and a quantity of stocks. James F. Straw, Esq., and Mr. Herman F. Straw have been appointed administrators of the estate, and gave bonds in the sum of $60,000.

At the law term of the supreme court at Concord, on the 11th inst., arguments were made by Harry Bingham and George A. Bingham, of Littleton, in the suit of the National Bank of Newbury, Vt., vs. the Penacook Savings bank of Fisherville, on an action of assumpsit to recover $8,632.49 paid on Northern Illinois bonds in 1875. The verdict was for plaintiff in September, 1881. The question before the court was on the defendant's motion for a new trial.

Warner, by a vote of ninety-nine to ninety-five, on the 12th inst. exempted manufactures from taxation for five years.

The residence of Samuel Baum at Claremont was entered by burglars, Monday night, Dec. 11th, and robbed of money, wearing apparel, jewelry and a check for $75, given by Simonds, Hatch & Whitten of Boston.

THE SUN.

NEW YORK, 1883.

More people have read THE SUN during the year just now passing than ever before since it was first printed. No other newspaper published on this side of the earth has been bought and read in any year by so many men and women.

We are credibly informed that people buy, read, and like THE SUN for the following reasons, among others:

Because its news columns present in attractive form and with the greatest possible accuracy whatever has interest for humankind; the events, the deeds and misdeeds, the wisdom, the philosophy, the rotable folly, the solid sense, the improving nonsense—all the news of the busiest world at present revolving in space.

Because people have learned that in its remarks concerning persons and affairs THE SUN makes a practice of telling them the exact truth to the best of its ability three hundred and sixty-five days in the year, before election as well as after, about the whales as well as about the small fish, in the face of dissent as plainly and fearlessly as when supported by general approval. THE SUN has absolutely no purpose to serve, save the information of its readers and the furtherance of the common good.

Because it is everybody's newspaper. No man is so humble that THE SUN is indifferent to his welfare and his rights. No man is so rich that it can allow injustice to be done him. No man, no association of men, is powerful enough to be exempt from the strict application of its principles of right and wrong.

Because in politics it has fought for a dozen years, without intermission and sometimes almost alone among newspapers, the fight that has resulted in the recent overwhelming popular verdict against Bourbonism and for honest government. No matter what party is in power, THE SUN stands and will continue to stand like a rock for the interests of the people against the ambition of bosses, the encroachments of monopolists, and the dishonest schemes of public robbers.

All this is what we are told almost daily by our friends. One man holds that THE SUN is the best religious newspaper ever published, because its Christianity is undiluted with cant. Another holds that it is the best Republican newspaper print d, because it has already whipped half of the rascals out of that party, and is proceeding against the other half with undiminished vigor. A third believes it to be the best magazine of general li erature in existence, because its readers miss nothing worth a notice that is current in the world of thought. So every friend of THE SUN discovers one of its many sides that appeals with particular force to his individual liking.

If you already know THE SUN, you will observe that in 1883 it is a little better than ever before. If you do not already know THE SUN, you will find it to be a mirror of all human activity, a storehouse of the choicest products of common sense and imagination, a nationality for the cause of honest government, a sentinel for genuine Jeffersonian Democracy, a scourge for wickedness of every grade, and an uncommonly good investment for the coming year.

Terms to Mail Subscribers.

The several editions of THE SUN are sent by mail, postpaid, as follows:

DAILY—55 cents a month, $6.50 a year; with Sunday edition, $7.70.

SUNDAY—Eight pages, $1.20 a year.

WEEKLY—$1 a year. Eight pages of the best matter of the daily issues; an Agricultural Department of unequalled merit, market reports, and literary, scientific and domestic intelligence make THE WEEKLY SUN the newspaper for the farmer's household. To clubs of ten with $10, an extra copy free.

Address, I. W. ENGLAND, Publisher, THE SUN, N. Y. City.

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. No other article takes hold of the system and kills exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and vigor.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "It's the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1879.

MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.

Yours truly,
F. C. CHURCHILL,
(Firm of Carter & Churchill.)

☞A gentleman who has been suffering from the *Debility* and *Languor* peculiar to this season, says: "HOOD'S SARSAPARILLA is putting new life right into me. I have gained ten pounds since I began to take it." Has taken two bottles.

Gained 10 Pounds

HOOD'S SARSAPARILLA is sold by all druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever, Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing in thoroughly.

Hay-feveR

—A fair trial will convince the most skeptical.—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by druggists at 50 cents. On receipt of 50 cents will mail a package. Send for circular with full information. ELY CREAM BALM Co., Owego, N. Y.

LIFE INSURANCE !

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

POLICE COURT.

WEDNESDAY, Dec. 13th; *Buford J.*

Timothy Murphy and Edward Weeks, two hoodlums of the worst sort, were brought before the court upon a complaint of brawl and tumult, and pleaded guilty; sentence was suspended until afternoon, when the defendants were sent to the county farm at Brentwood for six months. Murphy only returned from Brentwood on the previous day.

RAILROAD MEETINGS.

The annual meeting of the stockholders and holders of certificates of indebtedness of the Eastern railroad was held in the Meionaon at Boston on the 13th inst., when the following-named gentlemen were elected directors for the ensuing year:

Richard Olney of Boston, Jacob C. Rogers of Peabody, Mass., George S. Morrison of New York, George E. B. Jackson of Portland, Me., Jonas H. French of Gloucester, Mass., and Samuel C. Lawrence of Medford, Mass., on the part of the bondholders; Charles Houghton of Boston, John Cummings of Woburn, Mass., and Arthur Sewall of Bath, Me., on the part of the stockholders.

The annual report of the directors was submitted in print, and accepted without reading.

The annual meeting of the Boston & Maine railroad stockholders was held in the city hall at Lawrence, Mass., Dec. 13th, and directors chosen for the ensuing year as follows:

Nathaniel G. White of Lawrence, Geo. C. Lord of Newton, Mass., Amos Paul of South Newmarket, Nathaniel J. Bradlee of Boston, William S. Stevens of Dover, James R. Nichols of Haverhill, Mass., John F. Osgood of Boston, Samuel E. Spring of Portland, Me., Nathaniel W. Farwell of Lewiston, Me.

ASSISTANT INSPECTOR WANTED.

An application for the appointment of an assistant inspector of steamboats at this port has been received by the secretary of the treasury. The paper has numerous signatures, and is strongly indorsed by Senator Blair. The reason given for making this request is that the inspectors at Boston are so busy with work in their own district that an assistant is badly needed at Portsmouth. The law governing this service is not very clear on the power of the secretary to create the office petitioned for, and an opinion has been asked on the subject before making a reply.

The stockholders' train for Boston which left this city at 6:45 o'clock Wednesday morning, the 13th inst., included nine passenger cars, though two cars would have accommodated all the "stockholders" who went at that time, nearly all of whom were ladies. The later trains were patronized to a somewhat greater extent, though the total traffic was much smaller than is usual on "railroad day."

There were about seventy-five vessels in the lower harbor on Wednesday evening, the 13th inst., for shelter from the storm.

A number of persons were catching smelts from the wharves on Wednesday.

The sidewalks were as slippery as wet ice could make them on the evening of the 13th inst., and more than one pedestrian measured his length on the bricks. There was no possible way by which the city could have made the walking better, yet in case of serious accident the municipality would probably be held in fault.

Mr. Walter Pelham, Jr., agent of the Legrand dramatic company, was in this city on the 13th inst. to make arrangements for the performance of "Camille" in Music hall.

Captain David L. Grogan, keeper of White island light, ran in from the Shoals in his small boat on Wednesday of this week, arriving about two o'clock. If he had been an hour or two later we are afraid our genial friend would not have succeeded in landing all in one piece.

The "pinque" Lucy is hauled up for the winter at Long wharf.

The scores of ladies who went to Boston on Wednesday of this week to help elect directors for the Eastern railroad, and incidentally to do a little shopping, had a rather unpleasant day for their excursion, and on arriving home after dark had to slip and slide to their dwellings over the slipperiest sidewalks ever seen in this or any other city, in a drenching rain.

The fishing schooner Albert Woodbury in leaving the harbor at about two o'clock in the morning on the 13th inst., lost her wind when in the narrows, and was forced ashore on Seavey's island by the tide, in the cove just above the narrows; the anchor was let go in time, but bounced along the rocky bottom without getting a hold. When the tide went down the schooner heeled toward the island, which was fortunate, as had she listed toward the deep water on the off-shore side she would almost certainly have filled with the rising tide. She came off at noon unharmed, and returned to the wharf.

The U. S. S. Marion was inspected by the naval board on Wednesday.

The fishing vessels are hard pushed to get bait; herring are not to be had, nor even clams at all times, and salt mackerel are used. Advices of the 13th inst. from Eastport, Me., reported no bait to be had there, and that the bait-hunting fleet had nearly all left for Grand Menan.

Mr. John J. Donovan, elected mayor of Lowell, Mass., on the 12th inst., married a Portsmouth girl, Miss Seede, whose brother, Mr. John T. Seede, is a business partner of the mayor-elect.

The insurance on the building on Market street owned by John Stavers of Taunton, Mass., and occupied by Dennis J. Lynch as a grocery store until recently damaged by fire, has been adjusted.

C. M. Lamprey, Esq., of Hampton, was in town on Wednesday of this week on his way to Florida.

Mr. Edward Jervis, the painter, arrived home from Boston on the 13th inst. with a bad cut on his head, having slipped down the steps of the Arlington house on Causeway street.

Wm. G. Butler of New Haven, Conn., who ran for Congress as an anti-monopolist and received forty-nine votes, proposes to contest the election of the successful candidate, Mitchell, who received over 12,000 votes. He will make a few thousand dollars out of it, anyway, as Congress always pays the expenses of contesting candidates.

A new iron and steel bridge on the Mexican Pacific railroad fell recently while 100 men were upon it at work; seven men were killed and many wounded.

Ex-Senator George E. Spencer, who is "wanted" in Washington to testify in the star-route trials, arrived in that city on the 8th inst., and talked very boldly; but he left next evening for Kingston, Canada, and is not expected to return immediately.

At Stockbridge, Ga., on the night of Dec. 11th, the house of Singleton James was burned, and with it two children and Thomas Knight. The man was lying drunk in the house when the fire occurred.

The Bangor *Commercial* says that about 100,000 of the 145,000 tons of ice cut last winter on the Penobscot river still remain in the storehouses. The past season was an unfavorable one for the ice business.

PROSPECTUS FOR 1883.
A FIRST-CLASS
Family Magazine.
LIPPINCOTT'S MAGAZINE,
A POPULAR MONTHLY OF GENERAL LITERATURE.

The distinctive reputation of LIPPINCOTT'S MAGAZINE as "eminently readable" will, it is trusted, be confirmed and extended during the coming year. The special aim of its conductors is to secure such treatment of the great variety of topics embraced within its scope as shall render it attractive to the general mass of intelligent readers, a favorite in the family circle, and a means of culture as well as of entertainment.

While fiction, in the form of serials and of short stories, holds a prominent place in its pages, it has gained particular notice by its sketches of travel and adventure, studies of life and character, and articles on natural history and other scientific subjects, written with the freshness that comes from personal observation and experience, in a lively style, and with abundant anecdotical illustrations.

One of the chief attractions will be a fascinating SERIAL STORY, to commence in the January number, entitled

"The Jewel in the Lotos,"

by Mary Agnes Tincker, author of "Signor Monaldini's Niece," "By the Tiber," etc., in which the interest will be found to centre on three finely contrasted female characters, Italian, English, and American, and which, besides many exquisite pictures of Italian life and scenery, embodies the writer's matured views on some of the leading questions of the day.

In the other features of the Magazine the union of literary excellence with popular attractiveness will be steadily maintained.

6 per Cent. Gold Bonds.
TOPEKA, SALINA & WESTERN
RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabaunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in youth, or the early vices of youth, are now fully set forth in the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be completely cured and manhood restored.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 2/; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N.B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or consulting with the author, who may be consulted on all diseases requiring skill and experience. Address,

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the business of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaints of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world. For the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and this fair to equal the Compound in its popularity.

All want respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. (3) MRS. A. M. D.

"Zigzag Journeys in the Occident"—the Atlantic to the Pacific; a summer trip of the Zigzag Club from Boston to the Golden Gate;" by Hezekiah Butterworth, author of several "zigzag journeys," and "Young folks' history of Boston;" illustrated. Boston; Estes & Lauriat; 1 vol., small quarto; boards $1.75; cloth extra, $2.25.

The journeys in foreign lands are now succeeded by the journey from the Atlantic to the Pacific. The book though largely made up from stories, seeks to show the aim and results of emigration; gives information as to the government lands and how they may be obtained; and affords a knowledge as to western life and what the settler may accomplish. This series of books has achieved a sale of a hundred thousand copies. The reader, young or old, will gain much important information from these pages, while the book, like its predecessors by this author, is full of interest from the attractive manner in which the writer conducts his readers across the continent. Myers has it for sale.

"Letters of Lydia Maria Child: with a biographical introduction by John G. Whittier, and an appendix by Wendell Phillips." Boston; Houghton, Mifflin & Co.; sold by W. G. Myers, price $1.50.

Mrs. Child was a sister of the late Convers Francis, D. D., at one time theological professor at Harvard college. Fifty years ago, Mr. Whittier asserts, she was the most popular literary woman in the United States. In 1828 she married David Lee Child, a lawyer, and with her husband in 1831 became deeply interested in the subject of slavery. Mrs. Child went to New York city, and there labored as editor of the *Anti-Slavery Standard* for some time, and subsequently resided in Wayland, Mass., where she engaged in her favorite pursuits of literature and reform, until her death in October, 1880.

The letters, which with the appendix make a book of 274 pages, are full of interest. Those written during the war of the rebellion show her zeal in the cause of the right, when she looked into the windows of Ticknor & Field's store and saw the advertisement of "John Brent," which she wanted very much, but her thought of the wants of the "Contrabands" and similar claims upon her purse overcame her literary desire, and she resolved "No unnecessary expense till the war is over." A list of Mrs. Child's writings is given in the appendix, and a full index of persons and events is at the close of the volume. The letters, every one, are not only readable but are indeed short essays upon prominent and timely topics.

Robert Morris, Esq., the widely-known colored lawyer of Boston, died in that city Dec. 12th. He leaves one son, who is a member of the Suffolk bar.

The Old Men's Home.

One of the most beneficent charities in existence is that which provides a resting place for weary and worn out old men. They have many infirmities and diseases, one of the most common of which is rheumatism. Just here comes in the advantage of Perry Davis' Pain Killer, which has relieved the sufferings of many an old man by driving away the most severe rheumatic pains.

—Ought not the performers in a play that is "well mounted" to be on horseback?

—The girl who was courted by a spruce young lawyer said she liked to be protected by the strong arm of the law.

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. Sold by dealers.

—A dinner is a subject that never ought to be brought up.

—Art is long, but the artist is usually "short."

—Though avarice will preserve a man from being necessarily poor, it generally makes him too poor to be wealthy.

HEART DISEASE

IS YOUR HEART SOUND?

Now! Many people think themselves sick and doctor for biliary or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Condemanding, corresponding, says the author of my subjects show signs of heart disease.

The heart weighs about nine ounces, and yet each twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weaknesses caused by loss of regulation which are so common to womankind. This is not *Patent Medicine*, but is prepared, after years of experience, and recommended, knowing that it will give new life to any broken-down, worn out or over-worked member of the sex.

If you have tried other remedies without success, do not be discouraged, but give "LADIES' TONIC" a *single trial*. It *never fails* to give *quick* and *permanent relief*.

If you are troubled with *any* weakness or complaint common to your sex, inside the circle of propriety or decency, send for "Ladies' Tonic," which we guarantee will positively cure you. One Bottle is Sufficient.

Women's Medical Institute is an Association of *Mothers and Mothers of years' experience*, who give advice and answer letters from ladies, *free*.

Rose will be given for any case of Female Weakness or inability which "Ladies' Tonic" will not cure. This is a bona fide offer, made by a *reliable lady, who knows from experience* what "LADIES' TONIC" can do. Send stamp for circular.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, stripped for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Bœuf's Castle, must have presented an admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to start a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calklate on:—I shall never wrastle with another log unless I have the advantage of the ground. Fur, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is cut in the centre of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Surgeon John L. Neilson is detached from the naval academy and ordered to the training ship Saratoga.

Passed Assistant Surgeon Howard E. Ames is detached from the Saratoga, and placed on waiting orders.

The navy department is informed that the United States ironclad Passaic has gone out of commission at Annapolis, and the Montauk at League island navy yard.

John F. Potter, formerly a member of congress and known all over the Union, is dying in a poorhouse at Mukwanago, Wis. In 1860, during some of the hot debates on the slavery question which immediately preceded the rebellion, Potter said something which enraged Roger A. Pryor, an extreme democrat, who challenged him to fight a duel. Potter accepted the challenge, and named bowie knives as the weapons and a locked room as the place of battle, which festive arrangements were disagreed to by Pryor, and the fight did not come off.

John Callahan, of Hartford, Conn., was to have been married this week, but fell from a window and was killed on the day before the one set for the ceremony.

"Made New Again."

Mrs. Wm. D. Ryckman, St. Catherines, Ont., says: "R. V. Pierce, Buffalo, N. Y., I have used your 'Favorite Prescription,' 'Golden Medical Discovery,' and 'Pleasant Purgative Pellets,' for the last three months and find myself—[what shall I say]—'made new again' are the only words that express it. I was reduced to a skeleton, could not walk across the floor without fainting, could keep nothing in the shape of food on my stomach. Myself and friends had given up all hope, my immediate death seemed certain. I now live (to the surprise of everybody) and am able to do my own work." b

Senator Brown of Georgia desires the entire abolition of the internal revenue laws, which is a very natural wish on his part, for of 1471 arrests for violation of these laws from June 30, 1881, to November 1, 1882, 1075 were in Georgia, and 1069 in the second congressional district, where Senator Brown lives. The same relative statistics are true as to the seizure of illicit stills. Of the four officers of the internal revenue service killed in enforcing the laws in the same period, two lived in the second district of Georgia, in which Mr. Brown resides.

"Ladies' Tonic,"

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription for ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free. Send stamp for names of those who have been cured.

Two students and two negroes were caught, Tuesday night, the 12th inst., robbing a grave in Oakwood cemetery, Richmond, Va. A search of the Virginia Medical college in that city resulted in finding four bodies, three of which had been resurrected from the cemetery.

HAY-FEVER

During the Late War

The Government made its Best Arms at Springfield, Mass.—What Mr. David Clark, Inspector U. S. Armory There Recommends.

Your reporter found Inspector Clark at his office on the Armory grounds busily examining "receivers" for the regulation army rifles. However, he was as willing to say a word for the merits of health and strength restoratives as to prove the merits of implements of death. He said: "My business keeps me closely confined to the Armory and its doors. As a result, I've suffered considerably from indigestion and biliousness, but I find that Dr. Kennedy's FAVORITE REMEDY is a most excellent medicine for these complaints. I most cordially recommend it, for I am acquainted with its worth. Dr. Kennedy's FAVORITE REMEDY is used a great deal by the machinists in the U. S. Armory here."

While FAVORITE REMEDY is a specific in Kidney and Bladder diseases, it is equally valuable in cases of Bilious Disorders and Constipation of the Bowels. Try it. Your druggist has it, and its cost is only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The Doctor would have it understood that, while he is engaged in the introduction of his medicine, FAVORITE REMEDY, he still continues the practice of his profession, but confines himself exclusively to *office* practice. He treats all diseases and performs all the minor and capital operations of surgery.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them as early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1876.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1869, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

The *Pall Mall Gazette* of London on the 14th inst. announced the resignation of Premier Gladstone, and that Hugh C. Childers has been appointed to succeed him.

Mr. Lewis E. Staples has secured the agency for the Dorcas, Saxony, Knitting Worsted and Germantown yarns, which have become so popular throughout the east. The shades and colors are just what are wanted. oedtjan19

Miss Chamberlaine, the American girl whose great beauty of face and person has made her the toast across the water this season, figures in a late English illustrated newspaper, with the prince of Wales, looking at the fireworks at Homburg. It is said that the princess of Wales is much annoyed at her husband's recent flirtation being thus made public, and that because of this Miss Chamberlaine has fallen into disfavor in higher English circles.

The ills which flesh is heir to are more often due to impurities in the blood than is generally supposed. The purification of this vital fluid enables the system to ward off its worst enemies. There is no doubt that Hood's Sarsaparilla is one of the best blood purifiers in the world, and we feel confident that those who give it a trial will not be disappointed.

The grand jury at Philadelphia found true bills against all the prisoners implicated in robbing the Lebanon cemetery of bodies. Frank McNamee, one of the ghouls, has made a full confession, charging Dr. Wm. S. Forbes, demonstrator of anatomy in Jefferson Medical college, with being the instigator of the acts.

A Philadelphia editor was the prime factor in suppressing a bogus medical college, from which so-called diplomas were peddled at $19 each. It doesn't require a physician—no matter whether he is a genuine one or the converse—to recognize heart disease. The symptoms are plain and unmistakable. So, too, is the remedy. A bottle of Dr. Graves' Heart Regulator will cure any case of heart disease. $1. At druggists.

FOR THE HOLIDAYS.

Mr. John P. Sweetser, at No. 46 Market street, among a variety of attractive, useful articles has a fine assortment of Duplex lamps. The soft light of these lamps, by which one can read during the long winter evenings, is far better for the eyes than the over-head gas-light, and we advise every one who has a care for the eyes and enjoys the delight of fireside reading, to secure one of these excellently designed lamps. We have tried them, and know of what we affirm.

Mr. D. H. Montgomery has on exhibition in his music and art store a maroon-colored velvet screen, on which are painted three elegant designs, one being of grain and wild flowers; the centre piece is a landscape, with a foreground of deer; and the third is a representation of ferns, pond lilies, etc. The artist is Miss Augusta Perkins of Seabrook, and anyone wishing to make a choice Christmas present would do well to consider this as among the gems for selection. There are also by the same artist some oil paintings on canvas and cabinet wood, of wild roses and the fleur de lis, which possess considerable merit.

AROUND HOME.

Messrs. Dennis Shea, John Shea and Thomas Jameson will shortly open in Manchester a wholesale and retail fish market, buying their supplies here, Mr. Dennis Shea managing the business at this end of the line; they have nearly completed a receiving storehouse on Shea's wharf, and will be ready for business by the time any large quantity of fish commences to arrive.

Several seamen who formerly belonged to the sealing barque Trinity, of New London, Conn., wrecked on Hurd's island in the southern Indian ocean, and who were rescued by the U. S. S. Marion after a residence of over a year on the desolate rock, arrived at this port in the Marion.

Rev. James DeNormandie declines the recent call extended by the First Unitarian church of Worcester.

The great spectacular play of "Youth," which has had such a run in Boston, will be presented on the Music hall stage, Saturday evening, Dec. 23d. It is reported that the military part of the play will be performed by twenty of the local war veterans.

"The trade" throughout New England are interested in the notice of Wm. S. Butler & Co., Boston, relating to Hamburg edgings and insertions.

Wallace Hackett, Esq., of this city, has been appointed assistant United States counsel for New Hampshire before the court of commissioners of Alabama claims.

Joseph Newbold, a colored seaman on board the schooner T. N. Tower, was brought up to this city from the lower harbor on Thursday last at noon, having been badly frostbitten about two weeks since in a severe storm off the coast of Maine. The seaman being unable to walk, was taken in charge by the customs officials, and sent to the marine hospital at Chelsea, Mass., by one of the afternoon trains. This was the second frostbitten seaman to report to the port surgeon within a week, the first one's condition being however much the less serious.

The insurance companies having risks on Mr. John Stavers' building on Market street, recently injured by fire, settled by the payment of something over $1100.

Mr. Buel C. Carter, state bank examiner, has been in this city several days attending to the duties of his office.

Orders were being issued at the navy department in Washington on the 13th inst., detaching the officers and men from the U. S. S. Marion, and putting her out of commission.

The horse shoers had a big rush of business on Thursday forenoon last.

Mr. Anson B. Trickey, foreman of the sole-leather room at the Portsmouth Shoe factory, whose resignation of the position we some days ago announced, has been induced to reconsider the matter, and will remain here. Mr. Joseph Peach, late foreman of the finishing room, has accepted a position in the penitentiary shops at Allegheny City, Pa.

The Tremont Gun club of Boston had their last pigeon shoot of the season on the 14th inst., at Eliot.

THE NAVY YARDS.

The navy yard commission has made a report on the navy yards at Portsmouth, Charlestown, Mass., New London, Conn., New York, League island, Norfolk and Washington. They have yet to inspect the yards at Key West, Pensacola and Mare island. Chief Engineer Loring, when asked what was the general condition of the yards, said: "We find that their condition is not what it ought to be, if we make any pretence at all of being a naval power; they are not particularly defective, only none of them are in first-class condition. The advisory board," said Mr. Loring, "recommended that a fleet of twenty-five iron and steel vessels be built for a cruising fleet. When we get these we can talk about our ironclads. We are in no condition to dispute with any foreign country, so far as our navy is concerned." The areas of the government navy yards are as follows:

Portsmouth	acres 164
Boston	" 84¾
New London	" 71¾
Brooklyn	" 193¾
League Island	" 982
Washington	" 41
Norfolk	" 160
Pensacola	" 88¾
Mare Island	" 900
Key West	" 2¾

The estimated total cost of improvements made in the yards, exclusive of plant and machinery, has been $55,000,000. "If the Portsmouth yard was sold to-day," said Mr. Loring, "it would not bring more than $5000, and Pensacola would bring nothing."

The legislature of Alabama has vacated the charter of the city of Selma, the third municipality of the state. The city owes a debt of $380,000, incurred through issuing bonds in aid of railroads, and all bearing eight per cent interest. For some years the city has failed to meet the interest, and the charter was abolished to rid the city of the debt. The bondholders will now be forced to accede to such terms as the people choose to make.

Three bodies were stolen from the dead-house at St. Ann's Locks, Quebec, on the night of Dec. 11th.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle. eod&wtjan82

Three small boats left port for the fishing grounds last Thursday morning.

A board of enquiry convenes at the navy yard to-day, to try Chief Engineer Edwin Wells, it is reported on a charge of having struck an enlisted man on board the Marion, of which ship Mr. Wells at the time was chief engineer; the story is that the man, who was one of the fire-room gang, through incompetence or gross carelessness allowed the water in the boiler to get dangerously low, on discovering which the engineer struck him. If this story is correct, the man deserved to have his head broken. The board will consist of Capt. Benham, president, Chief Engineers Garvin, Macomb and Whittaker, Commanders Yates, Cromwell and Gridley, with 1st Lieut. Harrington, U. S. M. C., as judge advocate.

The official inspection of the Marion was completed on the 14th inst., and in the afternoon the work of stripping her was begun. During the progress of the work the main-topgallantmast came down by the run, striking the deck among a number of men, but fortunately not injuring any one; the mast was broken.

Secretary Chandler has decided to assign Commander Edwin M. Shepard to the command of the sailing sloop-of-war St. Mary's, the New York nautical school-ship, to succeed Captain Henry Erben, who has been in command much longer than the usual term of service. There has been great competition for this command. It is stated that Capt. A. E. K. Benham, executive officer at this navy yard, was among the applicants for this position. Commander Shepard will be pleasantly remembered as having been on duty at this station.

Two seamen from the Marion, under sentence of court martial, (one of them for manslaughter,) went to New York on the 14th inst. in charge of Lieut. W. H. Reeder. Another will be sent to Weathersfield, Conn., to be there confined, to-day.

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. Another article takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "It's the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1872.

MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.

Yours truly, F. C. CHURCHILL,
(Firm of Carter & Churchill.)

☞ A gentleman who has been suffering from the *Debility* and *Languor* peculiar to this season, says: "HOOD'S SARSAPARILLA is putting new life right into me. I have gained ten pounds since I began to take it." Has taken two bottles.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, Dec. 14th, Mayor Treat in the chair:

Present the full board.

Records of last meeting were read and approved.

Bills of superintendent of city farm against the several departments of the city were presented, and charged to the departments.

Bill of George W. Brackett, $2 for clearing away snow in 1880, was referred.

Bill of Samuel Rowe, $5 for services as supervisor of election. Voted, leave to withdraw.

Bill of Mr. Whidden for sheep killed by dogs, was ordered paid.

Bill of Howe Call, $25.50 for services as city solicitor in absence of Mr. Foster, was referred back to committee on claims.

Committee on city lands and buildings reported on chief engineer's request to have hook and ladder truck more conveniently located; and after a discussion in which the truck was spoken of disrespectfully as an antiquated and dangerous old concern, the matter was referred back to the same committee, whith power to hire a building for the truck at a rental not exceeding $75 a year.

Ald. Martin said that $25,500 of city bonds will fall due in April and September next, and that it might be advisable, in order to pay these bonds, to sell a portion of the city farm.

Ald. Caswell asked if it would not be better to sell Dover railroad stock.

It was suggested that though lots laid out some years ago on the south part of the farm, along a new street made there, had found no purchasers, yet no doubt the portion of the farm in the vicinity of Hon. Frank Jones' improvements would sell well.

The matter was referred to a special committee consisting of Ald. Martin, Hackett and Atwell, with mayor added.

Adjourned.

SINGULAR ACCIDENT.

At the navy yard, in the afternoon on the 14th inst., a singular accident took place. It having been decided to take the masts out of the little third rate Kansas, and place them in the Constitution, preparations for taking out the masts were made as follows:

The mainmast of the frigate Congress, lying in "rotton row" next alongside the Kansas, was stayed by masthead tackles attached to the Sabine, the latter lying on the opposite side of the Congress from the Kansas; a heavy spar was then rigged as a derrick boom, one end at the foot of the Congress' mast and the other supported by a tackle from the masthead, and to this the mainmast of the Kansas was slung. The mast was lifted out without special trouble, and was hanging in air fore and aft of the Kansas, while the men were getting tackles ready for pointing it overboard, when the mast of the Congress snapped at the deck, and the two mainmasts, boom, blocks and ropes went thundering down on the deck of the Kansas, the Congress' mast breaking in three pieces, the other not being damaged to any extent. The strangest thing about the affair is that no person was injured. The mast which broke was a thoroughly rotten affair; had it been sound it would have been strong enough to have almost lifted the Kansas as well as her mast.

G. A. R. INSPECTION.

The annual inspection of Storer Post, No. 1, G. A. R., took place on Thursday evening, and was followed by a supper in Odd Fellows' banquet hall, National block, tendered by the post to the visiting officials, ladies and invited guests. The toasts offered — considerably cut down in many instances, from lack of room--were as follows.

The United Sates of America, etc. Response by Department Commander Martin A. Haynes.

Singing of "America" by the G. A. R. quartette and company.

The Grand Army of the Republic; response by Inspector Henry A. Wilkinson.

The Ladies Relief Corps,—the mothers, sisters, wives and daughters of veterans of the late war. Our natural allies in ministering the wants of the needy; we welcome their aid in relieving the sufferings of those whom the departed ones have left to our care and protection.

Song by the G. A. R. quartette.

The state of New Hampshire; response by Major David Urch.

The Sons of Portsmouth; response by Adjt. Gen. Nat. Shackford.

The City of Portsmouth — sleeping beauty by the sea; may she be aroused from her slumbers by the busy hum of her own industries. Respose by Mayor Treat.

The National Guard—the school of instruction for our armies in the future.

The Old Flag; singing of the "Red, White and Blue" by the quartette.

Our Fallen Comrades—they did not die in vain. Response by Comrade John H. Hutchinson.

The Colored Troops—they fought nobly, and we recognize their manhood by admitting them into our ranks. Response by Comrade Aiken, (colored.)

Original poems by Comrades Robert E. Rich and J. Horace Kent were read during the evening, and the exercises closed with "Marching Through Georgia," sung by the quartette and company.

THE RAILROAD LEASE.

Geo. E. B. Jackson, Esq., the new president of the Eastern Railroad company, is a lawyer by profession, but for several years has devoted himself to the railway interest in Maine. Under his management the Maine Central road has largely improved in business and in its market price. There seems to be an impression that the election on Wednesday of this week was a decision in favor of leasing. As we understand it, the road may be leased or operated in conjunction with the Boston & Maine when such a basis for a contract can be hit upon as will be to the satisfaction of the shareholders in the Boston & Maine, (who are inclinced to fight shy of the Eastern,) and to the stock and bondholders of the Eastern, and lastly to the expressed or implied willingness of the customers and patrons of the Eastern, whose rights of course must be respected. If a lease is to be entered into on the part of the Boston & Maine management, simply to divert the through business over the upper route, and then to have some outsider commence a suit to annul it, and after the Eastern has been run down as to track, furniture and business, have all contracts declared void, we hope there will be no lease made. If a large sum can be saved to these roads by diminishing competition, and if the great state of Maine will quietly sit by and see it done with even so much as a murmur of "why do ye so?" escaping from her peaceful citizens, we of course cannot complain. Our proximity to Boston, and our harbor facilities will always give us low freights while steamers can be run between this port and Boston. The residents in many other places who have so long profited by the competition between these rival roads, are the ones to whom the subject comes home with a vital importance.

MORE VAUGHAN STREET.

We were informed on Thursday evening that another "Vaughan street extension" is shortly to be proposed, the motive power being the same as in the case of the former one—the Eastern railroad. The new project is said to be nothing less than the continuing of Vaughan street from the turn (where it properly ends, the short piece which connects Vaughan and Elm streets being a separate street,) across the Raynes estate and the water to Noble's island, after which the highway at present existing across Noble's island by the way of the bridge is to be discontinued, so that all travel will have to pass over the new route, and the railroads will have no more bother at the crossings of their wharf lines. It is alleged that the survey made some months ago by the Eastern railroad, supposed at the time to have reference to the running of a line of track from the vicinity of the roundhouse direct to Noble's island, was really a survey of this projected new highway. Whether this information is correct, and if so, whether the railroad can carry its point, we shall have to wait awhile to see. One thing is certain, and that is that the property owners and storekeepers of the north end of Market street will strongly oppose the carrying out of any such scheme, which if successful would leave them pretty much nowhere so far as business is concerned, as the traffic from across the river would all be diverted to other parts of the city.

At a meeting of the newly-elected directors of the Eastern railroad, held in Boston on the 13th inst. after the adjournment of the annual meeting of the stock and bondholders, George E. B. Jackson of Portland, president of the Maine Central road, was chosen president of the Eastern.

6 per Cent. Gold Bonds.

TOPEKA, SALINA & WESTERN

RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood improved.

238th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 5; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It cleanses every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1, per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home, Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its specialty."

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. Mrs. A. M. D.

HOP PLASTER

Many people think themselves sick and doctor for Kidney or Liver trouble, or dyspepsia, while if they will search heavens, the pain should be in the heart. The renowned Dr. Clendaning, surlingly says "one-third of my subjects show signs of heart disease." The heart weighs about six ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a remedy that never fails, the pain should be stilled at once. It is known as Dr. Graves' Heart Regulator and can be obtained of your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thoroughly and exhaustive treatise. (1) F. The court will consider whether the complaint should be received.

The Old Men's Home.

One of the most beneficent charities in existence is that which provides a resting place for aged and worn out old men. They have many infirmities and diseases, one of the most common of which is rheumatism. Just here comes in the advantage of Perry Davis' Pain Killer, which has relieved the sufferings of many an old man by driving away the most severe rheumatic pains.

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

The second officer of the British steamship Cedar Grove, who was in charge at the time the vessel struck the rocks near Cape Canso, was an opium eater; there was a bottle containing a preparation of opium on his body when found.

As a true and efficient tonic, and one that excels all other iron medicines, take Brown's Iron Bitters.

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and *all* weaknesses caused by those irregularities which are so common to womankind. This is no *Patent Medicine*, but is prepared, after years of experience, and recommended, knowing that it will give new life to any broken-down, worn out or over-worked member of the sex.

If it was here tried other remedies without success, do not be discouraged, but give "LADIES' TONIC" a single trial. It never fails to give *quick and permanent relief.*

If you are troubled with *any* weakness or complaint common to our sex, lay aside the doctor's prescription, save your money, and use Ladies' Tonic, which we guarantee will positively *cure you.* One Bottle is Sufficient.

Women's Medical Institute is an Association of *Writers and Workers* of years' experience, who give advice and suggestions free to ladies. Address,

Proof will be given for any case of Female Weakness or irregularity which "Ladies' Tonic" will not cure. This is a *bona fide* offer, made by responsible ladies who know *from experience* what "LADIES' TONIC" can do and stamp for circular.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receieves Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, stripped for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Bœuf's Castle, must have presented an admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to start a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm nearly as good as new. But there's one thing you kin calculate on—I shall never wrastle with another log unless I have the advantage of the ground. Fur, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is CUT in the centre of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

Valuable Detectives.

A delegation of a citizens' committee visited the jail at Washington, D. C., on the 11th, and interviewed O'Leary and Murphy, two convicted three-card-monte men, who gave them a detailed account of the Burdett silk robbery, robberies in the Upton and Wood hotels, government printing office money theft, and the Fitch, Fox & Brown robbery. They say the detectives of Washington, in each instance named, received a percentage of the proceeds. Every case was given with particularity, and the names of the detectives most active in the business were furnished. Certain of the detectives whom they name, planned and sent for the operatives to execute each robbery, the field of operation being chosen where the detectives could afford thieves reasonable immunity from capture.

During the examination a Mr. Magruder, one of the committee, after looking intently at O'Leary asked if he was ever in college; O'Leary replied that he was educated in Gonzega college. "Then," said Mr. Magruder, "we were college mates. I remember you well." O'Leary seemed greatly mortified at the recognition.

Both Murphy and O'Leary gave a circumstantial account of the Christiancy diamond robbery at the National hotel, in September, 1881, and alleged that the diamonds of the ex-minister and his wife, valued at $15,000 to $20,000, were disposed of at great sacrifice in New York, and a heavy percentage given to two detectives who were named. "The wife of one of these men," O'Leary said, "now wears dresses made from the silk taken in the Burdett silk robbery." They said the entire detective force of the district participated in banko and three-card-monte business, and received pro rata dividends from assessments levied each week upon the combination. The subject will probably be laid before the grand jury, and all the officials involved indicted.

Josh Billings says: "Next to a clear conshience for solid comfort cums an old shu." He probably never suffered with a cough or cold, otherwise he would have referred to Dr. Bull's Cough Syrup as being also a good thing to secure relief and comfort.

The town of Plymouth, Mass., will on the 22d of this month observe the landing of the Pilgrims by a procession, services in the church of the First Parish and a dinner in Davis hall, where Hon. Thomas Russell will preside. Gen. Butler, Hon. George Marston and George A. Marden have accepted invitations to be present.

Fortify feeble lungs against winter blasts with Hale's Honey of Horehound and Tar. Pike's Toothache Drops cure in one minute. A remedy for indigestion, consumption, dyspepsia, weakness, fever, ague, etc., Colden's Liquid Beef Tonic.

Capt. Melvin McClain of Gloucester, Mass., has completed some very handsome models for the London Fisheries exhibition, comprising an old-style Marblehead banker named "Open Sea," a pinkey named "Porpoise," and a chebacco boat named "Chebacco." They are complete in all their details of sails, rigging, hawsers, anchors, boats, deck furniture, etc., and exceedingly suggestive of the marked differences between the fishing craft of a century ago and those of to-day.

Unity of action, concord, sympathy and goodfellowship are admirable traits in human character; but they will not heal our physical infirmities. Catarrh, for example, stubbornly resists their effects or influence. In fact this malady withstands all of its would-be destroyers, except Ely's Cream Balm. "Solitary and alone" this Balm stands as the only recognized and infallible specific for catarrh. "For fifteen years," says J. B. Chase, St. Denis Hotel, B'wy, and 11th st., N. Y., "I have been greatly annoyed with a disgusting catarrh. My sense of smell, not to mention other troubles, became much impaired. A thorough use of Ely's Cream Balm has cured me of these troubles." It is not a liquid or snuff, and is easily applied. Only 50 cents a package.

The steamer Newport of the Fall River line took the place of the Bristol last Thursday night for the winter. The Old Colony takes the place of the Providence.

Your health depends on the purity of your blood. People who realize this are taking Hood's Sarsaparilla with the best results.

By a run-away in Norwich, Conn., Dec. 13th, Jeremiah Corcoran and his wife and child were thrown out of a carriage. The child was unhurt, but Mrs. Corcoran's jaw was broken and her body cut; Mr. Corcoran's skull was fractured and both legs broken, and he will die.

"Ladies' Tonic,"

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription for ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free. Send stamp for names of those who have been cured.

At Mt. Pleasant, Ia., Dec. 13th, Patrick Slater crept up behind his stepmother, with whom he had had constant quarrels, and shot her in the head, killing her instantly. He then fired two bullets into his abdomen. He was only twenty-two years old.

The state treasurer of Kentucky, Hon. Richard Tate, on a late occasion was severely burned about the hands and face by an explosion of gas in his office. He used St. Jacobs Oil with the happiest effect.

Thomas Healey of Malden, Mass., while drunk on Thursday last, was struck by a locomotive and knocked thirty feet, but was not fatally hurt.

Pierce's "Pleasant Purgative Pellets" are perfect preventives of constipation. Inclosed in glass bottles, always fresh. By all druggists. c

A man who took a watch to be repaired to P. L. Mills, manufacturing jeweller, in Cleveland, Ohio, Dec. 14th, stole a bag containing $10,000 worth of precious stones and escaped.

Eyes brighten, cheeks become rosy, muscles gain strength by the use of Brown's Iron Bitters.

A freight train broke in two while being hauled up a heavy grade in St. Louis, Mo., Dec. 15th, and fourteen cars ran back, smashing several houses and doing $15,000 damage.

Is your wife's health poor? Are your children sickly? Give them Brown's Iron Bitters. It will revive them.

The Australian mine in the Creswick district of Victoria, Australia, has been flooded, and twenty-two persons were drowned.

CATARRH

A POSITIVE CURE IS ELY'S CREAM BALM FOR Catarrh & Hay Fever. Agreeable to Use UNEQUALED FOR COLDS IN THE HEAD

Headache & Deafness, or any kind of mucus membranal irritations, inflamed and rough surfaces. A preparation of undoubted merit. Apply by the little finger into the nostrils. It will be absorbed, effectually cleansing the nasal passages of catarrhal virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. Will deliver by mail 50c a package—postage stamps. Sold by wholesale and retail druggists. ELY'S CREAM BALM CO., Owego, N. Y.

During the Late War

The Government made its Best Arms at Springfield, Mass.—What Mr. David Clark, Inspector U. S. Armory There Recommends.

Your reporter found Inspector Clark at his office on the Armory grounds busily examining "receivers" for the regulation army rifles. However, he was as willing to say a word for the merits of health and strength restoratives as to prove the merits of implements of death. He said: "My business keeps me closely confined to the Armory and its doors. As a result, I've suffered considerably from indigestion and biliousness, but I find that Dr. Kennedy's FAVORITE REMEDY is a most excellent medicine for these complaints. I most cordially recommend it, for I am acquainted with its worth. Dr. Kennedy's FAVORITE REMEDY is used a great deal by the machinists in the U. S. Armory here."

While FAVORITE REMEDY is a specific in Kidney and Bladder diseases, it is equally valuable in cases of Bilious Disorders and Constipation of the Bowels. Try it. Your druggist has it, and its cost is only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The Doctor would have it understood that, while he is engaged in the introduction of his medicine, FAVORITE REMEDY, he still continues the practice of his profession, but confines himself exclusively to *office* practice. He treats all diseases and performs all the minor and capital operations of surgery.

Perhaps no medicine is so universally required as a good catharic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

Lucien Grant, a Strafford county pauper, went to Rochester on the 13th inst. and got drunk. He took the evening train down, and got off at the county farm crossing. Next morning he was found by the railroad men in the snow near the track, almost frozen to death, having lain there all night. He was kindly cared for, and will probably survive.

Kearney says the Chinese must go, but before they go we wish to inform them and everybody else that Adamson's Botanic Balsam continues to win the day in curing coughs, colds, and all difficult breathing. Price, 35 and 75 cts. Trial bottles, 10 cts.

The store of Reese Owens in Seabrook was entered a few nights since, and a considerable quantity of goods were stolen. On Monday night, Dec. 11th, a search warrant was issued, and the officers found on the premises of John Frank Fowler some marked money and shoe thread which were identified. Fowler was bound over to the supreme court and in default of bail was committed to jail.

The ills which flesh is heir to are more often due to impurities in the blood than is generally supposed. The purification of this vital fluid enables the system to ward off its worst enemies. There is no doubt that Hood's Sarsaparilla is one of the best blood purifiers in the world, and we feel confident that those who give it a trial will not be disappointed.

A hot spindle in a spinning frame of one of the Cocheco mills at Dover set the woodwork on fire last Thursday afternoon, and an alarm was sounded, but the fire was put out by the mill hands without the aid of the department.

Portsmouth Chronicle.

SATURDAY, DEC. 16, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Encouragement to Ship Building.

The congressional joint select committee on American shipping on the the 13th inst. discussed various propositions for the relief of the shipping interests. The following proposition, prepared by the San Francisco board of trade, and introduced in the committee by Representative Page, was unanimously adopted:

That whenever any vessels, whether steam or sail, shall be constructed and equipped in the United States for the foreign trade, including the trade between the Atlantic and Pacific ports of the United States, in whole or in part of materials of the production of the United States, the owner or owners of such vessel shall be entitled to receive and collect from the United States a sum equal in amount to the duty which would have been collected upon imported materials of like description and of equal quality with the American materials used in the construction, equipment, engines, boilers and other appurtenances of such steam or sail vessel.

The importance of this provision and its value to the shipbuilding interests of the United States will be readily seen when it is estimated that upon an iron ship of 4000 tons the bonus to be allowed for the American materials used would amount to $48,000 or $50,000. The second proposition, also propared by the San Francisco board of trade, was that

All registered vessels, either sail or steam, of the United States, engaged exclusively in the foreign carrying trade, are hereby exempted from all or any state or municipal taxation.

This was also adopted by the committee, Mr. Dingley alone dissenting, not to the equity of the proposition, but for the reason that he believed this matter should be regulated exclusively by the states.

Representative Cox offered a proposition for free ships, both for the foreign and coastwise trade, which was supported by himself and Senator Vest, but was rejected by the committee.

Senator Vest, Senator Miller of California, and Representative Dingley were appointed a sub-committee to prepare a bill embodying the propositions which have been agreed upon, and to present it to the full committee for final action.

A Den of Thieves.

Four men were arrested at Claremont on the afternoon of the 14th inst., having been traced from Windsor, Vt., by William Barlow, whose house they entered the previous night. Officers were put on their track, and they were locked up, giving the names of William Morrison, Bumblebee, Morris and Dion. A search warrant was issued, and goods of every description were found by wholesale in William Morrison's home, where they had been secreted. An immense quantity of linen and other goods, too numerous to mention, were found, indicating that the men must have been following the business a long time.

Naval Affairs.

The officers and crew of the Swatara, at Norfolk from China, have been detached, the officers being placed on waiting orders. She will not be put out of commission, but will have a new set of officers assigned to her and will go for a winter cruise to the West Indies under Admiral Cooper.

Admiral Nicholson, commanding the European squadron, reports the arrival of the Lancaster at Palermo, Italy, Nov. 23d, two days from Malta. The Quinnebaug was at Malta Nov. 15th, and sailed on the 17th for Villefranche. The Nipsic sailed from Malta for home Nov. 22d.

Lieut. James W. Wingate is ordered from the naval academy to the Powhatan.

Sailmaker Alexander W. Cassell is detached from the Powhatan, and placed on waiting orders.

Naval Constructor W. L. Mintoyne is ordered to temporary duty at the Boston navy yard.

The collector of customs at Norfolk, Va., seized on the United States steamer Swatara a very considerable amount of fine crockery ware and Chinese curios, which the officers of that vessel were attempting to bring in duty free. The packages have been released by the secretary of the treasury on payment of the fine.

A recount of votes in Newburyport elects William A. Johnson, the democratic candidate for mayor, by eighteen majority over Mayor Hale, previously reported to be re-elected by seven majority. The Massachusetts democrats are evidently a greedy set, and mean to take everything there is.

A fourteen-years-old son of Ephraim Scott, of Calais, Me., was gunning on the 11th inst., when he slipped, and struck his gun on the ice; the weapon went off, blowing off one hand and the top of his head.

Two men have been arrested in Dublin, Ireland, for the murder of the lord lieutenant and secretary in Phenix park some months ago.

The Hall block in Toledo, Ohio, was burned Dec. 15th; loss $500,000, with fair insurance.

Hanlan of Toronto, the champion oarsman of the world, and Kennedy of Portland, have agreed to row a three-mile race with one turn for $2500 a side, and have deposited $1000 forfeit money each. Time and place not settled.

A despatch from Gloucester, Mass., of the 14th inst., says: "The net cod fishing fleet from this port numbers eighteen small schooners and boats, carrying over 150 nine-inch-mesh nets, each fifty fathoms long and two and a half fathoms deep. The business was a failure last year, and would not have been engaged in this season but for the absence of bait, which compelled a resort to this old-world method of fishing, which was first tried in our waters with good success in the winter of 1880-81. This year success has again crowned the labors of the net-fishermen, who bring in excellent fares of large codfish. The schooner Morrill Boy, 18.08 tons, Capt. Russell G. Gill, Jr., took 7,300 pounds of handsome codfish on Monday and Tuesday of this week, which sold at $3.60 per hundred weight, stocking $262.80. The crew shared $42.45, or about $40 each, after deducting expenses."

Wentworth Lodge, Knights of Honor, of Kittery, gave an entertainment in Trefethen's hall at the navy yard village on Thursday evening, the 14th inst.; there were readings, recitations, etc., music being furnished by Dennis M. Shapleigh, F. P. Rowell, R. C. Goodwin and George Hayes, Miss Flora Hayes playing the piano. About 200 persons sat down to one of the best suppers served in the town for years.

One of Dover's stock speculators has cleared a profit of $1200 on St. Paul & Omaha railroad stock. He bought a hundred shares two weeks ago for $103, and sold it yesterday for $115, a profit of $12 a share; pretty good pay for two weeks' work.—*Dover Republican.*

Now let the *Republican* give us some statistics concerning some of Dover's stock speculators who have had to pay pretty good for two weeks' fun. It is the other side of the story that is not apt to be told.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle. eod&wtjan28

Two boys and two girls were drowned at Philadelphia on the 14th inst. by the breaking of thin ice on which they were skating, and it is feared that others lost their lives at the same time.

Patrick Joyce, Myles Joyce and Patrick Casey, convicted of participation in the butchery of the Joyce family at Maamtrasna, Ireland, last August, were hanged in Galway jail Dec. 15th.

The Old South society of Boston have unanimously voted to pay Mrs. Manning the annuity which had been settled upon her husband as pastor emeritus, of the Old South church, at the rate of $5,000 per annum for the remainder of the year ending March 31, 1883, and from and after that date to pay her $3,000 a year for the period of six years. The society have voted also to pay the expenses of the last illness and funeral of Dr. Manning, and to erect a suitable monument upon his lot in Forest Hills cemetery.

Thomas Crittenden shot and killed a man named Moses near the depot in Anchorage, Ky., Dec. 13th, because the latter had testified against him in a case in which he was interested. Crittenden, it is said, is a son of Ex-United States Marshal Crittenden of Kentucky.

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are able to pay but little or nothing for a medicine, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so that it will do its duty willingly. No other article takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "it's the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1879.

MESSRS. C. I. Hood & Co.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.

Yours truly,
F. C. CHURCHILL,
(Firm of Carter & Churchill.)

☞ A gentleman who has been suffering from the debility and loss of appetite peculiar to this season, says: "Hood's Sarsaparilla is putting new life right into me. I have gained ten pounds since I began to take it." Has taken two bottles.

Gained 10 Pounds

Hood's Sarsaparilla is sold by all druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever, Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing in thoroughly.

Hay-fever

—A fair trial will convince the most skeptical.—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment, as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by druggists at 50 cents. On receipt of 50 cents will mail a package. Send for circular with full information. ELY CREAM BALM CO., Owego, N. Y.

A CONTRAST.

Thirty-one years ago the Eastern railroad company ran one freight train each way daily between East Boston and Portsmouth; there was also an independent freight train between Boston and Salem. The Portsmouth freight, drawn by the old locomotive "Portsmouth," left East Boston at three o'clock in the morning, and reached Portsmouth (keeping clear of the first passenger train from this station and the morning train from Boston,) about ten in the forenoon, soon afterward starting on its return. Fourteen cars was the number usually drawn, and this was about all the "Portsmouth" could haul. The road received about sixty thousand dollars a year for freight in those days; for the year ending Sept. 30th, 1882, its freight earnings were $1,766,257.58. There were but few stations east of Salem at which much freight was delivered, and the sidings were few and short; the road's present aggregated length of sidings, and other tracks to gravel pits and special points not used for passenger traffic, is ninety miles, and the road transports over a million and a quarter tons of freight annually, its mileage of freight trains last year being 718,809 miles, with 393,006 miles run in freight switching alone.

MLLE. EUGENIE LEGRAND.

As will be seen by the advertisement in another column, this noted artist will make her first appearance in this city on Thursday evening, the 21st inst., and from the success she has met with in Boston, should attract a large audience. The piece to be presented is "Camille." Of this actress the New York *Post* says: "She is an accomplished artist of marked intelligence and refinement, easy and graceful in manner, free from affectation and self consciousness, and plainly actuated by great sincerity of purpose. Her technical skill is displayed with excellent effect, her by-play is uncommonly good, quickly responsive to the spirit of the text, and constantly and touchingly suggestive of hopeless love and overwhelming despair. Her acting is warmly and deservedly applauded."

Mr. Thomas S. Gay having declined to continue as assignee of Wm. Wallace Downs, (Wm. Downs & Son,) the judge of probate has appointed C. M. Gignoux, Esq., in his place.

An insane woman about twenty-two years of age, named Mary Buckley, escaped from the city farm between five and six o'clock in the evening on the 14th inst., and up to a late hour on the 15th no tidings had been had of her, though active search and enquiry had been made. As the unfortunate woman only wore away her ordinary clothing, having on neither hat nor outside garment, it is feared she may have perished from cold.

A South American lion, or puma, brought home in the U. S. S. Marion, is to be sent to Central park, New York. The "critter" is two years and a half old, as big as a fair-sized dog, and as tame as a kitten; it has been allowed the freedom of the ship's deck at stated times since it was first received on board, and since the ship arrived at this port has had daily airings on the navy yard in charge of one of the ship's crew. We should prefer a mud turtle for a pet.

The schooner Water Lily, of Eliot, has hauled up for the winter at Call's wharf, inside the Noble's island bridge.

Mr. Joseph W. Peach, late foreman of the finishing room in the Portsmouth Shoe factory, was on Thursday last the recipient of an elegant inkstand, barometer and thermometer combined, and also a gold pen and holder, the whole costing $40 at the manufacturer's in New York, the gift being from his late fellow workmen in the factory.

Inspector Henry A. Wilkinson, G. A. R., Department of New Hampshire, pronounces the exemplification of work by Storer Post of this city the best he has ever seen.

Commander George H. Wadleigh, U. S. N., recently detached from command of the U. S. S. Alliance, has arrived at his home in this city.

It is said that Mr. Wm. F. Fernald has closed a contract with parties of Taunton, Mass., to build for them a schooner with a carrying capacity of 1000 tons of coal. [After the above was in type, Friday evening, we were informed that Mr. Fernald has already commenced operations on the new vessel, which is to be of a sharp model, and capable of carrying 900 tons dead weight. She is to be single decked, with beams for a lower deck if necessary.]

The session of the board of enquiry appointed to be held at the navy yard on Friday, to investigate a charge against Chief Engr. Wells, was adjourned to next day on account of the illness of Chief Engr. Garvin, one of the members of the board. Chief Engr. Trilley has been substituted for Mr. Garvin; and Lieut. Henry Whiting, U. S. M. C., has been substituted for Lieut. Harrington as judge advocate.

Alderman Andrew J. Hall of Boston, who was on the 12th inst. re-elected on the democratic and citizen's ticket, receiving more votes than any other candidate, was born in Strafford, (where he has now a fine summer residence,) March 22d, 1831. His father was Samuel D. Hall, who was in his day sheriff of the county, a justice of the peace, and did a good deal of the law business for the people of the town. At the age of fifteen years young Hall, having lost both his father and mother, went to live with his uncle, Ralph Hall, in Greenland. After staying with his uncle until he was nineteen years of age, Mr. Hall came to this city and learned the trade of a baker; he afterward drove a bread wagon for the concern he learned his trade with, through the towns surrounding Portsmouth, and subsequently was given charge of the wholesale wagon. Becoming tired of this business he went to Boston, where he entered the restaurant and hotel business, and also kept one of the largest boarding stables in the country. He was a strong republican until 1879, when he joined the democratic party, following the Ben Butler men.

Mr. Editor: I was very much pleased to listen to the speech of Ex-Mayor Sise at the G. A. R. banquet on Thursday evening, and hear him say that the city government ought to purchase a lot of land at once for a soldiers' monument to be erected upon. It occurred to me that it was easy enough for the colonel to point out what ought to be done, after he had left an office during his continuance in which I do not recall any steps taken on his part to erect a monument to our deceased comrades. Possibly with the liberal salary he received for several years as mayor he may have subscribed a handsome sum toward defraying the cost of such a monument, but if that is the fact it has not come to the knowledge of a

BOY IN BLUE.

Employes of the Eastern railroad recently subscribed $80 for the benefit of Mr. James H. Preston, one of three men who while riding in a hand-car were struck by a freight train at Eliot. He had one leg broken and was otherwise injured.

Says the Boston *Journal*: "Bishop Niles will not make answer to his call to the new Christ church of Portsmouth until after a rector has been secured for St. John's society in that city. It is probable that Bishop Niles will not go to Portsmouth."

The lighthouse board has refused to grant the petition for the establishment of a whistling buoy off Bemo ledges, between Thacher's island and Eastern point, Cape Ann. The necessity of some further protection at this point was conceded, however, and the Eastern point light has been changed from a fixed red to a quick-flashing red, and the fog signal has been provided with a heavier hammer and improved machinery.

6 per Cent. Gold Bonds.
TOPEKA, SALINA & WESTERN
RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these add securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion, ignorance, or a false delicacy, may be cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

250th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 5; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purpose. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1, per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and doctor for kidney or liver troubles, dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Cheesbrough, startlingly says "one-third of my subjects show signs of heart disease." The heart weighs about nine ounces, and yet every twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Greene's Nervura, the great physician's remedy, and a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Greene' thorough and exhaustive treatise.* (1)

At Great Falls, Wednesday night, the 13th inst., there was a series of store and house robberies, the sufferers being J. A. Bergerine, French boarding house, Lord's boarding house and Chris. Lord's dry goods store. The police arrested Lewis McGuirt, John Curtis and John McGinley, all of Biddeford, Me., on suspicion of being the thieves. The value of the property stolen was not large.

C. D. Frost, of Winchester, Mass., who has been holding a temperance revival in Newmarket, with good results, has begun a similar movement in Exeter.

The Old Men's Home.

One of the most beneficent charities in existence is that which provides a resting place for weary and worn out old men. They have many infirmities and diseases, one of the most common of which is rheumatism. Just here comes in the advantage of Perry Davis' Pain Killer, which has relieved the sufferings of many an old man by driving away the most severe rheumatic pains.

Congressman Briggs has introduced in the house a bill whose purpose is said by some to be to require the present legislature of New Hampshire to elect a successor to Senator Rollins.

George W. Simmons, proprietor of "Oak Hall," Boston, died Dec. 14th, at the age of sixty-eight years.

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as biliousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, etc. The success which has attended the use of Swedish Botanic Compound warrants us to say that for purifying and enriching the blood, creating an appetite, strengthening and renovating the whole system, nothing surpasses that great semedy.

The town of Kingston, Jamaica, has been destroyed by fire, the loss being placed at $30,000,000.

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

During the taking of depositions in Widow Slayback's civil suit against Col. Cockerill of the *Post-Dispatch* of St. Louis, Mo., on the 13th inst., John M. Glover, the lawyer whose published card calling Slayback a coward led to the tragedy, was interrupted while giving evidence by Frank Bowman, Mrs. Slayback's attorney. Warm words passed, and Glover seized Bowman by the throat and bore him to the ground before the bystanders could respond to the under man's cries for assistance. The notary before whom the depositions were being taken threatened to send both lawyers to jail for contempt.

MRS. VAN DUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and *all* weaknesses caused by those irregularities which are so common to womankind. This is no *Patent Medicine*, but is prepared, after years of experience, and recommended, knowing that it will give new life to any broken-down, worn out or overworked member of the sex.

If you have tried other remedies without success, do not be discouraged, but give "LADIES' TONIC" a *single trial*. It *never fails* to give *quick and permanent relief*.

If you are troubled with *any* weakness or complaint common to our sex, lay aside the doctor's prescription for once, and try "Ladies' Tonic," which we guarantee will positively cure you. **One Bottle is Sufficient.**

Women's Medical Institute is an Association of *Women and Mothers* of years' experience, who give advice and answer letters free in blank form.

Advice will be given for any case of Female Weakness or Ailment, which "Ladies' Tonic" will not cure. This is a *bona fide* offer, made by *responsible* ladies who know *from experience* what "LADIES' TONIC" can do. Send stamp for circular.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receieves Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the answer products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, stripped for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Bœuf's Castle, must have presented an admirable picture. One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to start a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calkilate on:—I shall never wrastle with another log unless I have the advantage of the ground. Fur, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is cut in the centre of the genuine. Price 25 cents.

THE

New Hampshire Gazette !

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or offered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a week'y invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

STRENGTH

to vigorously push a business, strength to study a profession, strength to regulate a household, strength to do a day's labor without physical pain. All this represents what is wanted, in the often heard expression, "Oh! I wish I had the strength!" If you are broken down, have not energy, or feel as if life was hardly worth living, you can be relieved and restored to robust health and strength by taking BROWN'S IRON BITTERS, which is a true tonic—a medicine universally recommended for all wasting diseases.

501 N. Fremont St., Baltimore

During the war I was injured in the stomach by a piece of a shell, and have suffered from it ever since. About four years ago it brought on paralysis, which kept me in bed six months, and the best doctors in the city said I could not live. I suffered fearfully from indigestion, and for over two years could not eat solid food and for a large portion of the time was unable to retain even liquid nourishment. I tried Brown's Iron Bitters and now after taking two bottles I am able to get up and go around and am rapidly improving.

G. DECKER.

BROWN'S IRON BITTERS is a complete and sure remedy for Indigestion, Dyspepsia, Malaria, Weakness and all diseases requiring a true, reliable, non-alcoholic tonic. It enriches the blood, gives new life to the muscles and tone to the nerves.

The Kearsarge left Portsmouth, Va., Dec. 15th, for Fortress Monroe, to take in powder and then join the North Atlantic squadron. The Alliance and Vandalia arrived at Portsmouth the same day.

The Lackawanna sailed from Callao for Honolulu Dec. 14th, and the Pensacola sailed on the same date for Panama.

Secretary Chandler has issued a general order calling the attention of commanding and other officers to the act of congress of August 5th, 1882, which provides that vacancies in the lower grades of the line, the engineer corps and marine corps shall hereafter be filled by appointments to be made from the graduates of the naval academy, at the conclusion of their six years' course, and in order of merit as shall be determined by the academic board of the naval academy. The above applies to all naval cadets who have not completed the prescribed six years' course of instruction.

They say "a word to the wise is sufficient," but we think it takes about five, 'Use Dr. Bull's Cough Syrup.' You can get this article in any drug store for twenty-five cents. Physicians recommend it.

John Reed was hung last Friday at Scale, Ala., for the murder of Lucy Lee last year. James Leighton Gelmore was hanged at Deadwood, Dakota, for the murder of a Mexican named Ortez. Peter Thomas, colored, was hanged at Mansfield, La., in presence of 2000 people, for the murder of another colored man named Dick Bright; the murderer confessed his guilt on the scaffold; Laura Bright, the murdered man's wife, sentenced to be hanged at the same time as Thomas, has been respited.

A *Boston Globe* reporter was informed by Mr. E. M. Gifford, of the Norway Iron Works, that city, that nothing he had ever seen equaled St. Jacobs Oil as a rapid and permanent relief for the accidents constantly occurring in manufacturing establishments.

At Bay Ridge, near New York city, one day last week, the car houses, cars and locomotives of the Manhattan Beach railroad were burned; loss about $500,000.

"First a cough, carried me off,
And then a coffin they carried me off in!"

This will not be your epitaph if you take your cough and Dr. R. V. Pierce's "Golden Medical Discovery" in time. It is specific for weak lungs, spitting of blood, nightsweats, and the early stages of consumption. By all druggists. *a*

The British ship Glad Tidings went ashore on Prawle point, Eng., Dec. 15th, caught fire, and was destroyed. Two lives were lost.

Many New Ideas

in the home cure of diseases, accidents, and how to treat them, and many hints of value to the sick will be found in Dr. Kaufmann's great Medical Work; elegant illustrations. Send two 3 cent stamps to A. P. Ordway & Co., Boston, Mass., and receive a copy free.

Thomas Higgins was on the 16th inst. sentenced to death at Dublin, Ireland, for the murder of two men named Huddys, Lord Ardilaun's bailiffs.

Edward Everett, and Edwin M. Stanton died with apoplexy, a disease often mistaken for heart disease. The two complaints are, nevertheless, essentially different. "Apoplexy is a loss of voluntary motion and sensation, caused by pressure on the brain." For thirty years past, Dr. Graves' Heart Regulator has always cured heart disease and its kindred troubles.

The British barque Langrigg Hall was wrecked on Tuskar rock, off the coast of Ireland, Dec. 16th, and twenty-four of her crew were drowned, only two being saved.

***"There is no arguing a coward into courage." But even the coward may be brave after trying Kidney-Wort, that medicine of wonderful efficacy in all diseases of the liver and kidneys. It is prepared in both dry and liquid form and can always be relied on as an effective cathartic and diuretic. Try it.

A Milwaukee, Wis., paper says that Hon. J. F. Potter, previously reported dying at a poorhouse, is comfortably situated on his own farm, two miles from that city, and is in good health, although seventy years of age.

"The woman who seeks relief from pain by the free use of alcoholic stimulants and narcotic drugs, finds what she seeks only so far as sensibility is destroyed or temporarily suspended. No cure was ever wrought by such means and the longer they are employed the more hopeless the case becomes. Leave chloral, morphia and belladonna alone and use Mrs. Pinkham's Vegetable Compound.

"Dr." and "Rev." Wm. D. Corken, Charles J. Eastman and Rufus K. Noyes, constituting the "Bellevue Medical college" of Boston, have been discharged on charges of fraud. It was shown that the "college" gave degrees and diplomas to individuals grossly ignorant of the theory and practice of medicine, after a farcical course of "instruction" extending over a few weeks; but Commissioner Hallett held that the law of Massachusetts, having authorized the "college" to issue degrees without restriction, there was no fraud in the matter. The Massachusetts law needs overhauling.

"Ladies' Tonic,"

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Send stamp for names of those who have been cured.

The governor and council of Massachusetts gave a hearing last week on a petition for the pardon of Lucias W. Pond, sentenced to state prison for fifteen years in 1866, for uttering forged promissory notes.

A GOOD INVESTMENT. — One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a rousing appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. L. Hood & Co., Lowell, Mass.

An examination of the rifle with which Frank Frayne shot the actress Von Behren on the stage in Cincinnati, shows that it was a worn-out old rattletrap entirely unfit for the purpose it was used for—the shooting of an apple off a person's head.

Is your wife's health poor? Are your children sickly? Give them Brown's Iron Bitters. It will revive them.

Mrs. Charles Hawkins of Nevada county, Cal., deserves well of the census man. She has recently become a mother for the 20th time.

LIFE INSURANCE !

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

HAY-FEVER

During the Late War

The Government made its Best Arms at Springfield, Mass.—What Mr. David Clark, Inspector U. S. Armory There Recommends.

Your reporter found Inspector Clark at his office on the Armory grounds busily examining "receivers" for the regulation army rifles. However, he was as willing to say a word for the merits of health and strength restoratives as to prove the merits of implements of death. He said: "My business keeps me closely confined to the Armory and its doors. As a result, I've suffered considerably from indigestion and biliousness, but I find that Dr. Kennedy's FAVORITE REMEDY is a most excellent medicine for these complaints. I most cordially recommend it, for I am acquainted with its worth. Dr. Kennedy's FAVORITE REMEDY is used a great deal by the machinists in the U. S. Armory here."

While FAVORITE REMEDY is a specific in Kidney and Bladder diseases, it is equally valuable in cases of Bilious Disorders and Constipation of the Bowels. Try it. Your druggist has it, and its cost is only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The Doctor would have it understood that, while he is engaged in the introduction of his medicine, FAVORITE REMEDY, he still continues the practice of his profession, but confines himself exclusively to *office* practice. He treats all diseases and performs all the minor and capital operations of surgery.

PATENTS

R. H. EDDY,

No. 76 State St., Opposite Kilby, Boston,

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them as early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1846, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to a healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

At San Francisco, Cal., Dec. 16th, Charles Pope shot his wife and then himself; both were dead in a few minutes.

Mr. Lewis E. Staples has secured the agency for the Dorcas, Saxony, Knitting Worsted and Germantown yarns, which have become so popular throughout the east. The shades and colors are just what are wanted. oedjan19

At Canton, Ill., Dec. 16th, the boiler in a plough factory blew up, killing eight men, and badly wounding two others.

Kearney says the Chinese must go, but before they go we wish to inform them and everybody else that Adamson's Botanic Balsam continues to win the day in curing coughs, colds, and all difficult breathing. Price, 35 and 75 cts. Trial bottles, 10 cts.

Portsmouth Chronicle.

MONDAY, DEC. 18, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

About twenty-five of the immediate family friends of Gen. Josiah G. Hadley and wife gave the old couple a genuine surprise party on Friday evening of last week, the occasion being the general's 82d birthday anniversary.

The government work on the improvement of the Lamprey river was suspended on the 9th inst.; the dredge and scows have been hauled up for the winter at Newmarket, and work will be resumed as soon as practicable next spring. The dredgers find that there is more money in working for the government than in digging for "treasure trove" at Newcastle.

The court martial convened at the navy yard to try a charge against Chief Engineer Wells, on Saturday held a session long enough to adjourn over to Monday forenoon at ten o'clock.

Up to a late hour Sunday night the police had received no tidings of Mary Buckley, the insane woman who left the almshouse on Thursday evening, the 14th inst.

The big comet is still visible from two o'clock in the morning until daybreak, low down in the southern sky, but no longer big and bright, though plainly visible to the naked eye; the nucleus is easily discernable, though not very well defined, but the tail has a decidedly milk-and-water appearance, with more water than milk. Wonder if it will ever come back again? The scientists, with all their talk on the subject, do not seem to have been able to decide this question.

The proprietors of the corn canning factory at North Berwick have offered a reward of $50 for the best acre of sweet corn delivered at their factory next season.

The contract for grading the Kennebunk & Kennebunkport railroad has been awarded to Messrs. Thomas Shanehan & Co., of Portland, work commencing at the lower end of the route on Monday, Dec. 18th.

The ladies of the First Congregational parish of York gave an entertainment in the town hall on Tuesday evening of last week, and netted about $60. Mr. Rufus C. Moody won a fine quilt by guessing the exact quantity of water contained in a huge brass kettle.

The *Neguaquet Journal* is the name of a new paper started in North Berwick a few weeks ago by Wm. H. Furlong.

The Portland Packing Co. put up about 150,000 cans of sweet corn at their factory in Wells the past season.

At the late election in Maine the towns of York and Wells each elected—or attempted to elect—a representative to the legislature, though only one of the two is entitled to a member; in York the republicans elected their candidate, the democrats not voting; in Wells the successful candidate was a democrat, the republicans not voting. The governor and council have recently decided that Wells is entitled to the representative in the next legislature, and have issued a certificate of election to Leonard A. Stevens of that town.

A cottage situated at Old Orchard, and owned by John A. Hooper of South Berwick, was burned early in the morning on the 24th of Oct. last; and a jury of inquest has now found, after a long investigation, "that said house was insured for nearly if not quite double its real value; that a short time immediately preceding the occurrence of the fire, John A. Hooper aforesaid proceeded from his home in said South Berwick to the cottage which was burned as aforesaid, and then and there moved out a large quantity of the most valuable furniture into the house of his sister, situated on Ocean avenue, in the immediate vicinity of the locality of the fire, and thence proceeded on foot by the way of the Boston & Maine railroad to Biddeford; and that the fire was undoubtedly set by an incendiary, and that said house was unoccupied at the time of the fire." It would seem that there is a chance for Mr. Hooper to rise and explain.

The fish receipts at Gloucester, Mass., last week, were very small, comprising about 100,000 lbs. of cod from the shore grounds, 37,000 lbs. from the Western banks, and 64,600 lbs. of haddock. The absence of the usual supply of frozen herring from Grand Menan to bait the fleet affects the fisheries seriously.

Democratic Civil Service Reform.

In a debate on the Pendleton civil service bill, in the senate last week, Senator Brown of Georgia delivered a red-hot to-the-victors-belong-spoils speech, in which he ridiculed and denounced the idea that the democrats, after the national victory they are going to win in 1884, will keep in office any republican so long as a good democrat can be found to take his place. Senator George and other democrats attempted to smooth over Brown's speech by intimating that the democratic party was the true friend of civil service reform, and that a democratic victory in 1884 is not yet an absolute certainty; but there is no doubt that Brown correctly voiced the sentiments of his party.

The Washington correspondent of a Boston paper writes: "The republicans very much fear that the democratic opposition in the house will result in the defeat of the David Davis supreme court bill. Democrats who cherish the idea that they have a chance of success at the presidential election are unwilling to pass a bill which shall authorize the appointment by a republican president of eight-een judges, double the number of the judges on the supreme court. There is very great danger that the business interests of the country, which would be so much promoted by a bill which would so greatly relieve the supreme court of its business, may be sacrificed to democratic partisanship. In this connection it is, perhaps, worthy of note that the amendments introduced by democrats to the Pendleton bill are in the direction of making it possible that the republican desks shall be removed in the event of the accession of the democrats to power."

"Out of Sight," a story by Mrs. Jane L. Patterson, wife of Rev. A. J. Patterson, D. D., of Boston Highlands, just issued by the Universalist Publishing House of Boston, makes a book of two hundred and fifty pages, written with such vigor of style and vividness of imagination that the various characters it portrays seem to be veritable living men and women, each acting as if impelled by strong characteristic impulses. As may be inferred from its title, the story leads its readers into the realms of philosophy, but the way is so thickly strewn with incidents and accidents of absorbing interest that one finishes the book with a feeling that its perusal has been both entertaining and instructive.

As a picture of actual life, it displays the hand of an accomplished artist; its outlines are clearly defined, the groups and single figures are boldly though symmetrically drawn, and the coloring, if decidedly pronounced, is harmoniously and skilfully blended. The book is handsomely printed and is a gem of the binder's art. For beauty of appearance and intrinsic merit it is worthy of a place beside the best literature of the day.

Col. George L. Godfrey of Des Moines, Ia., a member of the Utah commission, has just returned to his home from Utah. He expresses the opinion that the Edmunds law will eventually suppress polygamy in the territory. The younger men among the Mormons, he states, are inclined not to become polygamists, and also to desire that Utah should have friendly political relations with the national government. The Mormon church, he believes, is in danger of dissolution.

Five of the forty democrats elected to the common council in Boston last week keep liquor shops. The only thing to wonder at is, that the other thirty-five do not.

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption "Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying Irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cts a box everywhere. oeldwtjan22

As an ounce of prevention is better, they say
Than a pound of the best sort of cure,
Let us all keep our teeth and our gums from decay,
And our mouth and our breath fresh and pure,
For a bottle of SOZODONT 's all we require,
To speedily realize all we desire.

The annual report of the directors of the Maine Central railroad shows that the bonded debt, with the amount of debt of the European & North American road, is $9,721,591.26, on which interest to the amount of $629,901.25 is paid annually. The total number of passengers carried during the last railroad year was 94,738; receipts for the same, $895,989.16; total tons of freight carried, 556,166; receipts, $1,067,715.46. Fifty miles of steel rails have been laid, and forty-three miles of iron relaid. Twenty miles of fence have been built; 422 feet of bridges were built. There are seventy-nine bridges on the road; there are fifty-nine locomotives, sixty-six passenger cars, twenty-three baggage and mail cars, 651 freight cars and 489 platform cars. The bonded debt of the Maine Central railroad in 1881 was $8,703,223.28; in 1882 it was $8,702,591.26; the total liabilities in 1881 were $12,335,515.28; in 1882 the total liabilities were $12,346,383.26.

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. No other article takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "It's the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1879.
MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.
Yours truly,
F. C. CHURCHILL,
(Firm of Carter & Churchill.)

☞ A gentleman who has been suffering from the *Debility* and *Languor* peculiar to this season, says: "HOOD'S SARSAPARILLA is putting new life right into me. I have gained ten pounds since I began to take it." Has taken two bottles.

Gained 10 Pounds

HOOD'S SARSAPARILLA is sold by all druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever, cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS.

Apply a particle into the ear, rubbing in thoroughly.

Hay-feveR

—A fair trial will convince the most skeptical.—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by druggists at 50 cents. On receipt of 50 cents will mail a package. Send for circular with full information. ELY CREAM BALM CO., Owego, N. Y.

POLICE COURT--BATCHELDER J.

SATURDAY, Dec. 16th.

Joseph Fabyan, for drunkenness, was sent to Brentwood for sixty days, costs being taxed at $6.90.

Morris Arnold, another drunk, was assessed $9.90, fine and costs. Paid.

THE FRENCH SPOLIATIONS CLAIMS.

At a meeting held in New York city on the 12th of October last, of descendants of American citizens who suffered by French spoliations on American commerce prior to July 31st, 1801, and whose claims upon France were surrendered to her and assumed by the United States in consideration of the release of the United States from certain obligations under treaties between the two nations, a committee of seventeen gentlemen, including T. Salter Tredick and Henry H. Ladd of this city, was appointed to urge upon Congress the passing of a bill authorizing the court of claims to hear and decide upon such claims, and to report thereon to congress for its final action. The committee attended to their duty, and on Friday of last week the senate passed a bill giving the claimants their day in court; it is believed the house will pass it without serious objection, as it appropriates no money, simply providing for the proof of the claims before the court, so if the court allows anything to the claimants congress will still have to appropriate the amount necessary for payment.

GOOD TEMPLARS' SOCIABLE.

The entertainment and supper given under the auspices of Strawberry Bank Lodge of Good Templars, on Thursday evening, Dec. 14th, was largely attended. Supper was served at eight o'clock, after which there was singing by Miss Flossy Mugridge, song "Over the garden wall;" reading by Miss Sadie Paul, "The ride of Jennie M'Neal;" singing by Miss Lizzie Brown, "Whippoorwill;" recitation by Master Percy O. Smart, "I am a little temperance boy;" recitation by Miss Mabel Gammon, "Peter Trim;" reading by Mrs. Lizzie Folsom, "Angels of Buena Vista;" singing by Miss Lizzie Brown, "Just down to the garden gate;" recitation by Miss Marion Marston, "Templar's invitation;" recitation by Miss Thersa Mason, "The Gambler's wife;" recitation by Miss Bertha Gammon, "Bashful Bachelor Bill;" all the foregoing were rendered in a pleasing manner, and received liberal applause. Among the other entertainments were the drawings—of a book entitled "Boston inside out," by Mr. Daniel Mason; a pair of handsome vases, by Delhi Spinney; a large lamp, by Frank E. H. Marden. The cake, to be given to the one who guessed nearest to the length of a pole, was won by William A. Plaisted and F. Hayes, the former guessing eleven feet eight inches and a quarter, and the latter eleven feet seven inches and a half, the pole being eleven feet seven inches and seven-eighths long. A very handsome toilet set, to be given to the most popular lady in the hall, was awarded to Miss Bertha Gammon. The sociable was one of the largest, and the most successful, both financially and for entertainment, that the lodge has held for a long time.

REAL ESTATE TRANSFERS.

The following are among the recent transfers of real estate left for record in the office of the register of deeds:

Portsmouth — T. Salter Tredick of Portsmouth to Emily A. Libbey of Kittery, Me., land for $1000.

Newcastle—Oliver V. Randall to Dollie F. Haywood, land for $120.

AROUND HOME.

The north millpond is frozen over its entire length and breadth. Saturday afternoon there were several hundred skaters on it, and made things look merry.

The first arrival here of fresh bait this season was on Saturday night, when a small quantity arrived on a train from Boston.

The schooner Active is hauled up for the winter at the wharf in the rear of C. E. Boynton's manufactory and bottling establishment on Bow street.

It is said that Rev. James DeNormandie was waited upon last week by a committee of the First Religious Society in Roxbury, Mass., who extended an invitation to the minister of the South Parish to become pastor of the Roxbury church.

At Montgomery's music and art store, under the CHRONICLE office, can be found pretty much everything there is to be had in the shape of pictures, Christmas cards, parlor statuary, musical instruments, sheet music and music books, and fancy goods in these and other lines, suitable for holiday presents. Take a look at them.

The Boston *Globe* calls Mlle. LeGrand's "Camille," as presented at the Windsor theatre in Boston last week, "thoroughly satisfactory." This famous emotional drama will be presented at Music hall on Thursday evening, Dec. 21st, by the LeGrand company — the first time it has ever been played here, we believe.

Two boys aged respectively eight and ten years were in the vestibule of the post office on Sunday morning, smoking cigars nearly as big as themselves with all the apparent gusto of man-'o-war's-men on liberty, to the amusement of some beholders and the disgust of many others.

Any person in want of a present for the holidays, or other occasion, should remember that Hutchinson has by far the largest, best selected and most varied stock of watches and jewelry, gold and silver ware, fine clocks, and other articles ordinarily kept in a first-class jewelry store, to be found in this city; and that his prices are as low as first-quality goods can possibly be sold for. A look at his stock is advisable if you wish for anything in his line.

The crew of the Marion are to be paid off on Wednesday.

The schooners Sylph, Storm King and Albert Woodbury on Saturday brought in small fares of fish, aggregating about 2500 lbs. No other fish arrivals were reported.

The smelt fishers from this city will this week commence operations at Great bay, the ice in the channels being now abundantly firm. The first parties go up to-day.

The wood-preserving establishment of the Eastern railroad on Noble's island is working satisfactorily; some of the sleepers treated there have been in use for over a year, and show no signs of decay or deterioration.

Very beautifully and tastefully dressed are the windows of the long-established Congress block bookstore, within which can be found a wide variety of articles both useful and ornamental, from which to select a present for the holidays. Mr. Myers calls attention to his specialties by an advertisement in this paper.

We notice by the Grand Rapids *Democrat* that M. J. Smiley, Esq., who for several years has been a member of one of the leading law firms in Michigan, retires to form a new law connection. Mr. Smiley is a native of New York state, and is known to many of our citizens from having married his wife (the daughter of Mr. A. J. Fitts) in this city.

The fact that the commonwealth of Massachusetts has selected a native of Rockingham county for governor, and the city of Boston has chosen another native of this county for mayor by a large majority, would seem to imply that the blue blood of the Bay state was giving way to the imported stock, which has always imparted vigor to the conservatism of the state.

Elvin S. Newton & Co. have fitted up a nice office on Commercial wharf for their fish-buying business, and had it connected with the telephone exchange. This office has not previously been occupied since the death of Mr. Origen S. Caswell, ten or twelve years ago.

William Simes of Boston has been reelected treasurer of the Civil Service Reform association of Boston. Thos. J. Whidden is one of the vice presidents of the association.

Chicago papers says that Robert Harris, vice president and general manager of the Erie and president of the Chicago & Atlantic railroads, will be made president of the Western Indiana road.

Solon S. Andrews of Biddeford, Me., who has the contract for removing the ledge off the western point of Badger's island in this harbor, has been using heretofore an Ingersoll drill, but he finds that the rock is shelving, and apt to scale off and so clog up the hole. He has therefore concluded to try the diamond drill, and has gone to Chicago and St. Louis to visit places where the drill is used, and if he finds it will do the work that is claimed for it, one of them will be purchased and brought to this city. We believe there is no drill of this kind in the state.

The authorities at Washington have denied the request for the appointment of an assistant inspector of steamboats, to be stationed at this city.

6 per Cent. Gold Bonds.
TOPEKA, SALINA & WESTERN
RAILROAD CO., OF KANSAS.
This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabaunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is so run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.
This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.
The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.
Subscriptions to these bonds may be made at the office of the contractor on the following terms:
For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*
This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.
Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured! Those who doubt, should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Ninth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 $; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Mrs. Moses W. Foss walked about two miles to Milton to do some trading on the 13th inst., in a snow storm. She attempted to return in the blinding storm, and had nearly reached her home when, overcome by exhaustion, she fell down and perished. She leaves three small children.

Sally F. Stark, widow of John Stark, who was a grandson of Gen. John Stark, died last week of old age, having attained nearly ninety years. Two children survive her. She resided at the old homestead in Manchester.

Oliver A. Dodge of Dover, who was expelled from the Strafford county bar some time ago for being concerned in the crooked practises of his brother, Wm. H. Dodge, has been restored to the list of attorneys by the supreme court.

At Altoona, Pa., one evening last week, J. Parks, William Cameron and two young ladies, named Flora and Alice Erwin, were returning from prayer meeting, and while walking on the railroad track near the city were run down by an engine, and all killed instantly.

"My Back Is Now Well."

This is what Mr. Clough, of Lowell, Mass. was happy to say after his wife had given him a good rubbing with Perry Davis's Pain Killer, and administered a dose inwardly. For four years he had been crippled with rheumatism, and suffered agony in his back. After using Pain Killer, he went to his business with comfort, and is now as well as ever he was.

The Newburyport *Herald* says: "There was born in West Newbury, recently, a child with rather curious relations. His father is his cousin, his mother is his great aunt, his brother and sister are his second cousins, his uncle is his grandfather, his cousins are his uncles, his grandfather his great-grandfather, and his grandmother is his great-grandmother." It would be interesting to know what relation that child bears to himself.

Let Me Show You

what a saving I have made during the last year by being my own doctor. Last year I paid out $96.25 for doctors and their medicine, this year I paid $8.00 for six bottles of Sulphur Bitters and they have kept health in my whole family. They are the best and purest medicine ever made.—Charles King, 60 Temple Street, Boston, Mass.

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weaknesses caused by those irregularities which are so common to womankind. This is no *Patent Medicine*, but is prepared, after years of experience, and recommended, knowing that it will give new life to any broken-down, worn out or overworked member of the sex.

If you have tried other remedies without success, do not be discouraged, but give "LADIES' TONIC" a *single trial*. It will *never fail* to give *quick* and *permanent relief*.

If you are troubled with *any* weakness or complaint common to our sex, lay aside the doctor's prescription for once, and try "Ladies' Tonic," which we guarantee will positively cure you. One Bottle is Sufficient.

Women's Medical Institute is an Association of *Mother and Mothers* of years' experience, who give advice and answer letters from ladies, *free*.

Rem will be given for cases of Female Weakness or Debility which "Ladies' Tonic" will not cure. This is *from experience* when recommended to ladies who have used it. Send stamp for circular.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, stripped for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Beuf's Castle, must have presented an admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to start a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If I hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calkilate on:—I shall never wrastle with another log unless I have the advantage of the ground. Fur, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is CUT in the centre of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

STRENGTH

to vigorously push a business, strength to study a profession, strength to regulate a household, strength to do a day's labor without physical pain. All this represents what is wanted, in the often heard expression, "Oh! I wish I had the strength!" If you are broken down, have not energy, or feel as if life was hardly worth living, you can be relieved and restored to robust health and strength by taking BROWN'S IRON BITTERS, which is a true tonic—a medicine universally recommended for all wasting diseases.

501 N. Fremont St., Baltimore

During the war I was injured in the stomach by a piece of a shell, and have suffered from it ever since. About four years ago it brought on paralysis, which kept me in bed six months, and the best doctors in the city said I could not live. I suffered fearfully from indigestion, and for over two years could not eat solid food and for a large portion of the time was unable to retain even liquid nourishment. I tried Brown's Iron Bitters and now after taking two bottles I am able to get up and go around and am rapidly improving.

The whole immense building has been secured for the occasion, and invitations have been sent to all the commandries in New England. Carter's orchestra of fifty pieces have been engaged. It is expected that two thousand Sir Knights will be present.

Unity of action, concord, sympathy and goodfellowship are admirable traits in human character; but they will not heal our physical infirmities. Catarrh, for example, stubbornly resists their effects or influence. In fact this malady withstands all of its would-be destroyers, except Ely's Cream Balm. "Solitary and alone" this Balm stands as the only recognized and infallible specific for catarrh "for fifteen years," says J. B. Chase, St. Denis Hotel, B'wy, and 11th st., N. Y., "I have been greatly annoyed with a disgusting catarrh. My sense of smell, not to mention other troubles, became much impaired. A thorough use of Ely's Cream Balm has cured me of these troubles." It is not a liquid or snuff, and is easily applied. Only 50 cents a package.

The treasury of the United States has received from "J. R.," attorney, the sum of $4,000 for account of the conscience fund. "J. R." states the money is sent at the request of a client and covers principal and interest.

Most violent explosions of coughing are stopped by Hale's Honey of Horehound and Tar. Pike's Toothache Drops cure in one minute. The weak, worn and dyspeptic should take Colden's Liquid Beef Tonic. No other. Of druggists.

Mrs. M. B. Stevens, of Hoboken, the widow of the inventor of the Stevens battery, has given $10,000 toward the erection of a new chapel for St. Paul's School, Concord N. H.

Lord Byron, in reference to a beautiful lady, wrote to a friend—"Lady——has been dangerously ill, but now she is dangerously well again." American belles, when attacked by any of the ills that flesh is heir to, may be kept killing, and avoid being killed by taking Dr. R. V. Pierce's "Favorite Prescription," which banishes feminine weaknesses, and restores the bloom of health. By all druggists. ♁

Mr. Cox, of New York, says he will offer an amendment to the bill reported from the joint committee on shipping providing that all the material used in the construction of vessels may be imported in bond and no duties collected thereon; also, providing that citizens of the United States may buy any vessel, no matter where built, and such vessels shall be registered free of duty by the collector of any port as if built in this country. Mr. Vest will offer the same in the senate.

"Ladies' Tonic,"

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription for ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free. Send stamp for names of those who have been cured.

Mr. S. R. Niles, the enterprising advertising agent of Boston, has published a very neat and useful calender for 1883.

Frozen Out.

Says Mr. George T. Dreyer, 45 Division avenue, Brooklyn, N. Y. "I have suffered with frost bitten feet every winter. I applied St. Jacobs Oil a few times and am cured."

About 240 of the Southern Matrimonial and Natal associations have been placed upon the black list of the post office department by order of the postmaster general, and the postmaster at the places where these societies exist have been instructed to return to the senders money orders addressed to the associations.

Hood's Sarsaparilla

Is designed to meet the wants of those who need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies. No other article takes hold of the system and hits exactly the spot like Hood's Sarsaparilla. It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy. $1 a bottle; six for $5.

It is generally understood that the Blair bill appropriating $10,000,000 a year for the education of the illiterate in the United States would be called up in the senate early in January and pressed until passed.

During the Late War

The Government made its Best Arms at Springfield, Mass.—What Mr. David Clark, Inspector U. S. Armory There Recommends.

Your reporter found Inspector Clark at his office on the Armory grounds busily examining "receivers" for the regulation army rifles. However, he was as willing to say a word for the merits of health and strength restoratives as to prove the merits of implements of death. He said: "My business keeps me closely confined to the Armory and its doors. As a result, I've suffered considerably from indigestion and biliousness, but I find that Dr. Kennedy's FAVORITE REMEDY is a most excellent medicine for these complaints. I most cordially recommend it, for I am acquainted with its worth. Dr. Kennedy's FAVORITE REMEDY is used a great deal by the machinists in the U. S. Armory here."

While FAVORITE REMEDY is a specific in Kidney and Bladder diseases, it is equally valuable in cases of Bilious Disorders and Constipation of the Bowels. Try it. Your druggist has it, and its cost is only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The Doctor would have it understood that, while he is engaged in the introduction of his medicine, FAVORITE REMEDY, he still continues the practice of his profession, but confines himself exclusively to *office* practice. He treats all diseases and performs all the minor and capital operations of surgery.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

George Bayard and Gustave F. Perrenoud, extensive liquor dealers in New York, indicted for using cancelled internal revenue stamps on whiskey barrels, have pleaded guilty. They offer to pay the government $100,000 by way of compromise.

Ben Milan, who resides in Mississippi, near the Marshall county line, is the owner of a wonderful mad-stone. Since the stone has been in possession of his family 1229 cases have been treated in all, not one of which failed to recover. An average of fifteen patients test the curative powers of the stone annually, which number is about three times as great since as before the war. The history of this wonderful stone is that in 1810 a Dr. Barker of Alabama brought the stone from China, where it was known as the "snake-stone," being used by the Chinese to cure snake and spider bites and those of other poisonous insects. Soon after Dr. Barker returned to Alabama he began to test the stone on persons bitten by mad dogs, and with great success so used it until his death, which occurred several years afterward, when, with other effects, the stone was sold and became the property of Garvis Milan (father of Ben) and three of his neighbors. One at a time the joint owners sold out until Mr. Milan became proprietor of the stone and at his death willed it to his son, the present owner, who, only a few days since, refused for it $7500.

Buffalo Bill is worth $250,000.

Sunday morning, Dec. 17th, about two o'clock an attempt was made to rob the store of George I. Springer at Saccarappa village, Me. His clerk who slept in the store, was aroused by whisperings, and finding persons in the store and moving goods he reached for his revolver but the noise alarmed the burglars, who kept quiet for a few moments, when apparently satisfied that their fears were groundless, they again attempted to remove some choice goods, when the clerk fired two shots in the direction of the noise and the burglars rushed from the store. It is believed that one shot took effect. The burglars effected an entrance by cutting out glass in the front door and pushing back the bolt. The job is believed to be the work of professionals. There was a very valuable stock of jewelry and clothing in the store. One year ago the same store was robbed of goods to the amount of $500, and on a previous occasion was robbed of a large amount of goods, most of which was recovered. For an earlier attempt to rob the same store a man is now serving a ten years' sentence in the state prison.

Judge Reagan, M. C. from Texas, denies the story about the island of Galveston being on the Mexican side of the boundary.

The bill of Congressman Crapo to extend the time within which claims may be filed before the Alabama court of claims to May 14th, 1883, is of importance to claimants before that court, particularly in view of the decision of the court with respect to ships' husbands. The court has decided that in the presentation of war claims arising from the premium case, instead of the ship's husband or agent presenting all the cases, each individual claimant or owner of the vessel lost must present his claim. That decision was made late in November, and the consequence is that it leaves too short a time for the procurement of the necessary copies of policies of insurance from insurance companies. The Crapo bill proposes no extension of the time of the court and no increase of expenditures; it is only to enable the distribution which congress has already determined should be made, to be made thoroughly and to everybody interested, instead of cutting off claimants, as they would be by this decision, from the mere fact that they would not have time to prepare and present their claims. The bill was objected to by a democrat, who assigned no other reason than that he did not think that the damage committed by the exculpated cruisers ever ought to be paid out of the Geneva award. In the form in which the bill was submitted a single objection would prevent its consideration, but there is good reason to think that when it shall come up in its regular order it will be passed.

Quite a laughable affair occurred at New Cumberland, Penn., on the occasion of the visit of the G. A. R. of Steubenville, to give the "Color Guard" an entertainment. The "Boys" marched at will to a boarding house, on the hunt of something to eat, and were agreeably surprised to find ready prepared a handsome repast, consisting of turkey, chicken—in fact all the delicacies of the season, spread out ready for the onslaught. The "Boys" did ample justice to the repast, and retired well satisfied—leaving the table bare of everything, and the larder ditto. However, another scene was soon to be enacted It appears that a lodge of the Knights of Pythias was to be organized in New Cumberland that evening, and a large number of visiting Knights were expected from Steubenville. The committee, it seems, had engaged this supper for the benefit of the visiting Knights, and they arrived at the scene about fifteen minutes after the G. A. R. boys had cleared the table. The surprise and consternation of the worthy lady of the house can well be imagined when daughter her went flying into the kitchen, exclaiming: "Oh, Lordy, mother, we have fed the wrong men!"

Books, Magazines, etc.

"The Lady of the Lake:" new holiday edition; 120 pictures; price, $6.00. Published by James R. Osgood & Co., Boston.

In all the making of holiday books nothing coming within the popular reach has been achieved this or any past season so exquisite in form and character as the new holiday edition of Scott's "Lady of the Lake," just brought out by J. R. Osgood & Co. It is not so large as to be cumbrous; not so overloaded with gilt and decoration as to frighten the possessor from its enjoyment, and not so costly as to keep it beyond the means of the ordinary presentation-book buyer. And yet it is chastely and elegantly bound, and appeals at once and strongly to the eye of the lover of beautiful books.

Had the publishers searched the fields of English literature even more thoroughly than they did in choice of a fitting subject for holiday illustration they could have hit upon nothing which would have better suited the popular taste, or which would have offered more delightful opportunities for illustration. Every foot of the Scottish Highlands is full of romance; every crag and lake and mountain has its own particular tale of blood or chivalry or love to give it interest, and that interest has been ten times intensified by the magic pen of Scott in his novels and poems.

Best of all these, and dear to the heart of every reader with the slightest tinge of romance in his composition, is "The Lady of the Lake," a poem which for certain fascinating qualities has not its equal in English literature. Its characters, though evolved from the fertile brain of the poet, have yet a stronger reality than most of those whose deeds are written in actual history. Thousands of pilgrims every year pour through the mountains and glens of Scotland, who go there for no other purpose than to visit the scenes described in the story, and who would as soon think of doubting the existence of the crags themselves as that they were once haunted by Roderick Dhu and his band, or pressed by the light feet of the maiden of the fairy isle.

The one hundred and twenty illustrations of the volume represent the finest work yet achieved in the art of engraving in America. Mr. Anthony visited the Highlands for the specific purpose of making drawings for the work, and every landscape in its pages was sketched by him upon the spot. Among the artists who have contributed drawings are A. B. Frost, Harry Fenn, E. A. Garrett, F. T. Merrill, Mary Hallock Foote, J. D. Woodward, L. S. Ipsen, F. B. Schell, Granville Perkins, E. H. Hayden, and J. Appleton Brown. We can call to mind no other holiday work with whose preparation so many noted names in art have been identified, or one which appeals more strongly to the book-buying public.

Governor Long gives the people of Massachusetts a magistrate of excellent promise by his recent appointment of Oliver Wendell Holmes, Jr., to the bench of the Supreme Judicial court. Mr. Holmes was not long ago called to a professorship of the Harvard Law School, for which position he was deemed eminently suited by the profession. As Editor of Kent's Commentaries, Mr. Holmes displayed unusual ability and learning. Later, his lectures on the Common Law (published in a volume) showed him to be an acute and original thinker, and a profound student of the sources of legal principles. English critics pronounced this to be the work "of one of the ablest and most philosophical of American jurists."

Judge Holmes is about forty years of age. He was graduated from Harvard college, in the class of 1861, and has two or three classmates in this city. He was a gallant soldier during the rebellion, but as soon as peace came he returned to his books, and by untiring industry has achieved a national reputation. As a practical lawyer, we believe he will succeed in discharging the duties of his office so as to gain the good will and affection of the people of the state. It is an interesting circumstance that the new judge goes upon the bench just as his distinguished father retires from the chair of his professorship in the Harvard Medical school.

U. S. MAIL.

DR. E. G. JONES may be consulted free by mail on all diseases, no matter how long you have been sick, no matter what your disease is, or how many doctors you have tried. Give him a trial. You will never regret it. Can refer you to hundreds of difficult cases he has cured. Write him a statement of your case enclosing stamp for reply. Price for course of medicine reasonable, within the means of all classes. Don't delay, address at once, E. G. Jones, M. D., Amesbury, Mass. eod3

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. No other article takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "It's the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1879.

MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.

Yours truly,
F. C. CHURCHILL,
(Firm of Carter & Churchill.)

☞ A gentleman who has been suffering from the *Debility* and *Languor* peculiar to this season, says: "HOOD'S SARSAPARILLA is putting new life right into me. I have gained ten pounds since I began to take it." Has taken two bottles.

Gained 10 Pounds

HOOD'S SARSAPARILLA is sold by all druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever, Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS,

Apply a particle into the ear, rubbing in thoroughly.

Hay-feveR

—A fair trial will convince the most skeptical.—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by druggists at 50 cents. On receipt of 50 cents will mail a package. Send for circular and full information. ELY CREAM BALM Co., Owego, N. Y.

For sale in Portsmouth by J. H. Thacher, A. P. Preston, David Kimball & Co. and F. B. Coleman.

MATRIMONIAL.

Israel Putnam Miller, for many years editor in chief of this paper, was, as will be seen by our marriage notices, led to the altar on Monday afternoon, when he ended his bachelor existence.

Mr. Miller like others before him had delighted to sip of the sweetness of the society and friendship of the opposite sex, but until now has escaped those entangling alliances which end in matrimony. But the bird which has so long hovered about the flock has at last found his mate and by the aid of the minister of the South Parish, was ruthlessly made one with another.

Nothing since the return to a *status ante bellum* upon the curfew question, has afforded such a fund of social discussion as has this event which happened under the smiling sunny skies of Monday. The candidate for matrimonial honors is said to have passed through the trying ordeal with composure, and to have uttered the proper responses in the right places with a presence of mind truly wonderful to behold, if such a thing can be beheld. The presents were said to have been numerous and in good taste. We shall not invade the privacy of his domestic circle, or invite the raids of the enterprising burglar into his peaceful home, located in Church place, where it will be handy for him to attend church on Sunday mornings, by a parade of a list of their tokens of affection and tributes of esteem. No, as Mr. Fielding wrote, let us draw a curtain before the first chapter of matrimonial life and only tell our readers that the "high contracting parties," as Jenkins always puts it, which in plain Saxon means the happy pair, took the train for Seabrook or some station west on the line of the Eastern, delicacy forbidding our reporter to enquire thereunto, and for a while as the first quarter of the honeymoon is being spent the CHRONICLE AND GAZETTE wish him that unspeakable happiness always anticipated at the threshold of wedded existence, while his associates of the pen and scissors will in his absence endeavor to occupy, if they cannot fill his place in the chair editorial.

A GOOD APPOINTMENT.

Mr. Charles F. Shillaber, bookkeeper for Messrs. Main & Winchester at their office in this city, has been appointed cashier of the Little Rock & Fort Smith Railroad Co. of Arkansas, and accepted the position. He leaves at once for Little Rock, where he will be located. Mr. Shalliber began his clerical service in the office of the Portsmouth Trust & Guarantee Co. He is an accurate accountant and a reliable and methodical business man. We are sorry to lose such an exemplar young man from our circle, but other places always have drawn upon Portsmouth for this kind of material, and as long as the supply holds good, we presume the draft will continue.

FISHERY NOTES.

The report that the lighthouse board proposes discontinuing one of the two lights at Thatcher's Island excites much consternation among the fishermen and shippers of Gloucester, Mass. The twin lights are deemed indispensable to vessels coming upon the coast from foreign voyages or distant fishing grounds, in order to determine their locality and get bearings to guide them safely into port, and steamers and coasters trading to the eastward rely greatly upon the two lights, especially in thick weather, when a single light could not readily be distinguished from some other of lesser power, which are numerous along the coast. A remonstrance against discontinuing either of the lights is being circulated and numerously signed at Gloucester.

The total first cost of the fisheries of the United States in the last census year was about $45,000,000, and the annual export of fishery products in the same year was only $5,744,580. This marked disproportion between production and exportation is mainly due to the ignorance abroad in regard to American fish. The export of oysters to Great Britain has gradually crept up to half a million of dollars a year, and if the excellence of our canned salmon, lobsters, oysters, clams, etc., was once known there would doubtless be a large demand for them. The same may be said of our dried codfish, sturgeon, halibut and salmon, and of our pickled mackerel.

The loss of life and property in the Gloucester fisheries during the year now nearly ended has been greater than for the two years previous. The number of lives lost in this business since 1875 is as follows: In the year 1876, two hundred and twelve; 1877, thirty-nine; 1878, fifty-six; 1879, two hundred and forty-nine; 1880, fifty-two; 1881, fifty-six. The number of lives lost in 1882, by wrecks or other casualties, such as being lost in dories, is one hundred and fifteen; fifty wives were made widows, and 113 children were left fatherless. The number of vessels lost during the year is thirteen, aggregating 918.74 tons, valued at $79,700, and insured to the amount of $54,460.

MASONIC.

At the annual conclave of DeWitt Clinton Commandry of Knights Templar held at their Asylum on Monday evening, Dec. 18th, the following were elected officers for the ensuing year:

Sir Calvin Page, E. Commander;
Sir C. W. Norton, Generalissimo;
Sir B. F. Webster, Capt. General;
Sir John Christie, Prelate;
Sir T. E. O. Marvin, Senior Warden;
Sir A. P. Preston, Junior Warden;
Sir W. N. Ilsley, Treasurer;
Sir James L. Parker, Recorder.

AROUND HOME.

During the absence of the editor, no communications will be received relating to the nine-o'clock bell or the obstruction in the new Vaughan street.

The U. S. Supreme Court has affirmed the constitutionality of the law in the political assessment case against M. N. Curtis. The writ of habeus corpus is denied. Justice Bradley dissents.

Henry F. Gerrish, at the old stand on Market square, intends to make some improvements in his store, and before he begins the undertaking he will astonish buyers at the low prices at which goods of the first quality can be sold.

M. M. Collis at the 99-cent store offers a rare assortment of holiday goods, and purchasers cannot fail to find something in his stock to suit them.

The New York *Times* says "We recommend it (Camille) to intelligent and refined playgoers. It is a performance of decided worth and beauty, whatever may be said to the contrary. There is no effort to be stormy, violent or sensational in the acting of Mlle. Legrand; nothing could be less strained and more quietly, thoughtfull natural." At Music hall Thursday evening.

The marriage of Benjamin G. Poole, M. D. of Washington, D. C., to Miss Fannie R. Chase, daughter of the late Captain Charles H. Chase of this city, is announced to take place on Wednesday evening, the 20th inst., at the residence of the brides' uncle, Hon. Thomas L. Tullock, 121 B street, S. E., in Washington City.

The sale of tickets for "Youth," at Music hall Saturday evening, will begin at Myers' Wednesday morning.

The centennial celebration of the foundation of Phillips academy at Exeter will occur June 20th and 21st next. The committee appointed to take general charge of the arrangements consists of Gov. Bell, John O. Phillips, George A. Wentworth, Prentiss Cummings, and Artemas H. Holmes. On the evening of the first day the reunion of the alumni will take place. On the closing day an oration will be given by Rev. Horatio Stebbins, D. D., of San Francisco, and a poem by Rev. E. E. Hale, of Boston. At the after-dinner speaking George Bancroft, the historian, will preside.

Gossip has it that Rev. Mr. Green of Great Falls is to be transferred to Trinity Methodist church at Charlestown, Mass.

We thought we knew what good bread was years ago, but since the Vienna Pressed Yeast has been used here we gave up that idea. We were presented with a splendid loaf of bread, a day or two since, made with the above yeast by the agent, for this vicinity, J. W. Young. Mr. Young is very prompt in his delivery of the yeast, having not missed a day for the last five years, and has always kept it fresh in the grocery stores; it is used by every first-class hotel and bakery, and most every family in the city, and in the summer season at all the beach-houses. It is first-class in every respect, and warranted the pure extract of selected grain.

The Old Folks' concert on Monday evening given in the cosy Pearl street church, was enjoyed by a large audience, every seat being filled. The stage erected at the eastern end of the church, was filled with well trained singers and instrumental players of acknowledged ability. Miss Fabyan was unable to be present. Miss Critchley sang well. In her song "To-day I am Sixty-two," she was especially pleasing and had a generous encore. Miss Remick, Mrs. Bennett and Mrs. Huntress rendered their respective parts well. The chorus was full, musical and in good training, being under the conductorship of Mr. Jeff. C. Tilton. The concert was listened to by those who enjoy hearing good old hymns sang, while the ancient costumes and high shell combs aided by the snowy make-up of one of the male singers, served to remind those present of the former old folks' concerts which have contributed so much to our pleasure in times past.

LIFE INSURANCE!
The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.
Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.
Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

28th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or consulting the author, who may be consulted on all diseases requiring skill and experience. Address

Rev. Mr. Janes, of Boston, is to become rector of St. Mark's Episcopal church at Ashland, relieving Rev. Mr. Gray, principal of Holderness school, who has preached each Sabbath at Holderness and Ashland, in addition to his school.

Hon. Samuel Marshall died Dec. 10th in Derry, where he had resided more than fifty years. He was born in Hampstead on the 21st of November, 1792, was sheriff of Rockingham county from 1840 to 1845, deputy sheriff more than twenty years, state senator two terms (1849 and 1850,) and a soldier of the war of 1812. He was made a Mason in 1816, and at his decease was a member of St. Mark's lodge. He was highly respected and widely known.

The membership of Plymouth church, Brooklyn, numbers 2,534 of whom 855 are men, and 1,679 women. The net gain last year 14. The total receipts were $48,282.23, of which $38000 was from pew rents and $4,494.24 from collections in church.

It is reported that Rev. George B. Spalding, D. D., of Dover, N. H., will soon receive a call to the Franklin Street Church of Manchester. If he accepts he will have a salary of $4000. There is only one reason that may possibly induce him to leave Dovor, and that is the fact that the climate of that city does not agree with his family. Dr. Spalding has declined the offer to be made managing editor of the proposed new congregational paper in Boston.

A fearful blizzard raged throughout the northwest on the sixteenth. A high wind has been filling the air with the old snow, and there has been a heavy snowfall in addition. Railroad traffic has been greatly retarded on all of the lines, and embarrassing blockades will result unless the wind subsides for the snow is drifting badly.

New Yorkers seem to fairly worship wealth. They have elected to their legislature two bankers, five journalists and one plumber.

"My Back Is Now Well."

This is what Mr. Clough, of Lowell, Mass. was happy to say after his wife had given him a good rubbing with Perry Davis's Pain Killer, and administered a dose inwardly. For four years he had been crippled with rheumatism, and suffered agony in his back. After using Pain Killer, he went to his business with comfort, and is now as well as ever he was.

There have been heavy rains in Orogon and Washington territories.

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as billiousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, The success which has attended the Swedish Botanic Compound warns a way that for purifying and enriching the blood, creating an appetite, ening and renovating the whole ryste nothing surpasses that great sem

LOG ROLLING,

While Wrestling with a Fallen Tree a Lumberman Receieves Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, stripped for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Beuf's Castle, must have presented an admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to start a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calkilate on:—I shall never wrastle with another log unless I have the advantage of the ground. Fur, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'n sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is cut in the centre of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

THE

New Hampshire Gazette !

Established 1756

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the old home by the sea, "it is the best means of keeping informed of what transpires in this city.

STRENGTH

to vigorously push a business, strength to study a profession, strength to regulate a household, strength to do a day's labor without physical pain. All this represents what is wanted, in the often heard expression, "Oh! I wish I had the strength!" If you are broken down, have not energy, or feel as if life was hardly worth living, you can be relieved and restored to robust health and strength by taking BROWN'S IRON BITTERS, which is a true tonic—a medicine universally recommended for all wasting diseases.

501 N. Fremont St., Baltimore

During the war I was injured in the stomach by a piece of a shell, and have suffered from it ever since. About four years ago it brought on paralysis, which kept me in bed six months, and the best doctors in the city said I could not live. I suffered fearfully from indigestion, and for over two years could not eat solid food and for a large portion of the time was unable to retain even liquid nourishment. I tried Brown's Iron Bitters and now after taking two bottles I am able to get up and go around and am rapidly improving.

G. DECKER.

BROWN'S IRON BITTERS is a complete and sure remedy for Indigestion, Dyspepsia, Malaria, Weakness and all diseases requiring a true, reliable, non-alcoholic tonic. It enriches the blood, gives new life to the muscles and tone to the nerves.

SULPHUR BITTERS

Commander E. C. Merriman, of the U. S. S. Adams, reports to the navy department, under date of Sitka, Alaska, November 24th, that he has received information from nearly all the ports in the Territory of Alaska and finds that quiet and good order prevail. The health of the ship's company is good.

The steamship Wisconsin, which arrived at New York on Sunday, reports that, December 14th, at 11:50 P. M., in latitude forty degrees and ten minutes, longitude sixty-nine degrees and twenty-three minutes, she came into collision with the bark Ella Matthews from Buenos Ayres for Boston. The steamer lay by her for thirty hours, and put the chief officer and seven men on board to assist in pumping her. She also sent canvas to patch the hole in the bow. The bark had two feet of water in her.

"My wife has found St. Jacobs Oil of exceeding great benefit in rheumatism, with which she suffered much until she used this remedy;" says ex-lieutenant governor, Norman J. Coleman, of the St. Louis, Mo., *Rural World*, in a recent communication.

It is said that General Neal Dow, while walking along the street in Portland, stumbled and fell over a misplaced plank in the sidewalk. A friend sprang to his side, aided him to rise, and then remarked in a serio-comic tone: "General, I wish there was not another drop of liquor in the world."

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

A stranger, giving the name of George Coleman, cleverly swindled the City National bank of Dallas, Texas, Saturday, out of $6,100 by means of a forged draft on New York, purporting to be made by a Norfolk bank.

Many New Ideas

in the home cure of diseases, accidents, and how to treat them, and many hints of value to the sick will be found in Dr. Kaufmann's great Medical Work; elegant illustrations. Send two 3 cent stamps to A. P. Ordway & Co., Boston, Mass., and receive a copy free.

A telegram was received at the war department Monday, stating that Lieut. Col. George W. Schofield of the sixth cavalry shot himself dead at Fort Apache, Arizona territory, on the morning of the 17th, while at reveille.

Edward Everett, and Edwin M. Stanton died with apoplexy, a disease often mistaken for heart disease. The two complaints are, nevertheless, essentially different. "Apoplexy is a loss of voluntary motion and sensation, caused by pressure on the brain." For thirty years past, Dr. Graves' Heart Regulator has always cured heart disease and its kindred troubles.

Six members of the family of Hamilton Smith of Middle Island, L. I., were poisoned by eating toadstools, mistaken for mushrooms. Two of the children, it is thought, will die.

"There is no arguing a coward into courage." But even the coward may be brave after trying Kidney-Wort, that medicine of wonderful efficacy in all diseases of the liver and kidneys. It is prepared in both dry and liquid form and can always be relied on as an effective cathartic and diuretic. Try it.

A contemporary thinks it is curious to look down the aisles of a full church and see at the end of every pew a man. Very seldom, indeed, does a woman sit at the door of a pew. Why? Can it be because the man insists on having the most comfortable seat?

"The woman who seeks relief from pain by the free use of alcoholic stimulants and narcotic drugs, finds what she seeks only so far as sensibility is destroyed or temporarily suspended. No cure was ever wrought by such means and the longer they are employed the more hopeless the case becomes. Leave chloral, morphia and belladonna alone and use Mrs. Pinkham's Vegetable Compound.

Twenty-two democrats and seventeen republicans voted for the river and harbor bill in the senate, and fifteen republicans, seven democrats and one Independent against it.

"Ladies' Tonic."

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription for ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free. Send stamp for names of those who have been cured.

Within the twelve years that have passed since Dickens's death about 4,239,000 of his works have been sold in England alone. "Pickwick" heads the list in popularity, while, strange to say, that most dramatic and artistic of all his books, "The Tale of Two Cities," takes almost the lowest place.

The children of Israel were once fed by manna sent from heaven. This was an undoubted case of "God-send." The amelioration of human ills and ailments has been often undertaken and as often failed. Ely's Cream Balm, however, "has been weighed in the balance and not found wanting." It is a sovereign, speedy, certain and pleasant cure for catarrh and cold in the head. Thousands of persons have attested this fact. "Ely's Cream Balm is a God-sent," writes Mrs. M. A. Jackson, of Portsmouth, N. H., on May 22d, 1882. "I had catarrh for three years, had tried nearly all remedies but to no purpose. Two or three times a week my nose would bleed quite freely, and I thought the sores in it would never heal. Your Balm has cured me." This preparation is not a liquid or a snuff, and is easily applied. Can you, reader, afford to experiment with injurious irritants and injections when a pleasant cure is at hand?

The Boston Journal is advertised in another column—$6 per annum postage included—or two cents per copy. There will be no change in size or quality, and nothing cheap about it except its price.

During the Late War

The Government made its Best Arms at Springfield, Mass.—What Mr. David Clark, Inspector U. S. Armory There Recommends.

Your reporter found Inspector Clark at his office on the Armory grounds busily examining "receivers" for the regulation army rifles. However, he was as willing to say a word for the merits of health and strength restoratives as to prove the merits of implements of death. He said: "My business keeps me closely confined to the Armory and its doors. As a result, I've suffered considerably from indigestion and biliousness, but I find that Dr. Kennedy's FAVORITE REMEDY is a most excellent medicine for these complaints. I most cordially recommend it, for I am acquainted with its worth. Dr. Kennedy's FAVORITE REMEDY is used a great deal by the machinists in the U. S. Armory here."

While FAVORITE REMEDY is a specific in Kidney and Bladder diseases, it is equally valuable in cases of Bilious Disorders and Constipation of the Bowels. Try it. Your druggist has it, and its cost is only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The Doctor would have it understood that, while he is engaged in the introduction of his medicine, FAVORITE REMEDY, he still continues the practice of his profession, but confines himself exclusively to *office* practice. He treats all diseases and performs all the minor and capital operations of surgery.

Perhaps no medicine is so universally required as a good catharic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Books, Magazines, etc.

The January "Atlantic" is one of the most brilliant numbers of this magazine ever issued. Several of the names which appeared in the first number twenty-five years ago, and which gave the magazine immediate fame, reappeared in this number. From Mr. Longfellow is given the first part, thirty-five pages, of a dramatic poem entitled "Michael Angelo." The remaining parts of this poem will be given in the two succeeding numbers. The second installment of Hawthorne's English romance, "The Ancestral Footstep," continues the interest excited by the portion given in the December number, and deepens our regret that this admirable outline was not filled in and perfected as Hawthorne alone could have done it; but the portions given are in themselves complete, and have that wonderful charm which characterizes all that Hawthorne wrote. Those who remember Dr. Holmes' inimitable "Autocrat of the Breakfast Table" will welcome with peculiar zest "An After Breakfast Talk," which, by its freshness, originality, and humor, proves that Dr. Holmes is as brilliant now as when he began the Autocrat papers in the first number of the "Atlantic." "A Summer Pilgrimage" is a delightful poem by Mr. Whittier, as characteristic of his peculiar genius as anything he ever wrote. Mr. Warner describes "Wagner's Parsifal," not as a musical critic, but with a keenness and humor which make the article delightful, as anything from Mr. Warner is sure to be. Miss Harriet W. Preston gives a description at once learned and thoroughly interesting of "An Apennine Valley." H. H. contributes a travel sketch, "Chance Days in Oregon." L. C. Wyman, who over the initials S. A. L. E. M. wrote "A Child of the State," and some other short stories which have been noted for their power and pungency, contributes to this number a story of equal excellence entitled "A Stranger, yet at Home." The admirable series of "Studies in the South" is concluded in this number. There are poems by Edith M. Thomas and Maurice Thompson, reviews of the latest books, and an interesting variety in the Contributors' Club, concluding a very noteworthy number of the "Atlantic." Houghton, Mifflin & Co., Boston.

Naval Affairs.

Extensive repairs to the Tallapoosa will be commenced at the Washington navy yard at once prepatory to an extended cruise. The Repulse will be those which were intended to be made at the time she was hurriedly put in order for the use of President Garfield.

Naval Cadet H. G. Leopold has been ordered to special duty in the Bureau of Navigation. Lieutenant-Commander S. Hubbard has been detached from temporary duty at the New York navy yard and placed on waiting orders. Midshipman Guy W. Brown has been detached from the Colorado, and ordered to the coast survey. Midshipman Edwin H. Tillman has been granted leave of absence for three months.

Secretary Chandler has received a telegram from Captain George E. Belknap announcing the arrival of the Alaska at San Francisco, seventeen days from Honolulu. All on board are reported to be well.

Under date of Sitka, Alaska, October 31st, Commander Merriman, of the Adams, reports to the navy department that Cadet Midshipman S. M. Kase and the crew of the second cutter had been thrown into the water, when Mr. Kase had saved their lives at the risk of his own.

Commander E. M. Shepard has been ordered to command the schoolship St. Mary's, Lieutenant R. B. Peck, Master David Peacock, Surgeon Thomas R. Penrose, Passed Assistant Paymaster W. W. Barry, Chief Engineer R. L. Harris, Passed Assistant Surgeon W. G. G. Wilson, Assistant Engineer Howard Gage. Naval Cadets C. H. Mathews and W. H. P. Creighton, to the Swatara. Captain Henry Erben has been detached from command of the nautical schoolship St. Marys 31st inst. and placed on waiting orders.

A $20.00 Biblical Reward.

The publishers of *Rutledge's Monthly* offer twelve valuable rewards in their *Monthly* for January, among which is the following:

We will give $20.00 in gold to the person telling us how many verses there are in the New Testament Scriptures (not the New Revision) containing but two words each, by January 10th, 1883. Should two or more correct answers be received, the reward will be divided. The money will be forwarded to the winner January 15th, 1883. Persons trying for the reward must send twenty cents in silver (no postage stamps taken) with their answer, for which they will receive the February *Monthly*, in which the name and address of the owner of the reward and the correct answer will be published. This may be worth $20 00 to you; cut it out. Address Rutledge Publishing Company, Easton, Penna.

News and Notes.

The Milwaukee brewers, Saturday, reached a conditional agreement to retain the present price per barrel on beer until the 1st of May next. An advance of $1 per barrel had been contemplated on account of the recent extraordinary rise in hops. This decision against a present advance by Milwaukee brewers will doubtless be adopted by all the principal brewers of the west.

The mills of the extensive Albany and Rensselaer Iron and Steel company at Troy, N. Y., were shut down Sunday, and it is announced that there will be no Sunday work hereafter in the mills of that company. The steel works will shut down Sunday morning and resume work Monday night.

Exposions of the steam pipes laid in the streets of New York have become quite frequent. One occurred at the corner of Nassau and John streets on Monday throwing the pavement a considerable distance, and occasioning great inconvenience and loss,

The original doorknocker on the "Old Winslow House" at Marshfield, in the time of Governor Winslow, was in 1850 given by Daniel Webster, with a suitable inscription upon it, to Rev. Gordon Winslow, D. D., of Staten Island. It has just come into the hands of Rev. William C. Winslow, who it is said intends to present it to some historical society for preservation. The inscriptions read: "From Winslow House, Marshfield, Mass. Came in the Mayflower, 1620. Presented by Daniel Webster to Dr. G. Winslow, September 12, 1850."

A Sailor's Luck.

A shot time since we announced that the circular of the November drawing of The Louisiana State Lottery, from M. A. Dauphin, New Orleans, La., stated that two-fifths of the second capital prize of $25,000, amounting to $10,000, has been drawn in Newburyport. This morning we received a letter saying: "The Louisiana State Lottery Company report that two-fifths of the second capital—that is $10,000—was sold to Charles Moulton of the schooner 'Lucy May,' Newburyport."—*Newburyport, Mass., Herald, Dec. 24.*

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. No other article takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "It's the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1879.

MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.

Yours truly,
F. C. CHURCHILL,
(Firm of Carter & Churchill.)

☞ A gentleman who has been suffering from the *Debility* and *Languor* peculiar to this season, says: "HOOD'S SARSAPARILLA is putting new life right into me. I have gained ten pounds since I began to take it." Has taken two bottles.

Gained 10 Pounds

HOOD'S SARSAPARILLA is sold by all druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever, Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing in thoroughly.

Hay-feveR

—A fair trial will convince the most skeptical.—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by druggists at 50 cents. On receipt of 50 cents will mail a package. Send for circular with full information. ELY CREAM BALM CO., Owego, N. Y.

CHRISTMAS FESTIVITIES.

The Sunday schools of the churches in this city will generally observe Christmas by appropriate gatherings, decorations and gifts. So far as we have heard, the festivities will be as follows:

The North church Sunday school at their chapel Christmas evening.

The South Parish Sunday school at Franklin hall, Tuesday evening, Dec. 26th.

The St. John's Sunday school at St. John's church Tuesday evening, Dec. 26th.

The Universalist society have engaged Congress hall for their Sunday school Wednesday evening, Dec. 27th.

The Mission school at the Creek, will have their festival on Christmas day, probably in the afternoon.

STEAMBOAT INSPECTION.

On the day when the U. S. ship Plymouth was hauled into the shiphouse at the navy yard, a large number of persons from this city visited the yard to witness the operation. It was understood beforehand that it would be a big day for the ferry boats, and the owners of them anticipated a profitable business. Passengers were therefore much surprised to see the Mystic, Capt. Trefethen, laying quietly at the wharf all day, and getting no share of the profits. The fact was, Capt. Trefethen had received notice from the official inspector that on that day the boat would be inspected by him, and accordingly laid by for that purpose.

The *Times* of Monday had a long article full of slurs and insinuations at the integrity and honesty of the signers of a recent petition to congress for the appointment of an inspector and assistant inspector of steamboats to be stationed at this port. The petition of which the the *Times* speaks, was, if we are correctly informed, signed by business men of both political parties. It was designed for the relief of a worthy and industrious class of citizens of this city and neighboring town. Its effect would have been to make inspections at greater convenience and probably less cost to the owners of the boats doing business on this river than the inspections are now made. If somebody residing in Portsmouth should receive a small salary for the purpose, even that might have been a local benefit, though the *Times* does intimate that it would have been an outrageous thing.

The subject is now before Congress. We do not know what the result will be, but every man who has the interest of the city at heart will wish for its passage.

THE GENEVA AWARD.

Senator Rollins in a letter to a gentleman of this city who had written him concerning a bill recently introduced by him in the senate writes:

"Mr. Davis, of Massachusetts, formerly a member of Congress from that state handed me the bill and said it was drawn by Mr. Manning who is attorney for the parties interested in the Geneva Award, and asked me to introduce it. I asked him if it was in the interest of our friends the war premium people; he said it was entirely so. Believing in the right of petition, and having a desire to treat Mr. Davis with ordinary courtesy, I did for him what I would have done for any other citizen of the republic, introduced the bill. I have not read a single paragraph of the bill, and do not know anything about it. I certainly have no interest at all in it.

It has gone to the Judiciary Committee, and you can rest assured that with Mr. Hoar on the Committee, nothing bad will be reported back to the senate. I have had a conference with him in regard to it and our friends in Portsmouth and elsewhere interested in this matter, need not feel at all disturbed.

I regret very much that anything of the kind occurred, but it was a desire on my part to oblige Mr. Davis, and not to refuse a courtesy that I think is seldom denied by any senate that led me to introduce the bill. No harm has been done."

THE ALABAMA CLAIMS.

Our Washington correspondent under date of the 19th, informed us, that the House bill, to extend the term for filing petitions before the Court of Commissioners of Alabama Claims will, without doubt, pass the senate. About 1400 claims have been filed up to Saturday last.

CIRCUIT COURT.--CLARK J.

In case of Wilbur vs. Abbott wherein a previous order of dismissal was made, heard in a motion to rescind the order, the plaintiff has filed a new cost bond and the grounds of his motion were stated by Hon. W. L. Foster. The suit between the parties in the state court has gone to the Supreme Court of the United States on a writ of error. The motion was allowed to stand. Decision reserved. Foster for plaintiff, S. C. Eastman for defendant.

In case Huntress vs. Epsom, question on the taxation of cost was heard, the plaintiff, against whom was the verdict at May term objected to the item in the defendant's taxation, of the expense of a view, and contended that it was not allowed by the fee bill of the federal courts. He also objected to the item for travel and attendance for witnesses, as the witnesses were not properly shown to have been summoned &c. Copeland and Edgerly for plff. Wm. L. Foster for deft. Decision reserved.

AROUND HOME.

If you want gold or silver ware, elegant clocks or jewelry for Christmas, New Year or bridal presents, James R. Connell No. 7 Congress street can supply you with reliable articles, and will be happy to see you.

A special company from the Madison Square theatre of New York, will shortly appear at Music hall in the comedy of "The Professor," which was presented here so acceptably last season.

The assessors of Concord have abated all the taxes assessed this year upon church edifices, the aggregate valuation in excess of ten thousand dollars each being eleven thousand five hundred dollars. Taxes levied on the same property in 1881 were abated during that year.

Ten privates connected with the marine barracks at the Charleston navy yard, passed a medical examination, Monday, preparatory to their being transferred to the marine barracks at this station. They arrived at this yard on Tuesday.

A new gas post is being erected on State street, at the corner of Chatham street.

The crew of the U. S. Marion, were paid off on Monday and Tuesday.

William Sewell makes a loud call upon the public sympathy. As is well known, his horse was disposed of one day by the society with a long name. The death was sudden and painless. But now, Sewell is left without a horse and with very little money. Any persons disposed to help him may leave their money with the city marshal, who will take care of it.

The sale of tickets for "Youth," the great melodrama which is to be performed at Music hall on Saturday evening, will commence this morning at Myers' bookstore.

A dispatch received at this office on Tuesday, announces that the Supreme Court of the United States has sustained the driven well patent. There are pending in the Circuit Court several suits against persons in Strafford county who have it is alleged infringed upon this patent. This decision will be of interest to these parties.

"Youth," which is to be performed in this city, on Saturday evening next, the Manchester *Union*, says: "The Boston Theater Company repeated their admirable performance of Youth with its thrilling tableaux and realistic scenic effects to an audience which almost completely filled the opera house. The drama was presented with that attention to detail and careful observance of stage business that characterized the previous evening's performance and was enthusiastically received. Applause was frequent and the curtain was raised on several of the stage pictures in response.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Fifty editions, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 2.; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

A great deal of discussion has arisen of late in regard to what the rights of foot passengers are in crossing the public highways. It has been assumed by some that a pedestrian is obliged to keep on a street crossing in order to secure his safety. No better argument we can produce than the decision of chief-justice Shaw in regard to this subject: There is no law or principal of law or of reason, which confines foot passengers to particular crossings. Such a restriction would be inconvenient and annoying. The street should be kept in such condition that foot passengers may be able to cross, with a reasonable degree of safety, using proper care themselves, at any and all places. The necessity of this might be illustrated very fully by reference to the common and ordinary course of business.

A person, who is left by an omnibus in the middle of the street, should be able to go in safety to the sidewalk, at the nearest point, and not be compelled to make his way among the carriages in the middle of the street, till he can reach a crossing.

It is a settled law that a foot passenger has the right to cross a carriage road; and that a person driving a carriage along the road is liable to an action, if he does not take care so as to avoid driving against a foot passenger, who is crossing the road. A man has a right to walk in the road if he pleases. It is a way for foot passengers as well as for carriages.

Five vessels of the North Atlantic squadron, comprising the Tennessee, Vandalia, Kearsarge, Alliance and Yantic, under command of Rear Admiral George H. Cooper, sailed from Hampton roads for a winter cruise in the West Indies. The vessels will sail in company until reaching latitude 20, when they will be dispatched to different ports on the Gulf and South American coasts.

"My Back Is Now Well."

This is what Mr. Clough, of Lowell, Mass. was happy to say after his wife had given him a good rubbing with Perry Davis's Pain Killer, and administered a dose inwardly. For four years he had been crippled with rheumatism, and suffered agony in his back. After using Pain Killer, he went to his business with comfort, and is now as well as ever he was.

A collision, Sunday, between two freight trains on the Grand Trunk railway, near St. Ann's, wrecked two locomotives and fifteen cars. The loss is estimated at $50,000.

Let Me Show You

what a saving I have made during the last year by being my own doctor. Last year I sold our $96.25 for doctors and their medicine, this year I paid $5.00 for six bottles of Sulphur Bitters and they have kept health in my whole family. They are the best and purest medicine ever made.—Charles King, 60 Temple Street, Boston, Mass.

While attempting to arrest Bob Thomas and N. J. Williams, two moonshiners, at Atlanta, Ga., Monday, Revenue Officer W. L. Goodwin shot and killed the latter and dangerously wounded the former.

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Lockport, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weaknesses caused by the most irregular habits which are so common to womankind. This is no *Patent Medicine*, but is prepared, after years of experience, and recommended, knowing that it will give new life to any broken-down, worn out or nervous female of the sex.

If you have tried other remedies without success, do not be discouraged, but give the "LADIES' TONIC" a *single trial. It never fails to give quick and permanent relief.*

If you are troubled with *any* weakness or complaint common to our sex, do not hesitate to send for a bottle of Ladies' Tonic, and try "Ladies' Tonic," which we guarantee will positively cure you. One Bottle is Sufficient.

Women's Medical Institute is an Association of *Writers and Models of great experience,* who give advice and answer letters from ladies, *free.*

You will be given, for any case of Female Weakness or Debility which "Ladies' Tonic" will not cure. This is a bona fide offer, made by responsible ladies who know *from experience* what "LADIES' TONIC" can do. Send stamp for circular.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coil, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coil is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, stripped for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Bœuf's Castle, must have presented an admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to start a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and throw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip in my life. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calkilate on:—I shall never wrastle with another log unless I have the advantage of the ground. Fur, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is cut in the centre of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

CONSUMPTION.

I have a positive remedy for the above disease; by its use hundreds of cases of the worst kind and of long standing have been cured. Indeed, so strongly do I feel of its efficacy that I will send TWO BOTTLES FREE to any sufferer who will send me their Express and P. O. address. Give it a trial. It costs nothing for a cure. It is a vegetable preparation, and may be taken by children without harm. I shall be glad to receive the worst cases of Consumption, Bronchitis, Asthma and Throat Diseases. Respectfully yours, T. A. SLOCUM, M. C. 183 Pearl St., New York.

WORTH SENDING FOR,

DR. J. H. SCHENCK, of Philadelphia, has just published a book on **"DISEASE OF THE LUNGS AND HOW THEY CAN BE CURED,"** which is offered **Free,** postpaid, to all applicants. "Perhaps the most judiciously edited magazine in the world."—THE NATION, N. Y. Sept. 1882.

THE CENTURY

For 1882-1883.

The twelvth year of this magazine—the first under the new name, and the most successful in its history, closed with the October number. The circulation has shown a large gain over that of the preceding season, and THE CENTURY begins its thirteenth year with an edition of

140,000 COPIES.

The following are the leading features:

A New Novel by W. D. Howells, to succeed this author's "Modern Instance." It will be an international story, entitled "A Sea Change."

Life in the Thirteen Colonies, by Edward Eggleston,—the leading historical feature of the year; to consist of a number of papers, on such topics as "The Beginning of a Nation," "Social Life in the Colonies," etc., the whole forming a complete history of the United States. Especial attention will be paid to accuracy of illustrations.

A Novelette of Mining Life, by Mary Hallock Foote, entitled "The Led-Horse Claim," to be illustrated by the author.

The Point of View, by Henry James, Jr., a series of eight letters from imaginary persons of various nationalities, criticising America, its people, society, manners, railroads, etc.

The Christian League of Connecticut, by the Rev. Washington Gladden. An account of practical co-operation in Christian work, showing how a league was formed in a small town in Connecticut, what kinds of work it attempted, and how it spread throughout the whole State.

"Rudder Grange Abroad," by Frank R. Stockton, a continuation of the droll "Rudder Grange" stories, the scene being now in Europe.

The New Era in American House-Building, a series of four papers, fully illustrated, devoted to (1) City Houses, (2) Country Houses, (3) Churches, and (4) Public Buildings.

The Creoles of Louisiana, by Geo. W. Cable, author of "Old Creole Days," etc.; a fresh and graphic narrative, richly illustrated.

My Adventures in Zuni, by Frank H. Cushing, government ethnologist, an adopted member of the Zuni tribe of Indians. Illustrated.

Illustrated Papers on the National Capital, including "The Capitol," "The Supreme Court," "The White House," etc.

Missions of Southern California, by "H. H."; three or four pages of an exceedingly interesting character, richly illustrated.

MISCELLANEOUS.

Further work is expected from E. C. Stedman, Thomas Hughes, Joel Chandler Harris ("Uncle Remus"), Charles Dudley Warner, John Burroughs, E. V. Smalley, H. H. Boyesen, and a long list of others. Entertaining short stories and Novelettes will be among the leading features of THE CENTURY, as heretofore, and the magazine will continue its advance in general excellence.

The subscription price is $4.00 a year; 35 cents a number. Subscriptions should begin with the November number, and to enable new subscribers to commence with the new series under THE CENTURY name, we make the following

Special Offer.

A year's subscription from Nov., 1882, and the twelve numbers of the past year, unbound, $6.00. A subscription and the twelve back numbers bound in two elegant volumes with gilt top, $7.50.

STRENGTH

to vigorously push a business, strength to study a profession, strength to regulate a household, strength to do a day's labor without physical pain. All this represents what is wanted, in the often heard expression, "Oh! I wish I had the strength!" If you are broken down, have not energy, or feel as if life was hardly worth living, you can be relieved and restored to robust health and strength by taking BROWN'S IRON BITTERS, which is a true tonic—a medicine universally recommended for all wasting diseases.

501 N. Fremont St., Baltimore

During the war I was injured in the stomach by a piece of a shell, and have suffered from it ever since. About four years ago it brought on paralysis, which kept me in bed six months, and the best doctors in the city said I could not live. I suffered fearfully from indigestion, and for over two years could not eat solid food and for a large portion of the time was unable to retain even liquid nourishment. I tried Brown's Iron Bitters and now after taking two bottles I am able to get up and go around and am rapidly improving.

Congealed Serpents.

A python, sixteen feet long, and five cobras and black snakes were brought to the Central Park menagerie on Saturday afternoon. They had just arrived from Europe. The serpents had been merely tossed into a large wooden box, with some loose hay at the bottom and air holes at the top. During the voyage out the hay got wet and the box became soaked. When the snakes were landed they were found to be rigid and so strongly knit together in a common mass that it seemed impossible to separate them. The truckman drove the snakes to the Park in the intense cold of Saturday. "They'll have to be thawed out," said Superintendent Conklin. Tobias Lyness is the Park menagerie engineer. He is no conjurer, charmer, or tamer, merely a brave engineer.

"Lyness, I wish you would thaw out these serpents for me," said Superintendent Conklin, who supposed they were dead, "and when you have them uncoiled put them in bags where I can find them and have them sent to the taxidermist's on Monday."

"All right, sir," replied Lyness, and, calling the menagerie hands, he said: "Dump those serpents in the engine room."

Tobias Lyness had a roaring fire in his half-ton furnace. He raked down the coal, put on the blast, and when the fire was at white heat he threw open the furnace door. Then he seized the coil of frozen pythons, cobras and black snakes, and dragged it close to the fire. Lyness lighted his pipe and sat reading a paper in front of the furnace, waiting for the serpents to thaw out. After a while, happening to look down, he saw six great serpents' heads, with lustrous eyes and darting tongues. Lyness put down his pipe and paper. As he did so the coil of serpents quadrupled in size, showing plainly enough that they were reviving.

"Come here, Tom," shouted Lyness to Donohue, the night watchman. "Bring that box along and shut up your dogs. We're going to have a circus."

Tom Donohue ran up. He looked in through the engine-room window and said: "Wait till I get the net, and we'll haul them in."

"Net be derned," said Lyness.

The serpents kept wriggling and uncoiling themselves gradually. Finally the python began slipping from the mass. Lyness stepped forward and caught the python near the head with one hand, and lower down about the body with the other. Then he played with the snake. He choked him and manipulated him. "I'll thaw him out well," he said, laughing. Finally he threw the snake into the box, which was quickly closed. Lyness then turned his attention to the other snakes, and thoroughly thawed and boxed them all. Then he and Tom Donohue carried the box to the great glass snake house and dumped the newcomers among the reptiles already there. The new snakes are now doing well. Three young rabbits and four pigeons are being fattened for them, and they will be fed in a few days.—*N. Y. Sun.*

"I would not live always, I ask not to stay." We do not wonder, with such a cold as yours, but there is a bright side to every thing, and sunshine even for those racked with pain. Dr. Bull's Cough Syrup never fails to cure the most stubborn cough.

A Lowell clergyman had many lawyers as hearers last Sunday morning. They were brought out by bogus invitations to listen to a discourse specially designed for their class, but perhaps a sermon prepared for ordinary sinners may have done them good.

"First a cough, carried me off,
And then a coffin they carried me off in!"

This will not be your epitaph if you take your cough and Dr. R. V. Pierce's "Golden Medical Discovery" in time. It is specific for weak lungs, spitting of blood, nightsweats, and the early stages of consumption. By all druggists.

Hon. Hannibal Hamlin received a reception at his home in Bangor on Tuesday evening, which was a very pleasant occasion, being attended by citizens of both political parties.

Sheriff Haley of Wolfboro and Deputy George L. Young captured John H. White at his father's residence in Ossipee Monday night. It will be remembered that White shot and seriously wounded his wife and attempted to kill himself by cutting his throat on board a passenger train on the Conway division of the Eastern railroad in June, 1881. He was indicted by the grand jury for attempting to kill, but before his case came to trial he escaped from his keepers.

The children of Israel were once fed by manna sent from heaven. This was an undoubted case of "God-send." The amelioration of human ills and ailments has been often undertaken and as often failed. Ely's Cream Balm, however, "has been weighed in the balance and not found wanting." It is a sovereign, speedy, certain and pleasant cure for catarrh and cold in the head. Thousands of persons have attested this fact. "Ely's Cream Balm is a God-sent," writes Mrs. M. A. Jackson, of Portsmouth, N. H., on May 22d, 1882. "I had catarrh for three years, had tried nearly all remedies but to no purpose. Two or three times a week my nose would bleed quite freely, and I thought the sores in it would never heal. Your Balm has cured me." This preparation is not a liquid or a snuff, and is easily applied. Can you, reader, afford to experiment with injurious irritants and injections when a pleasant cure is at hand?

The United States house of representatives on Monday by a vote of 106 to 123 refused to adjourn from Dec. 22, to Jan. 3; but on Tuesday changed their minds and voted 127 to 101 to adjourn from Dec. 22, to Jan.

During the Late War

The Government made its Best Arms at Springfield, Mass.—What Mr. David Clark, Inspector U. S. Armory There Recommends.

Your reporter found Inspector Clark at his office on the Armory grounds busily examining "receivers" for the regulation army rifles. However, he was as willing to say a word for the merits of health and strength restoratives as to prove the merits of implements of death. He said: "My business keeps me closely confined to the Armory and its doors. As a result, I've suffered considerably from indigestion and biliousness, but I find that Dr. Kennedy's FAVORITE REMEDY is a most excellent medicine for these complaints. I most cordially recommend it, for I am acquainted with its worth. Dr. Kennedy's FAVORITE REMEDY is used a great deal by the machinists in the U. S. Armory here."

While FAVORITE REMEDY is a specific in Kidney and Bladder diseases, it is equally valuable in cases of Bilious Disorders and Constipation of the Bowels. Try it. Your druggist has it, and its cost is only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The Doctor would have it understood that, while he is engaged in the introduction of his medicine, FAVORITE REMEDY, he still continues the practice of his profession, but confines himself exclusively to *office* practice. He treats all diseases and performs all the minor and capital operations of surgery.

PATENTS!

R. H. EDDY,

No. 76 State St., Opposite Kilby, Boston,

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1876.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

HOPEDALE, January 1, 1882. 2 tawtjaw2

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

CITY ACCOUNTS.

The following is the account of the city of Portsmouth with the state of New Hampshire for the current year, as appears by the books of the state treasurer.

The state owes the city these sums:

For Insurance tax	14.62
Railroad tax	3550.55
Savings Bank tax	16410.17
Literary fund	884.12
"	20,859.46
The tax of this city is	16,400.00

Showing a balance due the city payable Jan. 1, 1882 of $4,459.46

This balance is $236.77 in excess of that of 1881, the railroad tax being somewhat smaller, and the other items being larger.

EARTHQUAKE.

Tuesday evening, Dec. 19th, at about twenty minutes passed five o'clock, a shock of an earthquake was felt in this city and various parts of New Hampshire. It was quite light here, being felt principally at the south end. It was more noticeable in Rye, where it shook doors and windows and rattled dishes. At Concord it is said to have been one of the severest ever experienced there. The shock was like a heavy explosion, and shook buildings. Inside the buildings the shock was like some heavy body falling, seeming to be rather above than below. The shock lasted about two seconds. It appeared to move from east to west.

"CAMILLE" TO-NIGHT.

This fine play is offered to our citizens to-night at Music hall, with Eugenie Legrand in the principal part. It will be a great treat. Our space offers room only for two brief notices. The Philadelphia *Press* says: "Camille" offers abundant chance for wit, strength, fire, passion and pathos. Mlle Legrand is dignified, ladylike and refined, quiet and full of subdued strength, and her tall and willowy figure has a certain captivating grace, and her pure expression and pleasing features, almost contradict her assumed character." N. Y. *Daily News* says: "The performance of Dumas' wonderful character, "Camille," by Mlle. Eugenie Legrand at this theatre has been pronounced by able critics as one of the most natural flesh and blood creations ever presented in this city; there is seemingly no art in it, it is life itself."

Some wide-awake Hampton Falls people have fitted up a shoe shop in that town and let it to a Lynn firm, who expect to employ one hundred men in it.

In the court martial for the trial of Chief Engineer Edwin Wells at the navy yard the evidence for the defence was begun on Wednesday. It is expected that the testimony will be concluded on Thursday.

The court martial for the trial of Surgeon Owen of the navy, charged with improperly ordering Capt. Hopkins, commandant of the Florida navy yard, to desert his post, at Washington on Tuesday, came to a decision, which they sent to the secretary of the navy for his approval.

News and Notes.

It is a smart boy who sets the river on fire. But in Philadelphia a boy did it. He was sailing near the gas house where the water was covered with benzing. A lighted cigar which he threw into the river ignited the oil, and there came near being a catastrophe.

Men are frequently like tea—the real strength and goodness are not properly drawn out until they are put in hot water.

Do not accustom yourself to consider debt only as an inconvenience; you will find it a calamity.

A Chicago young man, in a rash moment, told his girl if she would hang up her stocking on Christmas eve he would fill it to the brim with something nice. He has since seen her stocking, and is undecided whether to get into it himself or buy her a sewing machine.

The ninth annual session of the New Hampshire State Grange Patrons of Husbandry was held in Manchester Tuesday. The session was devoted to an address by the master and reports of various subordinate officers. The evening session was occupied by the secret work of the order and the announcement of committees.

Chicago claims to have more marine arrivals and departures in the open season than New York has during the same length of time. It sounds big, but there is a vast difference beween a lake schooner and a grand ocean steamship.

The Hartford *Courant* remarks that the voters have got tired of chaff. The amount of thrashing they have done lately doesn't seem to indicate it, however.

Osgood & Co., oct. with index and list of citations, cloth, $3.50; leather library style $5.50; half calf or half morocco $6.00.

Rarely is seen a more attractively prepared work than Mr. Palmer's "Home life in the Bible." It is filled with facts concerning the habitations of the ancient Hebrews, their manners and customs, so that for young or old, learned or ignorant much is to be gathered from the book whether carefully read or occasionally referred to. It has the endorsement of many of the ablest clergymen and biblical scholars in the country, and for sabbath school teacher, and the bible-class, its explanations are of much aid in a proper understanding of the events and places mentioned in the holy scriptures.

HOOD'S SARSAPARILLA
Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. No other article takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA
It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "It's the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1879.
MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.
Yours truly,
F. C. CHURCHILL,
(Firm of Carter & Churchill.)

☞ A gentleman who has been suffering from the *Debility* and *Languor* peculiar to this season, says: "HOOD'S SARSAPARILLA is putting new life right into me. I have gained ten pounds since I began to take it." Has taken two bottles.

Gained 10 Pounds

HOOD'S SARSAPARILLA is sold by all druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

HAVE YOU BOUGHT YOUR CHRISTMAS PRESENTS.

This is the season of a rush at the stores of buyers to select from temptingly displayed wares, some suitable present. We are told that at this season more than ever people are buying substantial presents, articles which have utility rather than those possessing mere beauty, while the objects of art and luxury in large cities are more numerous than the demand. Much of the heavy stock of costly trifles whose value perishes with the the season, will this year probably remain on the shelves of the dealers. There are also hints of a languishing interest in pottery and bric-a-brac in the large cities. The most valuable collection, probably, of Chinese goods ever offered in New York, and one or two private collections, were sacrificed a few weeks ago at one-fourth of their cost, and a sale of old Dutch curios hardly attracted a buyer. Two years ago the salesrooms would have been crowded with enthusiastic china and lacquer collectors. Either they are tired of the whim or their houses are full and the mania has not spread to less wealthy classes.

Our local dealers were never better supplied with goods of the kind which will make acceptable presents, not for mere show, but for comfort, use and satisfaction. The buyer need only consult our columns, to learn where such goods may be obtained.

A. P. Wendell & Co. always have a good line of goods, and know how to keeper buyers posted by using the press as a means of giving that information.

The Boston ninety-nine cent store abounds in every variety of desirable wares, and the crowds who daily emerge from its doors laden with purchases, show this to be the case.

Foye's hosiery store has many attractive articles which are sold at less than Boston prices.

Tebbetts' two stores are full of attractions. The prices here are reduced from former charges, and with the good taste which characterizes everything which comes from the establishment, no purchaser ought to fail to be suited.

Staples makes a specialty of kid gloves going far up the arm, buttoned high but sold low.

Near the wharves Sise & Co. will send a present of a ton or two of coal for some worthy person, and it can be ordered by telephone.

J. Albert Walker will also accommodate customers from his large and varied stock of coals and wood.

Myers & Co., notwithstanding the predatory visit to their store some weeks since, can supply an overcoat or ulster, or make up garments from the far famed Sawyer's woolen goods, than which there is none better in the market.

Then too, our old friend Wm. P. Walker on Market square maintains that in his improved quarters he can supply the wants of the outer man satisfactorily, and we have learned that one never need to visit Boston, or patronize the travelling shirt canvasser if he needs the luxury, nay necessity of a perfect fitting shirt. Mr. Walker has an arrangement with one of the best shirt manufacturers in New England, by which one's measure can be taken at No. 8 Market square, and in a few days a well-fitting, comfortable and excellently made shirt will be sent to his home. We have tried all the famous shirt makers of other cities, but we award the premium to Walker, and it is a fact worth knowing to our readers, that with so little trouble, they can be promptly and satisfactorily supplied in this important respect.

Buzzell & Son will supply the best sewing machines to be found to-day, and their stock of stationery and fancy articles invites the attention of buyers.

In Market street, Sweetser has stoves, and numberless articles for household use.

"Senator" Leighton of course at this season is in the hey-day of lively business. As to the task of suggesting what he has in stock by way of good things, we like the writer, more than half a century since, lack both breath and time to discuss the banquet he sets before his customers. The senator can supply all his constituents with ample stores for Christmas and New Years, and at this season he is busy with a large trade. Just now his motto is "Measures not men."

At the Congress block bookstore, celebrated for its attractions at Christmas and New Year's, Mr. Myers makes an inviting spread of everything readable and fanciful. A visit to Mr. Myers' tastefully arranged premises is always the proper thing at this season, and few there be that go in thereat who do not find something to suit their taste.

Our readers at the south end should remember that a first-class grocery like that kept by John J. Laskey at No. 63 Pleasant, is a convenience to that portion of our city which deserves encouragement by liberal patronage. Mr. Laskey has an expellent assortment of goods in his line. Buying for cash, and careful in his selections, he is able by means of small expenses to sell the same and at less prices than one would expect to pay for goods of such quality. In boots and shoes customers say he is having a good trade, and our Newcastle friends find this an excellent place at which to make their purchases.

C. Dwight Hanscom has an elegant store full to the ceiling of useful and ornamental goods in his line. Here you can buy a dinner set, an exquisite china cup, a bit of faience, glass ware of fairy thinness, a delicate vase, any article of crockery, glass and china for family use. He advertises his goods for exhibition, but keeps them for sale, and suits well the popular taste.

[Other stores will be noticed to-morrow.]

EASTERN RAILROAD WELL.

The Eastern railroad company have recently let the water from their new well near the plains into their tank, to test the capacity of the well for the wants of the company at this station, and the aqueduct company's water has been shut off for several days. The result is, that at the well the water bubbles up at a place as broad as the head of a flour barrel, is pumped through a three and a half inch pipe into the company's tanks. The tank at the round house holds thirty thousand gallons, and that near the passenger station contains when filled fifty-six thousand gallons. A locomotive in the run between this city and Boston, with an ordinary train of cars, requires about three thousand gallons. Thus it will be seen that the supply of water at a station like that at Portsmouth should be ample. None of the wells beside the track in the Ham field, above and near to Frenchman's lane, were to be relied upon in a dry season, but the new well seems to afford all the water needed, and that too of an excellent quality. It is contemplated to dig another well on the opposite side of the track near the latest-dug well, so as to be sure of an ample supply in the summer season should a dry term occur.

The company will save quite a sum now paid for the aqueduct company's supply of water, and that company of course will have a greater abundance for its remaining patrons. The cost of new water works and land purchased in this city, for wells, up to the close of the year ending Sept. 30th, last, was $20,515.58.

AROUND HOME.

The funeral of gunner Thomas H. Fortune took place at St. Johns church on Wednesday, the burial service being read by Rev. Mr. Duffield, and was attended by a delegation from St. Andrews Masonic Lodge, and the Odd Fellows Lodge in Kittery, of which bodies he was a member, and by warrant officers of the navy yard and the U. S. ship Marion.

The skating never was better than now on both the ponds in this city, and large numbers of young people have enjoyed it during the fine weather.

The 75th annual meeting of the Strafford District New Hampshire Medical society was held in Dover, Tuesday. Members of the profession from Dover, Portsmouth and ten towns were present. Dr. John R. Ham of Dover was chosen president. Drs. John W. Parsons of this city and E. O. Adams of Kittery are named among the officers elect, both having been chosen councillors.

The scarcity of water makes hard work for ice-men, and the prospect of a good crop this winter from the ponds in this neighborhood is poor. Langdon Perkins has been obliged to remove the entire contents of his pond in Rye, the shallow water having frozen solid to the weeds in the bottom: his pond is now empty. The new pond made last summer by Frank Jones near the Sagamore road has never had water enough in it to make marketable ice. The ice-men as well as the farmers are anxious for rain.

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption 'Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cts a box everywhere. eod&wtjan22

LIFE INSURANCE!
The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.
Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.
Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be prevented and cured. Those who doubt these assertions should purchase the new medical work, published by the PEABODY MEDICAL INSTITUTE, Boston, entitled "THE SCIENCE OF LIFE; OR, SELF-PRESERVATION." Nervous debility, premature decline of man, or vitality impaired by the errors of youth, or two close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings, 250 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the much to be regretted in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

—A little girl of our knowledge, from a city up the valley, recently went to visit her grandfather in the country. She is fond of milk, but firmly refused to drink any while there, without giving any reason. When she returned she was asked, "You had nice milk there to drink, didn't you?" "I guess I didn't drink any of that milk," she indignantly replied. "Do you know where grandpa got it? I saw him squeeze it out of an old cow!"

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weaknesses caused by those irregularities which are so common to womankind. This is no *Patent Medicine* but is prepared, after years of experience, and recommended, knowing that it will give new life to any broken-down, worn out or over-worked member of the sex.

If you have tried other remedies without success, do not be discouraged, but give "LADIES' TONIC" a *single trial*. It costs *only* $1 to give *good and permanent relief.*

If you are troubled with any weakness or complaint common to our sex, lay aside the doctor's prescription for once, and try "Ladies' Tonic," which we guarantee will positively cure you. One Bottle is Sufficient.

Women's Medical Institute, Buffalo, Author and Maker of all genuine Medicines of Merit.

Best will be given for any case of Female Weakness or Malady which "Ladies' Tonic" will not cure. This is a *bona fide* offer, made by responsible ladies who know from experience what *Ladies' Tonic* is. Send stamp for circular.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, stripped for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Boeuf's Castle, must have presented an admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to start a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calculate on—I shall never wrassle with another log unless I have the advantage of the ground. Fur, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is cut in the centre of the genuine. Price 25 cents.

STRENGTH

to vigorously push a business, strength to study a profession, strength to regulate a household, strength to do a day's labor without physical pain. All this represents what is wanted, in the often heard expression, "Oh! I wish I had the strength!" If you are broken down, have not energy, or feel as if life was hardly worth living, you can be relieved and restored to robust health and strength by taking BROWN'S IRON BITTERS, which is a true tonic—a medicine universally recommended for all wasting diseases.

501 N. Fremont St., Baltimore

During the war I was injured in the stomach by a piece of a shell, and have suffered from it ever since. About four years ago it brought on paralysis, which kept me in bed six months, and the best doctors in the city said I could not live. I suffered fearfully from indigestion, and for over two years could not eat solid food and for a large portion of the time was unable to retain even liquid nourishment. I tried Brown's Iron Bitters and now after taking two bottles I am able to get up and go around and am rapidly improving.

G. DECKER.

BROWN'S IRON BITTERS is a complete and sure remedy for Indigestion, Dyspepsia, Malaria, Weakness and all diseases requiring a true, reliable, non-alcoholic tonic. It enriches the blood, gives new life to the muscles and tone to the nerves.

In answer to the senate resolution calling for information, Commissioner of Pensions Dudley has sent that body a communication in which he gives the facts called for. From this it appears that the number of pensioners on the roll Dec. 1, 1882, is estimated at 291,656, with an annual value of $30,013,000. The amount paid for arrears of pensions from Jan. 25, 1879, to Dec. 1, 1882, was $77,891,506. Commissioner Dudley estimates that the amount of arrears yet to be allowed in cases in which applications are on file, will aggregate $204,795,000; that the roll of pensions will be increased from 291,656 to 494,575, and that the annual value will be in round numbers $50,000,000. These estimates are based on the laws now in force.

Lord Byron, in reference to a beautiful lady, wrote to a friend—"Lady —— has been dangerously ill, but now she is dangerously well again." American belles, when attacked by any of the ills that flesh is heir to, may be kept killing, and avoid being killed by taking Dr. R. V. Pierce's "Favorite Prescription," which banishes feminine weaknesses, and restores the bloom of health. By all druggists. b

It is announced that Receiver Price of the Pacific Bank of Boston, will, within three months, pay a five per cent dividend to the creditors of the Pacific National bank. To do this will require a disbursement of $125,000. The receiver states that it will be a long time before a second dividend of the same amount can be paid. Should the courts decide that $500,000 of the capital stock is a claim instead of an asset, as is argued by the holders of the increased capital voted and issued before the bank's embarrassment, then the realizations of the creditors beyond this first dividend are likely to be small indeed.

Edward Everett, and Edwin M. Stanton died with apoplexy, a disease often mistaken for heart disease. The two complaints are, nevertheless, essentially different. "Apoplexy is a loss of voluntary motion and sensation, caused by pressure on the brain." For thirty years past, Dr. Graves' Heart Regulator has always cured heart disease and its kindred troubles.

A dispatch from Lieut. Harber, of the party who are engaged in searching for the Chipp party from the unfortunate steamer Jeannette, received on the 20th through the Minister at St. Petersburg, states that the searchers have found no trace of Chipp's company.

"There is no arguing a coward into courage." But even the coward may be brave after trying Kidney-Wort, that medicine of wonderful efficacy in all diseases of the liver and kidneys. It is prepared in both dry and liquid form and can always be relied on as an effective cathartic and diuretic. Try it.

It is understood that the appointment of a successor to Ex-Senator Hamlin, minister to Spain, will be made at the present session of Congress. Mr. Hamlin recently returned to this country from this post, and he will not return.

"The woman who seeks relief from pain by the free use of alcoholic stimulants and narcotic drugs, finds what she seeks only so far as sensibility is destroyed or temporarily suspended. No cure was ever wrought by such means and the longer they are employed the more hopeless the case becomes. Leave chloral, morphia and belladonna alone and use Mrs. Pinkham's Vegetable Compound.

The body of Mary Buckley, the insane girl who wandered away from the alms house in this city on the 14th inst., was found on the 21st in Sherburne's woods frozen to death. She was twenty-four years old, and we believe a native of Portsmouth. The remains were taken care of by the superintendent.

"Ladies' Tonic."

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. The senate Dec. 20th confirmed Commodore Edward R. Calbroun, to be rear admiral; Stanlen T. Pullen of Maine, to be surveyor of customs for the District of Portland; J. C. Bancroft Davis of New York, to be judge of the court of claims; and Clayton McMichael of Pennsylvania, to be marshal of the district of Columbia.

HAY-FEVER

During the Late War

The Government made its Best Arms at Springfield, Mass.—What Mr. David Clark, Inspector U. S. Armory There Recommends.

Your reporter found Inspector Clark at his office on the Armory grounds busily examining "receivers" for the regulation army rifles. However, he was as willing to say a word for the merits of health and strength restoratives as to prove the merits of implements of death. He said: "My business keeps me closely confined to the Armory and its doors. As a result, I've suffered considerably from indigestion and biliousness, but I find that Dr. Kennedy's FAVORITE REMEDY is a most excellent medicine for these complaints. I most cordially recommend it, for I am acquainted with its worth. Dr. Kennedy's FAVORITE REMEDY is used a great deal by the machinists in the U. S. Armory here."

While FAVORITE REMEDY is a specific in Kidney and Bladder diseases, it is equally valuable in cases of Bilious Disorders and Constipation of the Bowels. Try it. Your druggist has it, and its cost is only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The Doctor would have it understood that, while he is engaged in the introduction of his medicine, FAVORITE REMEDY, he still continues the practice of his profession, but confines himself exclusively to *office* practice. He treats all diseases and performs all the minor and capital operations of surgery.

Perhaps no medicine is so universally required as a good catharic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

Mr. Lewis E. Staples has secured the agency for the Dorcas, Saxony, Knitting Worsted and Germantown yarns, which have become so popular throughout the east. The shades and colors are just what are wanted. oedtjan19

Portsmouth Chronicle.

FRIDAY, DEC. 22, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

HAVE YOU BOUGHT YOUR CHRISTMAS PRESENTS ?

Geo. W. Butler at his hat, cap and fur store, in Gray's block, on Congress street, has a full line of goods in the latest style which he is ready to show to customers.

Chas. E. Laighton & Son have their usual large stock of fancy groceries, canned goods, and choice wines. Their store in point of attraction, is second to none of its kind in the state, and their assortment is complete.

Henry F. Gerrish, an experienced grocer, has everything in his line as he claims at reduced prices. It is stated that the contemplated improvements in the old stand have induced Mr. Gerrish to place his prices at such a scale as to attract the attention of cash buyers.

John H. Hutchinson, Market square, has silver goods, jewelry, clocks and watches. There is no better place to buy any of these kinds of goods.

Mrs. M. E. Johnson, on Congress street, furnishes genuine hair work in great variety. Elderly gentlemen can have their heads made to look so well that even the very elect will be deceived.

A. P. Preston, in Congress block, offers choice imported novelties. The reputation of that establishment ensure the quality of all goods offered there.

James R. Yeaton offers pop corn and sweet cider.

At Tilton's, in Rogers' block, you can be supplied with a first-class harness, made upon honor. Also trunks and valices.

And let no one omit to call on Mr. Conn on State street. There you can find a good stock of fat turkeys for the Christmas dinner, and no present will be more acceptable than one of Conn's turkeys with a Christmas card attached to it. Pure butter and cheese may always be found at the same store.

One of the sensible gifts which renewedly commends itself, and has a purpose which redounds to the benefit of the recipient, is one which, perhaps few, in this city receive, but which nevertheless, is regarded as the correct thing, and that is, a life insurance. The annual payment for a person under twenty-five years of age, is a trifling cost compared with the accretion and benefits in a few years. Like a small deposit in the savings bank, it grows with time, and as the Mutual Life Insurance Company of New York, unlike the common rule, is at once the cheapest and the best company in the land, we commend to parents the taking out policies for the benefit of their children, who, as they become of age, will find an investment they may be glad to continue. There is nothing better in the way of a present, which shall last and be of future service. Our personal knowledge of the working of this company, enables us to commend it unerringly to the consideration of our readers. It is a rare exception of the cheapest and the best combined in one enterprise.

DOVER AND ELIOT BRIDGE.

As illustrating the tendency of trade, business and travel to accommodate itself to new facilities, we make the following extracts from an article in the Dover *Republican*, and solicit the consideration of the subject by the business men of this city:

"From a memorandum kept by the collector of toll for November last, it appears that three hundred and forty market wagons, one hundred and ninety carriages, and fifty-three carts of various kinds passed over the bridge during the month. As November is not a time of pleasure riding, it may be presumed that all this riding was by persons visiting Dover for business purposes, and the amount of trade brought here by these five hundred and eighty-three vehicles of various kinds in one month is something for the people of Dover to consider. In the month of August last, eight hundred and seventy-four wagons and carriages paid toll at the bridge, and if the bridge was a free one, as all such bridges ought to be, there is not a single doubt that the travel over the bridge would be at once doubled, and even tripled, and the trade brought to Dover proportionally increased. Hay was hauled last month from Kittery, from a point within two miles of Portsmouth to Dover for a market, as the seller knew that he would get a price here over Portsmouth rates which would repay him for his extra time and travel."

AROUND HOME.

Doctors Parsons and Whittier were in attendance at the annual meeting of the Strafford Medical Society held at Dover on Tuesday. Dr. Whittier presided. Dr. Parsons was chairman of the committee to select and assign topics for the next annual meeting and was also elected one of the councillors. Dr. Samuel C. Whittier, president, delivered the annual address, on "Nutrition in Disease." It was an able, instructive and entertaining address, and at its conclusion a vote of thanks of the society was unanimously extended to the writer. Dr. Parsons introduced resolutions condemning certain newspaper articles published in a Strafford county newspaper criticising the professional treatment of a case under the charge of one of the members of the society, which were adopted. The attendance was good, the session lasting throughout the day. Discussion upon professional topics was had in the afternoon.

Of "Youth," which will be played at Music hall, Saturday evening, the following notice shows how it is put on the stage in a "country theatre:"

The audience at City hall last evening was more than delighted with the representation of this season's great success at the Boston theatre, "Youth," as given by the travelling company from that house. The company is a good one throughout, and the scenery and stage appointments were very fine, particularly the embarkation and castle scenes, and were liberally applauded. No better mounted play has even been given on the stage at City hall. —*Newburyport Herald, Dec. 5th.*

Messrs. A. P. Wendell & Co. are now offering a splendid line of goods for the holiday trade, such as birds and cages, fine pistols and shot guns, table and pocket cutlery, skates, sleds, sleigh bells, and hosts of useful and ornamental goods in the hardware line. Just at this time the skate trade keeps them busy. Their stock is very attractive, prices very low.

In the court martial for the trial of Chief Engineer Wells held at the navy yard the evidence was closed on Thursday, and the court was adjourned to Friday at ten o'clock A. M.

Congressman Godlove S. Orth died at his home in Lafayette, Ind., Dec. 16th. He was born near Lebanon, Pa., April 22d, 1817, and educated at Pennsylvania college, at Gettysburg, studied law, and upon his admission to the bar in 1839, removed to his late residence in Lafayette. He was a member of the state senate of Indiana continuously from 1843 to 1850, was elected president of the senate of 1845, and thus became acting lieutenant governor of the state. He was a member of the peace conference in 1861, and in 1862 served as captain in the 76th regiment Indiana volunteers, being placed in charge of the United States ram Hornet and assigned to duty on the Ohio river. He was elected to the 38th, 39th, 40th, 41st and 43d congress, then accepted the position of United States minister to Vienna, having previously declined the mission to Brazil, tendered him by President Grant. On his return from Vienna he was elected to the 46th congress, and in 1879, received the complimentary vote of his party for United States senator against Hon. D. W. Voorhees. He was re-elected to the 47th congress as a republican.

A writer given to original forms of expression, in a recent letter from New York to a friend in Washington thus describes an incident which he witnessed in the Fifth Avenue hotel, New York, on December 9th: The Hon. James G. Blaine and wife were sitting at breakfast at a table, at the end of which, was a chair tilted forward to show that it was engaged. Directly the Hon. Roscoe Conkling entered and strutted up with all his senatorial dignity, that is, a thousand pounds to the square inch. Before he reached the reserved seat he saw the enemy and instantly there was a flash of heat lightning over his lofty countenance, and turning right oblique he solemnly marched to the further end of the dining room. A smile mild as moonlight on a back yard, played on the intellectual outlook of the plumed knight.

Two more banks, one in the state of New York, and the other in Ohio, have been compelled to close their doors on account of frauds and stealings by bank officers.

The City Bank of Rochester, N. Y. has a deficiency estimated at $350,000. The president, Charles E. Upton, has been speculating in oil on his private account, and states his shortages at $200,000, and his personal property to be about $150,000, which he promises to secure to the bank. But he drew $75,000 from the bank on the day before its suspension. The bank is probably ruined.

The William C. Moon banking house at Victor, N. Y. has suspended, as is supposed in consequence of the failure of the City Bank.

The Second National Bank of Jefferson, Ohio, has been cheated out of $50,000 or $75,000 of its funds by S. J. Fuller and H. L. St. John, cashier and assistant cashier, and has suspended. St. John, on learning of his discovery, had a stroke of paralysis. He could be a thief without a shock, but discovery of his villainy he could not bear.

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. No other article takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "It's the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1882.

MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.

Yours truly,
C. CHURCHILL,
(Firm of Carter & Churchill.)

☞ A gentleman who has been suffering from the *Debility* and *Languor* peculiar to this season, says: "HOOD'S SARSAPARILLA is putting new life right into me. I have gained ten pounds since I began to take it." Has taken two bottles.

Gained 10 Pounds

HOOD'S SARSAPARILLA is sold by all druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever, Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing in thoroughly.

Hay-feveR

—A fair trial will convince the most skeptical.—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by druggists at 50 cents. On receipt of 50 cents will mail a package. Send for circular with full information. ELY CREAM BALM Co., Owego, N. Y.

STEAM INSPECTION SERVICE.

The petition for the appointment of assistant inspectors of steam vessels in this district, stated, that in the opinion of the signers, the good of the public service require assistant inspectors; and asks that the necessary steps be taken to secure the appointment of such officers.

The measure was recommended by the supervising inspector of steam vessels in New York and the United States district judge, and the petition was signed by the mayor of Portsmouth, the collector of customs, United States chief engineer, and forty citizens of Portsmouth of both political parties, for the reason that Portsmouth being now inspected in the Boston district, which includes Rhode Island, Massachusetts and New Hampshire, it was now too extensive for those inspectors to give that attention the rules of the service require, and the public have a right to expect.

Supervising Inspector General Dumon who objects to the appointment because it is without benefit to any interest, in his annual report for 1881 states, steamers soon after their annual inspection were found deficient in life saving appliances; life boats without oars, plugs or life lines; life boats capable of carrying sixty passengers, substituted for buoys capable of supporting ten persons; steamers limited to 1000 passengers inland, allowed to carry 2000 on the Atlantic, going miles from the land; compliment of life-preservers deficient, those on hand without straps; fire-hose so worn as to be useless in case of fire; boiler-room unprotected by metal, and other evidences of disregard of law; certificates granted by inspectors when known to be deficient in sixty out of one hundred cases. General Dumont himself recommends the creation of new inspection districts, and by that recommendation substantially endorses the measure asked for.

It was the intention of the supervising inspectors that Portsmouth should be an intermediate district and take a portion of Maine and Massachusetts, relieving both districts, which are very extensive.

S.

Note by the Chronicler.—The columns of the *Times* on Thursday evening were illuminated with another article on the above subject. Perhaps at some future time, when the press of holiday advertising is over, we may have something further to say about it. But at present we only wish to quote a few words, in which that paper comes down from its high-heel boots so far as to say:

"We think the signers to the petitions were honest, but we have reason to believe they signed it under a great misapprehension."

"We say we think designing men and office seekers have misled some at least of those who signed this petition."

Will the readers kindly apply that remark to Mayor Treat and Hons. Frank Jones and Daniel Marcy.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, Dec. 21st, Mayor Treat in the chair:

Present the full board, except Ald. A. K. W. Green.

Records of last meeting were read and approved.

City Solicitor's report was received and read and ordered to be accepted and placed on file. It is as follows:

To the Honorable Board of Mayor and Aldermen of the City of Portsmouth.

Gentlemen: During the year the following cases in which the city of Portsmouth was either a party of record, or in interest, have been disposed of:

J. H. Jenness vs. Wm. E. Hadley, collector of taxes.

J. H. Jenness vs. Geo. W. Pendexter, et al. assessors.

Wm. E. Hadley vs. J. J. Pickering in Equity.

Marian L. Odiorn vs. Portsmouth.

Daniel Mason vs. W. H. Sise et als.

City of Portsmouth vs. Daniel Mason.

A claim for damages of Ephraim C. Spinney which was adjusted without carrying the matter into court.

The unfinished cases at this time are:

Mary P. White vs. city of Portsmouth.

Eastern railroad cases.

Knibbs patent cases.

The case of Mary P. White vs. Portsmouth, was entered at the last October term. The plaintiff seeks to recover damages to the amount of $2000 for injuries received by falling on the ice in Russell street, during the month of January last. It will be in order for trial at the next term of court. This case is a fair example of a majority of the suits brought, not only against this city, but against all of the cities, and many of the towns in the state. Mrs. White fell upon the ice which had formed on a sidewalk in an obscure street, and brought suit against the city for its alleged neglect in not having such sidewalk in a safe condition for public travel. It is a physical impossibility for the city of Portsmouth, with its inclement and ever changeable climate, and in the exercise of the utmost precaution, to keep all of its sidewalks and crossings entirely free from all ice and slipperyness at all times. Accidents of this character must of necessity occur. The law granting indemnity for such casualties is a statutory measure, and as construed by the court, it is left entirely a question of fact for the jury to decide whether or not, a street is in a suitable condition for the travel thereon; and consequently cases tried under this law, frequently resolve themselves into a mere matter of figuring of damages by the jury, influenced both by their compassion excited by the exaggerated narration of the injuries of the plaintiff, and by the consideration that the amount of their verdict is drawn from a municipality, and not directly from the pockets of individuals. Under these circumstances suits multiply, and towns are obliged to bear the burden of insuring the public against accidents without being recompensed by receiving premiums therefor. The remedy is by appealing to the Legislature to modify in some degree the present law which holds towns to such strict and unreasonable accountability. And in this behalf I desire to urge the suggestion that has more than once been expressed by my predecessors in office, that the City Councils request our representatives in the forthcoming Legislature to endeavor to procure a result of this character.

The Eastern railroad cases are controversies arising from a resolution passed by the city government ordering the Eastern railroad to place gates at the crossing at Vaughan street and at Green street. The Eastern railroad had the Concord railroad summoned in as a party to the proceedings. A hearing was had last summer on the question of the responsibility of the two roads to pay the expenses of maintaining said gates, and a report was made at the Oct. term. The court ordered judgment on the report after making some modification therein, and counsel for the Eastern railroad excepted to this order and a law question was raised. The case is now before the law court, and, I trust, may be speedily disposed of.

The Knibbs Patent case is an action at law brought in the U. S. Circuit Court against the city of Portsmouth by one Marcus P. Norton trustee and assignee in trust et als. to recover damages for an alleged infringement of letters patent of plaintiff for a relief valve attached to steam fire engines. The plaintiff lays his damages in the sum of $60,000. He has brought similar actions against the cities of Manchester, Nashua, Dover and Concord in this State. Portsmouth has united with these cities in making a common defense against this extortionate and unrighteous demand. A patent lawyer has been retained to conduct the defense, and other steps taken to secure a fair presentation of the case. It will be in order for trial at the next May term of said court in this city.

Three hundred criminal complaints have been issued and prosecuted during the past year.

Respectfully submitted,
WALLACE HACKETT, City Solicitor.

Dec. 21, 1882.

Claim of Asa Ham for damage to a chimney in trimming trees under direction of this city; of E. S. Odiorne for damage to sheep, and claim of Mary Fitzgerald for injury by falling in front of Dr. Hall's house on State street, were referred to committee on claims.

A. J. Penhallow's request that a petition for extenson of street from South road to Hunking street receive definite action, was referred to committee on streets.

Committee on city land and buildings reported as to building for hook and ladder carriage, recommending the use of the building whence it was taken. Referred to committee on city land and buildings, fire department and chief engineer.

Committee on claims reported in favor of Howe Call's claim to the amount of $7.50. Adopted.

Subject of selling one of the steam fire engines and present hook and ladder truck and changing location of others was presented by Ald. Sampson. Referred to committee on fire department.

Adjourned for one week.

LIFE INSURANCE!
The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.
Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.
Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these startling statements should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE: OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixty edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

A Substitute For Hops.

Considerable commotion, says the British *Medical Journal*, has been raised in the beer-brewing and beer-drinking world by a letter published in a contemporary, written by a firm of drug-brokers in Mincing lane, with reference to the substitution of drugs possessing bitter flavor and tonic qualities for hops. They state that, in consequence of the failure of this season's crop of English hops, calumba-root, camomiles, cassia and cheretta have greatly advanced in price, thereby implying that these substances are likely to be largely employed in producing the flavor dear to the palate of the consumer of "bitter." The great firms of brewers have, in consequence, unanimously protested that they never use anything but hops to produce the bitter constituent of their beers, and therefore practically deny the inferences to be drawn from Messrs. Josepha' statistics. This, doubtless is the fact; but if the case were otherwise, and the drugs named were used in the brewing of bitter beer, no possible injury, but rather benefit, would result to the beer-drinking public. Few old indians, or any persons suffering from the possession of a "liver," but know the good effects of calumba; quassia is also one of the most efficient vegetable bitters known to pharmacists. The same may be said of cheretta and camomiles. You that even if the hop crop were deficient, it is certain that the public health would not suffer, and drinkers of bitter beer would not detect any difference of flavor in their beverage.

"My Back Is Now Well."

This is what Mr. Clough, of Lowell, Mass. was happy to say after his wife had given him a good rub bing with Perry Davis's Pain Killer, and administered a dose inwardly. For four years he had been crippled with rheumatism, and suffered agony in his back. After using Pain Killer, he went to his business with comfort, and is now as well as ever he was.

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. Sold by dealers.

The United States house of representatives on Monday by a vote of 106 to 123 refused to adjourn from Dec. 22, to Jan. 3; but on Tuesday changed their minds and voted 127 to 101 to adjourn from Dec. 22, to Jan.

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a sure cure for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weaknesses caused by those irregularities which are so common to womankind. This is an *Patent Medicine*, but is prepared, after years of experience, and recommended, knowing that it will give new life to any broken down, worn out or over-worked member of the sex.

If you have tried other remedies without success, do not be discouraged, but give "LADIES' TONIC" a single trial. *It never fails to give quick and permanent relief.*

If you are troubled with any weakness or complaint common to our sex, lay aside the doctor's prescription for once, and try "LADIES' TONIC" which we guarantee will positively cure you. **One Bottle is Sufficient.**

Women's Medical Institute, Buffalo, N. Y. As a testimonial of Mrs. Van Buren and Mother of years' experience, who give advice and answer letters from ladies, free.

Relief will be given for any case of Female Weakness by taking which is called "LADIES' TONIC." Send one dollar, a box, for one bottle, made by responsable ladies who know "from experience" that "LADIES' TONIC" can do. Send stamp for circular.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest, from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, stripped for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Bœuf's Castle, must have presented an admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to start a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a brokeu bone, but with some mighty bad bruises."

"They you were a big fellow," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calculate on—I shall never wrestle with another log unless I have the advantage of the ground. Fur, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is cure in the centre of the genuine. Price 25 cents.

STRENGTH

to vigorously push a business, strength to study a profession, strength to regulate a household, strength to do a day's labor without physical pain. All this represents what is wanted, in the often heard expression, "Oh! I wish I had the strength!" If you are broken down, have not energy, or feel as if life was hardly worth living, you can be relieved and restored to robust health and strength by taking BROWN'S IRON BITTERS, which is a true tonic—a medicine universally recommended for all wasting diseases.

501 N. Fremont St., Baltimore

During the war I was injured in the stomach by a piece of a shell, and have suffered from it ever since. About four years ago it brought on paralysis, which kept me in bed six months, and the best doctors in the city said I could not live. I suffered fearfully from indigestion, and for over two years could not eat solid food and for a large portion of the time was unable to retain even liquid nourishment. I tried Brown's Iron Bitters and now after taking two bottles I am able to get up and go around and am rapidly improving.

G. DECKER.

BROWN'S IRON BITTERS is a complete and sure remedy for Indigestion, Dyspepsia, Malaria, Weakness and all diseases requiring a true, reliable, non-alcoholic tonic. It enriches the blood, gives new life to the muscles and tone to the nerves.

Daily Chronicle.

The steamer City of Berlin, which left New York on the 9th inst. for England, returned to that city on the 20th inst. having in tow the steamer City of Chester, which left Liverpool for New York on the 7th inst. The City of Chester when a few days out encountered a terrific gale, against which the vessel made slow time. About midnight on the 14th inst. they discovered a large steamer a few miles off, showing signals of distress. The City of Chester replied to the signals of the distressed steamer, informing her captain that the City of Chester would lay to. When daylight came she hove to and gave the City of Berlin her steel hawser, and the latter's wire hawser was secured on board the City of Chester, which steered the disabled steamer to Sandy Hook, the City of Berlin doing the towing and the City of Chester the steering for both vessels.

The City of Berlin, during the five days she had been out, had encountered terrific weather. Gales were frequent and veering. The heavy seas through which she labored carried away her rudder and rudder-post. She then rolled about at the mercy of the sea and wind for two days before the City of Chester was sighted.

Hold on to the truth, for it will serve you well and do you good through eternity. Hold on to virtue, it is beyond price to you at all times and places. Hold on to Dr. Bull's Cough Syrup, for there is nothing like it to cure a cough or cold.

At a dance given in North Carolina the other night, one man was stabbed, one shot, two clubbed, two had bones broken, one woman had an eye put out, and the house burned up. Those present called it a real old-fashioned good time.

***"No eye like the master's eye." Had Æsop lived in our day he might well have added, "No popular curative like Kidney-Wort." All eyes are beginning to turn to it for relief from diseases of the liver, bowels and kidneys. Kidney-Wort is nature's remedy for them all. Those that cannot prepare the dry can now procure it in liquid form of any druggist.

The chief of police at Montreal has received notice from Scotland yard of a great diamond robbery in London, Eng., and offering a reward of $2,000 for the capture of the thief, who is supposed to have fled to Canada.

While in St. Paul, Minn., on one occasion, Miss Minnie Palmer tripped on the stage, causing her to sprain her ankle. St. Jacobs Oil was promptly and freely applied, and in two days Miss Minnie was as active as ever.

Two thousand workmen, employed in the stove manufacturing establishments at Troy, N. Y., have struck against the reduction of fifteen per cent from present prices of labor, which are now, by this reduction, at the same rates as those paid last winter.

In their thirst for knowledge professional men have been recently much engaged in vivisection, which means the cutting up of living animals. The practice seems brutal, even at its best. Dissection, or the cutting up of the dead, has ever been productive of good. An autopsy often reveals hidden diseases and brings out startling facts. Here is a case in point: "Out of more than 500 dissections witnessed by the renowned Dr. Clendenning, about one-third presented signs of heart diseases." As a matter of fact Dr. Graves' Heart Regulator is the only cure, so far discovered for this disease. At druggists.

—An old story is being revived of a prayer meeting held for a poor fellow's relief who had broken his leg. While Deacon Brown was praying, a tall fellow with an ox goad knocked at the door, saying: "Father could not come, but sent his prayers in the cart." They were potatoes, beef, pork and corn.

The storage car on the New York and Chicago express, with newspaper mail for Toledo and five bags of letter mail for the west, was burned six miles west of Schenectady, N. Y., at two o'clock Thursday morning. The car contained the paper mail from New England for San Francisco, Minnesota, Nebraska, Chicago, Wisconsin, Iowa and the Pacific states.

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

On Saturday, Dec. 16th, a lad, twelve years of age, son of Thomas Langley of Eliot, was gunning in the woods of that town, when he sighted a fox. The boy, though at a distance of seventy yards, brought down Master Reynard at the first shot, and carried his body home in triumph.

During the Late War

The Government made its Best Arms at Springfield, Mass.—What Mr. David Clark, Inspector U. S. Armory There Recommends.

Your reporter found Inspector Clark at his office on the Armory grounds busily examining "receivers" for the regulation army rifles. However, he was as willing to say a word for the merits of health and strength restoratives as to prove the merits of implements of death. He said: "My business keeps me closely confined to the Armory and its doors. As a result, I've suffered considerably from indigestion and biliousness, but I find that Dr. Kennedy's FAVORITE REMEDY is a most excellent medicine for these complaints. I most cordially recommend it, for I am acquainted with its worth. Dr. Kennedy's FAVORITE REMEDY is used a great deal by the machinists in the U. S. Armory here."

While FAVORITE REMEDY is a specific in Kidney and Bladder diseases, it is equally valuable in cases of Bilious Disorders and Constipation of the Bowels. Try it. Your druggist has it, and its cost is only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The Doctor would have it understood that, while he is engaged in the introduction of his medicine, FAVORITE REMEDY, he still continues the practice of his profession, but confines himself exclusively to *office* practice. He treats all diseases and performs all the minor and capital operations of surgery.

Popular Education.

Rev. W. A. McGillley delivered the second of his course of lectures on Sunday evening at the North Church. His subject was "The Philosophy of Education." He pictured the development of the germ hidden in the mind of the child, by the severe exercise of the child's faculties both of body and mind and the gradual expansion, until it is able to walk, think and care for itself. Education develops the memory, imagination, judgment and reason, through exercise, just as in the case of the body; and the complete idea of education is, through exercise, to develop all the powers, physical, mental and moral, and place them under the control of the will. The climax of education is to be able to marshal every power, to a given point, at a given time. He enlarged upon the importance of a good physical development, a good round body being the foundation of everything valuable in life, and obedience to the laws of nature just as imperative as the decalogue. Truth, the food of the soul, like beefsteak, requires thorough mastication in order to proper assimilation and digestion. It is the teeth of thought chewing the cud of reflection that gets the strength out of knowledge. Multitudes have knowledge enough to make a dozen men strong, yet from lack of thought are walking skeletons. Meditation seizes such truths as that of Immortality and can make the existence and providence of God as real and minute as though He and we alone occupied space. The superiority of moral power was illustrated by the decay of the empire of Alexander, and the living power of his great teacher Aristotle. The ultimate end of truth, so far as man is concerned, is the production of happiness, and the lack of education the chief cause of human wretchedness. As an undeveloped body would starve in the midst of abundance, from lack of ability to get it, so an uncultured soul would be abject and wretched in the midst of the resources of the universe, through inability to appropriate that which produces happiness. And the ultimate use of true culture is the production of souls bearing the likeness of Christ for the peopling of God's eternal kingdom. The subject of the last lecture, on Sunday evening next, will be "The Great Master."

—This Saturday evening comes "Youth" at Music Hall—the play which has had a fine run, with superb scenic effects, at Boston Theatre. It was performed at Manchester Dec. 7th and 8th and was pronounced by the *Union* as by all odds the best that had been presented in that city during the past three years, and a success in every respect. The plot is briefly as follows: Frank Darlington is the only son of a clergyman who, in his younger days, deserted the woman he had ruined. The young man is betrothed to his cousin and desperately enamored of Eve Malvoisie, a faithless wife and a dangerous adventuress, who, aided by Major Reckly, a brother-officer with Darlington, succeeds in convicting the latter of forgery and sending him to prison. He is released on ticket-of-leave, enlists in his old regiment as a private, is recognized by Reckly as he is about to embark, but, being denied by his relatives and former companions, who believe him innocent, he leaves England for the war. By bravery at Khyber he is granted a full pardon, is decorated with the Victoria cross and returns home to wear the villainy of Reckly who has deserted Eve and is in turn denounced by her, and establish his own innocence. The curtain falls, as it always does in your melodrama, upon a happy family, fond hearts united, vice dethroned and virtue triumphant and all that sort of thing—Darlington in this case being left free to meditate upon the follies of youth. Add to this the efforts of the woman whom old Darlington wronged before he became a reverend, to ensnare his son for revenge's sweet sake, the friendship between Frank and a fellow-convict—Eve's former husband—who goes to Afghanistan and is killed, and a tender attachment on the part of Frank's servant, an Irishman, the whole being served up in seven tableaux, and you have "Youth."

A bill was last week introduced in the House by Mr. Briggs of this State to amend the Revised Statutes so as to more particularly define the legislation that shall elect United States Senators in the several states.

The law as it stands provides that "the Legislature of each State which is chosen next preceding the expiration of the time for which any Senator was elected to represent such State in Congress, shall, on the second Tuesday after the meeting and organization thereof, proceed to elect a Senator in Congress. Mr. Briggs' bill amends this section of the Statute by inserting, after the word chosen, the words *and organized* so that the whole clause shall read "the Legislature which is chosen *and organized* next preceding the expiration of the time for which any Senator is elected shall, on the second Tuesday after the meeting and organization thereof, proceed to elect a Senator in Congress."

As our Supreme Court has decided that this is the plain meaning of the law as it now stands, it is no doubt wise to insert the words that a fair interpretation could not fail to supply. This bill ought to pass, but whether it does or not the Legislature that will assemble next June should, and we believe will, elect a successor to Hon. Henry W. Blair as well as to Senator Rollins.

G. H. Jenness' store at Rye Beach was entered by burglars on Wednesday night of this week. The goods were thoroughly overhauled and many articles stolen. Thieves, who were trying to break into the store of E. C. Jenness were frightened away by the approach of a young man.

The fire which broke out at Kingston, Jamaica, on the 11th, was not extinguished until the 13th, and the loss is placed at $15,000,000. The fire originated in a lumber yard, and four hundred stores were burned. Five persons are known to have been burned to death.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

A southern gentleman says there is far more call for educational work among the colored people of the south than for missionary work in India or Africa.

The great talk about bayonets at the polls has nothing to do with the enormous sale of Adamson's Botanic Balsam the great remedy for curing coughs, colds, and all lung troubles. New size, 10 cts. Larger size, 35 and 75 cts.

"American Men of Letters, James Fenimore Cooper, by Thos. R. Lounsbury, Professor of English in the Sheffield Scientific school, Yale college." Boston; Houghton, Mifflin & Co.; price $1.25. Sold by W. G. Myers.

Cooper, on his death bed, enjoined his family to permit no authorized account of his life to be prepared. The biography is produced without a technical disobedience to this command, to the extent that sources of information contained in family papers, were not opened to the inspection of the biographer. Cooper was from 1808 to the acceptance of his resignation May 6th, 1811, in the navy. His resignation occurred soon after he attained the age of twenty-one years. We are told of the commencement of his literary career of his numerous libel suits where he had a legal tilt with Thurlow Weed, Horace Greeley and others, and of his peculiar literary and personal characteristics. Cooper's novels have always been favorite reading. A prominent publisher recently informed us that to-day there is a steady, constant call for these works by the trade. The boys born near salt water used to delight to read his nautical romances, as the well worn copies on the shelves of the Athenæum will afford evidence. More than sixty years have elapsed since Cooper began to write, and at the time of his death no less than sixty-seven book and magazine articles. of his has been published. His history of the navy of the United States first appeared in 1839, after several years had been spent by Cooper in its composition.

The meeting of the Maine Central company was very important in its bearings on the railroad interests of the State. The re-election of President Jackson places him at the head of the longest line of road in New England, extending from Boston to the New Brunswick border. The elevation of Mr. Tucker to the office of vice president indicates that Mr. Jackson purposes to change his headquarters to Boston. By the changes in the board of directors two men from outside the state give place to Maine men, and of the thirteen on the board all but four belong in the state. It is unlikely that in their hands the road will be allowed to suffer from any changes or arrangements which may be made in the future. On the whole the result of the meeting will be satisfactory to the business community and to the stockholders of the road.—*Portland Advertiser.*

Mr. William Astor, the new minister of the United States in Rome, is becoming quite a favorite with everybody. He can talk Italian as fluently and as correctly as any one born in Italy, and Signor Depretis was heard to say, a few days ago, that he had not met a foreign ambassador who could speak Italian so well as Mr. Astor. Mr. Astor gave $400 for the victims of the late inundations.

Secretary Chandler appeared before the House Naval Affairs Committee, Friday forenoon, Dec. 15th, and explained very fully his views on the construction of new vessels. He urged immediate Congressional action, and estimated that it would cost from $6,000,000 to $8,000,000 additional to carry into completion his improvements and projects.

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. No other article takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "It is the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1879.

MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.

Yours truly,
F. C. CHURCHILL,
(Firm of Carter & Churchill.)

☞ A gentleman who has been suffering from the *Debility* and *Languor* peculiar to this season, says: "HOOD'S SARSAPARILLA is putting new life right into me. I have gained ten pounds since I began to take it." Has taken two bottles.

Gained 10 Pounds

HOOD'S SARSAPARILLA is sold by all druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever, Cold in the Head, etc., Insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS,

Apply a particle into the ear, rubbing in thoroughly.

Hay-feveR

—A fair trial will convince the most skeptical—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal lining of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequaled. The Balm is easy to use and agreeable. Sold by druggists at 50 cents. On receipt of 50 cents will mail a package. Send for circular with full information. ELY CREAM BALM CO., Owego, N. Y.

A WASTE OF MONEY.

Editor Chronicle: I notice in your report of the proceedings of the Board of Aldermen on the 21st inst., that a petition was presented asking that South Road be extended to Hunking street. Although this is somewhat ambiguous, it doubtless means that a marginal road is desired from the commencement of South Mill street to the terminus of Hunking street. I trust the request will not be granted. The city is already wasting its money at the present moment in building a fene wall near tide water on the right hand side of South Mill street, for the purpose of widening and otherwise improving this insignificant by-place. A great deal of gravel will be needed for filling in and grading up to the proper level, which, if done, will cost quite a sum of money. We cannot afford, in the present condition of our finances, to lay out money in this unfrequented portion of the town, merely to gratify the whim of one or two individuals.

The city made one serious blunder when it bought the south mill privilege, as all who are conversant with the results now admit. Let it not continue to blunder by building highways among decayed and deserted dockyards.

AROUND HOME.

The price to be paid Mr. W. F. Fernald for the 900 ton schooner he has just commenced for Taunton parties is stated to be $38.000.

Faith Home received a donation visit on Wednesday evening Dec. 20th. A good stock of provisions and supplies were furnished. There is no worthier object to be remembered in these Christmas days than the Home.

The body of Mary Buckley, the insane girl who wandered away from the alms house in this city on the 14th inst., was found on the 21st in Sherburne's woods frozen to death. She was twenty-four years old, and we believe a native of Portsmouth. The remains were taken care of by the superintendent.

The Christian society (Rev. Mr. Goss) will hold a Christmas festival at Congress hall on Thursday evening, Dec. 28th.

The Rockingham National Bank pays a dividend of four per cent. Jan. 1st. New Hampshire National Bank pays three and a half per cent dividend Jan. 1st.

The semi-annual dividend of the Concord and Portsmouth railroad will be payable at the office of Wm. H. Hackett in this city on Wednesday Dec. 27th only.

Thursday, Dec. 15th, was pay-day at the navy yaad for the first half of December.

Charles H. Hayes and Henry Bean have had the wood cut from the Fabyan lot in Newington. The timber was sawed by a portable steam mill on the lot, and all that was suitable was converted into dimension lumber.

There was a great rush of business in Christmas presents at the post-office on Friday, making it lively for the clerks.

Christmas will be announced by the chimes of Christ Church on Sunday at midnight.

"Camille" drew a small audience at Music hall, last Thursday evening, who were delighted with the performance of the star of the evening, Mlle. Legrand.

POLICE COURT--BATCHELDER J.

FRIDAY, Dec. 22d.

John Purchase, for stealing a watch and chain from Lawrence Hartnett on Thursday, was arraigned, and case continued till Saturday.

The question of the lease or consolidation of the Eastern railroad is still a subject of much discussion and speculation. It is claimed by some who claim to be on the inside that in spite of all denials Mr. Payson Tucker, general superintendent of the Maine Central, will be chosen vice president and general manager of the Eastern railroad by the directors of the latter road at their meeting on Tuesday next. Should this be the case, this action, added to the election of Mr. George E. B. Jackson as president of both roads, would give plausibility to the theory of a consolidation of the Eastern & Maine Central, before any lease to the Boston & Maine takes place. By June 1, 1883, the Maine Central will have all its main lines laid with steel rails, only a small portion now remaining in iron, and sufficient steel having been received to supply this. It is also expected that a bridge will be built at St. John during the coming year, obviating the delay and expense of the present ferry, and giving a complete all-rail connection between Portland and St. John. Mr. E. B. Phillips, late president of the Eastern, said yesterday that while he was entirely out of the management of that road, and could not say anything as to the prospects of union with the Boston & Maine, he thought the Eastern Central should be, and very likely would be, consolidated.

Books, Magazine, Etc.

Transactions of the Linnæan Society of New York, vol. one, with a portrait of Linnæan, after an olden graving owned by L. S. Foster, by whom it is contributed. New York: published by the society. Press of L. S. Foster, No. 35 Pine street.

The society, whose transactions were this month given in a most attractive form, was founded in March, 1878, by ten gentlemen, among the names of whom, appears that of John Burroughs, the well known author.

Previous abstracts of proceedings and papers read before the society, have, from time to time appeared, but it is deemed expedient that the very valuable matter which is presented in this shape, should be permanently preserved in book form.

The first volume contains The Vertebrates of the Adirondack region, northeastern New York, by Dr. Clinton Hart Merriam, wherein the doctor gives descriptions of the animals found in this famous region, and has a good word for the much criticised "Mephitis Mephitica" whose usefulness to the farmer is set forth with convincing assertion.

The winter residence of the Fish Crow is discussed by Wm. Dutcher. Mr. Eugene Pintard Bicknell, one of the original members of the society, furnishes a review of the summer birds of a part of the Catskill mountains which abounds in descriptious of the feathered tribes of that region.

The book is elegantly produced, in binding alike beautiful and substantial, and it forms a valuable addition to the libraries of everyone who is so fortunate as to obtain a copy of a work which so thoroughly informs its readers as to Natuaral history. Our thanks are due to our former townsman for a copy.

Four tramps passed through this city on Friday on their way from Massachusetts to Newcastle where they say they expect a job. They were of the respectable and worthy sort apparently, asking no relief, and making no trouble. As they marched along in single file, in the roadway, each with his heavy kit strapped on his back, they were a curious sight, and attracted considerable attention.

The foundations for the new silverware factory at Newburyport are complete and the building will be erected immediately. It will be ready for occupancy in February.

Boston boys are in trouble. The city officials have drawn the water from the pond in the public garden for the purpose of cleaning the bottom, and are unwilling to fill it at present. In the mean time the boys have no place to skate.

The venerable Charles Downing of Newburg, N. Y., the widely known pomologist, who was seriously injured by a street car in New York, a few weeks since, is reported to have so much improved that his friends hope for his entire restoration to ordinary health.

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption 'Brown's Bronchial Trochés" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Trochés" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or Vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

230th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing that ever before attracted or single can either require or wish to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

The Pompier Ladders.

Six Pompier ladders have been purchased for the Boston fire department. These ladders are light, and may be of great service under certain circumstances. Each one consists of a single wooden beam, to which are attached cross pieces; at the top of the upright beam is an iron hook, which projects from it, and is furnished with teeth. A fireman raises the ladder, and thrusts the hook through a window, and as the teeth prevent it from slipping he can climb to the window; and then, by raising the ladder to the next story, can mount still higher, proceeding in this way until he reaches the required height. As the ladder is quite light, it can be carried to the top of an ordinary ladder which may be too short to reach the upper windows of a high building. Men will be trained especially for the work; each one will carry a life-line and a short-handled fire axe, and wear a string belt to which is fastened a large snap-hook, by which he can attach himself to any projection and thus use both hands for his work.

The city of Keene has disposed of its sewerage four per cent bonds at $102-31-100. One Boston firm takes $160,000 at prices not stated.

There has been quite a sensational story floating around Boston concerning a proposed plan of the properly behaving lady members of the Papyrus club to give Mrs. Langtry upon her visit to the club, a cut, by leaving the rooms en masse. The story however is badly spoiled by a flat contradiction.

—This Lime Kiln Club philosophy is worth remembering during Christmas time: "What we have let us be thankful for. What we haven't got let us hope would render us miserable if we had it."

"My Back Is Now Well."

This is what Mr. Clough, of Lowell, Mass. was happy to say after his wife had given him a good rubbing with Perry Davis's Pain Killer, and administered a dose inwardly. For four years he had been crippled with rheumatism, and suffered agony in his back. After using Pain Killer, he went to his business with comfort, and is now as well as ever he was.

The salary list of New York city officials foots up over $10,000,000 a year, exclusive of the army of laborers employed in doing the drudgery.

"Dr. S. B. Brittan says: "As a rule physicians do not, by their professional methods build up the female constitution, while they seldom cure the disease in which it is always liable in our variable climate and under our imperfect civilization. Special remedies are often required to restore organic harmony and strengthen the enfeebled powers of womanhood; and for most of these we are indebted to persons outside of the medical profession. Among the very best of these remedies I assign a prominent place to Mrs. Lydia E. Pinkham's Vegetable Compound."

The surgeon general of the marine hospital service has been informed of the arrival of the ship Anna Camp of Bath, Me., at San Francisco from New York with twelve cases of scurvy on board, and that the patients had been removed to the marine hospital at that port. An investigation having disclosed the fact that the sickness had resulted from a violation of law in regard to this disease on the part of the captain of the vessel, the district attorney of San Francisco has been instructed to proceed against him.

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weaknesses caused by those irregularities which are so common to womankind. This is no *Patent Nostrum*, but is prepared, after years experience, and recommended, knowing that it will give new life to any broken-down, worn out or nervous member of the sex.

If you have tried other remedies without success, do not be discouraged, but procure "LADIES' TONIC" a *single trial*. It *never fails* to give *quick* and *permanent* relief.

If you are troubled with *any* weakness or complaint common to our sex, lay aside the doctor's prescriptions for once, and try "Ladies' Tonic," which we guarantee will positively cure you. One Bottle is sufficient.

Women's Medical Institute is an Association of *Women* and *Members of Women's experience*, who give advice and answer letters from ladies, *free*.

Men will be glad to hear of Female Weakness or Inability which "Ladies' Tonic" will not cure. This is a *bona fide* offer, and we invite inquiries when know *from experience* what "LADIES' TONIC" can do. Send stamp for circular.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, *scripped* for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Bouef's Castle, must have presented an admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to start a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calkilate on—I shall never wrastle with another log unless I have the advantage of the ground. Fur, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is cut in the centre of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

NOTED MEN!

DR. JOHN F. HANCOCK, late President of the National Pharmaceutical Association of the United States, says:

"Brown's Iron Bitters has a heavy sale, is conceded to be a fine tonic; the character of the manufacturers is a voucher for its purity and medicinal excellence."

DR. JOSEPH ROBERTS, President Baltimore Pharmaceutical College, says:

"I indorse it as a fine medicine, reliable as a strengthening tonic, free from alcoholic poisons."

DR. J. FARIS MOORE, PH. D., Professor of Pharmacy, Baltimore Pharmaceutical College, says:

"Brown's Iron Bitters is a safe and reliable medicine, positively free from alcoholic poisons, and can be recommended as a tonic for use among those who oppose alcohol."

DR. EDWARD EARICKSON, Secretary Baltimore College of Pharmacy, says:

"I indorse it as an excellent medicine, a good digestive agent, and a non-intoxicant in the truest sense."

DR. RICHARD SAPINGTON, one of Baltimore's oldest and most reliable physicians, says:

"All who have used it praise its standard virtues, and the well-known character of the house which makes it is a sufficient guarantee of its being all that is claimed, for they are men who could not be induced to offer anything else but a reliable medicine for public use."

A Druggist Cured.

BOONSBORO, Md., Oct. 10, 1882. Gentlemen: Brown's Iron Bitters cured me of a bad attack of Indigestion and fullness in the stomach. Having tested it, I take pleasure in recommending it to my customers, and am glad to say it gives entire satisfaction to all."

GEO. W. HOFFMAN, Druggist.

Ask your Druggist for BROWN'S IRON BITTERS, and take no other. One trial will convince you that it is just what you need.

SULPHUR BITTERS

Daily Chronicle.

The publisher of the Beaver Falls, Pa., *Courier*, Mr. John F. Porter, some time ago contracted a severe cold. He says: "I tried half a dozen remedies ineffectually and upon recommendation of a physician I gave Dr. Bull's Cough Syrup a fair, square trial. It relieved me immediately and cured my cold and catarrh entirely. It is a remedy that should be used in every household."

The Secretary of the Navy has under consideration a plan for the reduction of the expenses of the civil establishments of the navy service, so as to bring them within the appropriation. The reduction will be made about the middle of January.

The General Agent of Construction, of the Canada Atlantic Railway, James King, Esq. of Ottawa, says: I was troubled with boils over my whole body, but by the use of two bottles of St. Jacobs Oil I was cured.

The U. S. Senate having refused to pass the House resolution for a recess through the holidays, the House on Friday voted to adjourn after Saturday to Wednesday, Dec. 27th.

The children of Israel were once fed by manna sent from heaven. This was an undoubted case of "God-send." The amelioration of human ills and ailments has been often undertaken and as often failed. Ely's Cream Balm, however, "has been weighed in the balance and not found wanting." It is a sovereign, speedy, certain and pleasant cure for catarrh and cold in the head. Thousands of persons have attested this fact. "Ely's Cream Balm is a God-sent," writes Mrs. M. A. Jackson, of Portsmouth, N. H., on May 22d, 1882. "I had catarrh for three years, had tried nearly all remedies but to no purpose. Two or three times a week my nose would bleed quite freely, and I thought the sores in it would never heal. Your Balm has cured me." This preparation is not a liquid or a snuff, and is easily applied. Can you, reader, afford to experiment with injurious irritants and injections when a pleasant cure is at hand?

The first testimony to be used in a case before the court of commissioners of Alabama claims was taken in this city on Saturday before U. S. Commissioner Hackett at the U. S. Court House to be used in the case of Galen C. Moses and others of Bath Me, against the United States Hon. Wm. L. Putnam was counsel for the petitioners.

Many New Ideas

in the home cure of diseases, accidents, and how to treat them, and many hints of value to the sick will be found in Dr. Kaufmann's great Medical Work; elegant illustrations. Send two 3 cent stamps to A. P. Ordway & Co., Boston, Mass., and receive a copy free.

In the suit of Regina Hesselberger against the Connecticut Mutual Life Insurance Company recently tried at New York city to recover $10,000 on a policy of insurance granted to Felix H. Hyman, now deceased, and transferred by Hyman to Hesselberger to secure a debt, and by him transferred to his wife, the jury rendered a verdict for the defendant on the ground of Hyman having died from delirium tremens.

"Golden Medical Discovery" (words registered as a trade-mark) cures all humors from the pimple or eruption to great virulent eating ulcers. *a*

On the Bradford branch of the Erie railroad, Dec. 22d, two passenger cars were derailed, and went over a trestle eight feet to the ground. A stringer on the trestle was raised from its place and ran through the front passenger coach, mostly occupid by ladies, fortunately passing down the aisle and doing little damage.

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

The slight relative increase of the illiteracy of this state in ten years is easily accounted for. The large influx of French Canadian population in our manufacturing places is the cause.

"No eye like the master's eye." Had Æsop lived in our day he might well have added, "No popular curative like Kidney-Wort." All eyes are beginning to turn to it for relief from diseases of the liver, bowels and kidneys. Kidney-Wort is nature's remedy for them all. Those that cannot prepare the dry can now procure it in liquid form of any druggist.

After January 1st the price of gas in Dover will be reduced to $2.50 per thousand.

*Dr. S. B. Brittan says: "As a rule physicians do not, by their professional methods build up the female constitution, while they seldom cure the diseases to which it is always liable in our variable climate and under our imperfect civilization. Special remedies are often required to restore organic harmony and strengthen the enfeebled powers of womanhood; and for most of these we are indebted to persons outside of the medical profession. Among the very best of these remedies I assign a prominent place to Mrs. Lydia E. Pinkham's Vegetable Compound."

Colonel Clough, the corn king of Canterbury, offers to let his farm for two per cent on its valuation. $15,000.

The *Hop Plasters* have a wonderful sale, and why! Because they cure back ache, stiff joints, pain in the side and all soreness in any part. People appreciate them. Any druggist, 25 cents.

The two fishermen picked up off Cape Sable by the bark Traveller, and subsequently landed at Liverpool, belonged to the schooner Finance of Gloucester, Mass. Their names are Hogan and McGrath. The American consul will send them home in the steamer Atlas, which sails from Liverpool for Boston Dec. 20th.

"Ladies' Tonic,"

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription for ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free. Send stamp for names of those who have been cured.

Chicago people affirm that if the Rev. Miln had worked as hard to become a good preacher as he has to become a poor actor he would have been worth a salary of $6,000 per year.

ELY'S CREAM BALM CO., Owego, N. Y.

During the Late War

The Government made its Best Arms at Springfield, Mass.—What Mr. David Clark, Inspector U. S. Armory There Recommends.

Your reporter found Inspector Clark at his office on the Armory grounds busily examining "receivers" for the regulation army rifles. However, he was as willing to say a word for the merits of health and strength restoratives as to prove the merits of implements of death. He said: "My business keeps me closely confined to the Armory and its doors. As a result, I've suffered considerably from indigestion and biliousness, but I find that Dr. Kennedy's FAVORITE REMEDY is a most excellent medicine for these complaints. I most cordially recommend it, for I am acquainted with its worth. Dr. Kennedy's FAVORITE REMEDY is used a great deal by the machinists in the U. S. Armory here."

While FAVORITE REMEDY is a specific in Kidney and Bladder diseases, it is equally valuable in cases of Bilious Disorders and Constipation of the Bowels. Try it. Your druggist has it, and its cost is only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The Doctor would have it understood that, while he is engaged in the introduction of his medicine, FAVORITE REMEDY, he still continues the practice of his profession, but confines himself exclusively to *office* practice. He treats all diseases and performs all the minor and capital operations of surgery.

PATENTS!

R. H. EDDY,

No. 76 State St., Opposite Kilby, Boston,

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them as early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

Some of the democratic editors are inclined to treat Henry Robinson's sketch of Wm. E. Chandler in the *Granite Monthly* as a piece of taffy. These same editors *sub rosa* assert that it was this kind of writing up which laid out cold and dead the political aspirations of the Chandler at the falls of Amoskeag, who took an overdose of this political stimulant, which badly reacted when mingled with the Bourbon element.

The great talk about bayonets at the polls has nothing to do with the enormous sale of Adamson's Botanic Balsam the great remedy for curing coughs, colds, and all lung troubles. New size, 10 cts. Larger size, 35 and 75 cts.

The house and barn of Edward Hodgdon at Pickering's Crossing, Dover, were destroyed by fire Dec. 21st. Loss $1400; insured $800. A defective chinney was the cause.

Portsmouth Chronicle.

MONDAY, DEC. 25, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Books, Magazine, Etc.

The January number of the North American Review has "The Revision of Creeds," by Rev. Newman Smith, D. D., Rev. Lyman Abbott, D. D., and Rev. H. W. Beecher. "University Education for Women," by Prof. Stevens. "A Definition of Liberty," by Prof. I. L. Rice. Gilbert M. Tucker contributes "American English." In correcting some of Mr. Bartlett's errors, Mr. Tucker commits others, as for example in the word super; it is not a contraction of the word supernumerary which is called supe for short, but is the designation applied by railroad men to the superintendent and has long been in vogue for that use. The article hits back some of our English cousins whose profuse slang is not half as practical as is ours, for it often conceals instead of conveying its meaning. "The Responsibilities of Progressive Thinkers," by Rev. Dr. H. W. Thomas, "Bigotry in the Medical Profession," by Dr. David Hunt, and the "Adulteration of Intelligence," by C. T. Congdon, are the remaining articles. The yearly subscription price of the North American is five dollars; single copies fifty cents. All the bookstores supply it.

Fifty notable years—Views of the Ministry of Christian Universalism during the last half-century, with biographical sketches, by John G. Adams, D. D., illustrated with portraits. Boston, Universalist House; pages, 336.

Probably no town of the same number of inhabitants, has done more toward the development of Universalism in its earlier progress in this country, than has Portsmouth. Here was preached centuries ago, the severe doctrines of Calvin, and here was found the reacting belief in the goodness, instead of the wrath of God. It is perhaps, due to the numbers and the ability of the liberal Christians in Portsmouth, that the austere, vindictive character of ancient preaching has been succeeded by a more attractive kind of pulpit doctrine, so that the opposite and extreme views of the followers of Calvin and Servetus have been materially diminished.

Universalism claims to date its rise with the Republic, to found its tenets in the doctrine of human equality; to hold that in the grace of God, all should share alike, and to deny the distinctions and separations maintained in other theologies.

John Murray, the first noted preacher of this doctrine, who came to this country from England in 1770, was first settled in Portsmouth. After preaching here for awhile he went to Boston, where he was for thirty years a settled pastor. Here also preached that famous Universalist clergyman, Hosea Ballou, whose pulpit oratory and writings have done so much toward sustaining the views of this denomination of Christians.

His son Moses Ballou whose two pastorates in Portsmouth will be remembered by many of our readers, Edward Turner, who preached here from 1824 to 1828, and afterwards [became a Unitarian, Sebastian Streeter, Thomas F. King, Lemuel Willis, and other preachers, noted in their day, have been settled over the society in this place, and nobly did they labor to sustain the views of the denomination, both in and out of the pulpit. Of these men, and others during the past fifty years of the denomination's history, we have sketches and portraits. Among them we must not omit the Rev. Elbridge Gerry Brooks, who was made a cripple when a boy by an accident on Congress street, and who became a vigorous writer as well as preacher. Dr. Thomas Whittemore, for a long time editor of the Trumpet, was one of the most practical men of the denomination. Everyone delighted to hear him preach. A man who could combine the elegant preacher, the logical writer, and the efficient Bank and Railway President, could not last long in a busy life like his, and he died in 1861, in the sixty second year of his age. The worshippers at the Universalist church in this city thirty years ago, welcomed this Boston minister on his occasional visits to Portsmouth, and a large audience was always in attendance at his services. The book is not only rich in its sketches of these, and other leading men of this sect, but it gives us the history and progress of the denomination, its place in the reformatory work of the past half century, its present status, its educational resources and aspect, its definite organized work, and its outlook for the future. All this has been presented by Dr. Adams in a clear and straightforward manner, and as a means of informing those outside the denomination as to the history and career of its prominent preachers, and what this class of Christians is doing and intends to do, it has great value, while to those who have kept the faith of their fathers, there is enjoyment in reading of the bright and shining lights which have so manfully maintained their favorite doctrine against the great numbers who in times long passed, affected to believe that Universalism and Christianity were incompatible.

The George Eliot calendar published by Hall and Whiting of Boston, and sold by Myers has a selection for each day of the year made from the writings of Geo. Eliot, by a lady of literary tastes, a former resident of this city. It is prepared with much taste and will prove a pleasant daily reminder of the wisdom of the writer throughout the coming year.

Naval Affairs.

Lieutenant A. C. Dillingham has been ordered to duty at the Norfolk navy yard; Lieutenant S. P. Comley to temporary duty at the League Island navy yard, Penn.; Midshipman P. V. Lansdale to examination for promotion. Lieutenant William McLittle has reported his return home, having been detached from the Adams on the 20th of October, and has been placed on sick leave. Lieutenant E. H. Taunt has been detached from the Portsmouth on the 27th inst., and ordered to duty in the Bureau of Equipment and Recruiting; Midshipman James C. Drake from special duty in the navy department and ordered to duty in the Coast Survey. Assistant Paymaster Livingston Hunt has reported his return home, having been detached from duty at Ville Franche, Brance, and has been placed on waiting orders.

Lieutenant-Commander Charles B. Schmitz has been ordered to duty at the navy yard, Mare Island, Cal.: Lieutenant Edward A. Field to the Swatara, and Naval Cadets Lumas S. Norton, W. H. Wolfersberger and George L. Dillman to re-examination as to their physical condition. Ensign Thomas M. Brumby is detached from the training-ship Minnesota and ordered to duty on the Coast Survey.

Evils of Compulsory Silver Coinage.

A Washington despatch says that Chairman Fisher, of the house coinage committee, says that he will exert himself to secure a favorable report from his committee on a bill to repeal the compulsory features of the silver coinage act. He urges the necessity of this in order to prevent an injurious contraction of the currency, which he declares will be inevitable unless this action shall be taken. He points to the fact that, while the silver coinage now amounts to $27,000,000 more than it did twelve months ago, the amount of silver certificates outstanding is $500,000 less, and is shrinking constantly, because people will no longer deposit gold in order to obtain silver certificates when they can just as easily get gold certificates. Mr. Fisher's conclusion is that the paying out of gold by the treasury for silver to be coined into "buxzard" dollars, which are no longer in demand, as a basis for additional silver certificates, is an absurd performance and ought to be stopped, or at least not compelled by law.

A Picnic for the Pigeons.

A well-known lady residing at the southend, was to have company at her home yesterday afternoon, and so resolved to make one of the apple pies so much admired by those who had visited her home and eaten at her table. Several hours before the guests arrived she took the pie from the oven, and placed it on the plank walk at the rear of the house. The company arrived, and after an hour's conversation, the good old lady started to get the pie, and in opening the back door frightened a flock of pigeons which had been having a glorious feast. It was wicked, but she said "I wish I could take in a pigeon pie made from that very flock." The guests left for home a little earlier than usual.—*Newburyport Herald.*

—A Philadelphia photographer of actresses says that Mme. Janauschek insists on assuming her own poses, will not allow him to touch her, and lets the drapery take care of itself. Modjeska brought four large trunks, two maids, her dog, and her husband. Two of the trunks contained costumes, one cosmetics and toilet arrangements, and the other her jewelry. She was photographed in fifty different attitudes. When Lotta was shown a proof she exclaimed, "Is my foot so big as that?" the camera having, as it always does, represented the member larger than life because it was out of focus. Lotta's foot was properly etched down in the negative to the required size. Clara Louise Kellogg has a favorite black brocaded dress in which she likes to be photographed and thinks it more becoming to her than anything else. William Castle and Emma Abbott have been photographed as *Paul* and *Virginia*, and also in an embrace as *Romeo* and *Juliet* in the balcony scene. Their faces necessarily came very close together, and Miss Abbott jocosely inquired of the artist if he could photograph a kiss. Jefferson poses his gun and keg in "Rip Van Winkle" to suit himself, and likes a "moved" picture, claiming that it is more artistic. Therefore he will not use the head rest, because he does not wish to keep perfectly still. Rossi was so nervous when sitting that he would not even allow his servant to be present.

An Illinois physician has been compelled by a jury to pay $1,000 damages for unskilfully setting a broken bone.

The Roman Catholic churches in New York a few Sundays ago took up collections for the benefit of Pope Leo XIII, which amounted to $18,362.

Four sophomores of the Wisconsin University locked a freshman in his room. He promptly broke the door to pieces with an axe. The President approved of this, and sentenced the sophomores to pay for the repairs.

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. No other article takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "It's the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1879.

MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.

Yours truly,

F. C. CHURCHILL,

(Firm of Carter & Churchill.)

MERRIE CHRISTMAS.

"At Christmas play and make good cheer;
For Christmas comes but once a year."

We greet our readers this morning with a wish for a "Merry Christmas," and trust that the CHRONICLE may find each of its patrons, young and old, in a happy state of mind. We intend to keep Christmas as usual, and consequently will be obliged to deprive ourselves of the pleasure of sending our friends a paper on Tuesday morning, that the day may be observed at the Chronicle establishment, in a suitable manner.

A WASTE OF MONEY.

Mr. Editor: It seems that there is one South Ender who thinks he is wise enough to make an unqualified denunciation of the present repairs at South Mill street; let us carefully examine his pretensions. Our present city fathers discovered that the "insignificant by-place" had a sign upon it "South Mill Street," that besides all other important considerations it was in a very dangerous condition, and they doubtless had in their mind the Langdon street verdict against the city. It won't take much "gravel," particularly compared with its liberal bestowment in other places. As to inability to make the outlay the destruction of the poor is often times their poverty, but the grand wisdom according to the best records is to seek out and redeem the waste places, and the first thing our city needs to do for its prosperity is to "break up its fellow ground."

As regards the "petition," if our friend will take the trouble to look at it he will find that instead of "one or two individuals," it embraces about fifty or sixty names of citizens of that character who generally understand themselves.

Yours very truly,
"UNFREQUENTED PART OF THE TOWN."

YOUTH.

Those who had not expended all their money in Christmas purchases; those who were not exhausted by their labors in Christmas preparations, or had so far achieved the result as to have time therefor, were able to enjoy the 180th representation of "Youth," at Music hall, on Saturday evening. The play is long, the tableaux numerous, the scenes highly wrought and the acting, some of it, good.

Mr. Charles Vandenhoff sustained the character of the only son with consummate ability and his efforts were highly appreciated by the audience. Mr. Vandenhoff is always thorough in all details, and is closely followed by the audience in every part. As the convict, as well as the high private he fills the part with no less faithfulness than as the gentleman and the officer of her majesty's regiment. Miss Noah was more successful in a male character, than is the rule with her sex in this role. Miss Kingdon's part is one which requires no little degree of ability to present the varied phases in the character of Eve, and she acquitted herself well.

The part of Larry was judiciously enacted, not overdone, as such characters are often apt to be. Mr. Kent was also successful in his varied parts as convict and soldier. The best criticism of the evening perhaps, was the audible weeping of the small child in the rear of the hall, to whom it all appeared a scene of real life. The troops drilled well, and the orchestra played some fine music which as well as the stage scenes drew forth applause. The Boston Theatre Co., notwithstanding the fact that our stage is smaller than that upon which it is accustomed to appear, never disappoints us and the piece throughout was thoroughly enjoyed by all who were fortunate enough to be present.

PRESENTATION.

The editors and compositors of the *Daily Times* made their foreman, Mr. J. Frank Magraw, a Christmas gift of an elegant and costly pair of opera glasses. The presentation was made by Mr. Walter H. Page in a few well chosen words, which were appropriately responded to by the recipient.

PERSONAL.

Mr. Mark M. Pomeroy, editor of "Brick" Pomeroy's *Democrat*, Denver, Col., and president of the Atlantic-Pacific Tunnel Co., will arrive in this city on Tuesday, the 26th, from Concord, where he has by invitation spent several days in presenting and explaining that and other mining enterprises in which he is interested. He will have rooms at the Rockingham House where he will be pleased to receive all who may call upon him, and to talk of the mining interests of Colorado and to especially explain the merits of the Atlantic-Pacific Tunnel of which he will exhibit a large oil painting which will be especially interesting to those already interested therein. He also especially desires to present to our citizens, for their consideration, another first-class mining property that he will guarantee will prove to be all he shall represent, hoping to arrange a pool of which they may have a controlling interest. It is probable he will favor our citizens with a public lecture on Tuesday or Wednesday evening, on the wealth and wonders of Colorado. He is a very pleasing and interesting speaker, and will no doubt give us a rare and instructive treat.

AROUND HOME.

Several invalided seamen from the U. S. S. Marion at this naval station were sent last week. to the Chelsea naval hospital.

The Portsmouth CHRONICLE asks why the men in churches always sit at the doors of the pews, and if it is because the men insist on having the most comfortable seat. No, but the practice originated in their having the most uncomfortable and dangerous one. When the country was first settled and wild animals and wilder men were prowling round of a Sunday, they sometimes entered the churches and made a raid on the worshippers, and the men as the protectors of the women placed them on the inside for safety, while they sat next the aisle to take the brunt of the attack. Like many other old customs this one has survived long after the reason for it has ceased to be.—*Newburyport Germ.*

There was a small stock of poultry in this market on Saturday, and prices ruled high. Good turkeys brought twenty-five to twenty-seven cents, chickens twenty-three cents and ducks twenty-five cents.

The tide of the 24th, driven in by the northeast winds, was one of the highest of the season, covering some of the wharves, and loose articles had to be looked after for fear they would be carried away.

The Newmarket Manufacturing Co. pays a dividend of $15 per share Jan. 1st.

It was actually demonstrated the other day that a glass of New York beer would kill an ostrich. But a gallon of it has no effect on a New York politician.—*Boston Post.*

It depends in a measure, upon which side in politics the New Yorker is reckoned.

The semi-annual dividend of the Concord and Portsmouth railroad will be payable at the office of Wm. H. Hackett in this city on Thursday Dec. 28th only.

Possibly beer is not intoxicating, but, if it isn't a good deal must be charged to the natural cussedness of those who drink it.

On Friday morning, the city committee appoint the night before to change the location of the hook and ladder carriage, attended to that duty, and made changes as follows: The hook and ladder carriage is placed in the engine house in the Court house yard, where it ought to be, and steamer No. 4, Moses H. Goodrich, is stationed at the house in Hanover street, and the reserve steamer Sagamore is put under the Court house. It is proposed to sell the Sagamore, which is not needed, and to buy a new hook and ladder carriage in place of the old one.

The Christmas vacation of the public schools has begun. The schools will resume Tuesday, Jan. 2d.

On Saturday afternoon, Dec. 23d, about the time the steamer Emerald from the navy yard was to arrive at the landing in this city, Mr. James Philbrick and wife of Kittery, started from the navy yard landing in a small boat for their home. In attempting to keep clear of the Emerald, the small boat was swept against the Gas company's wharf and upset, throwing both the occupants into the river. Mr. Philbrick seized his wife with one hand, and grasping a pile of the wharf with the other, held on for some minutes, until the Emerald reached the landing, when Messrs. Henry H. Ham, Jr., D. Webster Barnabee, James Broughton, Jr., and Robert Anderson, succeeded in rescuing them from their dangerous position. Their boat was soon righted, and the passengers again started for home, having lost a few Christmas presents.

At the close of the Sabbath morning service in the Unitarian church, Sunday, Rev. James DeNormandie referred to the fact of his receiving a recent, as well as a former call, from another parish to become its pastor. He feelingly alluded to the relations of pastor and people for the past twenty years, and stated that he should give the subject careful thought, and communicate the result of his deliberations to the officers of the parish.

The weather the last ten days before Christmas was mostly fine. Seven almost perfectly clear and windless days were followed by clouds on the 22d, sleet fell in the evening of that day, during the night a little snow, and heavy rain, with the thermometer at 32 on Saturday morning, the 23d. The rain ceased before noon, but the day was cloudy throughout; the sidewalks were covered with ice, and the walking was very disagreeable. But few people were out, and Christmas trade was seriously interfered with.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle. eod&wtjan82

LIFE INSURANCE!
The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.
Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.
Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt their nervousness should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, impotency, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a cheaper medical book by a hundred pages than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conversing with the Author, who may be consulted on all diseases requiring skill and experience. Address

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is attributed.

The renowned Dr. Clendinning, startlingly says "one-third of all subjects show signs of heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a medicine for all heart troubles, or palpitation of the heart, known as Dr. Graves' Heart Regulator. *It is known as* Dr. Graves' Heart Regulator *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Grieve's Thermometer and valuable treatise.* (1)

CHRISTMAS PROMISE.

In ancient times, the prophets, priests, and kings
Sought for Jehovah in the temple's spaces,
And here they worshipped Him with offerings,
Nor deemed Him immanent in common places.

And all was dark except the golden light
Which gleamed in promise from the sacred altar;
The sorrowing world like a lost child at night,
Cried for a guardian love which could not falter.

God heard; and lo, the blessed answer came!
'Mid herald signs revealing heavenly glory,
The angels sang a new and happy name,
And priest and peasant heard the Christmas story.

Now, not alone in sacred land or place
Must worship find its fitting scene and centre;
The child may woo the Father's fond embrace,
Himself the Temple for His love to enter.

And happy Christmas bells from year to year,
Are rung in honor of that sweet relation
Which binds the heart of Love's eternal sphere
To every human heart in every nation.

The gracious promise which this day foretells
Comes with sufficing peace when sorrows gather;
And man securely in His presence dwells
Since Christ the Lord has named Jehovah, Father.

MRS. JANE L. PATTERSON.

The Night After Christmas.

'Twas the night after Christmas; the boys were awake,
After stuffing with turkey, and pudding, and cake,
And doughnuts, and oysters, and plums, and mince pies,
There were moanings and groanings and piteous cries:
"O my stomach!" "O Moses!" "O help!" "I shall die!"
"How I wish that I hadn't had half as much pie!"
"O mother!" "Come, hurry!" "O what shall I do?"
"Bring something to cure me!" "Boo-hoo" and "Boo-hoo!"
And mother, alarmed by the racket and noise,
Ran in to see what she could do for the boys.
Perry Davis's Pain Killer she brought for relief,
And soon made an end of their noise and their grief;
And then there was quiet and joy in the house,
And each of the lads was as still as a mouse.

Hon. William E. Chandler, Secretary of the navy, will be forty-seven years of age on Thursday, next, December 28th.

How can you remain a sufferer from dyspepsia when worse cases than yours are being cured by Hood's Sarsaparilla. Try it.

The Navy Department is informed that the engine of the United States steamer Ranger broke down off the coast of Mexico, and she was compelled to go to San Francisco for repairs under sail. The Ranger is engaged in the work of surveying in the Pacific Ocean, and this accident to her will stop the work for the remainder of this season.

Don't wear dingy or faded things when the ten-cent Diamond Dye will make them good as new. They are perfect.

Let Me Show You

what a saving I have made during the last year by being my own doctor. Last year I paid out $96.25 for doctors and their medicine, this year I paid $5.00 for six bottles of Sulphur Bitters and they have kept health in my whole family. They are the best and purest medicine ever made.—Charles King, 60 Temple Street, Boston, Mass.

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Indianapolis, Ind., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weaknesses caused by those irregularities which are so common to womankind. This is no *Patent Medicine*, but is prepared, after years of experience, and to commands increasing favor it will give new life to any broken down, worn out or over-worked member of the sex.

If you have tried many "female" remedies without success, do not be discouraged, but give "LADIES' TONIC" a single trial. *It never fails to give good and permanent relief.*

If you are troubled with *any* weakness or complaint common to our sex, by aside the doctor's prescription for once, and try "Ladies' Tonic," which we guarantee will positively cure you. One Bottle is Sufficient.

Women's Medical Institute is an Association of Doctors and Mothers of years' experience, who give advice and improvement from lady's care.

Tonic will be given for any case of Female Weakness or inability which the Medical Institute will not cure. This is a bona fide offer, made by responsible ladies who know from experience what is needed. "LADIES' TONIC" can be sent stamp for circular.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, stripped for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Beuf's Castle, must have presented an admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to start a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. It it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a brokeu bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calkilate on:—I shall never wrastle with another log unless I have the advantage of the ground. Fur, as I told you before, it it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is cut in the centre of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

NOTED MEN!

DR. JOHN F. HANCOCK, late President of the National Pharmaceutical Association of the United States, says:

"Brown's Iron Bitters has a heavy sale, is conceded to be a fine tonic; the character of the manufacturers is a voucher for its purity and medicinal excellence."

DR. JOSEPH ROBERTS, President Baltimore Pharmaceutical College, says:

"I indorse it as a fine medicine, reliable as a strengthening tonic, free from alcoholic poisons."

DR. J. FARIS MOORE, PH. D., Professor of Pharmacy, Baltimore Pharmaceutical College, says:

"Brown's Iron Bitters is a safe and reliable medicine, positively free from alcoholic poisons, and can be recommended as a tonic for use among those who oppose alcohol."

DR. EDWARD EARICKSON, Secretary Baltimore College of Pharmacy, says:

"I indorse it as an excellent medicine, a good digestive agent, and a non-intoxicant in the fullest sense."

Dr. RICHARD SAPINGTON, one of Baltimore's oldest and most reliable physicians, says:

"All who have used it praise its standard virtues, and the well-known character of the house which makes it is a sufficient guarantee of its being all that is claimed, for they are men who could not be induced to offer anything else but a reliable medicine for public use."

A Druggist Cured.

BOONSBORO, Md., Oct. 19, 1880. Gentlemen: Brown's Iron Bitters cured me of a bad attack of Indigestion and fullness in the stomach. Having tested it, I take pleasure in recommending it to my customers, and am glad to say it gives entire satisfaction to all."

GEO. W. HOFFMAN, Druggist.

Ask your Druggist for BROWN'S IRON BITTERS, and take no other. One trial will convince you that it is just what you need.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS.

Why suffer with Rheumatism? Why suffer with Scrofula? Why suffer with Kidney Complaint? Why suffer with Dyspepsia? Why suffer with Liver Complaint? Why suffer with Dropsy? Why suffer with Tetter, Tetter, Salt Rheum, Blotches, Blisters and Eruptions? Why suffer with Boils? Why are you troubled with Pimples? Why do your blood boil, and your nerves be all on fire? Why do you have Headache? Why do you feel tired all the time? Why do you have Dyspepsia? Why do you have Fever and Ague? Why do you have Chills and Fever? Why do you have Piles? Why do you have Constipation? Why do you have Liver Complaint? Why do you have Dropsy? Why do you have Nervous Headache? Why do you have Neuralgia? Why do you have Female Complaints? Why do you have Rheumatism? Why do you have Scrofula? Why do you have Kidney Complaint? Because Sulphur Bitters is a cheap, safe, and sure cure for all these and many other diseases. Why not be your own doctor? Why not save your money? Why not be healthy? Why not be happy? Why not be cured? Why not use Sulphur Bitters? Why not? Because it is the best medicine ever made. Because it cures when all else fails. Because it is a sure cure for all those diseases and complaints which are caused by impure blood, or by a torpid liver, or by a disordered state of the system. Because it is a sure cure for all those painful complaints and weaknesses peculiar to our wives, daughters, mothers and sisters. Because it is the best tonic known, containing neither whiskey, brandy, nor any other intoxicating liquor. Because it is composed of the purest and most valuable medicinal vegetable extracts. Because it is a most powerful blood purifier, acting on the liver, kidneys, and bowels. Because it is a most powerful tonic, imparting new life and vigor to the aged and infirm. Because it is a most powerful stimulant, yet not a drop of intoxicating liquor can be found in it. Because it is the cheapest medicine. Because it is the best medicine

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

The attendance at the evening schools of Nashua is quite large, and many of the pupils are showing marked improvement.

Portsmouth Chronicle.

WEDNESDAY, DEC. 27. 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Mr. Robinson of Concord, in his sketch of the life and progress of Sec'y Chandler, begins: "The time to write the life of W. E. Chandler has not arrived,"—and what people want to find out is, why did Robinson, with that knowledge, make this premature attempt at the life of the cabinet minister?

Congressman Robeson affirms that he does not wish to be appointed minister to Spain, but then Mrs. Robeson is willing, and that makes a difference. It will not be surprising if the jolly mariner, as our democratic friends used to like to call him, sails across the ocean blue, and gives the Spaniard his views upon how to create a great navy.

Among the recent rumors is that of the possible lease or union of the Boston & Maine and the Boston & Lowell railroads. It was a similar rumor which brought about the "business contract" between the Boston & Lowell and the Concord railroads some time ago; it served a purpose then, and it is started for some similar purpose now.

To the surprise of many persons Hon. Lot M. Morrill, collector of Portland, is thought to be recovering. One of the surprised is Hannibal Hamlin, who it is said was about ready to utilize the experience once gained as collector of the port of Boston, by filling a like position at the natural seaport of our sister state of Maine.

One hundred and sixty members of the national house of representatives were absent at the roll call on Friday afternoon of last week, and one hundred and sixty were present. Important business is delayed, and as Mr. Reed said, "The house is showing the country that its verdict of last November was well deserved." Among the members present and accounted for were Mr. Hall from this district, and Mr. Reed of the first district of Maine. Mr. Briggs had business in New Hampshire, and Mr. Ray was obliged to be absent. The members who were excused from further attendance after March next, by their constituents, seemed to be found to a great degree among the absentees.

News and Notes.

The boys of the naval training school at Newport, R. I., had a good Christmas dinner served by order of Commodore Luce.

A despatch received at Jacksonville, Fla., states that the dredge of the Okeechobee Drainage company, working up the Caloosahatchee river, entered lake Okeechobee on the 20th inst. This opens a navigable channel from the heart of the Everglades to the gulf of Mexico, an important event in the history of Florida, as it opens up extremely rich sugar lands.

By the collision of a freight train and an express passenger train on the Chesapeake & Ohio railroad, early Christmas morning, five men were killed and two others wounded. All were trainmen.

The high winds and tides have washed away the great sand hill near the life saving station, at Manhattan beach, Coney island, and an inlet now extends half way through the island.

Joseph Strichell, a student at Greenwich (R. I.) academy, son of a widow in Washington, D. C., broke through the ice while skating, Dec. 25th, and was drowned after struggling three-quarters of an hour in the sight of persons whose efforts failed to aid him.

Benjamin G. Wilbur of Taunton, Mass., aged seventy-eight years, was taken ill on the street in Providence, R. I., Dec. 25th, and died soon after reaching his son's residence.

At Canastota, N. Y., on Christmas day, G. W. Gates was assisting Miss Emogruie Lewis in hanging a chandelier, when a revolver dropped from his overcoat pocket to the floor, and exploded, discharging a ball into Miss Lewis' neck, killing her almost instantly.

A Paris correspondent writes that the expense of living in that city has doubled within the last fifteen years, and tends to increase rather than diminish. House rent is very high. It is impossible for a laborer to live in the heart of the city, and as there are no cheap suburban lines that suit the purse of the artisan, great inconvenience is felt. It has become so serious that the proposition of leveling the useless fortifications is agitated, on their site to erect cheap dwellings for the toiling classes. This line of fortifications and approaches occupies 3,500 acres of the area of Paris.

AROUND HOME.

Mr. Charles F. Shillaber left this city on Tuesday morning last for Little Rock, Ark., to assume the duties of cashier of the Little Rock & Fort Smith railroad.

A man on Saturday night last threw an open knife through the glass in the door of a place of business on Market square; he was arrested, but was let off on paying for the damage done.

Mr. William F. Fernald has bought the timber on the Elwyn farm, Lafayette road, suitable for shipbuilding purposes, to use in the construction of the large vessel he has contracted to build for owners in Taunton, Mass.

The brick-carrying fleet has given up operations for the year, nearly all the vessels being now laid up for the winter. The schooner Hattie Lewis is made fast alongside the old wharf at the Raynes shipyard, where she has passed a number of previous winters, and the Satellite will occupy a berth on the inside of the drawpier at Portsmouth bridge, as she has done before. The last trip made between this port and Boston by some of the schooners was a tough one for the crews.

A large scow belonging to the Dover Navigation Co., and having a carrying capacity of 125 tons, is hauled up at the north end, being unable to get up the river.

Mr. Wm. Plaisted, formerly of this city, is now in the periodical and news business in Providence, R. I.

The colored people had a ball in the south wardroom on Friday night of last week; the attendance was quite large, and the participants enjoyed themselves so well that another similar entertainment will shortly be held.

Mr. Warren Keen is now sheathing the house of the little steamer Pinafore, belonging to Laighton Bros., of the Isles of Shoals, and making all other repairs needed to put her in first-class order.

Mr. S. G. Woodworth, formerly in the cigar and tobacco business in this city, is now foreman of a cigar manufactory on Blackstone street, Boston.

A paper at Salem, Mass., says that "Charles Odell sold at auction, yesterday afternoon, the lot of land on the corner of Mall and Bridge streets, (formerly the site of the old St. Mary's Roman Catholic church), containing 5000 square feet of land, to Frank A. Wendell, plumber, for $1100. Mr. Wendell contemplates building a house and barn on the premises." The gentleman named is a native of this city, and appears to be prospering in his adopted home.

Mr. Daniel Donbell, of York, who goes fishing during the summer, has this fall killed six foxes, five minks and twenty-five muskrats.

Edward Young is building a large house at Norwood's neck, York harbor, said to be intended for a boarding house.

For a few days past it has been feared that diphtheria would break out in epidemic form at Kittery Point, two children having died suddenly of that dreadful disease about ten days ago. Dr. Adams was down with the disease last week, but is now recovering, though not able to be about. There was a run on the stores of the town for camphor, which could not be met until a large quantity was sent down from this city. [Late on Tuesday evening, after the foregoing was in type, we were informed that Dr. Adams died in the forenoon on that day.]

Mr. Hiram H. Thompson of York has been drawn to serve as a juror at the February term of the supreme court in York county.

The trees have been cut off the proposed road from the base to the summit of Mount Agamenticus, York, and the filling will be commenced early in the spring. The road will be four rods wide, and built in a thorough manner.

The young people of Kittery had a dance in Trefethen's hall in that town on Christmas evening, in which forty couples participated. A number of persons from this city were present, and the evening was passed in pleasant recreation. Metcalf's band, of Kittery, furnished the music.

Bishop Niles, who was invited to make Christ church of this city the cathedral church of his diocese, has declined the offer, and will continue to reside in Concord.—*Times.*

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. No other article takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "It's the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1879.

MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.

Yours truly,
F. C. CHURCHILL,
(Firm of Carter & Churchill.)

☞ A gentleman who has been suffering from the *Debility* and *Languor* peculiar to this season, says: "HOOD'S SARSAPARILLA is putting new life right into me. I have gained ten pounds since I began to take it." Has taken two bottles.

Gained 10 Pounds

HOOD'S SARSAPARILLA is sold by all druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

Seven Per Cent. First Mortgages.

FOR SALE, in sums of five hundred dollars and upwards five years to run principal and interest payable where the lender desires. These mortgages are secured on improved farms in Iowa, Kansas and Dakota, valued at three times the amount of the mortgage. These loans are very popular with many conservative investors and the demand for them is increasing. We receive our loans mostly of Trust Companies of high character and experience and believing them one of the best and most profitable investments to be had, we cheerfully and heartly recommend them to investors. "Money sent to us by check or P. O. order will be invested by us with our best of care." Correspondence solicited.

POLICE COURT--BATCHELDER J.

TUESDAY, Dec. 26th.

William Farnham, for drunkenness, was ordered to pay $9.90, fine and costs.

Samuel Pottle was charged $9.90 for one drunk, and $6.36 for discharging firearms within the compact part of the city. Jail in default of payment.

CHRISTMAS AT THE ROCKINGHAM.

At the Rockingham house the Christmas dinner was served in the old dining room, which had been tastefully dressed with evergreen and otherwise decorated for the occasion. The menu was printed upon elegant cards, on the back of one of which was a view of a lake scene, in colors, and upon the other "Compliments of The Rockingham, Christmas, 1882, George F. Thompson, Manager." They were designed and printed by J. A. Lowell & Co. of Boston. The recital of good things, from oysters on the shell to coffee, was of the most inviting kind, while the dinner was one of the successful repasts for which the Rockingham, under Mr. Thompson, maintains its former high repute.

LEGION OF HONOR.

At a meeting of St. George Council, No. 21, A. L. of H., held in Mechanics' hall on Tuesday evening, Dec. 26th, the following officers were elected for the ensuing year:

Wm. O. Sides, Commander;
Lewis E. Smith, Vice Commander;
Wm. P. Walker, Orator;
Joseph R. Curtis, Secretary;
Samuel Dodge, Collector;
Wm. A. Hodgdon, Treasurer;
Fred C. Sides, Guide;
Adolph Girard, Warden;
George A. Cobbett, Sentinel;
Samuel C. Whittier, Medical Examiner;
M. F. Wentworth, Asst. Med. Ex.;
A. C. Hoyt, E. P. Kimball and Lewis E. Smith, Trustees.

OBTAINING WATER THROUGH DIFFICULTIES.

On the ninth of October last Ex-Alderman Harry Hartshorn commenced digging, or rather blasting, for water, near his residence at Sagamore creek. Harry found—at least his workmen found—after removing a foot of earth that they had a ledge of the bluest and flintiest kind to contend with, the depth of which and the chances of getting water being entirely problematical; however, blasting commenced, and continued for sixty days, until a depth of thirty feet through solid rock had been reached, when a seam was opened and water gushed in at a lively rate. Stoning up began about the 10th inst., and would have been completed on Saturday last but for the rain. The debris taken from the hole would fill a good sized barn. The work has been superintended by Charles Foster and Charles Mace, and has required at times the assistance of four other men, making the job an expensive one, but Harry rejoices in a fine supply of the purest of pure water.

From New York comes the following, under date of Dec. 26th: "A Washington special says: At a conference of the secretary of the navy with the heads of the bureaus, on Saturday, it was decided to close two navy yards, probably those at Kittery, Me., and League island, Pa."

At the Hotel Wentworth is being built a new laundry, three stories high, and eighty-five by thirty-five feet in size on the ground. The building stands near the artesian well, in the vicinity of the removed stables. The building contains twenty-eight sleeping rooms for the laundry and other help. A new carriage house sixty feet square, for occupancy by the carriages of the guests, has been built; in the second story are thirty-six rooms to be occupied by grooms who care for the horses and carriages of guests who come to the Wentworth for the season. The buildings are at quite a distance from the hotel, and communication is had by telephone when carriages are ordered, etc.

Mr. John L. Downs, ice dealer on the South road, last week finished cutting two hundred and fifty tons of ice from Green's pond, Newcastle, for the Hotel Wentworth; and will continue cutting at the same place, for his own sales next summer. The water of the pond is said to be extremely pure, and the ice is very clear and solid.

We are informed that the only flag displayed on the river, Christmas day, was a British flag hoisted on a brigantine at the Eastern railroad wharf.

Readings will be given in the Episcopal chapel on State street, on the evening of New Year's day, by Rev. Mr. Duffield, for the benefit of the Chase Home for Children.

Christmas was rather a hard "holiday" for the express men, who were tearing about the city till a late hour of the evening, delivering packages by the wagon-load.

The sea-gulls have been flying over the river in large numbers for several days, which is popularly supposed to presage a big storm at sea.

The semi-annual dividend of the Concord and Portsmouth railroad will be payable at the office of Wm. H. Hackett in this city on Thursday Dec. 28th only.

A very large eagle has for some days been haunting Peirce's island and vicinity.

The Madison Square Theatre Co., of New York, will play "The Professor" at Music hall on Wednesday evening, Jan. 3d.

Mr. Lemuel B. Caswell, who during the summer carries on the fish-curing business at Smuttynose island, proposes to winter a dog on the island, but has had poor luck so far at getting the animal out there. About two weeks ago a fine young Newfoundlander was tied over night in the shed of Mr. Caswell's residence in this city, preparatory to being taken out by a fishing schooner next morning; but during the night the dog strangled himself with his chain, having evidently committed suicide in consequence of some person remarking in his hearing that he was to go to the Shoals next day. Another dog of the same breed, weighing seventy-five pounds, was to have been taken out on Tuesday of this week, but ran away early in the morning and did not return till after nightfall.

Santa Claus regally entertained the North Parish Sunday school at the society's chapel on Middle street, Monday evening.

Osgood Lodge of Odd Fellows will give one of their popular sociables on Thursday evening, the 28th inst., in the hall of the order. The entertainment will consist of a supper, followed by recitations, vocal and instrumental music, and a dramatic performance. Spear's orchestra, of Rye, will assist at the entertainment.

The postoffice clerks are not sorry that Christmas is past, and will not be when New Year is in the same list; the increase of their labors in consequence of the season was more marked this year than ever before.

By request Mr. Mark M. ("Brick") Pomeroy will this evening deliver in Music hall a free lecture on the Wealth and Wonders of Colorado, in which he will describe that wonderful region in a manner to interest all who may attend, regardless of sex, color or previous condition of servitude. Mr. Pomeroy lectured to a crowded house in Concord on Saturday night, and gave a temperance address to a vast audience in the same city Sunday night.

An old tree was cut down in Greenland one day last week, in a hollow of the trunk of which was found a small box containing a number of Spanish coins, both gold and silver. This is the story as told to us, but we have not seen the coins.

Between eight hundred and a thousand persons were upon the North millpond Christmas afternoon.

Mr. and Mrs. Wm. J. Florence will soon appear at Music hall in the "Mighty Dollar."

The Methodist Sunday school had a Christmas tree and turkey supper in their vestry on Daniel street, Monday evening.

The Washington (D. C.) *Chronicle* of Dec. 24th says: "Miss Fannie R. Chase, daughter of the late Capt. Chas. H. Chase, of Portsmouth, N. H., was married quietly at the residence of her uncle, Postmaster Tullock, last Wednesday evening, to Dr. Benjamin G. Poole, Medical Inspector of the District, and one of our most promising young physicians—the Rev. Dr. Baer, of the Metropolitan M. E. church, officiating. Only the immediate families and intimate friends were present, among whom were Senators Blair and Rollins, of New Hampshire, with their ladies; Ex-Mayor Emery and family; Mr. and Mrs. Samuel Emery; Ex-Postmaster Ainger and wife; Dr. P. J. Murphy and Mrs. Thom, Columbia hospital; Mr. and Mrs. John C. Tasker, and others. Miss Warlow, a classmate at Mount Vernon seminary, played Mendelssohn's Wedding March as the bridal party entered the parlors. The happy couple were the recipients of many elegant and useful presents, including a handsome china dinner set, silver soup tureen and tableware, hand-painted chamber set, Hungarian table lamps, cabinets, mirrors, embroideries, and others, specially adapted for housekeeping, in recognition of the fact by their friends that they begin their new life in a cosy home of their own."

The Eastern railroad has ordered its engineers to take water for the locomotives from the tank near the station, instead of at the roundhouse. The tank is supplied from the company's own wells, at the Plains and near Frenchman's lane.

Mr. C. E. Leach, Jr., on Sunday afternoon last captured in his garden on Water street an owl which measured three feet four inches across the extended wings, and weighed one pound and eleven ounces.

It is alleged that more sand has been used on the sidewalks of the city this season than was used all last winter, owing to the unusually abundant supply of slipperiness with which we have this year been favored.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. LIFE INSURANCE!
The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.
Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.
Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

KNOWLEDGE IS POWER.

READ!

THE SCIENCE OF LIFE

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Such edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

It is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

Is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Lydia E. Pinkham

LYDIA E. PINKHAM'S VEGETABLE COMPOUND,

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Women. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

It revives the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

Physicians Use It and Prescribe It Freely

It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of Humors from the Blood, and give tone and strength to the system, of any woman or child. Insist on having it.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either, Mrs. Pinkham freely answers all letters of inquiry. Enclose 3c. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

Sold by all Druggists. (1)

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and doctor for kidney or liver troubles, when, if the truth were known, the real cause is at the heart. The renowned Dr. Cleveldinning, startlingly says "one third of my patients show signs of heart disease." The heart weighs about nine ounces, and yet every twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention. Dr. Graves's celebrated Heart Regulator is a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1, per bottle, six bottles for $5 by express, prepaid. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

Swindling by Telegraph.

Relating to the fight between the Western Union and Mutual Union telegraph companies, the Boston *Journal* says: "In the meantime a new and vigorous company, with headquarters in Baltimore, is rapidly extending its lines from that city to the larger cities of the country in all directions. It has already reached New York, and will be extended farther at an early day. If the public is enabled to secure better telegraphic service at much lower rates, as the result of this competition and controversy, all will be well; but there is a growing feeling that the time has come when the telegraph, like the railway, must afford us lower rates. It is estimated that $15,000,000 is sufficient to duplicate the lines and cables owned by a leading telegraph company which now compels the public to pay tolls sufficient to yield an income of not less than six per cent upon $130,000,000. That is, the patrons of the lines of this company are compelled to pay at least six per cent annual dividends upon $115,000,000 of stock which does not represent a dollar of actual investment or outlay."

Passengers who arrived at Dallas, Texas, Dec. 22d, on an east-bound train from San Francisco, reported that an attempt was made to rob a west-bound St. Louis and San Francisco express on the Texas & Pacific railroad, about 150 miles east of El Paso. Shortly after midnight seven train robbers attempted to capture and rob the train while it was stopping at a water tank. The soldiers who were on board as guards at once opened fire, and the robbers fled to the brush, where they mounted their horses and escaped. Blood traces showed that either some of the robbers or their horses were wounded by the fire of the soldiers.

The Night After Christmas.

'Twas the night after Christmas; the boys were awake,
After stuffing with turkey, and pudding, and cake,
And doughnuts, and oysters, and plums, and mince pies,
There were moanings and groanings and piteous cries:
"O my stomach!" "O Moses!" "O help!" "I shall die!"
"How I wish that I hadn't had half as much pie!"
"O mother!" "Come, hurry!" "O what shall I do?"
"Bring something to cure me!" "Boo-hoo" and "Boo-hoo!"
And mother, alarmed by the racket and noise,
Ran in to see what she could do for the boys.
Perry Davis's Pain Killer she brought for relief,
And soon made an end of their noise and their grief;
And then there was quiet and joy in the house,
And each of the lads was as still as a mouse.

A renewal of the demonstration at Rome which followed the hanging of Overdank is reported. It was necessary to surround the Austrian consulate in Turin with troops to protect it from a mob who had gathered in the vicinity, crying, "Down with Austria."

How can you remain a sufferer from dyspepsia when worse cases than yours are being cured by Hood's Sarsaparilla. Try it.

A serious riot occurred Dec. 24th among soldiers belonging to the Enniskillen Buffs, stationed in Canterbury, Eng. Nearly 300 men were engaged for an hour, using their belts and bayonets, and many were injured. The men were finally confined in the barracks.

Guard and protect your health, make use of that true and efficient tonic medicine, Brown's Iron Bitters.

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Nervous Headaches, Dyspepsia, and all weaknesses caused by those irregularities which are so common to women. This is the *Female Medicine*, but it is prepared, after years of experience, and recommended knowing that it will give new life to any broken down, worn out or over-worked member of the sex. If you have tried other remedies without success, do not be discouraged, but give "LADIES' TONIC" a single trial. It *never fails to give good and permanent relief.*

If you are troubled with *any* weakness or complaint common to our sex, lay aside the doctor's prescription and send for "Ladies' Tonic," which we guarantee will positively *cure you.* One Bottle is Sufficient.

Women's Medical Institute is an Association of *Sisters* and *Mothers* of years' experience, who give advice and answer letters from ladies, *free.*

Good will be given for any case of Female Weakness or inability which "Ladies' Tonic" will not cure. This is a *bona fide* offer, made by *responsible* ladies who know *from experience* what "LADIES' TONIC" can do. Send stamp for circular.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, stripped for his work, and attacking a tree as Richard I assailed the heavy doors of Front de Beuf's Castle, must have presented an admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to start a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calkilate on;—I shall never wrastle with another log unless I have the advantage of the ground. Fur, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is CUT in the centre of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

NOTED MEN!

DR. JOHN F. HANCOCK, late President of the National Pharmaceutical Association of the United States, says:

"Brown's Iron Bitters has a heavy sale, is conceded to be a fine tonic; the character of the manufacturers is a voucher for its purity and medicinal excellence."

DR. JOSEPH ROBERTS, President Baltimore Pharmaceutical College, says:

"I indorse it as a fine medicine, reliable as a strengthening tonic, free from alcoholic poisons."

DR. J. FARIS MOORE, PH. D., Professor of Pharmacy, Baltimore Pharmaceutical College, says:

"Brown's Iron Bitters is a safe and reliable medicine, positively free from alcoholic poisons, and can be recommended as a tonic for use among those who oppose alcohol."

DR. EDWARD EARICKSON, Secretary Baltimore College of Pharmacy, says:

"I indorse it as an excellent medicine, a good digestive tonic, and a non-intoxicant in the best sense."

DR. RICHARD SAPINGTON, one of Baltimore's oldest and most reliable physicians, says:

"All who have used it praise its standard virtues, and the well-known character of the house which makes it is a sufficient guarantee of its being all that is claimed, for they are men who could not be induced to offer anything else but a reliable medicine for public use."

A Druggist Cured.

Boonsboro, Md., Oct. 12, 1880.

Gentlemen: Brown's Iron Bitters cured me of a bad attack of Indigestion and fullness in the stomach. Having tested it, I take pleasure in recommending it to my customers, and am glad to say it gives entire satisfaction to all.

GEO. W. HOFFMAN, Druggist.

Ask your Druggist for BROWN'S IRON BITTERS, and take no other. One trial will convince you that it is just what you need.

SULPHUR BITTERS

THE BEST AND GREATEST REMEDIES

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS.

Why suffer with Boils? Why every with that terrible Incubus Dyspepsia? Why groan with Rheumatism? Why let life and time slip by with pain, with Incumbrances? Why toss on that bed of pain, with Nervous and all manner of complaints? Your nerves are all unstrung, and need a gentle soothing tonic to assist nature to repair the damage which your excesses have caused. Sulphur Bitters is not a cheap rum or poor whiskey drink, but should be taken by the glass like our great specifications which stimulate only TO DESTROY. It is composed of the choicest Roots, Herbs and Berries combined with the Extract of SULPHUR in such proportions as to make it a TRUE GREAT NERVINE.

SULPHUR Bitters

The Dose is small—only a Teaspoonful. It is the *best and cheapest* medicine. Try it and you will be satisfied. Get it of your druggist.

Daily Chronicle.

The state of siege proclaimed in some of the Turkish districts in consequence of the prevalence of brigandage has been raised.

An adjourned investigation of the charges preferred by William H. Dodge against City Marshal Reuben A. Libbey of Dover for neglect of duty, etc., took place Tuesday night, Dec. 26th. The hearing lasted only one hour and a half, when it was voted unanimously to acquit the marshal of all charges preferred against him, and strongly recommend him to the new board of aldermen for re-election.

As the doctor turned sadly away from the patient whom he found using Dr. Bull's Cough Syrup, he said: "It beats me every time."

At Lawrenceburg, Ky., Christmas night, two men named Portwood and Loughlin fought a duel with pistols, each holding the other by the lappel of the coat. Both were killed.

It's hard to believe Miss Whittier was cured of such terrible sores by Hood's Sarsaparilla, but reliable people prove it.

By the breaking of a hoisting rope in an iron mine at Brewster's, N. Y., Dec. 23d, one miner was killed, two dangerously injured and seven others much hurt.

***"No eye like the master's eye." Had Æsop lived in our day he might well have added, "No popular curative like Kidney-Wort." All eyes are beginning to turn to it for relief from diseases of the liver, bowels and kidneys. Kidney-Wort is nature's remedy for them all. Those that cannot prepare the dry can now procure it in liquid form of any druggist.

At Merritton, Ont., Dec. 26th, a young girl named Bessie Bye, aged fifteen years, while skating on the canal, fell in. Her sister, aged ten, standing near by, attempted to rescue her, but she also fell in and both were drowned.

*Dr. S. B. Brittan says: "As a rule physicians do not, by their professional methods build up the female constitution, while they seldom cure the diseases to which it is always liable in our variable climate and under our imperfect civilization. Special remedies are often required to restore organic harmony and strengthen the enfeebled powers of womanhood; and for most of these we are indebted to persons outside of the medical profession. Among the very best of these remedies I assign a prominent place to Mrs. Lydia E. Pinkham's Vegetable Compound."

Overdank, on account of whose execution by the Austrian authorities public feeling in Italy is running so high, was convicted of making the bombs thrown by persons unknown into a procession of Austrian veterans in Trieste several months ago, with fatal effect. This demonstration was intended and regarded as a hostile blow at the Austrians. The Tyrolese and intractable Italians generally were pleased with it, and the execution of Overdank incenses them greatly.

Ugly And Hateful,

but I couldn't help it. Everything went wrong with me, and I thought I hadn't a friend in the world, dyspepsia caused this and for months I couldn't eat anything and just suffered in misery till I used Sulphur Bitters, three bottles cured me.—*D. Lewis, 22 Bowdoin Street, Boston.*

Otis Farrer of Lawrence, Mass., has been living in Marlboro with an ex-music teacher whom he said was his wife. A few days ago another Mrs. Farrer arrived from New York, and demanded $100 as a balm for her wounded feelings; her husband did not have the required amount on hand, so she has had him arrested.

The breaking of three ice gorges on the Allegheny river near Pittsburg, this week, caused a destruction of property, valued at $16,000.

The children of Israel were once fed by manna sent from heaven. This was an undoubted case of "God-send." The amelioration of human ills and ailments has been often undertaken and as often failed. Ely's Cream Balm, however, "has been weighed in the balance and not found wanting." It is a sovereign, speedy, certain and pleasant cure for catarrh and cold in the head. Thousands of persons have attested this fact. "Ely's Cream Balm is a God-sent," writes Mrs. M. A. Jackson, of Portsmouth, N. H., on May 22d, 1882. "I had catarrh for three years, had tried nearly all remedies but to no purpose. Two or three times a week my nose would bleed quite freely, and I thought the sores in it would never heal. Your Balm has cured me." This preparation is not a liquid or a snuff, and is easily applied. Can you, reader, afford to experiment with injurious irritants and injections when a pleasant cure is at hand?

In Atlanta, Ga., the negroes and low class whites celebrated Christmas by a general drunk and innumerable fights. Several men were killed and others badly wounded, and 125 persons were conveyed to the station houses in ten hours.

"Golden Medical Discovery" (words registered as a trade-mark) cures all humors from the pimple or eruption to great virulent eating ulcers, *a*

Christmas was celebrated in New Orleans by drunkenness and disorder, shooting and stabbing affrays, and several small fires.

"Ladies' Tonic,"

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription for ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free. Send stamp for names of those who have been cured.

Annie Sullivan was killed by the cars at Winchester, Mass., Dec. 26th, having both legs and one arm cut off.

It is seldom that you will feel unwell or suffer from indigestion if you use Brown's Iron Bitters.

During the Late War

The Government made its Best Arms at Springfield, Mass.—What Mr. David Clark, Inspector U. S. Armory There Recommends.

Your reporter found Inspector Clark at his office on the Armory grounds busily examining "receivers" for the regulation army rifles. However, he was as willing to say a word for the merits of health and strength restoratives as to prove the merits of implements of death. He said: "My business keeps me closely confined to the Armory and its doors. As a result, I've suffered considerably from indigestion and biliousness, but I find that Dr. Kennedy's FAVORITE REMEDY is a most excellent medicine for these complaints. I most cordially recommend it, for I am acquainted with its worth. Dr. Kennedy's FAVORITE REMEDY is used a great deal by the machinists in the U. S. Armory here."

While FAVORITE REMEDY is a specific in Kidney and Bladder diseases, it is equally valuable in cases of Bilious Disorders and Constipation of the Bowels. Try it. Your druggist has it, and its cost is only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The Doctor would have it understood that, while he is engaged in the introduction of his medicine, FAVORITE REMEDY, he still continues the practice of his profession, but confines himself exclusively to *office* practice. He treats all diseases and performs all the minor and capital operations of surgery.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them as early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1869, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

Mr. Lewis E. Staples has secured the agency for the Dorcas, Saxony, Knitting Worsted and Germantown yarns, which have become so popular throughout the east. The shades and colors are just what are wanted. oedtjan19

Rev. Dr. Spaulding, pastor of the First Parish of Dover, having received a call from a church in Manchester, the Dover *Democrat* learns that the Dover parish has "concluded to guarantee to their pastor a free improved parsonage with a salary of nearly four thousand dollars per annum, this guarantee to be good for five years," as an inducement for him to remain with the Dover church.

The chief clerk at the Union Depot Hotel, Ogden, Utah, Mr. J. G. Taylor, had rheumatism in the muscles of his chest and left shoulder. By applying St. Jacobs Oil three days he realized complete restoration to health.

Warren Burrows of Northwood, who had his foot cut with an axe a few days ago, while chopping, died of lockjaw Dec. 25th.

Frank Hughes of Dover, ten years old, damaged a finger of his right hand with a toy pistol on Christmas day.

News and Notes.

In Pelham, Mass., Dec. 26th, Meriam Montgomery shot his two little children, killing one and fatally wounding the other; he then tried to kill his wife and her father, but was disarmed and detained by the latter until the police arrived. The crime was committed because the murderer's wife refused to live with him.

At Uniontown, Pa., Dec. 25th, Capt. Nutt was shot dead by Hon. N. L. Dukes, in a fracas occasioned by the latter's refusal to marry a daughter of the former, whom he had ruined. Circumstances indicate that Dukes carefully planned the whole affair, and the excitement runs high, as the murdered man was very prominent and highly respected.

In Prince George county, Va., a few days ago, Samuel Rives, a prominent citizen, became involved in a quarrel with his cousin, when a colored man named Parker endeavored to restore peace; Rives shot the peacemaker dead, and then blew off the top of his own head.

Lillian Spencer, the actress, was seriously but not fatally shot on the stage by one of her company in Rochester, N. Y., on the evening of Dec. 26th. The shooting was accidental.

At Globe, Arizona, Christmas night, a desperado named Thomas Kerr boasted of having killed several men, and then without provocation shot William Hartley dead. A few minutes later he was hanging by the neck from a tree.

Within the past few weeks several houses in and near Portland, Me., have been entered, and articles stolen. On Monday, Dec. 25th, a young man who called at Sanger's livery stable to hire a horse was left alone in the office a few moments, and disappeared, taking with him an overcoat valued at $60, belonging to O. M. Shaw. He was arrested that night when about to leave for Boston, and a large number of articles were found in his possession, several of which were identified next morning by Hon. W. H. Clifford as having been stolen from his house. The young man gives the name of Winthrop Morrell, and says he resides at Brighton, Mass.

The Maine Central train from Portland to Bangor, Tuesday evening, Dec. 26th, collided with a team on a crossing near Carmel station. The sleigh was broken to splinters, and the inmate was instantly killed and the lifeless body thrown on the cowcatcher. It proved to be Dr. A. J. Pickard, a homœpathic physician of Carmel. He was about forty years old, and leaves a widow and five children.

AROUND HOME.

Editor Chronicle: Not having had the pleasure of refusing to sign the petition for the so-called extension of South road, nor even having seen it, I am therefore ignorant of the "characters" of the signers. Remembering, however, the readiness on the part of the majority of individuals to lend their names to a petition, I am not inclined to ascribe much weight to anything of that sort. I am sorry, though, to notice in Mr. "Unfrequented-part-of-the-town's" communication a taunting reminder to our city fathers that cost what it may they are *obliged* to make South Mill street passable. He says "our present city fathers *discovered* that the place had a sign upon it 'South Mill street,'" and being thus labelled, it had been adopted as their baiting and they must take care of it. This is all true, and "pity 'tis, 'tis true." But this very fact is my argument against accepting any more to take care of—and hence against the building of marginal roads over decayed and deserted wharves and shipyards. We trust our city government will take into consideration the fact that our citizens are already taxed beyond all reason to maintain our present annual municipal expenditures, before they conclude to further this wild and useless scheme of a marginal road to Hunking street. SOUTH ENDER.

A singing school is being taught in Fernald's hall, school district number four, of Kittery, by Mr. Daniel McIntire of York, the class numbering about forty persons.

Mr. James H. Rowell, chosen at the election last fall to represent the town of Kittery in the Maine legislature, being unable through illness to to take his seat, placed in the hands of the selectmen his declination to serve, and a town meeting was called for Thursday, Dec. 28th, to fill the vacancy. The republicans of the town held a caucus on the evening of the 27th to nominate a candidate.

On Christmas day, in South Berwick, a young man named Albert Shorey reached under a planing machine to pull out some shavings, when one of his hands was caught in the machine and his arm drawn in and mangled nearly to the elbow, necessitating amputation of the arm at the elbow joint.

On Christmas evening a social entertainment, with singing, speaking, etc., was held in the Methodist church at South Eliot, and about $25 were realized for the benefit of Rev. Mr. Mitchell, the pastor.

The Baptist society of Kittery Foreside had a Christmas tree on the evening of Christmas day, and a large number of useful and valuable gifts were distributed.

The Christmas exercises at the Methodist Episcopal church, navy yard village, Kittery, commenced on Christmas eve with what was designated "Christ's concert," consisting of speaking, etc., by members of the Sabbath school, and singing by the choir, the exercises being of much interest to a large congregation. On Christmas evening the society had a Christmas tree, from which many useful presents were given to the pastor, and members of the society and Sabbath school. Miss Estellie Hayes and Miss Flora E. Sanderson read choice selections.

Piscataqua Commandery, U. O. G. C., of South Eliot, are to give a course of six entertainments in that town, as follows: "Lecture by Gen. Joshua L. Chamberlain, ex-governor of Maine; lecture by Henry W. Tewksbury, of Vermont; reading by Horace Lunt, of Boston; concert by Miss Emma Luke of Boston, vocalist, Miss Mary C. Brookings of South Berwick, violinist, Miss M. Jennie Brookings of South Berwick, pianist, and vocalists of Eliot; an oyster supper; and a dramatic representation by "home talent."

A Cough, Cold or Sore Throat
Should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Dr. E. Q. Adams, whose death at Kittery Point was reported Dec. 26th, from malignant diphtheria, was about forty-five years of age, and had practised medicine in that place about twelve years, having we believe come from Vermont. He was a member of the Strafford Medical Association, and of the Knights of Honor, and was highly respected. He leaves a wife and several young children.

KITTERY POINT, ME., Dec. 25th.

Editor of the N. H. Gazette: My attention having been called to a communication in your issue of the 14th inst., in which the writer takes upon himself to define my position with regard to trespassers on my premises, I feel that it is but justice to myself to say that not only was the paragraph in question inserted without my knowledge or consent, but it contains statements for which the author is alone responsible, and greatly misrepresents my position in the matter.

Respectfully yours, JOHN THAXTER.

[*Note.* The communication referred to was received through the post-office at Kittery Point, and had a private footnote attached evidently intended to convey the impression that it was written by one of the Thaxter family, which it appears was not the case.—*Ed.*]

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. No other article takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "It's the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1879.

MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.

Yours truly, J. C. CHURCHILL,
(Firm of Carter & Churchill.)

☞ A gentleman who has been suffering from the *Debility* and *Languor* peculiar to this season, says: "Hood's SARSAPARILLA is putting new life right into me. I have gained ten pounds since I began to take it." Has taken two bottles.

Gained 10 Pounds

HOOD'S SARSAPARILLA is sold by all druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

THE NEW YORK TRIBUNE.

Strong, Clean, Enterprising.

The Largest Circulation Among the Best People.

Rejoicing with its readers in the better times which reign throughout the country, THE TRIBUNE finds itself at the beginning of a new business year enjoying its own fair share of the prevalent prosperity and prepared to make all its several editions thoroughly complete, entertaining and valuable. The first aim of THE TRIBUNE is to be the best and foremost newspaper of America. It has its own telegraph line to Washington, it uses the cables freely, and it scours the world for the news, printing all that is useful. It tells what is worth it in detail. The rest is put into bright short paragraphs. Its contents are fresh, choice, varied and thoroughly unobjectionable in every respect. THE TRIBUNE has long enjoyed the largest circulation among the best people. It intends to let no rival usurp its place. THE TRIBUNE is the organ of no individual, of no faction or clique, and of no interest adverse to the public good. It knows no service other than that of the people.

THE TRIBUNE believes the well-being of the country will be best preserved by keeping its Government in Republican hands. But it does not believe in Ring Rule, Boss-ism or Corruption in Office. It has done hard work, and taken great risks, in efforts to purify the Republican party. It expects to continue in that course, wherever or whenever this may seem needful—not doubting that this is the true road to a worthy Republican success in 1884.

Every year THE TRIBUNE offers to subscribers a few premium books of marked and standard merit. The terms are usually so arranged that either the paper or the book is a gift to the subscriber.

A SPLENDID WORK FOR FAMILIES.

For 1883 THE TRIBUNE offers a new premium, WOOD'S HOUSEHOLD PRACTICE OF MEDICINE, HYGIENE AND SURGERY. 2 vols., 819 and 942 pp., profusely illustrated, bound in cloth, and sold by agents for the invariable price of $10. It is written by eminent physicians of New York and Philadelphia, and published by the well-known standard medical book house of William Wood & Co. Every possible topic relating to the structure and functions of the human body is explained in this work with text and picture. The book teaches how to regain health when lost, and how to take care of it when regained. It explains what to do in emergencies. It will save many a human life and many an hour of suffering and anxiety. In any ordinary family it will pay for itself in a month's time. The terms are

$10. { WOOD'S HOUSEHOLD PRACTICE and THE WEEKLY TRIBUNE five years.
$15. { WOOD'S HOUSEHOLD PRACTICE and THE SEMI-WEEKLY TRIBUNE five years or with 10 copies of Weed's yr.
$25. { WOOD'S HOUSEHOLD PRACTICE and 20 copies of THE WEEKLY one year.

A circular with full description of the work sent on application.

A Chance for One Year Subscribers.

During the summer of 1882, THE TRIBUNE made the experiment of offering REPLATH'S HISTORY OF THE UNITED STATES. The book met with an unexpected welcome. The offer is continued one year. The book is a popular history of the United States, from the aboriginal time to the present day, coming down to the inauguration of President Arthur. It is a large octavo, 738 pages, the retail price is $3.00. We will send THE WEEKLY TRIBUNE one year, and the History for $3.00, which is only the price of the book. We will send THE SEMI-WEEKLY TRIBUNE one year, and the History, for $4. In both cases we pay the postage.

An Encyclopædia in 15 Volumes.

THE TRIBUNE has resolved to continue the Encyclopædia premium upon exactly the same terms as before.

The Library of Universal Knowledge

Embraces Chambers's Encyclopædia complete, contains extensive American additions, treating about 15,000 additional topics, adding to it over a million words of the freshest and most valuable matter, the whole making 15 handsome octavo volumes averaging nearly 500 pages to the volume. We offer:

The Library of Universal Knowledge with THE WEEKLY TRIBUNE 5 years for $15.

With THE SEMI-WEEKLY TRIBUNE 5 years $20.

With ten copies of THE WEEKLY TRIBUNE one year $18.

With twenty copies of THE WEEKLY TRIBUNE one year $35.

Young's Bible Concordance.

This famous work, containing 1,160 three-column pages, was originally published in England in October, 1879, and was sold at $15. We offer the Concordance and one copy of THE WEEKLY TRIBUNE five years or five copies one year for $17, or with one copy of THE SEMI-WEEKLY TRIBUNE five years, or five copies one year, or ten copies of THE WEEKLY TRIBUNE one year for $12.

An Unabridged Dictionary.

THE TRIBUNE will send Webster's Unabridged Dictionary, or Worcester's Unabridged, to any one remitting $12 for the Dictionary and THE WEEKLY TRIBUNE for five years; or $17 for the Dictionary and THE SEMI-WEEKLY TRIBUNE for five years; $19 for the Dictionary and THE DAILY TRIBUNE one year.

A Portrait of Garfield.

THE TRIBUNE will send to its regular readers a portrait of Garfield, or one of Mrs. Garfield, 22 by 28 inches in size, good for parlor or library, for 10 cents each; to those not subscribers, for 20 cents each.

Circulars describing THE TRIBUNE premiums more fully, and sample copies of the paper sent free on application. Address simply,

THE TRIBUNE, New York.

THE WEATHER.

U. S. SIGNAL OFFICE,
WASHINGTON, D. C.
December 28, 12:00 A. M.

Probabilities for New England:—

Generally fair weather, northerly to westerly winds, nearly stationary temperature, higher barometer on the coast.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 26 degrees above zero.

Sky clear.

ODD FELLOWS' ELECTION.

At the annual meeting of Piscataqua lodge, No. 6, I. O. O. F., held Christmas night, the following-named brethren were elected officers for the ensuing year:

N. G., John Wood;
V. G., Frank H. Warren;
Rec. Sec., Wm. W. Cotton;
Per. Sec., Oliver H. Locke;
Treasurer, Wm. G. Billings;
Trustees, Jos. Hiller Foster, Charles H. Mendum and Josiah F. Adams.

CIRCUIT COURT OF THE UNITED STATES.

[CLARK J.]

The court came in at Concord on Wednesday, Dec. 27th.

The grand jury was called, and eighteen members answered to their names. They retired to their room, and afterward returned three indictments, two of which were against George K. Kenniston of Strafford, for making and transmitting false affidavits in support of pension claims, and making a false claim. Respondent pleaded not guilty, and was ordered to recognize in $500 in each case; continued to May term. Streeter for deft.

In case New Hampshire Land Co. vs. Saunders, further time was granted in which to serve notice on non-resident defendant.

In case Sheppard and others vs. Manchester & Keene railroad and others, the time for filing answer was extended to January 20th.

The grand jurors were dismissed.

Henry A. Cutter of Nashua was admitted to practice as an attorney.

The court stands open.

BITERS BITTEN.

A travelling sewing-machine agent who was in this city some weeks ago, persisted in leaving a machine at a house in the south part of the city, against the wishes of the lady of the house, whose husband was absent at the time. When the husband got home he put the machine in the parlor, and locked the door. At the end of a month the agent called and presented a bill for the first installment of the purchase money, and was somewhat dumbfounded on being told that there was on the machine a charge of five dollars for storage, which must be paid before the property would be given up; and after some demur he paid the money and departed with his machine, a sadder and wiser, if not a better man. The same tactics were tried on the agent of a patent clothes-wringer, who growled considerably, but finally paid fifty cents to get his machine.

PRIZE WINNERS.

At the Odd Fellows' fair in Newburyport, which opened on Thursday evening, Dec. 21st, and closed on the 28th, a number of prizes were drawn by residents of this city and vicinity, the following names of lucky ones being taken from the published list: John L. Downs, Portsmouth, silver tea pitcher, value $15; Ambrose Card, Newcastle, carver and fork, $2.50; George B. French, Kittery, Me., chamber set, $35; Charles H. Kenniston, Portsmouth, mirror, $5; Richard D. Philbrick, Kittery, Me., pocket knife, $1.50; F. L. Pryor, Kittery, "Economist" oil stove, $16.50; A. K. Blake, Hampton, ten-pound goose, $2.50.

Says the Boston *Traveller* of Dec. 26th: "The report that the New York & New England and the Eastern railroads, with their connecting lines, are to be made a continuous road, under one management, from New York to the Provinces, is revived. The election of Mr. G. E. B. Jackson as president of the Eastern; the union of the European & North American and the Maine Central roads; and the placing of Col. Jonas H. French, of the New York & New England road, on the Eastern directory, are all significant facts, and regarded in certain quarters as steps toward the consummation of the project."

We were favored on Wednesday, the 27th inst., with calls from Mr. M. M. Pomeroy, formerly editor and proprietor of the *Democrat* of La Crosse, Wis., but now a resident of Colorado, and Mr. A. J. Hoyt, editor of the Exeter *Protest*. Of the two, our Exeter brother would most likely be picked out as the slashing editor from the wilds of the far west.

Only ten barrels of frozen herring have been received here direct from Eastport, Me., this season, most of the supply coming from Boston. On Wednesday of this week it was reported that all the fishing boats were supplied with bait, and ready to start out. The schooner Mary S. Hontvet sailed for Georges bank that day.

A party of gentlemen from this city visited a pond in South Berwick, Me., Dec. 26th, and brought home a handsome string of pickerel, one of the fish weighing nearly two pounds.

Secretary of the Navy Chandler, in reply to an enquiry, says it is not true that he has decided to close one or more navy yards. As heretofore stated, however, plans for reducing expenditures in the civil departments of the various navy yards are in course of preparation, and will be announced at an early day.

The Hartford, Capt. C. C. Carpenter commanding, arrived at Valparaiso Dec. 26th, with all on board well.

The next social assembly of the colored people will probably be given in the south wardroom on the evening of Jan. 1st, under the management of Mr. Adams.

The schooner Frank A. Nelson arrived at this port Dec. 26th from Calais, Me., with calcined and ground plaster, and the steamer Reading from Philadelphia on the 27th with coal, both to J. Albert Walker.

Mr. F. Howard Newman is to provide the supper for the Kearsarge Engine Co.'s ball on Friday evening. Mr. Newman has catered for parties on previous occasions, and has always given satisfaction.

A report current on the streets, Wednesday of this week, to the effect that Mr. Daniel H. Mason had received a shock of paralysis, was occasioned by his being taken with a headache and vomiting while at his steam mill in the morning of that day, which compelled him to go home; and not improving a doctor was called in the evening.

A complete sale of the furniture belonging to the late Mrs. Abby W. Cleaves was made on Wednesday, Dec. 27th, by C. Dwight Hanscom & Co., auctioneers, the articles bringing fair prices.

Quite a good audience, including many prominent citizens and ladies, attended Mr. Pomeroy's lecture in Music hall on the evening of the 27th inst., many no doubt being quite as much drawn by a desire to see the famous "Brick" as by a wish to hear of the "Wealth and Wonders of Colorado," concerning which he discoursed. The lecturer gave much interesting information concerning the new state, and is evidently enthusiastic in regard to its future.

A meeting of the members of the South Parish, called by the wardens to take action upon the subject of Rev. Mr. DeNormandie's recent communication to the parish concerning his call to settle in Roxbury, Mass., was held at the Unitarian chapel in Court street on Wednesday evening, Dec. 27th. Col. Wm. H. Sise presided. Resolutions were adopted, and a committee appointed to confer with the pastor with a view to his continuing his pastorate in this city.

The Sunday schools of St. John's parish, Christ church and the navy yard had a Christmas tree and carols at St. John's church on Tuesday evening of this week; the children received their presents by classes, two from each class receiving the gifts from the tree and distributing them. Rev. Mr. Duffield made the children an appropriate and pleasing address, and the occasion was one of much enjoyment. Mrs. Thos. S. Eastman and the teachers of the several classes had entire charge of the festival.

The Eastern railroad directors had a meeting Dec. 27th, but besides discussing in an informal manner the proposed appointment of Payson Tucker as vice president and general manager of the road, and the election of officers of the Chelsea branch, did no business of importance.

Mr. John W. Pickering of this city was the recipient of a very nice gold-headed cane at Christmas from his sons. He is very proud of his handsome present, and thinks it well able to sustain his 335 lbs. avoirdupois.

Some valuable ship timber has recently been brought into this city from the Fabyan lot in Newington, on account of Mr. George A. Hammond of Eliot, and loaded on the cars at Green street, for transportation to shipyards in Maine. Mr. Hammond has also been sending white oak ship timber to Newburyport, Mass.

Mr. Daniel Brown of Rye recently tore down an old house, and in doing so found a number of beans and an acorn which must have been where they were found for over sixty years, and which looked as fresh and nice as though grown last season.

The schooners Effort and Lizzie L. Mills, of Bangor, have gone into winter quarters in the dock between Long and Drisco's wharves.

Mr. Charles S. Drown has now under repair six suits of fishing schooners' sails, and is making a new mainsail, to contain 350 yards of canvas, for a coasting schooner belonging to Portland.

There have been no smelts caught on Great bay this season; several parties went up from this city a couple of weeks ago to try their luck, but the result was not such as to induce them to keep on.

The Austin Association of colored people, of this city, will shortly organize and choose permanent officers.

Mr. Lewis Holmes has removed his boat building business from Commercial wharf to a shop on Philbrick's wharf, on the opposite side of the dock from his late location.

LIFE INSURANCE!
The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.
Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.
Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood fully regained.

250th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written up a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, enclosed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained and illustrated.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book than many others can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

Books, Magazines, &c.

The "Art Amateur" for January overflows with those designs, illustrations and practical suggestions for art work and home decoration which make this admirable magazine a welcome visitor in so many cultured American households. A superb portrait of the famous English etcher, Francis Seymour Haden; some striking charcoal and pencil sketches by Walter Shirlaw; a very interesting collection of miniatures by Cosway, and a double page of Salmagundi Exhibition sketches, are notable features of this number. The illustrations of Volkmar faïence, artistic furniture and pianos, tapestry, needlework and jewelry are especially good. Practical articles on fan painting, miniature painting, china painting and art needlework are given, together with valuable "hints for the home" and "answers to correspondents." In the supplement sheets are full-size designs for a panel of cherubs' heads; apple-blossom decoration for a vase; birds and pine-needles for a cup and saucer; an ivy and owl decoration of seventeen tiles for a fire-place facing; a four-page floral design from the Royal School of Art Needlework, for an embroidered screen; part of an embroidered cape, and sixteen borders for prayer-book illumination. Price 35 cents; Montague Marks, publisher, No. 23 Union Square, New York.

Charles May, a German bachelor of Canton, Ohio, forty years old, married in March last, after a brief courtship, Mrs. Mary Wile, a German widow eighty years old, and has now disappeared with $1,200 of her money.

The Night After Christmas.

'Twas the night after Christmas; the boys were awake,
After stuffing with turkey, and pudding, and cake,
And doughnuts, and oysters, and plums, and mince pies,
There were moanings and groanings and piteous cries:
"O my stomach!" "O Moses!" "O help!" "O dear!"
"How I wish that I hadn't had half as much pie!"
"O mother!" "Come, hurry!" "O what shall I do?"
"Bring something to cure me!" "Boo-hoo" and "Boo-hoo!"
And mother, alarmed by the racket and noise,
Ran in to see what she could do for the boys.
Perry Davis's Pain Killer she brought for relief,
And soon made an end of their noise and their grief;
And then there was quiet and joy in the house,
And each of the lads was as still as a mouse.

Charles H. Simpson, of Northboro, Mass., was thrown from his sleigh on Tuesday morning, Dec. 26th, and dragged by the reins until he struck a post with such force as to break his neck. He was found dead by the roadside.

A GOOD INVESTMENT.—One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a rousing appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. L. Hood & Co., Lowell, Mass.

Miss Julia Bolan, fifty-five years of age, was cut to pieces by the cars at Chicopee, Mass., Tuesday night, Dec. 26th, while lying on the track. She was cut in to a dozen pieces.

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weaknesses caused by those irregularities which are so common to womanhood. This is not a *Patent Medicine*, but is prepared, after years of experience, and recommended, knowing that it will give new life in any broken down, worn out or over-worked member of the sex.

If you have tried other remedies without cure, do not be discouraged, but give "LADIES' TONIC" a single trial. It never fails to give good and permanent relief.

If you are troubled with *any* symptom or complaint common to our sex, lay aside the doctor's prescription for once, and try "Ladies' Tonic," which we guarantee will positively cure you. One Bottle is Sufficient.

Women's Medical Institute is an Association of Ladies and Mothers of years' experience, who give advice and answer letters from ladies, free.

Proof will be given, for any case of Female Weakness or Inability which "Ladies' Tonic" will not cure. This is a *bona fide* offer, made by *responsible* ladies who know *whereof they speak*. Address "LADIES' TONIC" and enclose stamp for circular.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Cyl, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Cull is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, a ripped for his work, and attacking a tree he had scarcely assaulted the heavy doors of Front de Boeuf's Castle, must have presented an admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to start a log down a hill. Thinking I could get a better purchase on it from the other side, I worked it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which broke my fall some, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calkilate on:—I shall never wrastle with another log unless I have the advantage of the ground. Fur, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a cord of wood."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is CUT in the centre of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

NOTED MEN!

DR. JOHN F. HANCOCK, late President of the National Pharmaceutical Association of the United States, says:

"Brown's Iron Bitters has a heavy sale, is conceded to be a fine tonic; the character of the manufacturers is a voucher for its purity and medicinal excellence."

DR. JOSEPH ROBERTS, President Baltimore Pharmaceutical College, says:

"I indorse it as a fine medicine, reliable as a strengthening, tonic, free from alcoholic poisons."

DR. J. FARIS MOORE, PH. D., Professor of Pharmacy, Baltimore Pharmaceutical College, says:

"Brown's Iron Bitters is a safe and reliable medicine, positively free from alcoholic poisons, and can be recommended as a tonic for use among those who oppose alcohol."

DR. EDWARD EARICKSON, Secretary Baltimore College of Pharmacy, says:

"I indorse it as an excellent medicine, a good digestive agent, and a non-intoxicant in the fullest sense."

DR. RICHARD SAPINGTON, one of Baltimore's oldest and most reliable physicians, says:

"All who have used it praise its standard virtues, and the well-known character of the house which makes it is a sufficient guarantee of its being all that is claimed, for they are men who could not be induced to offer anything else but a reliable medicine for public use."

Daily Chronicle.

A Bridegroom's Generosity.

Cheek and curiosity prompted a reporter recently to follow a loving couple who were admiring the gilt on a newly-painted railing around the White House, into the mansion. The massive doors swung noiselessly on their well-oiled hinges as the party entered. Attache Prindle was happily in waiting, and took the twain in tow. The East, the Blue, the Green and the Bronze rooms were shown to the entranced couple, and just as Mr. Prindle opened the glass door to usher them into the vestibule, the groom sang out loud enough to be heard in a fog, as he handed a dollar bill to Prindle: "Take that, Mr. Arthur; if I'd have come and seen you before election darned if I wouldn't have voted for you." Ere Prindle had a chance to deny the soft impeachment the Hoosier laddie and his lass stepped out into the gentle snow.

A Very Good Thing

To have in every home, by everybody, old and young, in the country or village, and in cities as well. A marvel of condensed information, both useful and trustworthy, with a Thousand or more Engravings, illustrating labor-saving methods and devices in the Field, in the Garden, and in the Household, Animals, Plants etc.—with many large, beautiful Pictures; Illustrated Stories for and Instructive Talks with Boys and Girls; Plans of Houses, Barns, and Out-Buildings, with Specifications. All these and much more will be found in the 42d Volume of the *American Agriculturist*, now beginning, and at less cost than anywhere else in the world to exposures of Humbugs, a most valuable feature, is to be pushed with increased vigilance. To the previous staff of editors and contributors many additions are now made, including the best writers all over the country. In its prime, this journal enters its 42d volume, more vigorous than ever, with new writers, new artists, new dress, etc. Though prepared at larger expense than most $3 and $4 magazines, it is owing to its immense circulation, supplied, post-paid, for $1.50 a year, and less to clubs—either English or German edition. Single numbers, 15 cents. One specimen, post-paid, 6 cents. A plate copy of Dupre's last great painting, "IN THE MEADOW," is presented to each year, ly subscriber. Address Publishers of *American Agriculturist*, 751 Broadway, New York.

Addington D. Welch, a printer and journalist, at one time well known in Boston, died several days ago, in a poorhouse. He worked at his trade in Boston a long period, and within a few years was publisher of a newspaper at Turner's Falls, Mass. He was about fifty-five years old, and a brilliant writer. The weakness of intemperance was his bane.

A Montreal gentleman who recently gained a suit for the possession of an estate valued at $50,000, was so overcome with joy that he became deranged. He had suffered great anxiety on account of the suit.

The mint in San Francisco is the largest in the world—twice as large as the one in Philadelphia, and three times the size of any in Europe, having $24,000,000 worth of coin and bullion stored away in its vaults.

Hood's Sarsaparilla

Is designed to meet the wants of those who need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies. No other article takes hold of the system and hits exactly the spot like Hood's Sarsaparilla. It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy. $1 a bottle; six for $5.

—Paris has about 40,000 gas-lamps and about 46,000 corner loafers; 6,000 of this number, therefore, have to lean against walls and telegraph poles. It is a great hardship, but the city cannot help them any.

The grip of pneumonia may be warded off with Hale's Honey of Horehound and Tar. Pike's Toothache Drops cure in one minute. Physicians attest: "Colden's Liquid Beef is particularly useful in diphtheria, fever, and every depressing disease."

—A young man who wanted to teach school in Kansas could not tell horizontal from perpendicular, but the committee overlooked that, as the members had been that way themselves.

In their thirst for knowledge professional men have been recently much engaged in vivisection, which means the cutting up of living animals. The practice seems brutal, even at its best. Dissection, or the cutting up of the dead, has ever been productive of good. An autopsy often reveals hidden diseases and brings out startling facts. Here is a case in point: "Out of more than 500 dissections witnessed by the renowned Dr. Clendenning, about one-third presented signs of heart diseases." As a matter of fact Dr. Graves' Heart Regulator is the only cure, so far discovered for this disease. At druggists.

—When he had called the meeting to order, Brother Gardner arose and said: "Gen'len, if it wasn't for de wheels on a wagon de wagon wouldn't move. When de wheels is on, den what?" "Grease!" solemnly exclaimed an old man. "Kerrect!" whispered the president, softly rubbing his hands together. "We hez de wagon an' de wheels. We will now pass de hat aroun' for de grease."

Ugly And Hateful,

—About the brightest speech made at the New England dinner in New York was by Rev. Dr. Paxton, a Scotch-Irish Presbyterian. "When the Puritan first came to these shores," said the speaker, "he made the way to heaven so narrow that only a tight-rope performer could walk it. Now, what with his Concord philosophies, transcendentalisms and every heresy, he has made it so wide that you could drive all of Barnum's camels abreast upon it and through the strait gate."

"Ladies' Tonic,"

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. During the Late War

The Government made its Best Arms at Springfield, Mass.—What Mr. David Clark, Inspector U. S. Armory There Recommends.

Your reporter found Inspector Clark at his office on the Armory grounds busily examining "receivers" for the regulation army rifles. However, he was as willing to say a word for the merits of health and strength restoratives as to prove the merits of implements of death. He said: "My business keeps me closely confined to the Armory and its doors. As a result, I've suffered considerably from indigestion and biliousness, but I find that Dr. Kennedy's FAVORITE REMEDY is a most excellent medicine for these complaints. I most cordially recommend it, for I am acquainted with its worth. Dr. Kennedy's FAVORITE REMEDY is used a great deal by the machinists in the U. S. Armory here."

While FAVORITE REMEDY is a specific in Kidney and Bladder diseases, it is equally valuable in cases of Bilious Disorders and Constipation of the Bowels. Try it. Your druggist has it, and its cost is only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The Doctor would have it understood that, while he is engaged in the introduction of his medicine, FAVORITE REMEDY, he still continues the practice of his profession, but confines himself exclusively to *office* practice. He treats all diseases and performs all the minor and capital operations of surgery.

The Night After Christmas.

'Twas the night after Christmas; the boys were awake,
After stuffing with turkey, and pudding, and cake,
And doughnuts, and oysters, and plums, and mince pies,
There were moanings and groanings and piteous cries:
"O my stomach!" "O Moses!" "O help!" "I shall die!"
"How I wish that I hadn't had half as much pie!"
"O mother!" "Come, hurry!" "O what shall I do?"
"Bring something to cure me!" "Boo-boo" and "Boo-boo!"
And mother, alarmed by the racket and noise,
Ran in to see what she could do for the boys.
Perry Davis's Pain Killer she brought for relief,
And soon made an end of their noise and their grief;
And then there was quiet and joy in the house,
And each of the lads was as still as a mouse.

The funeral of Rev. F. X. Bouvier, late pastor of the Catholic church at Salmon Falls, took place Dec. 26th. Portsmouth Chronicle.

FRIDAY, DEC. 29, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Naval Officers as Foremen.

Commodore Upshur has received orders from the secretary of the navy informally to notify the force in the several civil departments of the Brooklyn navy yard, including the watchmen, shipkeepers and others, that many men will be discharged on next Saturday, so that the expenses may be kept within the limit of the appropriations. It is thought that this order will be followed, in a day or two, by an order to detail the officers of the navy now on duty at the naval stations to perform the duties of clerks and foremen at the several naval stations and navy yards, in accordance with the recommendations made by Secretary Chandler in that part of his report to Congress urging that officers should take the place of civilian heads of departments at the navy yards and naval stations. So anxious have the civilian employees been that they have enlisted the sympathies of friendly politicians, who are making personal efforts against the proposed reductions. So great is the influence that has been brought to bear at the navy yard and at Washington that recommendations for additional work have been made in order to keep the men employed, and Congress is to be urged to make additional appropriations.—*N. Y. Sun, Dec. 27th.*

Perhaps the best time to show Congress what ought to be done in the way of appropriations is the present, when the practical workings of small allotments of money to carry on a navy are to be seen. But fancy an officer with gilt and gold going around among the machinists and laborers to direct mechanical work in steam engineering or construction and repair!

No! Never be it said that officers of the line ever filled the role of "greasers." Well may these sticklers for rank and all o' that say to the retrenching secretary and the economical congressmen, *let* your revenge "take any shape but that."

Heard From.

The new steam barque Mendoza, Capt. George Tucker, which left Bath, Me., for New York, Dec. 4th, was not heard from until the 27th, when a telegram was received announcing her arrival at St. Thomas on the previous day. Much anxiety had been occasioned by the failure to hear from the vessel, she having on board besides her crew the captain's wife and child, Frank Packard, of the firm of Goss, Sawyer & Packard, of Bath, his wife and daughter, and Frank Reynolds, superintendent of the Goss marine iron works. She was driven off the coast by the great gale of Dec. 4th and 5th, and being too lightly ballasted the captain ran her for St. Thomas.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup." It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle. eod&wtjan22

The story Without an End.

At the city of New Orleans, La., on Tuesday, Nov. 14th (always Tuesdays,) under the sole management of Gen'ls G. T. Beauregard of La., and Jubal A. Early of Va., the 156th Grand Monthly Drawing of The Louisiana State Lottery occurred, and these historically famous warriors attest over their own signatures, a *fac simile* of which is published in the advertisement of the Company, that all was fairly done. It resulted as follows: Ticket No. 32,118 drew $75,000, the first capital prize—J. M. Dixon, an Insurance Agent of Rails, Tex., and one 5th, as did also Mrs. Josephine Miller, No. 319 E. 92d st., New York city. Among others, No. 8,153 drew the second prize, $25,000—sold in fifths—two (2) to Charles Mowatt, a sailor on the schooner "Lucy May," of Newburyport, Mass.; and one 5th to Chas. Noe, a journeyman cigar maker, No. 60 New Church st., New York city; one to Hermann Joseph, also in New York city. Ticket No. 30,269 drew the third prize, of $10,000, two-fifths of which were held by W. T. Clarke, a road agent living in a cave in Philadelphia, and one by Leah Mobile, No. 1021 Magazine St., New Orleans. There were many other, but none don't count quite so well as the above; for this is enough to convince cheerfully.

Lobsters are reported as being now very plentiful and of good size, in the waters in the vicinity of the Shoals. The lobster fishery is not being prosecuted from the islands this winter.

Mr. Editor: The neighborhood of Puddle dock, on Washington street, has been much disturbed of late by the midnight howls of a wretched cur, which has now become so bold as to attack persons on the street. On the evening of Dec. 26th he attacked a girl, who became so frightened that her cries brought the whole neighborhood into the street. The brute is a nuisance and a danger, and should be abated; a bullet or a dose of poison might have good effect, though possibly an enquiry by the police as to whether the cur is licensed would do as well. REA.

Under the heading of "Pleasant Incident" the Newburyport *Herald* of Dec. 27th says: "Some of our readers will remember a pleasant faced lad in the telegraph office in Market square, thirty years ago, by the name of Joseph B. Stearns. The office was located between the bookstore of M. H. Sargent and the hardware store of Charles H. Balch. Mr. Stearns has since become one of the most noted men in submarine telegraphing in the world. He invented the system of sending messages each way at the same time, and has laid most of the submarine cables in use. He has patents on his invention in most foreign countries, and has become wealthy. Tuesday he visited Newburyport to see his old friend, now sick and helpless, Mr. Eben G. Balch, and after leaving him money for immediate needs, also left funds with a friend, for future use. This we call practical Christianity."

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. No other article takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "If it's the best dollar I ever invested."

LEBANON, N. H., Feb. 10, 1879.
MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.
Yours truly,
F. C. CHURCHILL,
(Firm of Carter & Churchill.)

☞ A gentleman who has been suffering from the *Debility* and *Languor* peculiar to this season, says: "Hood's Sarsaparilla is putting new life right into me. I have gained ten pounds since I began to take it." Has taken two bottles.

Gained 10 Pounds

HOOD'S SARSAPARILLA is sold by all druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

THE
NEW YORK TRIBUNE.
Strong, Clean, Enterprising.

The Largest Circulation Among the Best People.

Rejoicing with its readers in the better times which reign throughout the country, THE TRIBUNE finds itself at the beginning of a new business year enjoying its own fair share of the prosperity generally enjoyed by those who make all its several editions thoroughly complete, entertaining and valuable. The first aim of THE TRIBUNE is to be the best and foremost newspaper of America. It has its own telegraph line to Washington, it uses the cables freely, and it scours the world for the news, printing all that is useful. It tells what is worth it in detail. The rest is put into bright short paragraphs. Its contents are fresh, choice, varied and thoroughly unobjectionable in every respect. THE TRIBUNE has long enjoyed the largest circulation among the best people. It intends to let no rival usurp its place. THE TRIBUNE is the organ of no individual, or no faction or ci que, and of no interest adverse to the public good. It knows no service other than that of the people.

THE TRIBUNE believes the well-being of the country will be best preserved by keeping its Government in Republican hands. But it does not believe in Ring Rule, Bossism or Corruption in Office. It has done hard work, and taken great risks, in efforts to purify the Republican party. It expects to continue in that course, wherever or whatever this may seem needful—not doubting that this is the true road to a worthy Republican success in 1884.

Every year THE TRIBUNE offers to subscribers a few premium books of marked and standard merit. The terms are usually so arranged that either the paper or the book is a gift to the subscriber.

A SPLENDID WORK FOR FAMILIES.

For 1883 THE TRIBUNE offers a new premium, WOOD'S HOUSEHOLD PRACTICE OF MEDICINE, HYGIENE AND SURGERY. 2 vols., 819 and 942 pp., profusely illustrated, bound in cloth, and sold by agents for the invariable price of $10. It is written by eminent physicians of New York and Philadelphia, and published by the well-known standard medical book house of William Wood & Co. Every possible topic relating to the structure and functions of the human body is explained in this work with text and picture. The book teaches how to regain health when lost, and how to take care of it when regained. It explains what to do in emergencies. It will save many a human life and many an hour of suffering and anxiety. In any ordinary family it will pay for itself in a month's time. The terms are:

$10. { WOOD'S HOUSEHOLD PRACTICE and THE WEEKLY TRIBUNE five years.
$15. { WOOD'S HOUSEHOLD PRACTICE and THE SEMI-WEEKLY TRIBUNE five years; or with 10 copies of Weekly 1 yr.
$25. { WOOD'S HOUSEHOLD PRACTICE and 20 copies of THE WEEKLY one year.

A circular with full description of the work sent on application.

A Chance for One Year Subscribers.

During the summer of 1882, THE TRIBUNE made the experiment of offering REDPATH'S HISTORY OF THE UNITED STATES. The book met with an unexpected welcome. The offer is continued one year. The book is a popular history of the United States, from the aboriginal time to the present day, coming down to the inauguration of President Arthur. It is a large octavo, 753 pages, the retail price is $5.00. We will send THE WEEKLY TRIBUNE one year, and the History for $3 00, which is only the price of the book. We will send THE SEMI-WEEKLY TRIBUNE one year, and the History, for $4. In both cases we pay the postage.

An Encyclopædia in 15 Volumes.

THE TRIBUNE has resolved to continue the Encyclopædia premium upon exactly the same terms as before.

The Library of Universal Knowledge

Embraces Chamber's Encyclopædia complete, contains extensive American additions, treating about 35,000 additional topics, filling 15 per cent. of the freshest and most valuable matter, the whole making 15 handsome octavo volumes averaging nearly 700 pages to the volume. We offer:

The Library of Universal Knowledge with THE WEEKLY TRIBUNE 5 years for $15.

With THE SEMI-WEEKLY TRIBUNE, 5 years $20.

With ten copies of THE WEEKLY TRIBUNE one year $19.

With twenty copies of THE WEEKLY TRIBUNE one year $29.

Young's Bible Concordance.

This famous work, containing 1,100 three-column pages, was originally published in England in October, 1879, and was sold at $15. We offer the Concordance and one copy of THE WEEKLY TRIBUNE five years or five copies one year for $7; or with one copy of THE SEMI-WEEKLY TRIBUNE five years, or five copies one year, or ten copies of THE WEEKLY TRIBUNE one year for $13.

An Unabridged Dictionary.

THE TRIBUNE and Webster's Unabridged Dictionary, or Worcester's Unabridged, to any one remitting $12 for the Dictionary and THE WEEKLY TRIBUNE for five years; or $17 for the Dictionary and THE SEMI-WEEKLY TRIBUNE for five years; $19 for the Dictionary and THE DAILY TRIBUNE one year.

A Portrait of Garfield.

THE TRIBUNE will send to its regular readers a portrait of Garfield, or one of Mrs. Garfield, 22 x 28 inches in size, gotten for parlor or library, for 10 cents each; to those not subscribers, for 50 cents each.

Circulars describing THE TRIBUNE premiums mere fully, and sample copies of the paper sent free on application. Address simply,

THE TRIBUNE, New York.

PHOTOGRAPHY!

I. V. NEWELL, would respectfully inform his friends of Portsmouth and vicinity that he is now prepared to make **Photographs, Ferrotypes and Tintypes** of all sizes, for those who wish for *first-class work*, at the rooms formerly occupied by O. MAKING WATER RUN UP HILL.

THE PROPOSED NEW SEWER.

On the mayor's table in the city rooms there lies a plan, drawn by Ernest W. Bowditch, Sanitary Engineer, of a sewer from Eldredge's brewery to tide water, with lateral sewers emptying into it, and specifications and estimates accompanying it. The main sewer, as drawn on this plan, starts as we have said at Eldredge's brewery, northwest of Islington creek, crosses Cate street and Islington street, thence westerly of Jones' brewery and by a curve to the low land in Cass street, crosses that street, Madison street, Cabot street, Summer street, Middle street, and Richards avenue to the marsh north of the south millpond, thence across Pleasant street, Washington street and Water street to the end of Shea's wharf, where it discharges itself into the river.

That portion of the proposed sewer which lies between Cabot street and Jones' brewery, follows the line of a sewer partly covered and partly open, which has been used for many years, and over which the city has a right of way for that purpose. The old sewer has however carried the water westerly from Cabot street, the sewage emptying into the Creek near Creek street, while now it is proposed to change the course, so that the current shall flow eastwardly from the Creek. The sewer will cross private grounds where damages must be paid between Cabot and Summer streets, Summer and Middle streets, Richards avenue and Pleasant street, and between Pleasant street and the river.

Lateral intercepting sewers are proposed on the southern shore of the north pond from Bridge street to the Creek where the sewage will enter the main sewer, and the eastern shore of the south pond from Franklin street entering the main sewer near the Universalist church. The scheme also proposes a dam across the north mill pond at a point just east of the roundhouse on Hale's point, to be constructed so that the top of the dam shall be one foot below high water level, so that all foreign matters may settle west of the dam, and the water be changed each tide by surface flowage. The estimated cost of the proposed sewer and dam, with man-holes and lamp-holes complete, is somewhat above $53,000. This does not include land damages.

The plan drawn by engineer Rice some half-dozen years ago, for which the city paid five hundred dollars, proposed two main sewers, one entering the river at the north end, and the other being substantially the same east of Richards avenue as the one now proposed. The cost of the Rice plan was we believe estimated much lower than the new plan.

Mr. Bowditch's plan, though in two places at least it changes the direction of the current, is entirely feasible. The main sewer follows generally the ancient water currents, and the highest level to be found on the route is less than nine feet higher than the level of Creek street near where it commences. The high grade is however very short, being at the crossing on Middle street near the house of Capt. J. S. Pray.

THE "PROFESSOR."

"The Professor," which is announced to be performed in Music hall on Wednesday evening next, is an amusing comedy in four acts, the scene being laid in the White mountains. The "Professor" himself is personated as a middle-aged gentleman, who, having devoted his life to letters, has had no opportunity to cultivate the acquaintance of the gentler sex, and consequently knows knowing at all about love. He makes a scientific tour of the White mountains in quest of natural specimens. On his arrival at the Poggawamsett house he encounters his aunt, a match-making woman. In the endeavor to oblige her by selecting a wife from the great number of young ladies sojourning at the same hotel, he manages to propose marriage to every girl he meets, and is in every instance accepted. His success in this respect involves him in a round of ridiculous plights, for which his simplicity and a desire to render himself generally agreeable are alone responsible. But in the end all ends well by a denouement which is prolific of happiness and consistent with social propriety. The Professor's career in this connection excites only the purest merriment throughout.

ODD FELLOWS' ELECTIONS.

New Hampshire lodge, No. 17, on the evening of Dec. 26th elected officers as follows:

N. G., John Pender;
V. G., Solomon Littlefield;
R. S., Thornton Betton;
P. S., Moses H. Tilton;
Treasurer, Samuel L. Joy;
Trustees, George Annable, Charles H. Sides and John H. Wells.

Osgood Lodge, No. 48, on the evening of Dec. 27th elected the following-named officers:

N. G., Charles E. Hodgdon;
V. G., Charles H. Clough;
R. S., Edward J. Morrison;
P. S., C. Dwight Hanscom;
Treasurer, Charles A. Neal.

POLICE COURT--BATCHELDER J.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, Dec. 28th, Mayor Treat in the chair:

Present the full board.

The records of the last meeting were read and approved.

Bills of the fire department to Dec. 31st, 1882, amounting to $1454.17, were ordered paid.

The report of Robert E. Rich, librarian of the public library, was received, as follows:

Number of books bought during the year	53
Number presented	1364
Whole number added	1417
Number in library Jan. 1, 1882,	2310
Total	3727
Worn out and lost during year	6
Number now in library	3721
Amount of fines collected	$17.72
Expended for books	13.25
Cash on hand	$4.47

Communication of Wm. S. Willey in regard to a claim previously considered, was laid on the table.

The mayor stated that Civil Engineer Bowditch had presented five different plans for obviating the north pond nuisance, the estimated cost of each being as follows: No. 1, $10,000; No. 2, $37,-893; No. 3, $101,334.53; No. 4, $47,-800.01; No. 5, $53,663.50. The latter plan provides for a main intercepting sewer through the city, to cost $49,268.-56; with lateral sewers from the north pond, to cost $9,444.05, and from the south pond, to cost $3,956.70. No action was taken.

Adjourned.

THE BALL TO-NIGHT.

At Franklin hall this (Friday) evening the ninth annual ball of Kearsarge Engine Co. will be given, music being furnished by Harlow's orchestra of this city and Reinewald & Taylor's orchestra of Dover combined, dancing to be preceded by a promenade concert, the programme for which contains six numbers. The balls given by this company are always well conducted, and the boys deserve well of the citizens. A few tickets at $1 each remain undisposed of, and can be procured at the stores of M. Goodrich and Lewis B. Marden.

There was a family reunion at the residence of Mr. Oliver Ayers on the evening of Dec. 27th, the occasion being the old gentleman's 81st birth-day anniversary. Mr. Ayers has all his long life been an active worker, still personally superintends the laboring parties of the Aqueduct company, and bids fair for years of usefulness yet.

The young people of the Universalist society had a social dance on Wednesday evening, Dec. 27th, as also did New Hampshire lodge of Odd Fellows; Osgood lodge of Odd Fellows had a dance on Thursday evening; and Kearsarge Engine Co. will finish dancing the old year out this (Friday) evening, when their ninth annual promenade concert and ball comes off in Franklin hall.

Messrs. Hayes & Bean have a large force of men at work getting the ship timber off the Fabyan lot in Newington, and shipping it to John Currier & Son of Newburyport; all the pine timber on the lot has been felled, and cut up in the mill. The same parties have bought 250 tons of ship timber from the Elwyn farm in this city, also for John Currier & Son.

The following were the arrivals of fishing schooners at this port on Thursday of this week, with their fares: Grace Choate, with 6200 lbs.; Christie Campbell, 4000 lbs.; Storm King, 3500 lbs.; Addie & Hattie, 3000 lbs.; Water Lily, 2500 lbs.; Ev. Nichols, 2200 lbs.; Flora Temple, 1200 lbs.; Bonita, 1200 lbs.; miscellaneous, 2000 lbs.

The Sunday school of the Court street Christian society had a festival in Congress hall last Thursday evening.

A large number of men in the construction department at the navy yard were suspended on Thursday evening last.

Workmen have for some days been engaged in cleaning out the boilers of the U. S. S. Marion, preparatory to their inspection. Orders were received on the yard Dec. 28th to take out her masts.

Dennis M. Shapleigh, republican, was on Thursday, Dec. 28th, elected representative in the Maine legislature from Kittery, to fill a vacancy caused by a previously-elected representative declining to serve.

The Congregational society of the Scotland district, York, gave their pastor, Rev. Joseph Freeman, a donation party on the evening of Dec. 26th, the reverend gentleman receiving about $60 and other substantial tokens of regard.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or the close application to business, may be restored and manhood regained.

Ninth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can ever require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, unlimited to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

The Valise not His.

A dignified old gentleman entered a Paris railway station, laid down a bulky valise while he bought a ticket, and passed on to the train, forgetting his luggage. A young fellow who noticed the oversight seized the valise and made off with it. He was arrested, and the contents of the valise examined. It appeared that the owner was a wealthy landowner who lived at St. Germain with his wife and children. He was telegraphed for and came,—the dignified old gentleman of the station house; the carpet-bag was opened before him in court. It contained $600 in gold, some bills, and a package of love-letters from a well known Vaudeville actress, with her portrait. The old gentleman stoutly denied having ever seen the valise or the love letters before. There was nothing to do but release the lucky thief, and permit him to keep the bag and its contents.

A paper building is to be erected in Chicago six stories high, covering an entire block, which is to contain 100,000 feet of straw-board flooring, 480,000 feet of straw ceiling, and a large amount of the same material for doors and counters.

In the supreme judicial court, at Skowhegan, Me., Dec. 26th, Joseph Henderson was arraigned for the murder of Wellington McDaniel in September last. He pleaded not guilty.

Two Russians, giving the names of J. Yerkerovitz and Isaac Watchmaker, report that they stopped at a boarding house in Lewiston, Me., on the night of Dec. 25th, and that during the night their packs, valued at $200, were stolen.

A lady in Bristol, Me., has a five-foot alligator for a pet. She makes him a warm bed by the stove at night, and during the day he moves about the sitting-room at his own sweet will. He likes to have his back stroked, and will open his mouth and smile in a way that is "too charming for anything."

In New York, Dec. 26th, Samuel Blackwood, aged twelve years, playfully pointed a loaded pistol at Louisa Stannard, about his own age, and pulled the trigger, sending a ball into the girl's brain. The police are hunting for the hardware merchant who sold the boy the pistol. The girl is not expected to recover.

The aggregate appropriations provided for by the regular annual appropriation bills that have now been passed by both houses of Congress are as follows: Indian, $5,376,256; consular and diplomatic, $1,321,755; agricultural, $405,440.

At a meeting recently held in Loudon for the purpose of raising an Irish relief fund, a resolution was passed urging the government to take steps to prevent people in Ireland from perishing for want of the necessaries of life.

Some heathen, are not as much of the heathen as we think; read a Mahometan proverb, "God has bestowed the good things of this world to relieve our necessities, not to reward our virtues; these will be rewarded in another world." We know of no greater necessity to be relieved than a stubborn cold, and we know of no better relief than Dr. Bull's Cough Syrup.

—"What is the meaning of the word 'tantalizing?'" asked the teacher. "Please, marm," spoke up little Johnny Holcom, "it means a circus procession passing the schoolhouse and the scholars not allowed to look out."

Good health is the greatest of fortunes; no remedy has so often restored this prize to the suffering, as Hood's Sarsaparilla. Try it.

—Some astonishment has been created in England by the discovery that a beverage extensively sold as "Good Templar" champagne, and classed as a temperance drink, contains alcohol equivalent to twenty-five per cent of proof spirit, which is considerably in excess of the intoxicating qualities of real champagne. Chemical analysis revealed the secret.

we will send you Dr. Kaufmann's great Medical Work; 100 pages, colored plates from life. The most valuable adviser ever published, to any address on receipt of two 3 cent stamps to pay postage. Address A. P. Ordway & Co., Boston, Mass.,

—In a town not many miles from Boston, a man stepped into a neighbor's house where he saw the head of the family lying upon his back on the floor and his wife standing over him, as he thought with a threatening air. He was about to withdraw when the prostrate man shouted, "Come along in, Steve; she is only chalking me out a pair of pants."

HEART DISEASE

IS YOUR HEART SOUND?

Now *Many people think themselves sick and doctor for kidney or liver trouble, or dyspepsia, while if the truth were known, the real cause is a diseased heart. The renowned Dr. Cardington, startlingly says "one-third of my subjects show signs of heart disease." The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.*

Dr. Graves a celebrated physician has prepared a specialty for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receieves Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all manifestations of intellect, labor are graceful, our friend William, a ripped for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Boeuf's Castle, must have presented an admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to sta t a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but, as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calkilate on:—I shall never wrastle with another log unless I have the advantage of the ground. For, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is CUT in the centre of the genuine. Price 25 cents. Seabury & Johnson, Chemists, New York.

NOTED MEN!

DR. JOHN F. HANCOCK, late President of the National Pharmaceutical Association of the United States, says:

"Brown's Iron Bitters has a heavy sale, is conceded to be a fine tonic; the character of the manufacturers is a voucher for its purity and medicinal excellence."

DR. JOSEPH ROBERTS, President Baltimore Pharmaceutical College, says:

"I indorse it as a fine medicine, reliable as a strengthening tonic, free from alcoholic poisons."

DR. J. FARIS MOORE, PH. D., Professor of Pharmacy, Baltimore Pharmaceutical College, says:

"Brown's Iron Bitters is a safe and reliable medicine, positively free from alcoholic poisons, and can be recommended as a tonic for use among those who oppose alcohol."

DR. EDWARD EARICKSON, Secretary Baltimore College of Pharmacy, says:

"I indorse it as an excellent medicine, a good digestive tonic and a non-intoxicant in the best sense."

DR. RICHARD SAPINGTON, one of Baltimore's oldest and most reliable physicians, says:

"All who have used it praise its standard virtues, and the well-known character of the house which makes it is a sufficient guarantee of its being all that is claimed, for they are men who could not be induced to offer anything else but a reliable medicine for public use."

A Druggist Cured.

Boonsboro, Md., Oct. 12, 1880. Gentlemen: Brown's Iron Bitters cured me of a bad attack of Indigestion and fullness in the stomach. Having tested it, I take pleasure in recommending it to my customers, and am glad to say it gives entire satisfaction to all."

The Night After Christmas.

'Twas the night after Christmas; the boys were awake,
After stuffing with turkey, and pudding, and cake,
And doughnuts, and oysters, and plums, and mince pies,
There were moanings and groanings and piteous cries:
"O my stomach!" "O Moses!" "O help!" "I shall die!"
"How I wish that I hadn't had half as much pie!"
"O mother!" "Come, hurry!" "O what shall I do?"
"Bring something to cure me!" "Boo-hoo" and "Boo-hoo!"
And mother, alarmed by the racket and noise,
Ran in to see what she could do for the boys.
Ferry Davis's Pain Killer she brought for relief,
And soon made an end of their noise and their grief;
And then there was quiet and joy in the house,
And each of the lads was as still as a mouse.

Portsmouth Chronicle.

SATURDAY, DEC. 30, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

A Good Idea, Well Carried Out.

A Christmas dinner to the poor children of Portland, Me., gotten up by the Children's Christmas club of that city, came off Thursday, Dec. 28th, and proved a great success. City hall was filled, and several hundred children had a bountiful dinner and a Christmas present given them, in addition to which the club had already seen that all who were destitute of clothing should be neatly and warmly dressed. Mayor Libby presided, and there were comic songs and humorous readings and recitations for their amusement. The idea originated with Miss Ella S. Sargent, and was carried out with the unanimous assistance of church societies and citizens.

Terrible Accident.

A lofty chimney at Bradford, Eng., on Dec. 28th fell on a factory full of operatives, crushing it. The mangled bodies of twenty-four persons were taken from the ruins within a few hours, and twelve others were known to have been killed, besides at least fifty more injured. The pecuniary damage amounted to $300,000, and 3000 persons were thrown out of work, as eight mills had flue connections with the overthrown chimney, and are now idle until a new chimney can be built. Most of the dead and wounded are women and children.

Cultivating the Beautiful.

About two weeks before Oscar Wilde sailed for Europe he was captured by a noted "banco steerer" of New York, named Joseph Shellick alias "Hungry Joe," and beguiled into playing until he had lost $1060, for which he gave his check. Realizing that he had been swindled, Oscar drove to the bank at once and stopped payment of the check, which was never presented at the bank.

New Hampshire Items.

The Congregational church at Claremont has voted to call Rev. Frank P. Tompkins of Topsfield, Mass.

Hiram Green, a farmer of Henniker, hung himself Wednesday night, Dec. 27th. He was fifty-five years old, and leaves a family.

Arthur Phalon of Nashua was arrested in Manchester on Thursday night, Dec. 28th, with a team stolen in Nashua on Wednesday, in his possession. He was taken to Nashua for arraignment before the police court. Phalon is an old offender, and well known to the police.

Rumors having prevailed that the Claremont National bank and Sullivan Savings institution are embarrassed, the officers of both banks emphatically deny the truth of the statements.

News and Notes.

In the "Creek nation" of the Indian territory, on Sunday, Dec. 24th, two rival bands headed respectively by Chicotee and Spiochee had a fight, in which the Chicotee party had seven men killed, and it is thought the Spiochee band lost as many more. Spiochee and party retreated into the Cherokee nation, but are expected to return again and keep up the disturbance. Reinforcements are hastening to Okmulkee to protect the capital. Capt. Bates with a detachment of United States troops is also there, and soldiers have been ordered to Eufaula, where there is a good deal of excitement, and many of the women and children have been sent away for safety.

The senate on Dec. 28th decided by one majority to take up the Fitz John Porter case, three republicans—Sewall of New Jersey, Cameron of Pennsylvania and Miller of California—voting with the entire body of democrats in favor of such action.

Disastrous floods are reported in Europe, along the rivers Rhine and Danube, many bridges and dams being carried away, and much damage done on shore. A bridge near Lorrach, in Baden, fell with many people on it, and twenty persons were drowned.

A despatch from Coloraine, Ireland, reports that the wife of Sir Francis Edmund Workman McNaghten has eloped with a young man, an agent for the Macartney estates. Lady McNaghten has several children. She is a daughter of William Howard Russell, LL. D., the well known newspapr correspondent who became famous for his description of the battle of Bull Run.

Mr. E. L. Osgood, of the firm of J. R. Osgood & Co. of Boston, received a splendid Christmas present from his wife—twins, both girls.

William Lang and Richard Kilpatrick had a fight with knives and pistols at Lloyds, Fla., Dec. 27th, and are now both dead.

Two men, a woman and two children, all colored, were drowned Dec. 28th at Barrington Ferry, Ga., by the capsizing of a boat in which they were crossing a river.

At West Belleville, Ill., Dec. 28th, a coal miner named William Walton shot Jane Melbourne for refusing to marry him, and then killed himself.

Two young men named Rusk, members of a gang of Philadelphia roughs who murdered a policeman on Christmas night, drowned themselves in a canal at Trenton, N. J., Dec. 27th, in endeavoring to avoid arrest.

A skeleton of a man has been found in the ruins of a barn burned at Pawcatuck, R. I., a few days ago. It is supposed to be that of a tramp, who set the fire with his pipe.

An unknown young man was killed on the Providence & Worcester railroad, near Manville, R. I., Dec. 27th. He was probably stealing a ride on the top of a passenger car, and was knocked off by a bridge.

Mrs. E. R. Tinker of North Adams, Mass., wife of Internal Revenue Collector Tinker, died Dec. 25th, aged sixty years. She fell by tripping on a rug in her parlor the previous week, and fractured her thigh. She was the daughter of Col. Wilmarth of Adams.

Mrs. Wilson Waddingham, wife of the millionaire of West Haven, Conn., discovered Tuesday evening, Dec. 26th, that a package containing $250 in bills, received that day, had been abstracted from a bed room. The box lay upon the floor of the room. She lighted the gas, and saw a man in the adjoining room. She pursued him, when he dropped the money and jumped down the stairway. Mrs. Waddingham ran him out of the house until he was lost in the darkness. All the money was recovered, the thief only getting a small bosom pin.

The superior court of New York has enjoined the Western Union Telegraph Co. from paying dividends on $15,526,500 of stock, which Wm. S. Williams and Rufus Hatch claim was illegally issued.

Street highwaymen are becoming so bold in Chicago, and their attacks occur so frequently that there is considerable talk of suppressing them by means of private enterprise. Scarcely a night passes that one or more attacks do not occur. One of the victims is likely to die. All have suffered severe injuries from the murderous sand bag and have lost considerable property.

A case of smallpox was discovered in Biddeford on Christmas day, the patient being a girl twelve years old. Her residence was at once quarantined.

Ex-Gov. Chamberlain of Maine on Wednesday evening of this week delivered in the town hall at York a lecture on the "Battle of Gettysburg," under the auspices of the Golden Cross society.

Elijah Lord of South Berwick, a man about fifty years old, was found near the Eastern railroad track at Conway junction on the morning of Dec. 28th, frozen to death. He had been drinking the night before.

A Biddeford paper says "It may not be generally known that the bell in the Old South church, Boston, was sent from Biddeford, England, as a gift to the First Congregational church, Biddeford, Me. This was many years ago when Biddeford was a farming town, and the parish was poor, so they were unable to pay the freight upon it, consequently it was sold to the Old South parish, Boston, to pay the bill. An effort has since been made by parties in Biddeford to purchase the bell, and place it where it was designed to be by the donor, but the price asked was so high the subscription could not be raised, and it still swings in the Old South belfry."

A Common-sense Remedy.

SALICYLICA.

No more Rheumatism, Gout or Neuralgia.

Immediate Relief Warranted.

Permanent Cure Guaranteed.

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid; and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

REMEMBER

that **SALICYLICA** is a certain cure for **Rheumatism, Gout and Neuralgia.** The most intense pains are subdued almost instantly.

Give it a trial. Relief guaranteed or money refunded.

Thousands of testimonials sent on application.

$1 a Box. 6 Boxes for $5.

Sent free by mail on receipt of money.

ASK YOUR DRUGGIST FOR IT.

But do not be deluded into taking imitations or substitutes, or something recommended as "just as good!" HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. Another article takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "it's the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1879.

MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.

Yours truly,

F. C. CHURCHILL,

THE

NEW YORK TRIBUNE.

Strong, Clean, Enterprising.

The Largest Circulation Among the Best People.

Rejoicing with its readers in the better times which reign throughout the country, THE TRIBUNE finds itself at the beginning of a new business year enjoying its own fair share of the prevalent prosperity and prepared to make all its several editions thoroughly complete, entertaining and valuable. The first aim of THE TRIBUNE is to be the best and foremost newspaper of America. It has its own telegraph line to Washington, it uses the cables freely, and it scours the world for the news, printing all that is useful. It tells what is worth it in detail. The rest is put into bright short paragraphs. Its contents are fresh, choice, varied and thoroughly unobjectionable in every respect. THE TRIBUNE has long enjoyed the largest circulation among the best people. It intends to let no rival usurp its place. THE TRIBUNE is the organ of no individual, of no faction or clique, and of no interest adverse to the public good. It knows no service other than that of the people.

THE TRIBUNE believes the well-being of the country will be best preserved by keeping its Government in Republican hands. But it does not believe in Ring Rule, Bossism or Corruption in Office. It has done hard work, and taken great risks, in efforts to purify the Republican party. It expects to continue in that course, wherever or whenever this may seem needful—not doubting that this is the true road to a worthy Republican success in 1884.

Every year THE TRIBUNE offers to subscribers a few premium books of marked and standard merit. The terms usually so arranged that either the paper or the book is a gift to the subscriber.

A SPLENDID WORK FOR FAMILIES.

For 1883 THE TRIBUNE offers a new premium, WOOD'S HOUSEHOLD PRACTICE OF MEDICINE, HYGIENE AND NURSERY. 2 vols., 819 and 942 pp., profusely illustrated, bound in cloth, and sold by agents for the invariable price of $10. It is written by eminent physicians of New York and Philadelphia, and published by the well-known standard medical book house of William Wood & Co. Every possible topic relating to the structure and functions of the human body is explained in this work with text and picture. The book teaches how to regain health when lost, and how to take care of it when regained. It explains what to do in emergencies. It will save many a human life and many an hour of suffering and anxiety. In any ordinary family it will pay for itself in a month's time. The terms are:

$10. { WOOD'S HOUSEHOLD PRACTICE and THE WEEKLY TRIBUNE five years.

$15. { WOOD'S HOUSEHOLD PRACTICE and THE SEMI-WEEKLY TRIBUNE five years; or with 10 copies of Weekly 1 yr.

$25. { WOOD'S HOUSEHOLD PRACTICE and 20 copies of THE WEEKLY one year.

A circular with full description of the work sent on application.

A Chance for One Year Subscribers.

During the summer of 1882, THE TRIBUNE made the experiment of offering REDPATH'S HISTORY OF THE UNITED STATES. The book met with an unexpected welcome. The offer is continued one year. The book is a popular history of the United States, from the aboriginal time to the present day, coming down to the inauguration of President Arthur. It is a large octavo, 793 pages, the retail price is $2.50. We will send THE WEEKLY TRIBUNE one year, and the History for $3.00, which is only the price of the book. We will send THE SEMI-WEEKLY TRIBUNE one year, and the History, for $4. In both cases we pay the postage.

An Encyclopædia in 15 Volumes.

THE TRIBUNE has resolved to continue the Encyclopædia premium upon exactly the same terms as before.

The Library of Universal Knowledge

Embraces Chambers's Encyclopædia complete, contains extensive American additions, treating about 15,000 additional topics, adding to over 25 per cent. of the freshest and most valuable matter, the whole making 15 handsome octavo volumes averaging nearly 800 pages to the volume. We offer:

The Library of Universal Knowledge with THE WEEKLY TRIBUNE 5 years for $16.

With THE SEMI-WEEKLY TRIBUNE, 5 years $20.

With ten copies of THE WEEKLY TRIBUNE one year $19.

With twenty copies of THE WEEKLY TRIBUNE one year $20.

Young's Bible Concordance.

This famous work, containing 1,100 three-column pages, was originally published in England in October, 1878, and was sold at $15. We offer the Concordance and one copy of THE WEEKLY TRIBUNE five years or five copies one year for $7; or with one copy of THE SEMI-WEEKLY TRIBUNE five years, or five copies one year, or ten copies of THE WEEKLY TRIBUNE one year for $13.

An Unabridged Dictionary.

THE TRIBUNE will send Webster's Unabridged Dictionary, or Worcester's Unabridged, to any one remitting $12 for the Dictionary and THE WEEKLY TRIBUNE for five years; or $17 for the Dictionary and THE SEMI-WEEKLY TRIBUNE for five years; $19 for the Dictionary and THE DAILY TRIBUNE one year.

A Portrait of Garfield.

THE TRIBUNE will send to its regular readers a portrait of Garfield, or one of Mrs. Garfield, 22 by 28 inches in size, good for parlor or library, for 10 cents each; to those not subscribers, for 30 cents each.

Circulars describing THE TRIBUNE premiums more fully, and sample copies of the paper sent free on application. Address simply,

THE TRIBUNE, New York.

MAJOR JOHN D. MYRICK.

Major John D. Myrick, of Augusta, Me., who will be remembered by many in this city from his having delivered an eloquent oration in Music hall on the evening of Memorial day a few years ago, died at his home on Wednesday evening, Dec. 27th, of erysipelas, at the age of forty-eight years. Mr. Myrick entered the First Maine cavalry as a second lieutenant at its organization, and came out of the war a brevet-major for meritorious service. He entered the regular army soon after the close of the war, but returned to civil life. He was a prominent member of the G. A. R., having been department commander of Maine; he was master of the Augusta lodge of Masons, was appointed state librarian by Governor Conner and continued through the term of Governor Davis, and at the time of his death he was chief clerk in the pension office in Augusta.

A HAPPY SURPRISE.

The members of Rebekah lodge, to the number of thirty, invested the house of Mr. and Mrs. Charles A. Wendell on Tuesday evening, Dec. 26th, it being their 15th anniversary of wedded life. The evening was highly enjoyed by all in social converse, games, and last but not least a bountifully spread table. We wish the pair years of happiness in the future, as they have had in the past, and may our sister friend (who is an active member of the above-named lodge) still add to her large circle of friends, of such as can bear the emblems of

FRIENDSHIP, LOVE AND TRUTH.

KNIGHTS OF HONOR.

Wentworth Lodge, Knights of Honor, of Kittery, at the annual meeting held Thursday evening, Dec. 28th, elected the following officers for the ensuing year:

Dictator, Edwin C. Nealley;
Vice Dictator, John H. Lambert;
Asst. Dict., Louis B. Gerrish;
Financial Reporter, R. Chase Goodwin;
Reporter, T. J. Pettigrew;
Treasurer, James O. Trefethen;
Chaplain, Augustus Stevenson;
Guide, Edwin A. Duncan;
Inside Sentinel, Samuel Buxton;
Outside Sentinel, Levi Briard;
Past Dictator, Usher B. Thompson;
Trustees, James O. Trefethen, Daniel C. Norton, George Manent.

THE OSGOOD LODGE SOCIABLE.

The entertainment by Osgood lodge, I. O. O. F., Thursday evening of this week, was of that character which deserves high commendation, the large gathering being entertained by a perfect shower of lovely music.

The symphony concert (repeated by request) had lost none of its sweet and charming influence, and great praise is due the director (Mr. McIntire,) for bringing together such fine local talent. The announcement that Miss Fannie Hoyt would favor the audience with a violin solo met with great applause, and the hearers were not satisfied until she had appeared before them several times, her music fairly charming them; such enthusiasm is seldom witnessed. Miss Hoyt has well attained the rank of a first-class artist. The charming piano solo by Miss Etta Perry was rendered with fine effect; and the flute solo by Mrs. Philbrick, of Rye, was of that sweetness of tone which carried one back to the summer time of life, among a shower of roses. The readings by Miss Fannie Deverson were of a high standard, and were highly appreciated. The organ and piano duet by Miss Hanscom and Mr. McIntire was perfectly delightful; the trio by Misses Hanscom and Blaisdell and Mr. Ayers was nicely produced; and Miss Critchley did credit to herself by her fine song, "Three Old Maids of Lee." Now I wish to speak of Spear's orchestra, of Rye, consisting of Mr. Spear and three sons of G. H. Jenness, which surprised the audience by their sweet music; such fine playing by young artists is seldom heard, and those who were unable to be present missed a great treat.

Taking everything into consideration the entertainment was a complete success, and all seemed abundantly satisfied with the evening's exercises. The next entertainment (without a banquet) will be given Jan. 25th, 1883. C. H. C.

"Finally" will be the subject of Rev. Mr. McGinley's discourse Sunday evening.

Mr. H. F. Wendell will have his last auctions for this year at No. 16 Congress street, to-day, at 10:30 A. M. and 7:30 P. M. In the forenoon he will offer furniture, beds, carpets, etc., and in the evening a lot of nice plated ware and other goods—all to be sold without reserve. See advertisement.

The bells of Christ church will chime on Sunday night at midnight, to welcome in the new year.

At the annual meeting of the State Agricultural society, held in Manchester Dec. 27th, Warren Brown of Hampton Falls was elected president for the ensuing year, Aaron Young secretary, and Charles H. Hayes one of the directors.

Alpha Council, No. 83, Royal Arcanum, have elected the following officers for the ensuing term:—Regent, C. E. Buzzell; vice regent, E. B. Prime; orator, H. B. Buzzell; sec'y and collector, J. S. Pfeiffer; treas., M. C. Foye; chap., J. W. Wilson; guide, T. R. Wilson; warden, J. R. Morrison; sentry, M. M. Collis; trustees, E. G. Peirce, Jr., John H. Wells, A. Coburn Hoyt; representative to grand council, O. H. Cook; medical examiner, Dr. Wilson M. Hawkes.

In view of the vote at the late election on the question of the advisability of abating the north millpond nuisance, Mayor Treat invites the citizens generally to inspect the several plans for effecting that end now at the city rooms, and to make whatever suggestions may occur.

The locomotive of Conductor West's train from Boston for Dover, which is due in this city at 12:15 o'clock P. M., broke down at Seabrook on Friday last. Engineer Corey went out with his machine, and towed the disabled train in.

The annual election of officers of Newichewannock Tribe, Improved Order of Red Men, took place on Thursday evening, Dec. 28th, and resulted as follows: Sachem, Thomas E. Call; senior sagamore, E. E. McIntire; junior sagamore, George Law; chief of records, J. C. Lamos; keeper of wampum, W. E. Littlefield; trustee, James Cunningham; finance committee, E. S. Fay, Charles A. Sinclair, D. E. Leavitt.

The "epizootic," which caused such inconvenience here some years ago, has appeared again in New Jersey in an aggravated form. On its first visit it was not often fatal, though rendering horses useless for a while when the epidemic visited the stables; now the symptoms are much more severe and more frequently fatal, and more so than the pink-eye. The horses first refuse to eat, and then become rapidly sore and stiff. There is no discharge at the nose, as there was when the disease came around nine years ago. The blood is poisoned and the throat is so sore that the animal cannot swallow, the powerful medicine has to be forced down its throat, and hypodermic injections are useless. It is a worse form of the disease in every way, and it is to be hoped that some method will be found of staying its spread, as has been done with the cattle plague.

A correspondent desires us to call the attention of the city fathers to "the bad condition or faulty construction of many of the carts used in transporting night-soil through our streets, they leaking very badly though the ordinances order them to be tight, and disgusting every one using or living on the streets along which they pass, besides quite possibly spreading the germs of disease in our midst."

There are twenty prisoners in the jail at Exeter, and fourteen in the Portsmouth jail.

On the night of the 20th inst. a gang of burglars made a raid on the town of Rye. The store of Gilman H. Jenness, near the Sea View house, was entered by three men through a window, by breaking a pane of glass and unfastening the catch. The thieves, who were evidently after money, ransacked the store from end to end, but secured only two dollars in coin which had been left in the money drawer. Mr. Jenness is postmaster of the town. The thieves then proceeded to the store of Emory C. Jenness, about a mile distant, smashed the glass in a window, and while making preparations to enter the building were interrupted by a passer-by, who give the alarm, but the thieves escaped.

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

LYDIA E. PINKHAM'S
VEGETABLE COMPOUND,

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Woman. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

It revives the drooping spirits, invigorates and harmonizes the entire system, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

"Physicians Use It and Prescribe It Freely."

It removes faintness, flatulency, destroys all craving for stimulant, and relieves weakness of the stomach.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use.

For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of humor from the blood, and give tone and strength to the system, of man woman or child. Inclose 2c. Stamp for Pamphlet.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Inclose 3c. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

Sold by all Druggists. (1)

SHARP PAINS Crick, Sprains, Wrenches, Rheumatism, Neuralgia, Sciatica, Pleurisy Pains, Stitch in the Side, Slow Circulation of the Blood, Heart Diseases, Sore Muscles, Pain in the Chest, and all pains and aches either local or dependent are instantly relieved and speedily cured by the well-known *Hop Plaster*, compounded, as it is, of the medicinal virtues of fresh Hops, Gums, Balsams and Extracts. It is indeed *the* best pain-killing, stimulating, soothing and strengthening Plaster ever made. Ask for the *Hop Plaster* at any drug store. Price 25 cents or five for $1. HEART DISEASE

IS YOUR HEART SOUND?

Many people think they have a heart disease when it is only a weak stomach and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart. The renowned Dr. Cheneley, the celebrated specialist says "one-third of my subjects show signs of heart disease." The heart sighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. He knows as Dr. Graves' Heart Regulator and can be obtained of druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise. (1)

Arago's Little Joke.

One day at the Academy of Science they had a long and rather tiresome session. Arago thought he would go out and take the air. At the foot of the stairway there was a leather bowl upon which the rays of the sun were hotly beating. Arago turned the bowl around, and rushing up stairs told the distinguished assemblage that he had just met with something which was very mysterious. "That leather bowl," he said, "at the foot of the stairway, is cool upon the side which presents itself to the sun, but warm upon the other side." The scientists descended in a body and substantiated this assertion. They took the inclination of the sun, the hour, the minute, the seconds, and a vast array of other details. They made calculations, and several weeks afterward each of them presented a paper explaining the phenomenon, Arago himself taking care to send in his explanation with the rest. There is no knowledge how far the discussion might have gone had it not been for the concierge, who having seen Arago turn the bowl, and pitying the worthy gentlemen who were so much worried, cleared away the mystery.

A Uniontown, Pa., despatch says the excitement over the Nutt tragedy is unabated, and the feeling against Dukes is so intense that it would require but slight agitation to cause a lawless outbreak. New developments show that the aspersions against the character of Capt. Nutt's daughter in Dukes' letters were shameful. Some of these letters will be produced when the trial comes on. Dukes spends the days in the parlors of the sheriff's residence, and his nights in the jail. The plea of self-defence will probably be set up at the trial.

A report from Lewis county, Ky., says that Col. Crawford shot and killed Pent Lyons, on Christmas night, at Tully's Stone on Cabin creek. Both men were drunk, and quarreling about a girl. The next day Crawford's friends enabled him to escape, at the examining court, by riding away on horseback.

Charles Branch, a negro, was lynched at Little Rock, Ark., Dec. 26th, for assault on a little girl.

A sloop capsized near the mouth of Bayou Texas, Fla., Dec. 27th, and five hunters were drowned.

Waste no time: delays have dangerous ends! If a member of your family is suffering with a slight cough or cold, don't wait until it develops itself into consumption, but procure at once a bottle of Dr. Ball's Cough Syrup and cure that cough.

At Lebanon, Tenn., Dec. 27th, two brothers named Bullard were killed by two brothers named Jackoway, in a quarrel. All were men of prominence.

Don't wear dingy or faded things when the ten-cent Diamond Dye will make them good as new. They are perfect.

Reports have reached Portland, Oregon, that three men were lynched at Pineville, Crook county, Christmas night. All that is known of the affair is that the victims were cowboys of desperate character, and were hung on general principles.

The Real Secret of the success of the noted silver polish, Electro-Silicon, lies in the fact that it cleans and polishes gold and silverware quicker and better than any other known article. Absolutely harmless. Avoid imitations. Druggists. Depot, 72 John St. N. Y.

LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his sweeping stroke, and fleets of rafts had borne away to market the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, stripped for his work, and attacking a tree as Richard I assaulted the heavy doors of Front de Beuf's Castle, must have presented an admirable picture.

One day, however,—but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to start a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. It hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd a crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BENSON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm "bout as good as new. But there's one thing you kin calkilate on—I shall never wrastle with another log unless I have the advantage of the ground. For, as I told you before, if it hadn't been for them brushes I'd been smashed so you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is cut in the centre of the genuine. Price 25 cents.
